CO-PARTNERSHIP NOTICES.

JOHN F. DONNELL & CO, J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.

Dated, New York, April 1, 1881.

JOHN F. DONNELL,
JURGEN KASSCHAU, } General Partners.
JACOB KASSCHAU.
ADOLPHINE D. C. SCHONHARDT,
Special Partner.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York, s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

Sworn this 30th day of March, 1881, before me
CHARLES NETTLETON,
Notary Public for New York County, N. Y.

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,
Benjamin S. T. Nicoll, who resides in the City of New York, and
David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,
DAVID W. GRANBERY,
General Partners.
MARCELLUS HARTLEY,
MALCOLM GRAHAM,
Special Partners.

G. W RADER & CO.,
Manufacturers of
Drain Pipes,
WEST 51ST STREET.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and special partners interested in said partnership are as follows:

Charles Duggin is the special partner, and resides in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

WE, THE UNDERSIGNED, GEORGE W. MILlar, William D. May and William Roberts, having formed a limited partnership do hereby certify:

I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.

William Roberts is a special partner, and resides Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

FEINBERG AND WINTER.—STATE OF NEW York, City and County of New York, s. s —This is to certify that we, the undersigned, have formed a limited partnership, pursuant to the provisions of chapter four, title one, part two, of the Revised Statutes of the State of New York, entitled "Of Limited Partnerships," and of the several acts and statutes amending the same.

First. The name or firm under which such partnership is to be conducted is FEINBERG & WINTER

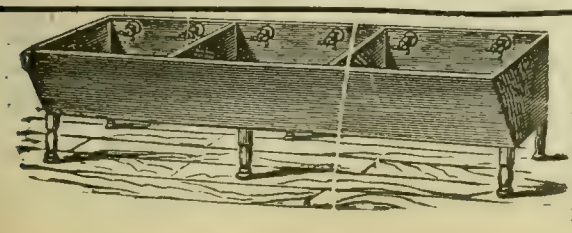
Second. The general nature of the business intended to be transacted is that of commission merchants and purchasing agents; and also the purchasing, selling and dealing in general merchandise.

Third. The names of all the general and special partners interested therein, and their respective places of residence are,

Moses S. Feinberg, who is a general partner, who resides at San Francisco, in the State of California; Benjamin G. Winter, who is a general partner, and who resides in San Francisco, in the State of California; and Zadoc Staab, who is a special partner, and who resides in the City, County and State of New York.

Fourth. The amount of capital which Zadoc Staab, the special partner has contributed to the common stock is the sum of five thousand dollars.

Fifth. The period at which said partnership is to commence is the fourth day of March, 1881, and the period at which it will terminate is the 4th day of March, 1884.



In witness whereof we the above named persons who are desirous of forming such partnership have made and severally signed this certificate this fourth day of March, 1881.

MOSES S. FEINBERG,
BENJAMIN G. WINTER,
General Partners.
ZADOC STAAB.
Special Partner.

State of New York, City and County of New York, ss.

On this 4th day of March, 1881, before me personally appeared Moses S Feinberg, Benjamin G. Winter and Zadoc Staab, to me known and known to me to be the individuals described in, and who executed the within instrument, and who severally acknowledged to me that they executed the same

MORRIS WILKINS, Auctioneer.

Executor's Sale of
FIRST AVENUE AND 34TH STREET LOTS.

E. H. LUDLOW & CO. will sell at Auction on

WEDNESDAY, APRIL 27TH, 1881,

At Twelve o'clock noon, at the EXCHANGE SALESROOM,
111 Broadway, (Trinity Building), N. Y.

FIRST AVENUE, northeast corner of 33d Street—The 4 valuable Lots, 24.8¼x100 feet each, together with 4 Lots on the north side of 33d Street, adjoining above, 25x98.9 feet each. Also.

FIRST AVENUE, southeast corner of 34th Street—The 6 valuable Lots, 25x74 0¾ feet each, being 74.0¾ feet on First Avenue, and 150 feet on 34th Street. Also,

EAST 34TH STREET, north side, 100 feet east of First Avenue—The 5 valuable Lots, 25x98.9 feet each.

Maps and further particulars at the office of the Auctioneers, No. 3 Pine Street, N. Y.

HUGH N. CAMP, Auctioneer.
SALE TO CLOSE AN ESTATE.

HUGH N. CAMP, will sell at Auction, on THURSDAY, APRIL 28, 1881,

At 12 o'clock, noon, at the EXCHANGE SALESROOM, 111 Broadway, N. Y., by order of the Executors of D. A. WOOD, Deceased.

NO. 388 BROADWAY, east side, 139 feet south of Walker Street—Five-story Marble front Building, covering Lot, 27.7x175 feet to Cortlandt Alley by 27.11x175 feet, be the same dimensions more or less. SIXTY per cent. of the purchase-money can remain on Bond and Mortgage at five per cent. **WEST 76th STREET,** south side, 200 feet west of 11th Avenue—Three Lots, 25x about 54.5 feet. FIFTY per cent. of the purchase-money can remain on Bond and Mortgage at six per cent. **WEST 83d STREET,** south side, 175 feet west of 11th Avenue—One Lot, 25x102.2 feet.

Maps and further particulars at the office of the Auctioneer, No. 152 Broadway, and at the office of HOMER MORGAN, No. 2 Pine Street, N. Y.

WILLIAM A. WHITE & SONS, 409 Broadway, offer for Sale

FIVE LOTS, leading thoroughfare Up-Town, suitable Hotel, Theatre, Business Purposes.
THREE LOTS on Lower Broadway, ready for immediate improvement, new building on same would rent for 10 per cent. on investment.
TEN LOTS on 105th and 106th Streets, near Fifth Avenue—no rock—well located for improvement.
FIRST CLASS Building in Dry Goods District, covering three lots; well rented.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. XXVII. NEW YORK. SATURDAY. APRIL 23, 1881 No. 684

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

Allusion was made last week to a department we have been running for some six weeks, entitled "Out Among the Builders." Certain of our subscribers, thinking a new paper of that name had been published, sent word to us to send it to them. THE RECORD contains every possible item of real estate news. We employ a large corps of reporters and nothing of any value can escape their vigilance. This week will be found the news, not only of this city and Brooklyn, but important information gleaned in the annexed district, as well as in Yonkers. If there is any part of the real estate or investing field uncovered, we are willing to go to any expense to furnish every piece of information that the most exacting could require. Suggestions from our subscribers are in order.

That our citizens should desire clean streets is very natural. But are not the advocates of a change overdoing it, in giving currency to absurd reports about the health of New York? An utterly preposterous statement was made in the papers that Asiatic cholera had made its appearance, four well marked cases having occurred. This was telegraphed all over the country, to the injury of the trade of this port. The daily papers undoubtedly represent our best citizens, in desiring some law passed that will make the Mayor responsible for clean streets; but when they fill their columns with stories of the ravages made by typhus, diphtheria, cholera, and kindred diseases, they are "fouling their own nests," injuring their repute as sensible organs of public opinion, and discrediting the object they have in view. The business men of the city should take some means of letting the newspapers know that in their efforts for some system that will keep the city perfectly clean, they should not injure the good reputation of the metropolis.

The immigration is simply phenomenal. On one day alone, during the past week, seven thousand persons landed at this port. Every vessel coming this way is filled to overflowing with steerage passengers. The engagements extend far into the harvest season, at which time usually there is a falling off in emigration. Counting accessions from Canada and on the Pacific Coast, it is not improbable that over 600,000 souls, from emigration alone, will be added to our population during the coming year. Crops or no crops, these tides of human beings will give our railroads all that they can do. This emigration means the rapid settlement of Minnesota, Dakota, Kansas and Northern Texas. The bears get the worst of it in the long run in this country. A nation which grows as rapidly as does ours, from natural causes as well as from emigration, constantly improves in its business and in the valuation of its real estate.

The out-going steamers are very full of cabin passengers. More well-to-do Americans will visit Europe this year than ever before. There are no vacant berths. There will be a sharp demand for houses next fall when these travellers return.

OFFICES TO LET.

The above sign is at present ominously frequent all over the lower part of the city. In Broadway from the City Hall to the Battery such signs appear on every block; indeed, on some blocks the building that has not such a sign is an exception to the rule. There are also many offices to rent in Wall, Broad and Nassau streets and Exchange place, as well as the adjacent streets. It is now very evident that the "boom" in office rents during January and February was not justified by the demand. People near the exchanges became panic stricken lest they might not find eligible quarters, and made haste to secure their present offices at rents which, had they waited until the present time, would have procured them much better accommodations.

The rage for erecting immense buildings in the lower part of the city, if continued, will have consequences that the projectors of them do not now foresee. It does not require much mathematical knowledge to be able to predict after all these great buildings are finished, a possible plethora of offices. Within a certain area immediately surrounding the Stock Exchange this office business cannot be overdone. The same is doubtless true of the Produce, Cotton and Mining exchanges. But it should be remembered that buildings seven, eight and nine stories high, and covering thousands of square feet, can contain a very large number of offices. A glance at New street, at Broad street in the immediate neighborhood of the Stock Exchange, shows numbers of buildings that will some time be altered or rebuilt to accommodate brokers. Now, there are probably not over six hundred stock brokers who can be called active, who really have daily business on the Stock Exchange. Add to these the members of the Mining Board, of whom not more than one hundred and fifty are active dealers, and we have something less than eight hundred men who must have accommodations in the immediate neighborhood of the exchanges. There are subsidiary businesses that depend upon Stock Exchange members to be also accommodated, such as telegraphing, the restaurant and saloon business, and the like.

In the course of a couple of years, D. O. Mills will have completed a magnificent building at the corner of Broad street and Exchange place, full of offices to accommodate members of the Stock Exchanges. The United Bank building will soon be finished, nd there are other buildings by the Astors and others that, with those already in existence, will fully supply all the demand for offices near the Stock and Mining exchanges.

During periods of speculative activity, such as the time of the petroleum excitement, or the mining fever about a year ago, there are not a sufficient number of offices to supply the demand. But such times form no criterion as to the general course of things. No doubt as the city grows in commercial importance there will be an increasing demand for accommodation by large commission houses and out-of-town firms and companies that want to be represented in the metropolis. But there is a present danger that more offices will be supplied than the demand in the immediate future will warrant.

We would not be understood to say that offices in very choice locations are not in demand to-day. They are, and at very high figures. The taste at present runs to the newest and costliest buildings, and it is the upper stories that are the first rented. The demand for good offices "grows with what it feeds upon," and the owners of the older buildings are forced by the competition of their newer rivals to refit them with elevators and all the modern conveniences. Such buildings as the United Bank Building, the Boreel Building, and those in their immediate neighborhood on Broadway, and also the Drexel Building and 16 and 18 Wall street, can be readily disposed of at high rents, and it is this demand for fine offices that calls for such erections as the Mills Building. But capitalists would do well to figure closely before giving orders for nine-story buildings.

IMPROVEMENTS NEEDED.

West Side property holders say, that the work of local improvements in that quarter of the city, is not pushed with sufficient energy. Complaint is made that Manhattan Square is neglected, to the detriment of the lot owners in the immediate vicinity. This is under the control of the Central Park Commissioners, and there has been a good deal of debate in the Board as to why improvements were not effected. Property in the immediate vicinity, would advance materially in value, were Manhattan Square to be put in proper shape. The work on Morningside Park is also unnecessarily delayed. The property holders in the immediate neighborhood have paid their assessments long since; the money is in the Treasury, the State Legislature has ordered the work done and yet, owing to the troubles in the Central Park Board, nothing has been done, to the detriment of property in the neighborhood. The coming fall should see the work on Manhattan Square, Morningside Park and Mount Morris, well under way. The street improvements on the West Side, should also be pushed forward with energy. There are considerations of health which should be regarded. There is always danger of fever and ague when streets are being opened and sewers built. One of the rea-

sons why building is in such a more forward state on the East than on the West Side. is because in the one district, the principal street improvements have been completed, and in the other they have not.

It is to be hoped that the Legislature will not adjourn without in some way reorganizing the Central Park Commission, so that unseemly quarrels will be prevented and the work of park improvements may go on. The Central Park itself is in a sad way in some respects, although the complaints against the drives are unfounded. These at least are in good condition.

There is a rumor afloat of a combination between all the horse companies and the elevated roads. It is said that the present managers of the Manhattan Company have been holding interviews with the directors of the various horse-car lines, to see if some understanding cannot be arrived at, so as to protect the interest of all concerned. There is now constant danger that the elevated roads may adopt 5 cent fares for all hours of the day, a measure which would ruin the value of the stock of some of the horse-car roads. A number of schemes have been proposed; one, to have an organization. which would be to the horse-car companies, what the Manhattan is to the elevated system. These two general companies arrive at an understanding as to fares. The arrangement, if made, will include a scheme for through palace car trains on the elevated roads, for which 10 cents will be charged all hours of the day. Undoubtedly the public would be accommodated better if some such scheme as this was brought about, as it would involve the use of tranfer tickets, similar to those in use by Philadelphia horse-car companies.

Our readers will see by the article on another page, about open fire-places, that commendable enterprise is displayed by the best manufacturers (Messrs. J. S. Conover & Co. and others) in designing new styles and utilizing materials so as to make the modern fire-place "a thing of beauty and a joy forever."

[From an occasional Correspondent.]

RAPID TRANSIT MATTERS AT ALBANY.

ALBANY, April 22, 1881.

All the bills pending for reduction of fare to five cents on the elevated railroads, and all relating to running trains on those roads after midnight, have been killed in the Assembly.

Under the charters and the powers conferred upon the New York Elevated Railroad, it was required to construct and continue its line on the west side of the city, from the present line on Ninth avenue at a point diverging at about Eightieth street, up Eleventh avenue to the upper end of the city. That company also purchased under foreclosure the franchise of the West Side and Yonkers Rapid Transit Company, and in addition was required to build a branch to Astoria ferry—what it proposes to do about the uncontinued portion of its line is of interest to property holders of those sections. It appears that the company does not want to go on with the work, although required to do so within the next year by the terms of its charter and the requirements of the rapid transit act, but unless it obtains an extension of time, the company will lose the right to construct and operate that portion of its unfinished line in the future, and there is some question whether this neglect to go on does not interfere with some of its rights on the portions of the line already constructed. To meet this emergency, a bill has been introduced to-day, to extend the time five years for the completion of the unfinished portions of its line, as alluded to above, and relieving them from the necessity of proceeding this year.

In the western states they have an institution called Arbor-Day, when the people assemble to plant one tree each. The Governor of Michigan has appointed such a day, and it is likely to become a popular institution for years to come. We are wasting our woods in this country in a criminal manner, and it would not be inappropriate for the President of the United States to name some day in the spring for tree planting. It would pay future generations for the day lost, a thousand times over.

IMPORTANT TO MINING INVESTORS.

The interest in our local Mining Board steadily increases. The list of sales makes a very formidable column and the number of good properties dealt in is steadily on the increase. What is needed to make the business entirely legitimate are newspapers that will tell the truth abont the mines. There are an abundance of journals which give, what they call, mining news; but, with the exception of THE REAL ESTATE RECORD, they are all run in the interest of the owners and promoters of mining properties. Those who have followed this column are aware that, nine times out of ten, we have told the exact truth about mines, and, if we were mistaken as often as once in ten times, it was no fault of ours. Dealing in mining shares is destined to be an immense business in this city. In time New York will surpass San Francisco when the latter was in its palmiest days. All the new mines of importance come to New York, and we are cultivating a class of capitalists who understand the business and who are willing to risk their money when there is a chance of a good return.

We again direct attention to the Bodie district, as offering an exceptionally good field for investment. We speak from knowledge, when we give the following list of mines of the future, in that district. The two Noondays, Oro, Addenda, Mono, Bodie, Bulwer, Bechtel, Tioga. The Standard mine, with its immense production, speaks for itself. There are other prospects which are promising, but we warn investors against Consolidated Pacific, Boston Consolidated, South Bodie, South Bulwer and Goodshaw.

The Governing Committee of the New York Mining Board are careful not to allow any more worthless "cats" to be listed. Why do they not go further and strike from the present list properties which should never have been dealt in, such as Buckeye, South Bodie, Lacrosse, Rapahannock, Grenville and others of like character. Leading members of the New York Stock Exchange have been forced to join the Mining Board, as it is found that the business, as conducted, requires a different manipulation from railway shares and bonds. Mining shares do not get a fair chance at the regular Stock Board, and no doubt, in time, they will be dropped from the Stock Exchange lists, and the whole business will be monopolized by the New York Mining Board.

THE SITUATION IN THE STREET.

Like Banquo's ghost, prices on the Stock Exchange will not down. The bears have been persistent, and they have had the united press on their side. All the large operators were either open bears, or bulls that were willing to see the market go down five or ten points before engineering a rise. Then, the general public were not buying. So a determined raid upon he market was organized, and last Monday matters looked really panicky. Stocks became very active, and the number of sales nearly doubled. But prices rallied on Tuesday and Wednesday for several reasons. The market was found to be oversold, and Comack, Keene, Hutchings, Smith and Travers were, for the moment, bulls. They found they had too much company as bears; that so many shorts were out it was difficult to borrow stocks. But what most helped the market was the response from the other side of the ocean. Whenever our market looks weak and panicky, European investors jump in and bid up the price of American stocks. Wormser is authority for the statement that on Tuesday morning last there was a million dollars of English money to buy American stocks at Monday prices.

After the break made by the banks last February, every one experienced in the ways of the street expected a lower market some time during the spring. The great operators got out of stocks and some of them put out lines of "shorts." The market has receded, but there has been no very heavy decline, nor is there likely to be. When the time is ripe, we wi l see a "boom" along the whole line.

THE PROJECTED FAIR.

"Do you think it will be held?" asked the writer of a well-known ex-city official.

"It looks very doubtful just at present," was the reply. "Had the Central Park site been selected, it would have been an assured success by this time."

"You think it would have been a great advantage to the city?" asked the writer.

"Advantage," said the ex-official. "Why a World's Fair on Washington Heights, or even at Inwood, would add 20 per cent. to the value of property in the Twelfth and Twenty-fourth Wards, and have given a five year's start to New York. It would have paid the municipality ten times over in increasing the taxable property in New York, that is, if the city had any right to furnish the money itself."

"So you think the project will die out?"

"Yes, I do. The press opposed the only site that was practicable, and so the next World's Fair will probably be in Chicago or St. Louis."

TRUTH ABOUT THE MINES.

Beware of Oriental and Miller. These are some of the inaccessible State Line properties engineered by the original promoters of the Chrysolite, Freeland and other mines on which the public lost so much money. These so-called State Line mines are situated on the southern boundary of Nevada, and they are not recommended by any expert of repute. They were originally placed at $1 a share and are now selling at from $3 to $4. They are not now worth more than 10 cents a share in actual value. In this column we have tried to protect the public from paying high prices for mere prospects, and as such are classed the mines mentioned. We therefore say, avoid State Line, Oriental, Miller and all such properties.

Comstock is becoming interesting again. There are no new developments to warrant the improvement in prices, but they are mastering the water with magnificent hydraulic pumps, which discharge the water from the 1,600-feet level into the Sutro Tunnel instead of raising it to the top. There is a great deal of virgin ground that has never been touched, and all the spaces between the 2,000 and 3,000 feet levels are to be thoroughly explored by means of crosscuts and drifts. The resuscitation of interest in the Comstock Lode has a reflex influence on this market. We do not, however, advise anyone to touch shares in the Comstock mines. A speculator in New York is at a disadvantage, as he is a day behind the local operator. We have a mining board of our own, and there is as much money to be made or lost in Colorado as in Nevada and California, and there is an immediate market here in the one case which there is not in the other.

A FEATURE OF HOUSEHOLD DECORATION.

OPEN FIRE-PLACES.

It is within a period of only a little over ten years that the taste for artistic house decoration has sprung up in this country, but in that comparatively short time it has grown very fast. It has, in fact, revolutionized some trades and given rise to others unknown and uncalled for before, while it has at the same time created a demand for skilled designers and artificers which, in some departments, the resources of the country cannot as yet supply. This lack will, however, be less felt in the course of time as the art and polytechnic schools turn out finished designers and artisans in greater numbers with each succeeding year.

The taste which was formerly displayed, chiefly in the making and selection of furniture and carpets (and even that would be considered paltry in the present times), is now exercised upon nearly every part of the outside and inside of the better class of houses that are now building. The architectural design and elaborate carving of exteriors is now supplemented in interiors with elegantly fashioned woodwork in floors and trimming, and artistic tiling, wall papers and hangings, windows and gas fixtures. But upon nothing does more of tasteful design and perfect workmanship appear to have been expended than upon many of the open fire-places that are now being made.

That such pains should be taken to beautify the fire-place is but natural, as it is, to those who are so highly privileged as to possess one, the most attractive part of a room during a large portion of the year. To others, a recent writer addresses the following words: "Those of us who are reared apart from open fires

know not what we lose. They cost something, but their expense may be better saved in what we can better spare. Better is a home with three rooms and an open fire than a gilded palace with unkindled grates."

But the increased use of open fire-places has not arisen merely from reasons of taste and sentiment, as they have been recommended by sanitarians as affording an excellent and convenient means of ventilation. Respecting this, the *Science of Health* says: "In every home there should be at least one open grate, or some other arrangement for burning wood or soft or hard coal. A fire which can be seen as well as felt—a cheerful, bright blazing fire with shovel and tongs, and fender, too, if you please, which will attract the family by its social influences—is a grand thing in a home. * * * * It is all well enough to have one's dwelling warmed from top to bottom, and to have no coals to carry beyond the furnace, but this heating system has done immense mischief to the family powers, scattering the members of it all over the house and furnishing not one attractive spot in which the inmates will gather, as by instinct they do, to enjoy the cheery comfort of the fireside. There is no fireside in most of our modern houses. There are only holes in the floor or in the walls. And we are disposed to think that the good ventilation of the open fire adds not a little to the unconscious blessings of its hospitable and domestic influence."

To the plain and sedate patterns of fireplaces which were in vogue some few years ago have succeeded a great variety of styles differing in material, form, color and style of ornamentation. A visit to the warerooms of a few of the principal manufacturers will show that the old sombre and plain japanned work has given place to gilt, bronze, brass, tile and wrought iron contrasted and designed so as to please the eye and satisfy the critical artistic taste of the present times. At the salesroom of Messrs. William H. Jackson & Co., in Union Square, the writer recently examined in half an hour more beautifully and artistically designed fireplaces, fire irons, &c., than he could probably have seen by visiting several hundred of the finest houses in New York. Each fireplace is made and finished throughout in its own particular style, although, of course each style admits of endless diversities as regards the color, form, and material used. At the rooms named may be seen splendid specimens of work in the Renaissance, Queen Anne, Colonial, Egyptian styles and the firm has designed fireplaces to order in Japanese, Persian and other styles. Any style admits of a variety of material like the following, and some of the contrasts of color are singularly effective and pleasing, for instance: a rich nickel frame with real bronze panels and gold mouldings, metal or tile linings, dog grates and fenders of bronze and brass, all set with a tile hearth, which last gives a warm and welcoming effect to the whole fireplace. The dog grate or dog with andirons can easily be substituted one for the other as coal or wood is to be used.

At the salesrooms of Messrs. J. S. Conover & & Co., in Canal street, which have been newly and handsomely fitted up in mahogany with crimson hangings, was seen a display of fire-place furniture, which, for variety, and style rivals any in this city. A number of handsome specimens were seen of the Queen Anne, Eastlake, Renaissance and Louis XIV. styles, the frames being for the most part of gilt, nickel, bronze and brass. This firm makes a specialty of tile work, and they are ready to furnish tiles for hearths and facings of every known make. Some beautiful specimens of richly colored imported marbles, adapted for facings, were also seen here. Many of the dogs and andirons are fashioned in unique and artistic forms, some of them representing owls, griffins, lions, dogs, cats, ducks, etc. The heavy basket grates set on castors, and with the front bars nickel-plated, are fine specimens of design and workmanship. The firm is now engaged in making the grates for a number of the finest houses that are now building up-town, and two of the designs which the writer saw (one in the Japanese and the other in the Renaissance style) are very ornate and beautiful. They have recently sent the talented young artist, Mr. Schoonmaker, to Cleveland to make designs for a very large and costly mansion, which is building in that city, each of the fire-places for which will be specially designed to correspond with the furniture and decoration of the room for which it is intended. An idea may be had of the variety of work which the firm does when it is stated that the cost of a fire-place ranges from thirty dollars to seven and eight hundred.

This firm has also recently fitted up the house of Mr. J. M. Studebaker, at South Bend, Indiana, with fireplaces, and an elegant house in Utica, New York, that it has taken a year to complete, as well as two rich residences in St. Louis, one belonging to Mr. Samuel Cupples, and the other to Mr. R. M. Scruggs, of the firm of Scruggs, Vandervoort & Barney. They are exhibiting great enterprise in extending their business, having established branch houses in Rochester, Chicago, Boston, Detroit, Cincinnati and San Francisco, and are, besides, fitting up a fine new wareroom in Twenty-third street, opposite the Fifth Avenue Hotel, running through to Twenty-second street, which will be occupied this summer. They have also recently made arrangements to produce the different colored metals which are required in modern fire-places, such as old gold, old brass, oxidyzed silver, copper, etc., by an entirely new electro-plating process. Mr. A. E. Conover intends making a trip to Europe in July to examine the latest improvements and designs in fireplaces.

As a matter of course, each manufacturer, in conformity with the demands of trade, tries to compete as to the style of work with all the rest; but, still, they vary considerably in design and ornament. At the warerooms of the J. L. Mott Iron Works in Beekman street the writer saw a number of fire-places the written description of which would not differ materially from some of the above, but which are quite original and artistic. Many of them have linings of bronze electroplate which contrasts well with the stamped brass frames. Some of the latter are beautifully ornamented and decorated with tile facings. They have many styles of japanned frames, some of them relieved with a rich gold band or moulding. These are however, not now so popular as some of the modern styles, such as the Eastlake. In some richly ornamented brass dogs they have introduced hand painted tile work, with a happy effect.

The salesroom of Messrs. W. Jackson & Son, in Broadway, where many fine specimens of the modern style of fireplaces are to be seen, would well repay a visit.

At the wareroom of Mr. Elwood Hampton in Gold street, there is a creditable exhibition of styles, in some of which the different colored metals are happily blended.

It should be remarked that to obtain a handsome grate ornamented in a perfectly artistic style does not necessary involve a large outlay, as they can be made of simple as well as of elaborate designs and inexpensive as well as costly material. The fire irons, generally of brass, are formed to suit the style of the fireplaces and much ingenuity is displayed in the designs of even the wood holders, which are generally made of wood with brass ornaments.

OUT AMONG THE BUILDERS.

Mr. Lucius Tuckerman will build a wing to the Benedict building on Washington square. It will be 25x80 feet, six stories high, and fire-proof. It is to cost $50,000. McKim, Mead & White are the architects.

A. Kuttroff will erect a three-story dwelling, with basement and attic, on the northwest corner of Sixty-ninth street and Madison avenue. It will be 72 feet long on Madison avenue, and 38 feet in width on Sixty-ninth street. The cellar will be 8 feet deep; basement 9 feet 6 inches high; first story 15 feet 6 inches; second story 13 feet; third story 12 feet, and the attic 10 feet. It will be fire-proof. The interior will be finished in hardwood, and the exterior in brick and brown stone. It will cost $120,000. J. B. Snook is also the architect.

Isaac W. Howe and William P. Draper will build a first-class store in Franklin st, 75 feet from Church, 50 x100 feet, six stories high, with basement and sub-cellar, from designs of J. M. Slade. It will have an iron front and all the modern improvements. John H. Masterton will do the mason work, John Sniffin the carpenter work, and J. B. & J. M. Cornell the iron work. The cost is $55,000.

The same architect has prepared plans for a building to be erected on the corner of Franklin street and West Broadway, 50x60 feet, and seven stories high. It will be built of brick, stone and terra cotta. J. M. Dunbon and F. W. Haynes, of the firm of James L. Little, are the owners. It will cost from $50,000 to $60,000. The same firm will build a storehouse in North Moore street, 50 feet wide by 82 feet in depth. It will be seven stories high, and built of brick and free-stone, trimmed with granite. Mr. Slade is the architect. Cost, $35,000.

Two stores, with 25 feet front and 92 feet deep, are soon to be built at Nos. 86 and 88 White street. They will be five stories high, and have iron fronts. Dr. John T. Metcalf owns No. 86, and William P. Dixon, the lawyer, No. 88. The cost is $22,000. J. M. Slade designed them.

A. D. Juilliard is to put up three seven-story storage buildings at Nos. 14, 16 and 18 Leonard street. They will be brick, trimmed with granite, and cost $65,000. Mr. Slade also draughted the plans for these buildings.

Alfred E. Barlow has in hand plans for a factory to be erected at Nos. 7 and 9 Elm street, by F. W. & C D. Sheridan. It will be two stories high, 48x100 feet, and cost $5,000.

At Nos. 109, 111 and 113 Grand street a large store, 65.6x105 feet, six stories high, with basement, is to be built. The front will be of brick, stone and iron. Thomas Stent is the architect, and William Astor the owner. The estimated cost is $115,000.

F. H. Delano will build a palatial private residence 165 feet long by 70 feet wide and four stories high, at Barrytown-on-the-Hudson, from designs of Thomas Stent. It will be built of brown stone and Philadelphia brick. It will have hardwood finish, marble stairs and plate glass throughout.

At length the trustees of Columbia College have decided to erect some new buildings on Madison avenue and Forty-ninth street for the use of the Law School, School of Arts and School of Mines. A new chapel and library building will also be built. The library will have a frontage of 120 feet on Forty-ninth street and be 100 feet deep. It will be similar in style to the wing added on Madison avenue last year. The law students, now quartered at Lafayette place and Great Jones street, will occupy the basement and first story temporarily. On the second floor a large apartment, which is to be used for a library, will have an area equal to a room 75 feet square. The ceiling will be 60 feet above the floor. At present the library is in the old building on the north side of the block formerly used as a deaf and dumb asylum. In the library proper the bookcases are to be so arranged as to form alcoves. The books will be mainly books of references, together with ordinary books, which will be directly accessible to the students. In the rear of the library will be two wide staircases of stone leading from the terrace level to the floor of the library. Underneath these vaulted passage ways connect the quadrangle of the School of Arts on the west side of the square with the quadrangle of the School of Mines on the east side. Above the staircases are the library rooms and a fire-proof apartment, 54 feet wide, 63 feet long and 40 feet high, in which all the valuable books will be kept. A lift is to be provided to lower books to the library.

The chapel will extend back of this building through to Fiftieth street. New lecture rooms are to be added in place of the old asylum. The School of Mines, on the Fourth avenue side of the square, will have a frontage of 200 feet. All the buildings will be of brick, trimmed with sandstone. These buildings will cost over $750,000. C. C. Haight is the architect.

The St. Thomas House, to be erected on East Fifty-ninth street, near Second avenue, built from designs of Mr. Haight, will be 75x45 feet, and three stories high. It will be built of brick, after the English Gothic style, and trimmed with Belleville stone. The interior walls will be lined with red and white brick. The first-story will have an open timber ceiling, while the third-story will have an open timber roof. The cost is $35,000.

The Manhattan Eye and Ear Hospital, to be erected on the corner of Forty-first street and Park avenue, will have a front of 100 feet, and depth of 60 feet, and be four stories high, with basement. It will be of brick, with stone trimmings. The building will be of the Jacobean style of architecture. It will be fire-proof, and constructed in the most substantial manner. It was designed by C. C. Haight, and will cost about $110,000.

Additions are soon to be made to the building of the New York Bar Association on Twenty-ninth street, west of Fifth avenue, from plans of Mr. Haight. They will be 70 feet deep by 30 feet wide, containing a hall for meetings of the association. On the upper story will be a library 30 feet high. The material used in the construction will be brick relieved with stone and terra cotta. The cost is $30,000.

Charles Kneeland will erect a house on Fifty-fifth street, near Fifth avenue, 25 feet in width by 95 feet in depth. It will be fire-proof and constructed of brick, with Rutsdam sandstone trimmings. The plans were drawn by Mr. Haight. Cost, $70,000.

A warehouse is to be put up at the corner of Grand and Mercer streets, 25x100 feet, and six stories high. The designs were furnished by the same architect. The cost is estimated at $50,000.

S. T. Hopkins, Esq., will erect a five-story warehouse with basement at 81 White street. C. C. Haight is the architect of this also. The cost is $25,000.

Andrew J. Dam & Son will erect a new hotel on the south side of Fifteenth street, near Union square, from plans of James E. Ware. It will be irregular in shape, eight stories high and built on a 75x90 feet lot. The first story will be stone, and the other seven of brick, with Dorchester stone trimmings. At the Fifteenth street entrance will be a massive stone porch supported by Scotch granite columns. There will be three lines of bay windows on the front, thus affording an excellent view of Union square. The interior is to be arranged in suites of rooms, each will have a separate private hall, and independent bath-room and toilet accommodations. The suites are to vary in size to accommodate large or small families. The parlors, chambers and dressing rooms will be arranged so as to give from one parlor and bed-room up to one parlor and four bed-rooms to each suite. In the first story is to be a general dining room, which, together

with the general hall and other principal rooms, will be trimmed with mahogany. The main stairs will be of iron and marble, and fire proof. There will be two other fire proof stairways for the use of the occupants in case of an emergency.

The building will be heated by steam throughout. The kitchen accommodations are to be very fine. The style will be of the modern English order. Work will begin on the first of May, and the hotel be completed in one year. The cost is $100,000. It is the intention of the proprietor to make it one of the most cozy and quiet family hotels in the city.

Mr. Charles R. Otis, the elevator mar, will erect five cottages on Worburton avenue, Yonkers. They will be 2½ stories high and built of pressed brick, with terra cotta doorways, and have handsome bay windows. They were designed by Silliman & Farnsworth, and will cost $20.000. They are all rented, though work has not commenced on them.

There seems to be a lively deman l for houses of this clas in Yonkers at the present time.

George Ehret will erect a five-story brick factory, on the northwest corner of Thirty-eighth street and First avenue, from designs of H. J. Schwarzmann. It wil have a front of 18.9 inches by 65 feet deep, and cost $40,000.

A new Baptist church is to be built on Lafayette avenue, Brooklyn, by the seceding members of the Washington avenue Baptist Church.

The students of Columbia College are clamoring for new gymnasium.

A new Baptist church is to be erected in Eighty-seventh street, between Ninth and Tenth avenues, on four lots donated by Mr. Morgan. Six fine dwelling houses will be built on either side of the church.

It is probable that Calvary Baptist Church will move up town to Fifty-seventh street, John H. Deane and William A. Cauldwell, two of its prominent members, having purchased six lots, 150x110 feet, between Sixth and Seventh avenues, for $162,000, and offered them to the church at the same price.

Mr. Moritz Bauer is building ten houses on Third avenue, corner of Sixty-ninth and Seventieth streets. They will be four stories high, and the two adjoining houses on each side will have 20 feet front, and be single flats. The four intermediate have a frontage of 30 feet, and are to be double flats. The first floor will be used for stores, which will be 68 feet deep. The fronts are to be brown stone on the avenue, and on the streets pressed brick with brown stone trimmings. Special appliances for lighting and ventilating the houses will be used. The style is modern Renaissance. The cost will be $216 000. Hugo Kafka is the architect.

A house to be known as the Hawthorne Apartment is to be erected on the south side of Fifty-ninth street, 325 feet west of Sixth avenue. It will have a front of 75 feet and depth of 90 feet a .d be seven stories high. It will be built on the co-operation plan, each apartment being finished to suit the taste and fancy of the owner. The whole will be built of Philadelphia brick. It is to be divided into fourteen suites, each suite containing from eight to twelve rooms, exclusive of the bath room. It will be heated by steam, and have two hydraulic elevators, one for the use of the families and the other for the servants. The main entrance will be supported by massive granite columns. Each apartment will be furnished with electric bells and lights. The plumbing is to be done by a new system, for which a patent has been applied for. The apartments are constructed after the duplex system, which is patented. The front rooms are 14 feet high and those in the rear 9 feet high. There will be a general hallway extending through the centre, with rooms on each side. Some of the rooms will be handsomely finished in hardwood. The style of architecture is English Gothic. Hubert & Pierson are the architects. The cost is $100,000.

In Fifty-second street, near Madison avenue, a co-operative apartment house is also to be put up.

CITY REALTY AT ALBANY.

[Special Correspondence by Telegraph and Mail.]

ALBANY, April 21, 1881.

The question of cleaning the streets is yet unsettled, and will be a bone of contention for several days yet. The Senate has passed a bill to remove the dirt from the streets; the assembly has passed a bill to divide the patronage and spoils first, and will attend to the streets if there is any time left after the division. The two projects have been sent to a conference committee, which will in time meet and talk it over. What is to follow, no one knows.

Since my last letter Governor Cornell has signed the bill to extend and open One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets to the East River. That work, therefore, is to proceed. No further action has been taken on the bill to open Lexington avenue from Ninety-ninth to One Hundred and Second street since it passed the Senate.

The act to change the Spuyten Duyvil Parkway and the streets in that section to Riverdale has passed the Assembly, and now goes to the Senate.

The act providing for the leasing of additional lands by the Sinking Fund Commissioners to Mt. Sinai Hospital has passed the Senate and been sent to the governor for his approval.

A bill has been reported in the Assembly authorizing the Commissioners of the Sinking Fund of New York to lease to the German Hospital and Dispensary for ninety-nine years the land now leased to the hospital on the southeasterly corner of Seventy-seventh street and Fourth avenue.

The following bill has passed the Assembly and been favorably reported in the Senate:

SECTION 1. The owners of property situate on East Forty-second street, between First and Second avenues, in the city of New York, are hereby authorized to lay out, sod and cultivate two small parks on said East Forty-second street, between said named avenues, and to inclose said parks with an iron railing, the said work and improvement to be done at the expense of said owners and under the direction of and according to plans approved by the Commissioner of Public Works of said city.

§ 2. Said parks when laid out shall be maintained and kept in good order by said owners without expense to and continue only during the pleasure of the mayor, aldermen and commonalty of said city of New York.

§ 3. This act shall take effect immediately.

The bill, providing for the construction of a new pier between pier 1, North river, and Castle Garden, for the exclusive use of the Police Department, has passed the Senate,

The following bill, relative to contracts of public works, public buildings, docks and other improvements, in all the cities of the State, is intended specially for New York, and has been favorably reported by the Assembly Committee on cities.

SECTION 1. From and after the passage of this act, any and all contracts made and entered into, by or on behalf of any city in this state or any department thereof, with any and all contractor or contractors, for the construction or repairs of any and all public works, buildings, docks or other improvements requiring the use of stone, shall expressly provide and be conditioned, that the cutting, dressing and finishing of all stone to be used in and upon such construction or repairs shall be performed in the city where such construction or repairs are to be done.

§ 2. Nothing herein contained shall affect nor be construed to affect any contract heretofore made or entered into by any city or department thereof.

A bill has been introduced in the Senate by Mr. Murtha, which designates pier No. 2 in East river and the land lying between that and pier No. 3, after the first of June next, to the purpose of ferry accommodation for the ferries running between Whitehall street and Brooklyn. It provides that if the owners of the ferries cannot agree with the owners of the property alluded to on terms, lease or purchase, then they can acquire title by applying to the courts for commissioners in the same way that land is acquired for railroad purposes.

Senator Strahan has introduced in the Senate a bill for the appointment of water commissioners to examine the water supply of New York, and report plans for an increased supply to the next Legislature. It is similar to the bill introduced in the Assembly some time since.

The bill to prevent the use of any portion of Central Park for fairs or international exhibitions passed the Assembly to-day, and now only wants the signature of the Governor to become a law.

The Assembly Committee on Cities has to-day reported Mr. Dayton's bill for the construction of an iron bridge across the track on Fourth avenue at Ninety-seventh street, and for closing Ninety-eighth street on Fourth avenue.

The bill referred to in last week's letter to establish an exterior street along the East and Harlem Rivers was reported to-day for the consideration of the House.

The Senate is still at work on the proposed new charter for New York. It came up to-day for third reading, but was not read through, it having been postponed until to-morrow to complete it. In the consideration to-day an amendment was inserted taking from the Park Department all powers in regard to opening of streets, and transferring them to the Commissioner of Public Works. An amendment was also inserted making two commissions of parks instead of retaining only one, as was provided in the bill. The Senate expects to complete the bill to-morrow. It will probably be more torn to pieces in the Assembly than was the street cleaning bill, and in what form it will leave that body no person can now imagine.

Mr. W. A. Hankinson, of No. 213 West Thirty first street, has bought the south west corner of Sixty-ninth street and Park avenue, 123.5x100, for $125,000, and will erect eight first-class dwellings thereon, the plans for which are about being completed by Messrs. Lamb & Wheeler. The houses will be in the colonnial style and built of brown stone and pressed and moulded brick, four-stories in height, the upper stories being arranged in saloon style. They will be of various sizes, the cost ranging from $25,000 to $35,000, each.

REAL ESTATE IN YONKERS.

The real estate brokers of Yonkers have been busily occupied during the past month in renting dwellings, both for summer and permanent houses, and they report that there has never been so few houses disengaged so early in the season as this year. There is also an active demand from purchasers, for houses of moderate size, and vacant lots; a number of the latter having changed hands to be permanently improved. The demand for homes in this beautiful suburb of our city is not to be wondered at when we take into consideration its numerous advantages. It is economically governed, and the rate of taxation is being reduced from year to year. The last census shows it to be the second healthiest city in the union, the average duration of life being 70 years.

It has an admirable police force, and nowhere, perhaps, is there greater security of life and property. It has numerous schools and churches. Servants are procured as readily as in New York. Being upon a side hill it is well drained and the water is soft, being free from lime and other unwholesome ingredients. There are four gas companies and numerous stores, from which the table can be supplied with both necessities and delicacies at the same expense as in the great city. There is a great variety of drives in all directions, and a ferry-boat affords access to the opposite side of the river. There is constant communication between Yonkers and New York, summer and winter, by river and railroad, and direct access to the business centre of our city without change of cars, by what was formerly the New York City & Northern Railroad, in conjunction with the New York Elevated Railroad. Work is about being commenced on a new railroad, which will connect with the New York Elevated Railroad, and, when completed, will afford still more direct communication. The New York Central Railroad, instead of running around the large curve at Spuyten Duyvil, is about to build a new route to run direct from Kingsbridge to South Yonkers, where there will be a depot at a point near Morris avenue, on South Broadway, from which point it will branch off to the river meeting it at Ludlow's dock, thus saving ten minutes in the time to the Forty-second street depot.

The population in Yonkers and vicinity are looking forward to the completion of these railroads with much interest, as they feel convinced that the value of real estate will be greatly enhanced by the increased facilities for reaching the metropolis.

There has been no advance either in rents or in the price of realty in Yonkers within the last year, nor has there been any large transfers of property.

The builders report their business as active, the demand being principally for houses of medium size and stores, and occasionally for a French flat.

SALES.

Mr James Youmans has sold the lot and two-story dwelling No. 163 Hawthorn avenue, 66x375, to Christian F. Tiejan, of New York, for $11,000; the lot and brick house No. 195 Buena Vista avenue, 49x120, to Professor William Dorling for $6,500; the lot No. 204 Warburton avenue, 65x125, to Mrs. Elizabeth Dorland for $5,500; the large double house No. 316 Palisade avenue, 102x365, to Mr. A. Halliday, of New York, for $20,000; the lot No. 326 Warburton avenue, 88x200, to Captain J. S. Grindle, of New York, for $2,000, and the house and lot No. 64 Atherton street, 50x100, to James Slade for $3,500.

Messrs. Bellows & Warren have sold a handsome mansion with about an acre and a half of ground, situated on Ravine avenue, for $20,000; the frame cottage and about an acre of ground No. 332 Palisade avenue to A. Paton for $17,000, and a lot on Lamartine avenue, 150x139, irregular, for $6.000 to Mr. J. C. Havemeyer. The same brokers have exchanged the house and lot No. 342 Warburton avenue, 60x100, and $5,000 in cash for the four-story brick tenement No. 565 Eleventh avenue, 25x65x100, and the frame house and lot No. 117 Linden avenue, 60x100, for the house and lot No. 235 West Twentieth street.

BUILDING ITEMS.

Mr. Weller, of the firm of Weller & Welsh, has erected two fine French flats at the corner of Highland avenue and South Broadway, and has rented them for about $4,000.

Mr. F. H. Cossett, of New York, who recently purchased 47 acres on South Broadway, for $47,000, near Greystone, the summer home of the Hon. Samuel J. Tilden, is about to erect three fine dwellings.

Mr. Ethan Flagg, the hat manufacturer, is erecting four brick stores on Palisade avenue.

Mr. Lewis H. Roberts, Jr., late of Tarrytown, is erecting a Swiss chalet cottage, to cost about $8,000, on Palisade avenue, adjoining the residence of Ethan Flagg, Esq.

Mr. John Wallace is putting up a neat frame cottage on Hawthorn avenue, to cost about $3,500.

Fifteen frame dwellings will soon be erected on Yonkers avenue, near the depot of the New York City & Northern Railroad.

Mr. Warren Smith intends building six brown stone dwellings on Warburton avenue, to complete a block, at a cost of about $7,000 each.

Mr. Charles Otis has nearly completed the erection of five brick houses on Warburton avenue, costing about $4,000 each.

Mr. F. W. Huitt contemplates building two fine suburban residences on Glenwood avenue.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages ii, iv and v of advertisements.**

Some of the sales at the Exchange this week were mere feelers of the market. Selected lots were offered on the West Side, with a view of finding out the views of the purchasing public. The experiment resulted in convincing the larger dealers that, as yet, there is no speculation in unimproved property. As in the sale of the last of the Carman Estate prices were found to be off. A lot on the northwest corner of One Hundred and Twentieth street and Eighth avenue, which cost $5,000 some months since, was withdrawn from the market because no better than $4,800 was offered. Some choice parcels on Eighty-fourth street, between Eighth and Ninth avenues, on Ninety-sixth and Ninety-eighth streets, were knocked down at prices below the expectations of the owners. The investing public do not, as yet, want to pay high prices for property out of the immediate line of improvement. The attendance at the Exchange was large, especially on Thursday, and a good deal of property changed hands. Some of the sales were, clearly, to establish prices and feel the market. Prudent investors, of course, will not regard as official any but the court sales, or where the auctioneer announces that the sale is positive.

Some of the more active dealers look for quite a boom in May, but so far there is no speculation on the market. Any one who purchases prudently can get excellent bargains. Some house property has sold this week very cheap. A four-story English basement house on Lexington avenue, near Thirtieth street, which rents for $1,500, sold for $13,000. A fine house in Fifty-sixth street, between Fifth and Sixth avenue, sold for less than its real value. The property on Bleecker street, between Broadway and Mercer, with a frontage of twenty feet in each of the last two streets, brought out a large number of bidders, and was knocked down for $160,000. That part of this city has been neglected, but in time it will bring high figures from the wholesale traffic of the metropolis.

At length the march of improvement is moralizing certain portions of the Eighth Ward. The occupants of disreputable houses on Wooster and Greene streets have been turned out, so that the buildings can be torn down for business purposes. This property is said to be a portion of the Astor estate. Commerce and trade have done more to improve vicious parts of New York than have its churches. As a witness, Church and Mercer streets.

Sales of productive Brooklyn property show how eager the public are for investments that promise 7 or 8 per cent. interest. At the Globe Life Insurance sale there was bid off a number of small brown stone edifices, not very well built, but which were rented for $420 a year. These brought prices that would not yield over 8 per cent., out of which would come taxes and repairs. A new feature in Brooklyn property is the appearance of buyers, who have heretofore dealt in the New York market. In the boom in the summer of 1879, several well known gentleman, one a noted politician, commenced picking up cheap lots on this island.

They made a great deal of money, but they say that Brooklyn offers a better field for dealers in very cheap property, than does New York, and there is a quiet buying up of Prospect Park and other well located lots, by these New York operators.

The sale of 205 lots in the Eighth Ward was somewhat of a disappointment. The prices for the Ninth avenue property were considered fair; the street lots were far below their value. Brooklyn lots are as yet very cheap, and they are wise who purchase them at present figures. For the completion of the bridge will be followed by the establishment of a system of intramural steam roads, underground and elevated, which will bring the most distant parts of Brooklyn within half an hours ride of the bridge gates on the New York side.

The salesroom of the Exchange was thronged yesterday, the principal attraction being the sale of a portion of what is known as the "Old Bleecker Farm," and located at the southwest corner of Broadway and Bleecker street.

It was started at $100,000 and rapidly advanced until $156,000 was bid, where it stood for some time, when Captain Fairchild bid $160,000, and it was knocked down to him at that figure. Captain Fairchild purchased the property for Mr. V. K. Stevenson, who certainly secured a bargain, as we understand $165,000 was bid for the property at private sale and many good judges rated it at $175,000.

During the coming week there will be several important sales. The Ackerman Estate, nine acres in all, north of Spuyten Duyvil Creek and west of Kingsbridge, will be auctioned off, and will establish values in the most interesting region. The sale of the Mott estate, embracing 150 lots, will give the key to prices in the neighborhood of Inwood.

The Leroy estate, which is to be positively sold at the Exchange Salesroom on Wednesday next, comprises a number of buildings adapted for business purposes, including one four-story brick building with cellar, 486, 488 and 490 Canal strset, at the corner of Watts street, about 80 feet front. It includes also 68 Greenwich and 69 Washington streets, between Morris and Rector streets, which adjoin in the rear, as well as other buildings on Hudson street, near Watts street, and Watts street, near Hudson street. Richard V. Harnett is the auctioneer.

R.V. Harnett will also sell on Wednesday the lot and four-story brick house and store No. 58 Catharine street, 22.5x65; the lot and three-story brick and frame dwelling No. 407 East Sixty-first street, and the four-story brick tenement No. 431 West Thirty-third street, 25x98.9.

Messrs. Adrian H. Muller & Son will sell on Thursday next the lot and three-story brick dwelling No. 65 East Fourth street, 25x100.

John T. Boyd will sell on Thursday the lot and two brick houses No. 530 East Twelfth street.

The interesting sale, by E. H. Ludlow & Co., of lots on the northeast corner of Thirty-third street and the southeast corner of Thirty-fourth street and First avenue, and in Thirty-fourth street east of First avenue, has been postponed from the 20th instant to Wednesday, April 27th.

James C. Eadie will sell on Thursday at the E. D Exchange Salesrooms, Brooklyn, the two-story brick house No. 145 Hewes street, and two adjoining lots.

Hugh N. Camp will sell on Thursday the five-story marble front building No. 388 Broadway, 27.7x175, three lots on Seventy-sixth street, 200 feet west of Eleventh avenue, and a lot on Eighty-third street, 175 feet west of Eleventh avenue.

Bernard Smyth will sell on Wednesday the lot and house No. 157 Houston street.

William Kennelly will sell on Thursday the three-story brown stone house, No. 354 West Forty-second street.

Gossip of the Week.

Six lots on Eighty-ninth street, with six lots in the rear on Nintieth street, between Lexington and Fourth avenues, have been sold to Mr. Moritz Bauer for $72,000; also three lots on the north side of One Hundred and Eleventh street, 150 feet west of Fifth avenue, for about $12,000.

Mr. Cauldwell has purchased two lots on the south side of Fifty-ninth street, 175 feet east of Seventh avenue, 50x100, for $46,000.

F. Zittel has sold five lots on the north side of Seventy-first street, 185 feet east of Third avenue, for $32,500, and nine new three-story brown stone dwellings on One Hundred and Twenty-fourth street, south side, between Seventh and Eighth avenues, for $100,000. These houses were purchased for investment and a number of them have already been rented.

Mr. Jacob Bookman has sold the row of three-story brick storey and dwellings on the east side of Sixth avenue, commencing at a point 25 feet north of Twenty-fifth street, 144x75, to Mr. Tracy, of Evarts, Southmayd & Choate for the Astor estate, for $150,000.

Messrs. Riker & Co. have sold two lots on the south side of Fifty-fifth street, 22x100.5, for $7,750 each, account of Mr. Watfield; for Messrs. Tracy & Russell, four lots at the southeast corner of Seventy-fourth street and Fourth avenue, for $60,000, and for Mr. Tiffany the four-story brown stone house No. 46 East Sixty-ninth street, 25 feet front, for $39,500.

We hear from outside sources that Messrs. Mordecai and Bellamy have sold a large piece of property at the corner of Fifty-ninth street and Broadway for about $175,000.

Messrs. Wolf & Kuhn have sold seventeen lots at the northwest corner of Second avenue and One Hundred and Seventh street, 425x75, for Mrs. Allen, to Spencer A. Fanning, for $46,000.

Negotiations are pending for the purchase of 27 feet on Broadway at Morris street, running back to Church treet, for $175,000.

The plot of ground at the corner of Fifty-seventh street and Broadway, 42x181 has been bought by Mr. Halleck, for $145,000.

Messrs. S. T. Meyer's Sons have sold the four-story brown stone house at the north west corner of Park avenue and Sixty-first street, 20x half the block, for $33,000.

Also, a three-story brick dwelling on the south side of Eighty-second street, between Second and Third avenues, 21x half the block, for about $14,000.

V. T. Hervey has sold the plot of ground at the southwest corner of Fifth avenue and One Hundred and Twenty-fifth street, 100x185, to J. C. Overheiser, for $90,000

The purchase of the entire front on the Boulevard, between Sixty-eighth and Sixty-ninth streets, is pending.

An offer of $36,000 apiece has been made for two lots on the south side of Sixty-ninth street, between Fifth and Madison avenues, and the sale at that figure will, in all probability, be consummated to-day.

Messrs. Leszynsky & Troup have sold one of their four-story brown stone houses, No. 73 East Sixty-first street, 19x55x100, to Mr. F R. Walker, for $28,000. S. T. Meyers & Sons were the brokers who made the sale.

Thomas Floyd Jones has sold a three-story and basement brown stone house on Mt. Morris place, between One Hundred and Twenty-second and One Hundred and Twenty-third streets, for $24,000, to Francis W. Haines.

Mr. Joseph F. Blaut has sold two tenement houses, Nos. 249 and 251 West Forty-eighth street, 25x100 each, for $20,000.

Four lots on One Hundred and Twenty-seventh street, between Seventh and Eighth avenues, have been sold for $21,000.

The three-story brick house and lot, No. 166 East Sixty-fourth street, 20x100, has been sold for $21,000.

The plot of ground at the southwest corner of One Hundred and Twelfth street and Park avenue, has been sold to Mr. William A. Darling, President of the Murray Hill Bank, for $16,000 cash.

Messrs. Dunn & Oatman have sold the five-story double brick tenement house, No. 231 West Twenty-seventh street, for $15,250.

Messrs. E. B. Harper & Co. have sold the three-story brick store and dwelling, No. 44 Eighth avenue, 19.8x40x70, for $11,000, to Mrs. Denis Meehan.

Leonard J. Carpenter has sold the three-story frame dwelling, with four-story brick tenement in the rear, known as No. 439 West Thirty-seventh street, 25x98.9, for $8,500, to Wm. Steig.

Mr. F. Carroll has bought two lots on Eighty-second street, between Lexington and Fourth avenues, for $14,600.

The house and lot, No. 237 East Fifty-second street, has been sold for $8,000.

Mr. Nathan Rose has purchased the tenement house No. 415 East Tenth street, for $10,000.

Mr. Joseph F. Blant has sold a three-story brick dwelling on the north side of Twentieth street, 200 east of Second avenue, to Mr. Richter for $10,000.

V. K. Stevenson, Jr., has sold for W. H. Salt the three-story high stoop brown stone house, No. 134 East Eightieth street, 18.6x50x102.2, to Mrs. A. C. Sessions, for $12,500.

The four-story brown stone house, No. 30 East Sixty-second street, has been sold.

L. Z. Back has sold the three-story brick dwelling, No. 334 East Fifty-first street, to Alderman Autenrieth, for $7,600.

Twenty-third and Twenty-fourth Ward News.

Mr. Joseph F. Blaut has sold twelve acres in the Twenty-third Ward, east of Third avenue, for $63,500.

Mr. I. W. Dunsmore has sold for Griffith Bros. a one and one-half story cottage on the south side of One Hundred and Forty-third street, 131½ feet west of Willis avenue, 25x100, to Mr. McSherry, for $2,900.

The same broker sold last week the two-story and Mansard roof house on the north side of One Hundred and Thirty-fourth street, 100 feet east of Willis avenue, 25x100, for $4,500. The seller was Mr. Horridge and the buyer Mr. Marshall.

Negotiations are in progress for the sale of a large piece of property in Mott Haven, which, if successful, will lead to its immediate improvement.

A frame house and four lots of ground at One Hundred and Thirty-seventh street and St. Ann's avenue, running through to One Hundred and Thirty-sixth street, has been sold through George C. Goeller to Mrs. Ruppert, for $7,500.

Mr. Goeller has also sold the house on the south side of One Hundred and Thirty-seventh street, the first west of the Southern Boulevard, with four lots of gound, to Daniel Kelly, for $10,000.

Also, a two-story brick house on One Hundred and Forty-second street, near Brook avenue, about 22x 32, with lot 25x100, to Daniel Marshall, for $1,550. This

house needed some repairs, but it was considered very cheap at that price.

A two-story and high basement house, 22x36, on One Hundred and Forty-fifth street, west of Willis avenue, with lot 25x100, has been sold by the same broker to William Schofield, for $4,500.

Mr. G. W. Ditchelf has sold the lot and old frame house at the northwest corner of Third avenue and One Hundred and Sixty-ninth street, 25x100, for $6,200; a lot on One Hundred and Fifty-ninth street, west of Elton avenue, for $600, and a frame house and two lots on Railroad avenue, near One Hundred and Seventy-second street, for $2,100.

Samuel Purdy has sold a two-and-a-half-story cottage, 20x25, with lot 50x100 on Berrian avenue, near John street, to A. H. Cox for $2,750.

Brooklyn Gossip.

A three-story brick house, with basement, located at 363 Sackett street, was sold last week for $4,500, cash. The house is 20x40 feet on a lot 75 feet deep. Purchaser and broker unknown.

J. N. Kally recently sold a four-story brown stone house, 18x131 feet, on Washington avenue, near Fulton avenue, for $13,000; also property, corner Fulton avenue and Fort Greene place, 41 feet 10 inches on Lafayette avenue, and 76 feet on Fulton avenue, and 104 feet on Fort Greene place, at $45,000.

A brick house, 50 feet square, together with 8 acres of ground, on Flatbush avenue, at the nominal price of $32,000; on Columbia street, a brown stone house three stories high, 25 feet front, and about 80 feet deep, for $15,500; and a brick house, 22 feet front by 100 feet deep, on Oxford street, between Lafayette and De Kalb avenues, at $11,000.

On Franklin and Bedford avenues, a whole row of houses is going up.

At Spencer place, a number of flats and ordinary brick houses are being built.

A real estate broker, in the vicinity of Myrtle avenue and Broadway, states that but few sales are being made, though rentals are active. The greatest demand seems to be chiefly for moderate-sized houses, at a rent of $25 to $30 per month. For this class of houses the demand is greater than the supply.

There is an opinion quite general among the people of Brooklyn that there ought to be an underground road from the East River bridge to the junction of Clinton and Flatbush avenues. Up to this point elevated rapid transit is not desired. Beyond the junction an elevated road would be popular. Of course, the people on the hill need and should have rapid transit, but property owners in the lower part of the city should not be made to suffer for the benefit of others. Naturally men who do not want rapid transit, and whose property would depreciate very much should an elevated road be built, are heartily in favor of an underground road. It is urged that it will cost $500,000 more to do this, but at the same time the enhanced value of property would more than equal the extra expense. These men very emphatically say, where the benefit is to be derived, there let the nuisance begin.

The following are the sales at the Exchange Sales room for the week ending April 22:

** Indicates that the property described has been bid in for plaintiff's account:*

A. H. MULLER & SON.

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards have retained quite a uniform tone throughout, and we find very few really new features to record. Arrivals have been full and steady, but the demand equal to the offering during the greater portion of the week, and while extreme prices may in some cases be slightly modified the buyer can scarcely claim any advantage of an important character. The weather has proven favorable, all the bugaboos about impending strikes of workmen have been dissipated, and work generally was pushed forward with vigor, and the consumption promises to continue without much abatement. Some complaints over quality have been made, but the offering appears on the average to be quite as good as usual at this season. A few hints about holding back supplies are still current, and nothing of this kind appears to have been put into practice as yet, and new work is progressing with much rapidity. There is said to be a prospect for considerable demand from out-of-town sources and negotiations already under way, but we learn of no contracts closed as yet. The current quotations range at about $6.50@6.75 for Haverstraws, possibly $7.00 under exceptional circumstances, while some of the poorer lots have sold down to $6.00@6.25 and on "Up Rivers" $5.50@6.00 per M, according to quality. There does not appear to have been enough Jerseys to warrant a quotation, Pales still fail to find any important local demand, but are maintained in price at $2.50@3.00 per M. Fronts generally meet with full average attention, and are well supported in price at full former rates.

CEMENT.—For Rosendale the demand has continued active, and notwithstanding a free and steady production by all the companies the supply has scarcely proven adequate to the wants of the market. Local calls have required a liberal amount, and large shipments have been made East and South, with additional orders still coming to hand. This naturally has given the selling interest much advantage, and the confidence gained by manufacturers brings its result in an advance in price, a mutual understanding having beeu arrived at by which the figures are increased to $1.00 per bbl. at the Creek and $1.10 per bbl. here. Saylor's American Portland secures its full proportion of business, and the manufacturers, with contracts in hand and fresh orders coming in, are working to their full capacity. Foreign grades of good standard quality are also in first rate shape. Some slight increase in the arrivals has lately taken place, but the desirable portion nearly all went out at once on contract, and other parcels afloat are also understood to have been sold at full former rates. No actual advance, however, is reported, as competition continues keen and sellers are compelled to figure closely. There is also some check to higher prices in the offering of irregular brands, which, until consumers have given them one or two trials, are attractive, through their supposed cheaper line of cost. After this the storage warehouses generally get the benefit of the arrivals.

GLASS.—There is a good and increasing local demand, with jobbers speaking more cheerfully. The movement on out-of-town orders, however, proves a little backward, and few large invoices are going out. Prices generally remain steady.

HARDWARE.—The situation seems to be working into more encouraging shape, and dealers speak very cheerfully, with apparent confidence that the movement must grow in volume and cover a larger district of distribution than heretofore. A few have been somewhat doubtful about the local call, but are now apparently convinced that it must prove large as the season opens, and the feeling is correspondingly cheerful. A slightly irregular tone may be noted on values in some cases, but this is due in the main to the present condition of business, and a steadier position will naturally follow an increase of business. The discount on Brass Butts has been increased to 70 per cent.

LABOR.—The position remains in much the same condition as last noted. No rupture of any serious character has taken place between employer or employee, nor have indications of such been prominent, is in the natural adjustment of wages for the commencement of the busy season the before noted policy was continued and all reasonable requests of the workmen granted. Some contractors still claim to be getting along without paying an advance, but the general tendency has been to add a little to the daily rate and preserve matters upon an amicable basis. How greatly the workmen will appreciate this has yet to be proven, though we find in some quarters an expression of fear that the harmony will be disturbed. The great basis of trouble seems to be considered as in the screech of the daily papers about "strikes" that have never occurred or were dreamed of, and the distorting of the situation where a strike against some individual "boss" was temporarily shown. It is feared that these sensational yarns will excite the workmen to actions they would not otherwise have thought of.

LATH.—Still another gain has been made for buyers, and under previous influences the supply overbalancing the immediately available outlets, and compelling receivers to modify their views in order to attract custom. In fact, manufacturers appear to have made a sort of raid upon the New York market, with all the stock they were unable to place at other points, and the best of management was unable to overcome the depressing influence of the excessive supply, especially as so many of the offerings were of inferior grade. A large amount of business was done at $1.40 per M for prime and choice, and a considerable number of sales made at a lower figure, but the latter were of stock of very irregular quality, showing much cutting too close to the bark, short sizes and short count, and cannot be accepted as representing values on standard goods. At the above cost, and with the full consumption before them, dealers do not seem to consider that lath are dear for the season, and even with the large amounts already in hand are still willing to purchase, provided quality and condition prove attractive. Indeed, at the close the market is a shade steadier if anything, and $1.40 bid for first-class parcels.

LIME.—The market, as a whole, rather loses strength, and buyers have made another gain on the price of Rockland, this time for Common, which is down to 90c. per bbl., Finishing remaining at $1, the price established last week. This shading appears to be simply in natural course of events, and under the influence of the regular order of supply and demand. The large amounts received since the resumption of navigation, have placed a pretty good supply in dealers hands, and reduced the demand to a more careful form, and, as cargoes continue to come to hand with some freedom, there is an excess, upon which a reduction of cost becomes necessary in order to prevent a clog to business. State lime quoted "about as before" on Finishing and on Common at the same rate as for Eastern.

LUMBER.—Some irregularities have been shown, but none out of the ordinary course or of an unsea sonable character, and the market developes few radical changes. It is possible that advantages incline rather more in favor of the buyer than the seller, but this is in comparison with somewhat extreme views entertained at the commencement of the season, rather than against what may be considered a fair valuation over cost to producer, etc., and is also to a considerable extent the result of backward demand and accumulated supplies growing out of the severe and lengthened cold term. The prospects on all outlets, domestic and foreign, are, however, considered quite as promising as the most sanguine could have hoped for, and desirable stocks are carried with great confidence and upon a full limit of valuation where some irregular influence does not compel holders to push matters temporarily. Interior advices are, as a rule, supporting, and stocks here could hardly be replaced with a desirable assortment except at an advance on cost.

Spruce has continued to fluctuate in tone and value, and we find quite a diversity of expression among the Trade. An epitome of most views, however, appears to be that there will be all the stock available the market is likely to require for some little time, with the prices dependent upon the form and amount of arrivals. Quite a good proportion of the early ordered specials are now coming in, and this tends to interfere with the demand for randoms, while the large supply of the latter acts as a weight upon prices and entirely checks buoyancy. As low as $13.00 per M has been accepted, and $15.00 is outside on random, with only extra difficult specials commanding much more. Advices from the eastward have been misleading as to the quantity afloat for this market, and it will require some little time for receivers to recover a position. They all seem to think the stock will be wanted ultimately, and more besides.

White Pine of attractive quality is not in very large supply, nor are many immediate additions expected. The stock at Albany open for competition has proven smaller than anticipated, and what there is can only be reached at extreme prices, while it will be a long time before any heavy amounts are likely to come forward from primary points further inland. Holders therefore naturally feel quite confident, and very few, if any, make an effort to realize beyond the natural development of the demand. The heavier export orders are understood to have become pretty well filled, but a fair trade is still expected on both West Indian and South American outlets. We quote $17@19 per M for West India shipping boards; $24.50@26 for South America do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow pine is still very well maintained, and there is nothing to show any decided loss to the selling interest, but all buoyant tendencies seem to be checked, and buyers are neither so plentiful or so anxious as early in the month. The cost naturally leads to some caution, beside which contracts have been completed for the bulk of the work likely for some little time ahead, and consumers are hopeful that later in the season the mills will have better facilities for delivery and offer correspondingly easier terms. Most of the larger schedules offering are from out-of-town sources, and, as usual, seek quite early delivery, earlier, in fact, than it is easy to find mills to accept. We quote random cargoes at about $23.50@25 per M; ordered cargoes, $26@27.75 do.; green flooring boards, $24@26 do, and dry do do, $25 50@27. Cargoes at the South, $15@19 per M for rough, and $20@24 for dressed.

Hardwoods remain in about the same position so long noted, a scant and broken assortment only presenting itself, few additions coming to hand or expected, and the line of valuation ranging very full on pretty much all grades. Walnut, however, appears to be the strongest in price of any, and furnishes the pivot upon which the success of other descriptions depend. Except such as may be carefully held in second hands, for use in meeting the wants of a regular jobbing trade, there appears to be no Black Walnut here, and dealers who have been West, or heard from there, say the views entertained at the primary points are simply ridiculous. Yet this does not prevent some submission, and the occasional parcels disposed of makes sellers more tenacious than ever in standing out for high figures. So far as can be learned, very little stock has been bought for this market, but a great many logs have been secured to pass through in meeting the drain from the European demand. The scarcity of Walnut of course creates a demand for substitutes, and of these Mohogany is the principal, especially in the consumption for furniture-making of a solid, substantial character, and the importation of the latter wood is daily increasing. In cheap furniture, &c., White Wood plays an important part as its peculiar grain makes it a most valuable article not only as a substitute but when properly manipulated by the stainer, as a close and successful imitation of walnut. California Red Wood also is coming into favor as a successful wood for a great many purposes while, Ash, Maple and Oak all find increased sale and well supported values. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ¼ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles have found some irregularity in the export demand, but from home sources the call is full and good and prices maintained without much difficulty. Supplies of a desirable character are not abundant. We quote Cyprus at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

Among the yards business is good as a rule with the tone pretty steady. There is the usual wide range in the line of quotations owing to the differences of delivery, &c.

From among the lumber charters and engagements recently reported, we select the following:

A Br barque, 1,130 tons, from St. John, N. B., to Liverpool, deals, 57s. 6d., c. d., a Br ship, 1,247 tons, same; an Am barque, 644 tons, hence to Port Spain, White Pine Lumber, $5.25; a Br barque, 344 tons, hence to Port Spain, White Pine Lumber, $5.50; a barque, from Fernandina to Port Spain, lumber, $10; a Br barque, 490 tons, from Pensacola to Havana or Matanzas, lumber, $9; an Am brig 259 tons, from Pensacola to Aspinwall, lumber, $14; a schr, 439 tons, hence to Cardenas, empty hogsheads, 70 c.; a schr, 342 tons, hence to Brunswick, and back with lumber, $8.50 for the round; a schr, 250 M lumber, from Brunswick to New York, $7 25; two schrs, 294 and 307 tons, from Brunswick to Philadelphia, lumber, $5.50; a schr, 600 tons, from Brunswick, to Bath, lumber, $7.50; a schr. 500 tons, from Pensacola to Baltimore, lumber, $7.75; a schr, from Rockport to Fernandina, ice, $1 per ton, and back to Boston, lumber, $7.50; a schr, 350 M lumber, from Pascagoula to Boston, lumber, $8.50 a barque, from Choptank, Va., to Bath, timber, $4 per ton; a schr, 150 M lumber, from Savannah to Philadelphia, $6.50, or New York, $7; a schr, 216 tons, hence to Jacksonville, stone, $1.50, and back with lumber, $8.25, option of New Haven, $8.50; four schrs, 123, 172, 149 and 173 tons, from Portland to New York, lumber, $2.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	979,000	13,581,284
South America	536,723	7,191,154
East Indies, Africa, etc	112,952	1,719,400
Europe, Continent	.....	508,150
Europe, United Kingdom	98,500	1,460,375
Total	1,727,175	24,460,363

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus.

FOR THE WEEK ENDED APRIL 19, 1881.

Since the close of our report on Tuesday last we have had a very active trade in the District, the sales made covering not much short of 7,000,000 feet. They include the 4,000,000 feet of shipping lumber purchased at quotations on Wednesday by the Export Lumber Company, and already reported in the Argus, and later in the week 1,500,000 feet box, the bulk at our quotations, but including some special lots at shaded prices. These purchases are to be shipped forthwith. The general trade of the District has been fair at quotations, which, on the upper grades of pine, are advanced on the inside figures, and on one-inch siding, common, which is very scarce. Despite these sales the general stock of pine is good and is in fair assortment. Hardwoods are in steady demand at quotations, and in fair steck. Coarse lumber trade is supplied by rail and at steady quotations.

The trade is anxiously waiting the movements of Superintendent Dutcher; the wish is for a canal that can be relied on for safe and continuous navigation, even at the cost of a few days delay beyond the 10th of May.

River freights are:

To New York, ₱ M ft	$ @1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	3 00@2 25

To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

More activity in the market for lumber is noticeable as the season advances, and the time for the opening of navigation draws near. This may not be just the way to speak of that event, however, for there is no "time" fixed for the opening—except the time when the ice shall leave the bay, and that is some way off yet. But there has been more inquiry for cargo lumber the past week, probably because of the nearer approach of the time when it can be got forward. A number of sales are reported, choice stock going at outside figures, while several cargo lots have been disposed of at $7 00@7.50 for culls, $14@15 for common and $32@35 for uppers. Offers which would seem to be good figures have been declined for choice stock to be cut. The disposition to hold up prices shown by manufacturers need occasion no surprise, when it is stated that the extra cost of stock will be more this season than the advance in prices since last summer. The past winter was a severe one in the woods and additional expense has been involved. Sawing will cost more and stumpage has increased in value at least 10 per cent in two years. Wages in the mills are likely to be higher, because of the increasing demands upon the labor market and the additional price of lumber is needed to make up to the manufacturer the actual increase in its cost.

The season of 1881 is going to be more abundant than that of 1880. Of this the signs are unmistakable. With an easy money market, a constant flow of coin hither and a large immigration crowding into the west, with a good demand for American breadstuffs and provisions, and a boom in all branches of business, the demand for lumber cannot fail to be large and steady, and prices be well mentioned. There are no signs of weakness anywhere.

Navigation will open somewhere about the middle of May, some of the mills have started up, but others will wait some days yet. The ice is out some of the streams and drives will start this week.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The enormous floods which are devastating the Missouri Valley have the effect of cutting off all trade from that section for some weeks, but will naturally double up the demand from that quarter by way of repairing the damage and wrecking done by the waters after they have subsided, as it is not to be expected that the great fertile valley will be abandoned on account of this extraordinary visitation. It is feared many lumbermen are among the sufferers. The situation in the northwest is not of the most encouraging character, especially in the great Red River Valley. The enormous amount of water in that region will interfere seriously with the planting; some of those best acquainted with the country fear that there will not be a bushel of wheat sowed in the great level bottom, forty miles wide and 300 long, of the finest wheat land of the continent. This would be a calamity to the lumbermen of Minnesota. The situation on the Mississippi and its tributaries may with propriety be called critical. A heavy rain would work incalculable damage to the lumber interest. One circumstance is greatly in the log men's favor, the ice is thick and firm in the lakes, and will be so for weeks, so that logs will not be carried out of them by any probable rise; but there is a vast quantity landed on the main streams which a flood would sweep away. These circumstances make the lumbermen a little nervous, but these latter circumstances tend to strengthen the price. The business of last week at the principal markets was considerably greater than the week previous. St. Louis run over a million feet and Chicago over three million per day, while Minneapolis done well, as will be seen from the table below. There seems no disposition to change prices, and we confess that we can see no special reason for it just yet.

The following is from the Northwestern Lumberman:

The conditions of the markets throughout the country continues firm and generally active. At some points advances have been made on certain grades; at others, dealers have not changed their figures, but are getting more than the list prices for a portion of their stock. The improvement in the weather, although of a spasmodical nature, has had a tendency to increase the volume of trade, except where it has caused the snow to give way to mud, which, at present, is a great barrier to getting around in some sections of the country. The dealers in some of the larger Eastern markets are feeling particularly hopeful, as the indications are that the mills will not be able to cut the amount of lumber that will be required. This applies more directly to the business in spruce, and it is believed that prices will advance before the end of the season.

The mills, as a general thing, will be late in starting up, but with the improvements and repairs that they have undergone, there is no reason why, even with a late starting, they should not make a record that will compare favorably with that of last season. In a few cases we hear of the season's cut being sold in advance, and, so far as we know, no mill man expects that his mill's production will grow very old on his hands. Bill stuff appears to be scarce everywhere and wanted. There is still much complaint about the scarcity of cars, and a general feeling of regret among dealers that the lumber that is transported weighs so much. There is no grumbling by railroad men on this score, for the bad winter for seasoning will be a means of putting considerable money into their pockets. The demand in the Western country is likely to be heavier than ever before, and preparations are being made to meet it.

The backward spring will tend to retard building operations somewhat, but business will be so much the livelier when once it gets fairly under headway. A gentleman writes us from northern Michigan that his mill will propably furnish 5,000,000 feet to the immediate country surrounding it, and other dealer report that the local demand will be heavy. All thes indications point to an unusually active season, an without much doubt it will be a financially successful one.

CHICAGO.

If the Chicago lumbermen had the making of the weather, we should not now have to record a dull market such as has prevailed since our last report. From all directions come complaints of weather and of snow and mud, which effectually acts as an embargo on trade. The shipments, however, have aggregated about 1,500,000 per day, and with a fair prospect that spring is at last opening, we look for an immediate improvement in orders and shipments. Navigation gives no promise of a speedy opening, although one or two steam craft have entered this port, after battling with heavy ice fields at the mouth of the harbor. From the other side of the lake we learn of vessels making preparations to load, but with the discouraging prospect of thick ice to prevent their sailing, while from no point in the lumber producing district is anything more encouraging to note. At this time last year a heavy arrival of lumber was noted, and shipments were large in proportion. The report of the secretary of the Lumberman's Exchange of stocks on hand in Chicago, April 1, has just been issued, showing a reduction for the first three months of the year of 175,000,000 feet in the lumber stock of this city.

The general condition of business at the yards is much the same as it has been. A good many orders are coming in, and some lumber is going out to fill them, but the volume of business is not so large as it would be if the season were further advanced.

HARDWOODS.—Trade for the week is reported rather quiet at some yards; others have presented a lively appearance. Prices throughout remain unchanged. Receipts have been heavy for the time of year in most kinds of wood. Oak continues to arrive, and more dry ash is reaching market than for several months past. One yard has quite an amount of dry, thick, with 400,000 feet of the same kind to draw from if necessary. A few weeks ago it was almost impossible to find, in the round of the yards, a piece of dry ash thicker than one inch, but at present it would be no trouble to get several car loads; but much of it is held above our quotations. We notice a heavy arrival of wagon tongues, mostly green.

As has been the case for a long time, there is but little dry walnut reaching market. A dealer recently purchased in the neighborhood of 150,000 feet in Missouri, from 5 to 10 feet in length, that will arrive at the rate of two car loads daily. It is lumber that Eastern buyers have refused on account of its short lengths, but as it is thoroughly dry, some of it having been sawed for three or four years, it ought to be good property. We hear of $80 being paid for firsts and seconds, thick, in the same State, at a point from which freight to this city will be about $4 per thousand. It is a big price, especially as the custom there is to measure with a tape line, which forces the buyer to pay for every fraction of an inch, which, in selling, he cannot charge for. It is no uncommon thing to stretch the tape across the whole pile, even when the boards lack an inch or so of touching. With such a method of measuring, the buyer buys holes and all. About the only hope that a trade involving figures of such size can be made to pay is that some counter tops can be picked from the lumber.

We made mention, in a former issue, that rock elm was coming somewhat more into use than formerly, though all along it has been a favorite wood. A firm in Grand Traverse has contracted to furnish 250,000 feet to a New York wagon establishment, and in southern Michigan more of it is being cut than formerly, though in that section it is by no means plentiful.

We learn from men just down from northern Michigan that the prospect is good for the getting in of a considerable quantity of hardwood even after this date. In some of the hardwood districts the snow is so deep that operations are nearly suspended, but the loggers are patiently waiting for it to partially disappear, and if it does not go too rapidly, they will use it to good advantage. Every where in that section the cut is already greater than it was last year, and the mill men who are putting in maple for flooring, report that it meets with a ready sale both east and west.

The furniture men are not feeling very cheerful as yet, and some of their shops are about idle. They live in hope that spring will disclose larger stocks of hardwoods than are now in sight, and that prices will decline.

FOREIGN.

The London Timber Trade's Journal as follows:

LONDON.

There is no doubt but spruce deals are on the decline in the London market. The cargo of the St. Julien, from St. John, N. B. (which usually stands next in favor to Quebec), was sold on Thursday at a decided fall in value. A cargo from the same port sold last year—about the latter part of March—fetched at the Baltic rooms on an average about £7 10 s., now the highest price for best lengths and sizes unassorted was £6 15s., and the average was in fact not more than £6 7s. 6d. all through. A couple of lots, about 3,000 pieces, 3x11 in., were knocked down at £6 5s., good lengths, varying from 18 to 25 ft. The freight charges would not be much short of £4 per standard, and if we deduct this and other expenses attached to these goods, we shall find very little left to go towards the first cost at St. John. Last fall spruce was in great request at the shipping ports, and for the best sorts at one time as much as £8 was paid. Shippers this season will think twice before consigning here again.

There was not much flooring at the sale on either day. What there was went fairly well, but not equal to the prices of a month ago. East country timber went well. One lot of Dantzic fetched (best middling) 82s. 6d., and two lots of 2d Memel realized 80s., a very good price. Some Doboy hewn pitch pine, ex Emilie, was not even offered, for the broker (Mr. Churchill, Jr.) priced one lot at 70s., and without dwelling on the rest brought the sale to a conclusion.

LIVERPOOL.

The business of the past week has been dull, yet a fair amount of timber has gone quietly into consumption, and the returns of the consumption when issued will possibly show that, under an appearance of quietude, a steady demand has existed, and that things are not so bad as they appear on the surface. It is true that prices, especially during the past fortnight, have receded both in spruce deals and pitch pine, and this, together with the coming of mild weather, which will affect the building trade and give it a brisker appearance, has no doubt stimulated consumption.

The drop in the prices of both the above articles has been rapid and extensive; but, so far as present appearances go, they have probably touched their lowest point. The season for the shipment of pitch pine is approaching its close, and, unless there should be large supplies in the rivers ready for shipment, there is no reason why prices, which are now very low, should experience any further fall.

There is a general feeling of uncertainty as to the probable course of the market, as the demand is by no means brisk and the stocks cotinue to be amply sufficient for the requirements of the trade. Buyers of large quantities appear inclined to hold their hands for the present, in the hope that prices may recede still further, and on the other hand there are many who think the market is at the lowest now. In the latter case possibly "the wish is father to the thought," as importers must have already suffered heavy losses upon the cargoes purchased early in the season.

THE AUSTRALIAN TRADE.

Messrs. Gemmell, Tuckett & Co., of Melbourne, under date of February 15th, as follows:

We have to report a steady demand during the month for most descriptions of building materials. The amount of business carried through at auction and privately has equalled our anticipations; and prices realized support late quotations.

Canadian Wood—The cargo ex Republic was placed at auction on the 11th inst. Spruce deals realized an average of about 3 7-16d. per foot of 9x3; clear pine 2 inches, £17 12s. 6d., and 12x1, £14 per M. super.; 6x⅞ spruce t. and g. flooring, 8s. 3d. per 100 feet lineal, being an advance on recent rates. The cargo ex Undaunted, from St. John's was offered at auction on the 4th inst. Prices not being equal to vendor's limits, the bulk was withdrawn.

Messrs. C. S. Ross & Co., of Melbourne, also as follows:

Spruce Deals—Imports—Canada and United States, 50,027 pieces; United Kingdom, 5,219 pieces. The principal arrivals have been the Veritas, from London; Republic, from Saguenay, and Undaunted, from St. John. The Undaunted arrived via Adelaide, and it is inexplicable (in face of the bulk of the cargo ex R. B. Fuller having been sold in December last at an average of 3⅜d. per foot, 9x3), why her cargo was not discharged in that port. The offerings for the past four weeks have been parcels of 4,000, ex Veritas, which being held far above market, resulted in sale of 600 pieces only; cargo ex Undaunted resulting in sale of of 1,800 boards, at from 4d. to 3½d. and 8,922 battens, at from 3 1-16 d. to 3d. per foot, 9x3; and all the spruce deals and boards in the Republic at from 3⅞d. to 3 ⅛d. per foot, 9x3. The imports for seven months foot up 119,729 pieces, 30,000 pieces more than has been landed here during any year for past seven, and 600,000 pieces more than the annual consumption.

NAILS.—Demand has undergone very little change in volume, and is of much the old irregular forms. Nearly all buyers have taken what they wanted for immediate use, but no more, and manufacturers and agents are left to carry most of the supply. Values have become somewhat irregular, and while it is understoood that some "cutting" is taking place in a quiet way, list rates have been advanced 5c on 10d@60d.

We quote nominally 10d to 60d, common fence and sheathing per keg, $3.05@3.10; 8d and 9d, common do, per keg, $3.25@3.35; 6d and 7d, common do, per keg, $3.50@3.60; 4d and 5d, common do, per keg, $3.75@3.85; 3d and 4d, light, per keg, $4.50@4.60; 3d, fine, per keg, $5.25@5.35; 2d, per keg, $5.25@5.35.

Cut spikes, all sizes, $3.25@3.35; floor, casing and box, $3.75@4.25; finishing, $4.00@4.75.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

At a meeting of the Western Nail Association, held this week, the card rate was advanced to $3.15 per keg.

PAINTS AND OILS.—On no one particular line of stock does there appear to be any great amount of animation, and in a general way the market has rather a dull tone. The aggregate movement, however, is seasonably full, and dealers seem to think there can be no shrinkage in the demand until well along toward mid-summer. The supply and assortment is pretty good, and the line of valuation on most grades very well preserved, though occasional slight variations occur under influences of greater or less offerings, etc. Linseed Oil has not been quite so active, and the amount of stock seeking sale was pretty full. Holders, however, seem to have petty good control of the situation, and former rates are quite generally asked, especially on small lots. We quote at about 55@57c. for City, and 61@62 for Calcutta from first hands.

PITCH.—The demand in about the usual form and volume, with the offering of stock fair and sellers willing to accept former rates. We quote at $2.00@2.15 per bbl. for City, delivered.

SPIRITS TURPENTINE.—A very irregular market has been shown, and at times values were almost entirely nominal, but the general tendency was downward. Buyers continued to stand off on both wholesale and jobbing parcels, and with unfavorable accounts from primary sources, holders became anxious to realize, in some cases crowding quite hard. Latterly, however, reported delays to the crop have acted as a stimulus, and the close is firmer with reduced offerings of supplies. As this report is closed, the quotations stand at about 40@42c. per gallon, according to the quantity of stock handled.

TAR.—Business moderately active, and without new features worthy of extended notice. Most holders offer stocks readily, and are willing to accept about former rates, but are not forcing matters to any seriou

extent. We quote $2.50@2.75 for Newberne and Washington, and $2.62@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

CO-PARTNERSHIP NOTICES.

JOHN F. DONNELL & CO., J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.

Dated, New York, April 1, 1881.

JOHN F. DONNELL,
JURGEN KASSCHAU,
JACOB KASSCHAU,
} General Partners.
ADOLPHINE D. C. SCHONHARDT,
Special Partner.

WE, THE UNDERSIGNED, GEORGE W. MILLAR, William D. May and William Roberts, having formed a limited partnership do hereby certify:

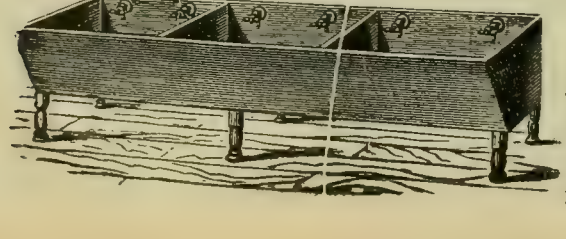
I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.



William Roberts is a special partner, and resides Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and special partners interested in said partnership are as follows:

Charles Duggin is the special partner, and resides in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

THE UNDERSIGNED, DESIROUS OF FORMING a limited partnership under the statutes of the State of New York, hereby certify:

1. That the name or firm under which such partnership is to be conducted is HALL, NICOLL & GRANBERY.

2. That the general nature of the business intended to be transacted by such partnership is the general business of importing and selling foreign and domestic fancy goods and on commission.

3. That the names of all the general and special partners interested in said partnership are as follows:

Bolton Hall, who resides in the City of New York,

Benjamin S. T. Nicoll, who resides in the City of New York, and

David W. Granbery, who resides in the City of New York, are the general partners; and Marcellus Hartley, who resides in the City of New York, and Malcolm Graham, who resides in the City of New York, are the special partners.

4. That the said Marcellus Hartley has contributed the sum of twenty thousand dollars, and said Malcolm Graham the sum of twenty thousand dollars as capital to the common stock.

5. That the period at which the said partnership is to commence is the seventeenth day of March, 1881, and the period at which the said partnership is to terminate is the last day of February, 1883.

BOLTON HALL,
BENJAMIN S. T. NICOLL,
DAVID W. GRANBERY,
General Partners.
MARCELLUS HARTLEY,
MALCOLM GRAHAM,
Special Partners.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York, s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

FOR SALE

— IN —

Newark, N. J.,

A Finely Situated Property

In the centre of the city, fronting on three streets, 104x330x108, more or less, in a good situation for improvements, as there is a great want of private dwellings in the city. There are

Two Substantial Brick Dwellings

on the place, which can be readily modernized, clear and unincumbered, and has been in the possession of the family for two hundred years. For further particulars address

"REAL ESTATE," Care of JOS. B. & CO.,

254 Market Street, Newark, N. J

IN PURSUANCE AND BY VIRTUE OF a deed of trust to us made we, the undersigned trustees, will sell at public auction at the Exchange Salesroom, No, 111 Broadway, in the city of New York, on SATURDAY, the 23d day of April instant, at twelve o'clock noon, by JOHN H. DRAPER & CO., Auctioneers, all the lands and premises, with the storehouse thereon, known by the street numbers 166 Pearl street and 79 Pine street, in the city of New York, which, taken together, are bounded and described as follows, to wit.: Beginning at a point on the easterly side of Pearl street, which point is at the northwesterly corner of the store and lot known as No. 166 Pearl street, in the centre of the party wall between said store and the store on the lot hereby sold, running thence southeasterly through the middle of said party wall, and the same course along ground now or formerly of Hendrick Booraem to a point distant seventy-seven feet four and three-quarter inches southeasterly from Pearl street, and distant forty-three feet one inch southwesterly from the southerly side of Pine street, thence northeasterly partly along ground now or formerly of said Booraem, and partly along ground now or formally of John S. Crary forty-three feet and one inch to Pine street; thence northwesterly along Pine street thirty feet and four inches to the northeasterly corner of the store No. 168 Pearl street; thence southwesterly along the rear of said store No. 168 twenty feet eight and one-quarter inches; thence northwesterly along the southerly side of said lot No. 168 forty-seven feet three and three-quarter inches to the easterly side of Pearl street, and thence southwesterly along Pearl street twenty feet seven and three-quarter inches to the place of beginning, be said several dimensions more or less.

The grade of the land is very high, and commands one of the most agreeable and desirable locations on the west side, with schools, churches and all the advantages of the lower part of the city. WILLIAM A. W. STEWART, Esq., Attorney at Law, No. 49 Wall Street, N. Y. GEORGE PUTNAM SMITH, Esq., Referee, No. 54 William Street, N. Y. Maps and further particulars may be obtained from the Attorney, or at the Auctioneer's Office, 111 Broadway, Rooms D and E, Basement.

THE MUTUAL UNION
Telegraph Company

is organized under the Laws of the State of New York, and has constructed a telegraph line of six wires from Boston, Mass., to Washington, D. C.

This line has been built in the most substantial manner, and the poles are of sufficient size to carry thirty-six wires. The company has obtained excellent franchises or contracts, giving it the right of way through Boston, Providence, Hartford, New York City, Philadelphia, Baltimore and Washington, and all the smaller cities and towns on the route.

The company now propose to extend their lines from New York and Boston to Worcester, Springfield, Albany, Utica, Syracuse, Rochester, Buffalo, Erie, Cleveland, Toledo, Detroit, Chicago, Milwaukee, St. Paul, Minneapolis, also to Kansas City, St. Louis, Indianapolis, Louisville, Cincinnati, Columbus, Wheeling, Pittsburg, &c., intending to cover the principal cities of the West and the intermediate stations; also a line from Boston to Portland and the Eastern cities.

It is believed that the lines of this company, when completed, will include nine-tenths of the profitable telegraphic business of the country.

The company has secured, in addition to the ordinary system, several valuable inventions for the most efficient and economical use of its plant—these inventions covering the whole field of telegraphy. Such a line, newly built, constructed with reference to the most improved methods of telegraphy, and operated under the most improved systems in the most economical manner, and covering nine-tenths of the business of the country, with comparatively a small capital, is sure to be very profitable to stockholders, and at the same time a great advantage to merchants and business men in all the leading cities.

For the purpose of completing these lines, there will be issued $5,000,000 of bonds, to run thirty years, at 6 per cent. interest, payable in gold semi-annually in New York, registered at the Central Trust Company of New York.

Purchasers are offered $5,000,000 bonds and $5,000,000 par value stock, at the rate of par for the stock, or for each cash purchase of $10,000 the purchaser will receive:

Bonds..... $10,000
Stock, par value..... 10,000

The amount to be made payable as required for construction, but not over 10 per cent. will be called in any one month.

It is expected that the entire system will be completed and working within twelve months.

The interest charged will be only $300,000 annually when the lines are all finished. The income from the present line between Boston, New York City and Washington can be made to pay that amount. To pay a dividend of 6 per cent. upon the entire authorized capital of $10,000,000 will require only $600,000 more; in all $900,000 annual revenue.

It is estimated that the net revenues of this entire system of telegraph lines, when completed, will not be less than $1,500,000 annually, or enough to pay the interest on the bonds and 12 per cent. dividends on the whole capital stock.

Only $1,500,000 will be allotted to New York. The balance will be taken in Boston and the West.

Allotments will be made in full for amounts of $10,000 and under, and the remainder will be allotted pro rata for amounts exceeding $10,000 on May 10.

The books will be opened at our office on Monday, May 2, and closed on Thursday, May 5, at 3 P. M.

Full particulars furnished on application.

Chas. Gregory, Member N. Y. Stock Exchange and Mining Exchange. Maturin Ballou.

ANTHONY J. BLEECKER, Auctioneer.

SUPREME COURT SALE—Ten Acres in 24th Ward, New York City.

A. J. BLEECKER & SON, will sell, TUESDAY, MAY 17, at 12 M., at the EXCHANGE SALESROOM, No. 111 Broadway, under the direction of F. F. MARBURY, Esq., Referee. Ten Acres and 48 Roods fronting on

BOSTON POST ROAD and the SOUTHERN BOULEVARD, and running through to, and fronting on WEST FARMS AND HUNT'S POINT ROAD, together with the Dwelling-House and all other out Buildings thereon.

For particulars, apply to MITCHELL & MITCHELL, Attorneys, Nos. 41 and 43 Wall Street, or F. F. MARBURY, Esq., Referee, No. 3 Broad Street, and for maps to A. J. BLEECKER & SON, Auctioneers, No. 75 Nassau Street.

WILLIAM A. WHITE & SONS, 409 Broadway, offer for Sale

FIVE LOTS, leading thoroughfare Up-Town, suitable Hotel, Theatre, Business Purposes.
THREE LOTS on Lower Broadway, ready for immediate improvement, new building on same would rent for 10 per cent. on investment.
TEN LOTS on 105th and 106th Streets, near Fifth Avenue—no rock—well located for improvement.
FIRST CLASS Building in Dry Goods District, covering three lots; well rented.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The sensational statements in our daily newspapers respecting the disease and death rate of the metropolis have had their effect this spring in scaring people out of the city, and preventing others from coming here New York is not an unhealthy city. The large death rate is due to the tens of thousands of invalids who come here from all parts of the country for treatment. We have the most famous physicians in the country, the largest hospitals and the best medical schools. Our large seafaring population also helps to swell the mortality; but a look at any assemblage of New Yorkers at the exchanges and churches, will show that the number of old people is very great, or as large as in any other part of the country. Our streets are not as clean as they should be. The city is doubtless misgoverned, but it is not in the interest of New York to give the impression to the world, as our newspapers do, that it is unfit to live in. The owners of New York realty should remonstrate with the editors of the newspapers for maligning the city and injuring its reputation as a place of residence.

The *New York Herald*, not content with doing all it could to keep people away as well as drive them out of the city, by its extravagant statements of the death rate and ill-health of New York, on Friday abuses the landlords and says they were served right in having so many tenements left vacant on the 1st of May. This is adding insult to injury. If the vast real estate interest of this city should withdraw its patronage from the *Herald*, it would leave a gap in its columns which could be filled with much more sensible matter than this absurd abuse of landlords. Strange that newspapers cannot see that their interests are identical with those of the city they live in.

The Elevated Road securities have had a blow between the eyes during the past week. The statement of the Manhattan Company, calling for remission of taxation, was so well put, as to make holders very nervous as to the wisdom of retaining their stock at high figures. We do not believe that the Manhattan system will fail, even if there should be a default on the first of next July. Ninety days redemption is permitted, and in some way Manhattan stock will be kept alive. In view of the future probabilities of the elevated system, it would not be a difficult thing to sell income bonds or preferred stock, to keep the Manhattan Company alive until such time as the increased business would suffice to pay all the fixed charges. The experience of the hard times we have passed through, shows how rarely common stock has been wiped out, because of non-payment of interest on the bonds. No matter what may happen, there will be no wiping out of Manhattan stock.

Visitors to Philadelphia and Baltimore have been struck by the number of pretty little brick houses, suitable for a small family, the fronts trimmed with white marble and the low stoops of the same material. These white front steps are kept scrupulously clean and the effect is pleasing. Somehow these kind of houses have not been initiated in New York so far. We notice, however, something of the kind on Madison avenue near One Hundred and Sixteenth street. The white marble trimmings are quite an ornament to a brick building, but somehow our climate soon tarnishes white marble. We have some white marble fronts on Lexington avenue and Thirty-eighth street, then there is the Stewart building; but they soon become discolored and present a dingy appearance. Yet we have but few manufacturers in this city, no flying coal-dust, and our atmosphere is generally clear and sunny, but the fact remains that white marble will discolor under our skies.

CHEAP MONEY AND THE TIMES.

There is a sect of crazy reformers who are clamoring for an abolition of all usury. They claim that money should not have any value except in direct purchases, and they appeal to the old Jewish laws for a religious sanction of their doctrine. If matters keep on in the way they have been going, it will not be necessary to cheapen money by law. For the difficulty to-day in all advanced commercial nations is to find profitable employment for money. It goes begging all the large, wealthy capitals of the world. Premier Gladstone, in presenting the annual budget to Parliament, gave as one reason for lowering the income tax, the general unprofitableness of business in Great Britain. The income paying class had found their standard of comfort lowered, by the lack of safe avenues in which to remuneratively invest their surplus monies. As a consequence, speculators in England and France are just now engaged in the dangerous business of blowing up all kinds of company bubbles. Hundreds of schemes are widely advertised, promising fortune which really have no merit whatever, but the shares of which people buy eagerly in the hope that perhaps they will turn out well.

In previous numbers of this paper, we have pointed out why money was cheap, and the reasons there were for believing it would be still cheaper. Labor and machinery has created a great deal of surplus wealth in every modern nation. This extra capital of the world, as it may be called, is rendered immediately available everywhere by the telegraph. There is no difficulty in the way of moving it immediately from one money centre to the other. As the world continues to grow richer in actual wealth, money will necessarily get cheaper. The ultimate effect will be to increase the value of everything which returns a fair income. As all the wealth of the world is got from the earth by labor, it is safe to predict that land and labor will in the end profit by the cheapening of money. The reduction of interest forces persons, who had hitherto-fore been idlers, to become producers, and as the earth is the basis for all the work done by man, the possession of the soil will be the most certain of all holdings. While cheap money means eventually in this country as in England, low rentals, those rentals will be expressed by the higher value of buildings; that is to say, there is no danger of any reduction of rents in this country, but house property must, in a time, sell at figures which will not return more than 4½ or 5 per cent.

Every indication points to lower prices for money in this country. Not only is the volume of our currency increasing, by the addition of gold and silver; but credits are certain to be expanded by the growing value, taking the country through, of real estate All who are in doubt as to what investments to make, should understand that nothing is so sure as real property. Whatever else may go down in market price, improved property and real estate in the line of improvement, are certain not only to advance in intrinsic but in market value.

Strange that some ambitious, young publicist does not work for a union of New York and Brooklyn. The completion of the bridge will soon practically make both cities one and a thousand reasons could be given for putting them under one government. The mayors elect of both New York and Brooklyn are generally men of whom the municipalities may well be proud. The aldermen in both corporations quite the reverse. Would not the union of the two cities, with the election of say one-half the aldermen on a general ticket, give us officials of whom we need not be ashamed? The government of this great city would then be a more important matter than the administration of any state in the Union. The Mayor of New York would be the peer of any governor in the country. We could have better police, a more efficient street cleaning system, and, were some civil service reform effected, more efficient and economical government than we have ever yet had. The local politicians of both cities would naturally oppose this annexation, but the property interests of New York and Brooklyn could not but approve it. Where is the local statesman who will take this matter up and agitate it until carried out? A monument will some day be put up to the man who brought about an annexation of the territory which really belongs to the metropolis. If this should be accomplished, New York in the census of 1890 would be found to have a population of over 2,000,000.

ELEVATED ROADS, THE OTHER SIDE.

The facts connected with the system of elevated roads are well understood. Accoring to the engineers, the actual cost of the construction of the Metropolitan and New York Elevated was . . $18,358,185 95
These roads are stocked and bonded for . . . $43,000,000
On a par valuation this shows an excess of . . . $24,641,814 05
This last sum, nearly $25,000,000, represents the water, in addition to the profit made in the expenditure of over $18,000,000 by the promoters of the elevated road systems.

Now, is it not monstrous, says the press and public, that with this enormous profit these companies should come before the pub lic and ask for a remission of taxation? It is admitted that Messrs. Navarro, Garrison, Field, Pullman and Porter, made immense gains by building the elevated lines and manipulating its stock upon the market. Why should these people claim any exemption from taxation?

But the difficulty in the case lies just here. The persons above mentioned have made their profits; it is suspected that they are largely short of the stocks, and are not unwilling to join in a clamor for taxing the roads and discrediting the securities of the elevated companies. It is the innocent holders of these stocks who are the victims, not Messrs. Nevarro and company.

We understand that Comptroller Campbell will pay no heed to the protest of the companies. They must pay their taxes, past and present, whether bankruptcy results or not. This the Comptroller is forced to do whether he thinks it wise or not and he will be very generally sustained by the press and the public, in collecting the very last cent out of the elevated roads.

But the present unfortunate owners of the elevated road securities have a case which ought to be considered. The system of roads is the most expeditious, cheapest and most comfortable of any in the world for local travel. They have added immensely to the taxable value of the land, especially the improved land in the city of New York. Instead of charging fifteen cents, as their charter permits them to do above the Central Park, only ten and at certain hours only five cents is demanded for running the whole length of this island. In a short time, the Ninth and Second avenue roads will be run all day long at five cent fares, while the five cent hours on the Third and Sixth avenues, will be increased from six to ten out of the twenty-four. So far as cheapness, comfort, swiftness and safety go, the elevated roads have done everything that the most exacting could demand. Before the work was commenced, the promoters were assured by the best lawyers and judges, and men high in official station, that the tracks could not be taxed as real estate.

And now, how have the elevated roads been treated? The press has abused them. Politicians have levied blackmail on the organizations. They have been constantly threatened with hostile legislation. In short, the New York public has been oblivious of all the benefits they have derived and joined in the mad dog cry of monopoly, wherever it is raised by the stock manipulators when they wish to depreciate elevated road securities.

It is an open secret that the men who made all the money in watering and bulling the elevated stocks, are now pocketing their millions on the bear side of the account. They are not only out of but short of the market, and the knavish newspaper clamor against the elevated roads is exactly what they want and is doubtless, in great part, inspired. It is not impossible that there may be a default on the first of July and the bonds and stocks, especially Manhattan, may sell for a very low figure. But we do not believe that the present organization will ever be disrupted. There is a ninety days redemption after default, which would be taken advantage of, and there will be an issue of income, deferred or preferred stock, to supply funds to keep the Manhattan franchise alive, until the road becomes self-sustaining. This would involve a new departure in the management; as the public is not disposed to show any mercy to the roads, the latter must look out for themselves. Everything must be done with a view to profit. The fares must be advanced to fifteen cents wherever the charter admits of it. The five cent hours must be reduced so as to barely comply with the law. Straps must be put up and the cars packed to their utmost capacity, as on the street cars. Trains must be stopped at unprofitable hours; in short, the roads must think of their own interests first, last and always. If there was any way in getting the money out of the original promoters, we would advocate its being done; but it is idle to talk of such a thing. But the present innocent holders of the elevated stocks must do the best they can in their own interest.

A very likely issue of this trouble is the quiet purchasing of the Manhattan stock, when it gets low enough by one of the great railway lines which enter the city from the North. The command of the elevated system which the Manhattan Company would give them, would be worth a great deal of money, say to the Central system, and some day Vanderbilt, Gould or some other great operator will see the point.

PROMISING RETAIL TRADE CENTRES.

Fifth avenue, between Madison Square and Thirty-fourth street, occupies a peculiar position in the real estate market. Owners are holding on for high prices, as they believe it will be wanted for business purposes. Then, a sufficient number of stores have been opened, to render the neighborhood undesirable for fashionable residence purposes. There are many trades people who would like to move into this part of Fifth avenue, but they do not see their way clear to meeting the cost of altering the residences into stores and paying the rents now expected. The removal of W. Perzel's *Au Gourmet*, between Thirtieth and Thirty-first streets, does not look well for the business advantages of this avenue. The goods of this store were rare and choice, and ought to have had a large sale in this locality. A really great business establishment, located on Fifth avenue below Thirty-fourth street, might make as great a change as did the opening of Stern's establishment on Twenty-third street. But there is no present prospect that any really large, enterprising house cares to try the experiment in that locality.

The change in Twenty-third street, between Broadway and Fifth avenue, since Stern opened his establishment, has really been very remarkable. Long headed real estate men believe that Twenty-third street will yet rival Fourteenth street, if not surpass it. Quite as large a throng of rich people will pour up and down the one street as the other. Indeed, Madison Square has many advantages over Union Square. It is nearer the fashionable part of the city and upper Broadway, Fifth avenue and numerous side streets add to the throng on the square. The elevated railway station at Twenty-third street, insures a large concourse of people, and the time will undoubtedly come, when Booth's theatre will be changed into a splendid store. As a theatre, there has been a heavy loss in the investment. A great establishment, such as Arnold & Constable's or Lord & Taylor, would find the Booth's theatre site a magnificent one for a great popular store. There is a church in this street, which is out of place. Everything points to the block between Sixth avenue and Madison Square as a location for extensive and splendid retail trade. It is evident that popular favor will incline to this locality rather than to Fifth avenue below Thirty-fourth street. Should Madison avenue ever be extended so as to strike Broadway near Union Square, it would make Twenty-third street between Broadway and Fourth avenue also desirable for business purposes. The Academy of Design and the Young Men's Christian Association are on this street, and not a little business is done, even now, between Third and Fourth avenues.

Among the business side streets of the future, Thirty-fourth street must not be overlooked. The ferry on the East River side, will make another Fulton street of Thirty-fourth street in time. The railway system of Long Island will yet pour its millions over the Hunter's Point ferry. It is the only side ferry with which the elevated road system now connects. The junction of Broadway, Sixth avenue and Thirty-fourth street, is certain some time to see a great retail business. Wherever masses of human beings from different quarters are poured in a single channel, real estate men may reasonably expect that good stores will pay.

PUBLIC MARKETS.

It is announced that the Vanderbilts have bought the site of the Manhattan market, foot of Thirty-fourth street and North River, and that they propose to rebuild the market and connect it with their system of railways.

It is not wise to permit our great markets to be in the hands of private persons. They ought to be under the city government, and should be regarded as places where meat, fish and provisions could be bought, subject to municipal control, so as to protect the health of the food consumers. Our citizens would insist upon municipal markets if they had any confidence in our city government. But the waste and confusion in city affairs is allowing businesses, like owning markets, which should be public, to pass into private hands.

Washington market is doomed. It is remote from the populous parts of the city. New York ought to have four great markets in addition to those it has now. One at Thirty-fourth street on the North River, another at Thirty-fourth street and the East River, a third near the Second or Third avenue bridge on the Harlem River, and a fourth near the Metropolitan bridge. The two last markets could use the elevated railway system to distribute the meat and

vegetables to the dealers and large hotels and restaurants.

Why do not some of the women's clubs take some action on behalf of the working girls, who are forced to patronize the elevated roads from 5½ to 7 o'clock? On the East Side, the cars become jammed with men before Canal street is reached, and the vast swarm of working girls throng the platform up to 23d street, unable to get on the cars. They are thrust back by the brakemen, and if they do get in are forced to stand, without even the protection of the straps, which are to be found in the street cars. There ought to be special women's cars starting from Chatham square, to run during the commission hours. If not special women's cars, then cars in which it is explicitly understood no woman shall stand while there is a man sitting.

Why don't some of our state legislators move in the matter of dower rights? The laws are in a confused state and promote litigation without serving any good purpose. Real property should be put upon the same basis as any other property. The laws which require the wife's signature and which recognize her dower right, divert investments from real estate into other securities. There are many active men who are unfortunate in their domestic relations, who cannot now buy or sell real estate except through third parties, which is always dangerous and harassing. In justice the law should provide that a man shall take care of his wife and family, no matter what property he may be possessed of. But there are pitfalls enough in the transfer of real estate without the additional complications which arise from the refusal or inability of wives to join with their husbands in consenting to the sale of real estate.

A case of this kind is a sample of what often occurs. A person who had procured a divorce from his first wife sold a piece of real estate near the Central Park. As the divorce was absolute, he has the right to convey without the discarded woman's consent. But he subsequently remarried and had another family. The person to whom he sold the lots wished to resell them, but though the original owner was practically a single man when he first conveyed the property, he was found to be married, and the proof had to be furnished of his legal ability to convey property without any one else's consent.

Then, in the case of an insane wife, or her temporary absence in Europe, see what unnecessary delay is caused. Women themselves would very willingly give up their dower right in real estate if the law recognized the legal obligations of the husbands to support them, no matter what their money was invested in.

CLUB SITES.

Certain members of the Manhattan, Lotos and Union Clubs think that their club houses are now too far down town. The fashionable centre is moving up, and fashionable clubs must be where rich people do most congregate. The Knickerbocker Club has purchased the residence of Peter Moeller, on the northeast corner of Thirty-second street and Fifth avenue, but even this location is criticised as being too far down town. It is settled that every first class club must be on Fifth avenue, but there are several difficulties in the way. There are very few suitable houses and no vacant lots in desirable locations. More than one club has committees appointed to negotiate for good sites, and, no doubt, ten years will see all the principal clubs above Thirty-fourth street on Fifth avenue. It is not impossible that twenty years from now the fashionable clubs will be in the neighborhood of Central Park.

Such clubs as have funds ahead might copy a page from the history of the Roman Catholic Church, which wisely buys real estate ahead of improvements in all the growing cities of the world. A recent visitor to Galveston, St. Louis, San Francisco and other Western cities says that the sites chosen by the Catholic Church all show rare sagacity as to the future of real estate in the leading cities. But there is no need to go West to find a proof of this. The cathedral and school on Fifth avenue in this city, and the location of convents along the North River and on this island all show remarkable business sagacity. A well chosen site would be a good investment for a club, which has not money enough as yet to erect a building of its own.

HINTS AND CAUTIONS ABOUT MINING.

While the stock market has been dull and inactive during the past week, the New York Mining Board has been doing a large and lucrative business. Seats in this board, which sold last October for $700, are now quoted at $2,400, and it is believed that they will reach double that figure before the close of the year. It is to be regretted that the brokers will deal in stocks which they know are very dangerous. Half the business some days is in the unlisted State Line stocks, the most treacherous and baseless bubbles ever floated on this market, which is saying a good deal. There are four of these so-called State Line mines, which were selling one day last week at $7,000,000; their real value being probably about $25,000 as prospects. The manipulators are the same dishonest fellows, Californians, who swindled people so extensively in Hukill, Freeland, Chrysolite, Little Chief, etc. We repeat, the State Line mines are in a location which it is impossible to work at a profit; they have not been reported upon by any expert of repute and some fine morning, the owners of the stocks will want to sell and will not find anybody who cares to buy.

While all the reports from Silver Cliff are good, the stock in the early part of the week was weak. It is claimed that over a hundred tons a day are milled, and that the returns will show at least twenty-seven ounces to the ton. Something may be developed at the annual meeting on May 2d.

Calaveras is once more said to be a buy. It is reported that it has been making $12,000 a month, and will shortly declare a dividend.

Findley, it is said, will soon become active. The reports of the mine are all good, the small debt will soon be paid off and it would not take long to earn a dividend on 100,000 shares.

The San Francisco *Post* hints that a new ore body in the Comstock, is between the Sierra Nevada and the Utah. Certainly something has caused the recent buying.

The Leadville mines are becoming active again. They are all liable to find rich pockets, but the stocks of these properties are subject to violent fluctuations. First and last, there has certainly been a great deal of silver taken out of the Leadville mines, and it has not been exhausted yet by any means.

Caribou is coming to the front again, and is likely to be actively dealt in. There has been an increase in the capital stock, which has been taken up at from $2 to $3 a share. Brayton Ives, late President of the regular Stock Exchange, has recently bought a seat in the regular Mining Board, in order to handle Caribon stock, he being president of the company. A great deal of money has been taken from this mine, and the property is rich in low grade silver ore.

It is in contemplation to put Homestake, Deadwood and Ontario on the New York Mining Board. These are investment stocks and among the most respectable of their class. They have always paid their dividends and promise to continue doing so for some time to come. It has been found that the regular stock board is no place for mining shares. It is impossible to deal in them with any advantage. It would be to the credit of the Mining Board if the investment stocks should be more largely dealt in.

William M. Lent has gone to California. Some time during the summer, he will doubtless make another deal in Bodie and Mono. The Lent shaft is down over 500 feet, and when the crosscut is commenced, there will be music in the Bodie stocks. We should not be surprised to see an assessment on Bodie before July.

[From our own Correspondent.]

NEW YORK REALTY AT ALBANY.

ALBANY, April 28.

The rapidity with which measures are being acted upon indicate that the Legislators are beginning to think that the session must end sometime this year. The end is at least three, if not four weeks off yet. The McCarthy charter has been disposed of by the Senate, and is now in the Assembly committee on cities awaiting the pleasure of the politicians, who are desirous of fixing it up to suit themselves and their political purposes. Other New York measures are fast approaching decision.

The Assembly has framed the bill for the repavement of Fifth avenue. The special commissions was stricken out of the bill, also the provisions for the issue of bonds. As transformed, the act provides that the avenue shall be repaved by the Commissioners of Public Works, from Washington square to Fifty-ninth street, and the sum of $220,000 to be inserted in the tax budget to meet the expense. The bill originally provided for the issue of half a million of bonds. The Senate has yet to consider and act upon it.

The Senate has passed a bill for the erection of a pier at the Battery for the use of the Police Department, and it has been favorably reported in the Assembly.

Senator Forster's bill for the improvement of Riverside park and public squares and places at the intersection of the Broadway boulevard with Sixty-third and Sixty-sixth streets, has passed the Senate. By its provisions the Department of Parks is directed to proceed with the improvements and enclosure of these parks and places. To meet the expense the Controller is authorized to issue upon the requisition of the Park Department, a public fund or stock not exceeding $10 ,000 in all, $50,000 to be payable November, 1882, and the balance November, 1883, the proceeds to be used for the payment of work and materials required on these parks. The Board of Estimates provides the fund for meeting the bonds in the tax levy.

The Senate has also passed the bill providing that frame buildings with shingle roofs and eight-inch brick foundation walls may be erected in the Twenty-third and Twenty-fourth Wards, north of One Hundred and Fortieth street.

A bill, introduced by Mr. Bixby, has been reported in the Senate, providing that East One Hundredth street, between Third avenue and the river, shall be widened and made an 80 foot street in that section, by adding 10 feet on each side, or 20 feet in all. The Commission of Public Works and the Corporation Counsel are directed to take all necessary legal measures to acquire title of the lands to be so taken, and cause the street to be widened forthwith.

The following bill of interest to all property-holders of New York has passed both houses, and sent to the Governor:

SECTION 1. The commissioners of taxes and assessments for the city and county of New York may, during the month of May in any year, act upon applications for the reduction of assessments upon real or personal property, filed in their office on or before the thirtieth day of April preceeding; and cause the corrected amount of any assessment, reduced by them, to be entered upon the assessment rolls for the year in which such correction may be made.

§ 2. This act shall take effect immediately.

The act, providing for the appointment of a commission of five residents of the city of New York by the Governor, to be known as Water Commissioners to such office for one year, has been ordered to third reading in the Assembly, and a like bill reported in the Senate; the com-

mission so appointed to examine and consider all questions relative to the present supply of water, preventing waste of water, regulating and controlling the use, obtaining, storing and distributing an additional supply, relative to any changes or alterations in the present Works, and relative to obtaining, storing and distributing a supply of salt water, to be used for fire and other purposes, and to employ engineers to assist them in these duties. The Commission to report early in January next to the Legislature their proceedings under this act, and their opinions and recommendations, with estimates to carry into operation any plan recommended by them.

The bills for the extension of Lexington avenue on its opening, between Ninety-seventh and Ninety-eighth and Ninety-ninth to One Hundred and Second streets, was amended in the Assembly by striking out the provisions in the second section, prohibiting the application of chapter 209 of the laws of 1839 in the proceedings under it, and passed to-day. It now goes back to the Senate for concurrence in this amendment, which will, no doubt be done, and it will be sent to the Governor, reading as follows:

SECTION 1. The corporation counsel of the city of New York and the department or board of said city having the direction or charge of opening streets, avenues, parks or places in said city, are authorized and directed to take all necessary legal measures for the purpose of opening, extending, regulating and grading, and for taking and acquiring lands necessary for opening and extending Lexington avenue in said city from Ninety-seventh to Ninety-eighth street and from Ninety-ninth to One Hundred and Second street.

SEC. 2. All laws now in force relative to proceedings for opening, extending, regulating and grading streets and avenues in said city, and for taking and acquiring lands necessary therefor shall apply to the proceedings authorized by this act.

SEC. 3. All motions and applications for the appointment of commissioners in said proceedings may be made at any special term of the Supreme Court appointed to be held in and for the city and county of New York.

SEC. 4. Upon the coming in and confirmation by the court of the commissioners appointed in said proceedings, the Commissioners of Public Works in said city shall proceed and actually open, extend, regulate and grade said avenue between said streets.

SEC. 5. This act shall take effect immediately.

The bill to set apart a dock or pier in the canal-boat district for ferry purposes was reported adversely to-day, and the bill killed in the Assembly.

The Assembly Committee on Cities this morning reported favorably a bill introduced some time since by Mr. Hamilton authorizing the Commissioner of Public Works to adopt such measures as he may consider necessary to prevent the waste of Croton water in New York, and make such changes in the connections with the mains as he may decide necessary for that purpose. The bill is supposed to cover the introduction of water metres, although such metres are not mentioned in the act.

Considerable opposition has developed to the Spuyten Duyvil Parkway bill which passed the Assembly last week. A number of remonstrances have been sent to the Senate opposing any change in the location of the street, and it is being persistently fought, and as vigorously pressed before the Senate Committee. The property holders affected by the proposed change appear to be divided on the bill, and its fate may be considered doubtful.

THE SITUATION ON THE STREET.

The market will not down. The leading operators have tried in vain to materially depress values. They have been aided by all the most potent influences and the press. The public have been apparently kept out of the market; sales are not heavy, yet prices are being steadily maintained. Even where special influences have been brought to bear, as in the case of Western Union and Lake Shore, the best thing that could be done would be to break the price down two or three points. There are two new telegraph companies under way, the Rapid and the Mutual Union. The bonds of the latter are already more than taken up, but it will take something over two years before the lines can be built, and a great deal can be done in two years' time. The Rapid telegraph has good men in it and plenty of means, and in time Western Union will be affected, but to-day it earns probably ten per cent. on its $80,000,000; hence the strength of the stock. Lake Shore has also been sold down, because of the organization of a company to build a parallel line; but this will also take a couple of years, and in the meantime Lake Shore is earning from nine to eleven per cent.

One of the influences sustaining the market is the enormous emigration. It is now reasonably certain that over 500,000 people will land here this year. The emigration is first class; estimated in money value, each healthy emigrant is worth $1,000, so that the addition to the wealth of this country will this year be equal to $500,000,000 in bone and sinew. What if we should have short crops? These emigrants nearly all go West, and they will want houses, food, furniture and tools to work with. This means large sales of lands, an increased business on the railroads, and a thriving retail trade. It is idle to talk of bear times in the face of this gigantic emigration.

Another factor in the case is the abundance of money. It is as certain as anything can be that from now till the close of the year the rates for money will rule low. The Treasury will be forced to pay out large sums and there will be no shrinkage of circulation. There is still doubt about the crops, which will not be dissipated until the middle of June. But times will continue prosperous even if the cereal yield should fall off somewhat.

The speculation in real estate has not yet made its appearance, but come it will, and land will see higher values than ever before in the history of the country.

THE PROPOSED ROTTEN ROW.

Regarding the proposed additions to the equestrian paths in Central Park, it is a mistake to suppose that they are needed for the accommodations solely of riders. It appears that the Park already contains more than four times the length of riding way that is found in the largest park of London, and the extent of ground reserved to equestrians is about as large as in the largest of the Parisian parks. What is required is a ride alongside a carriage drive and walk, which, together, would form a fashionable "promenade" after the French style.

Rotten Row, in London, does not fulfil these conditions, as it is separated in most of its extent from the drive by the sheet of water called the Serpentine. It is separated from the main part of Hyde Park, and is about three-quarters of a mile long, nearly forty yards broad, and perfectly straight and level. It is crossed by no roads and no one is allowed to cross it on foot during promenade hours. Riders are, therefore, allowed great freedom as regards speed, etc. On each side of the ride are shaded walks which are a favorite promenade.

The principal ride in Paris is immediately adjoining the drive, but there is no path alongside. It is superior to the ride in Central Park only in being kept in better condition, and in bringing riders alongside the carriage drive. Although it is three times as long as Rotten Row, it is very crowded, owing to the custom of riding and driving backward and forward in procession on that part of the road.

The ride which is proposed for the east side of Central Park is only half a mile long and 40 feet wide. It is laid out in the most frequented part of the Park, and adjacent to the mall on the west and the east green, the children's playground on the east, and is curved and of irregular grade in every part. It is about half as long as Rotten Row, and one-sixth as long as the Paris ride mentioned. It is, therefore, argued by Mr. Frederick Law Olmstead, that if the road became popular it would be so crowded as to be often impassable. It would also be much more difficult and expensive to keep in order than either of the European rides on account of the grades as well as the extreme variations of temperature in this climate. The present ride in Central Park has never been kept in decent condition, even in the best times. The Commissioners could never afford to water it or to relay it with screened gravel. It seems, therefore, hardly likely that the proposed rid would be kept in proper condition, and the first cost of construction would be a comparatively small item.

As there may be some curiosity as to how a fashionable promenade came to possess so unsavory a name as Rotten Row, it may be said that antiquarians either discover or conjecture that the original name was Rue du Roi (King street), and that it became corrupted through vulgar cockney usage. Although the name might be properly applied to most of the streets of New York this spring, it is hoped that it will not be imported to Central Park.

OUT AMONG THE BUILDERS.

Mrs. Anna Ruppert and others will erect three flats on East Forty-fifth street and one on Forty-sixth street, from designs by William Kuhles. They will each be 25x63.6, with extension 9x16, and five stories high, with basement. The fronts are to be of Philadelphia brick, with brown stone trimmings. The cost is $50,000. William Kuhles has drawn plans for a building to be put up in First street, extending through to Houston street. It will be five stories high, with brick fronts. It will have a frontage of 25 feet 3 inches on Houston street and 25 feet on First. The average depth is to be 73 feet. There will be stores on Houston street, with dwellings above. Judge John A. Dinkel is the owner. The estimated cost is $17,000.

Henric G. Folkman will build a four-story flat, 25x80 feet, with brown stone front, on West Fifty-first street. The cost is $15,000. William Kuhles is the architect.

On the southeast corner of Hudson and Leonard streets, a nine-story building is soon to be built. It will be constructed of molded brick, with brown stone front. It is to be 100x40 feet on Leonard street, and 116 feet on Hudson. It will be 100 feet high above the curb, and used for stores. One tenant will probably occupy the whole building. It will have four elevators. The boiler room will be underneath a 12-inch granite walk. The lintels will be of iron. Robert Ogden Goelet is the owner. The cost is $100,000. E. H. Kendall is the architect.

A private stable is to be erected on Fifty-fifth street, between Fifth and Sixth avenues. It will be 25x100 feet, three stories high, and built of brick, with stone trimmings. Benjamin Brewster is the owner, and J. Correja the architect. The cost is $15,000.

A. Mowbray will put up two houses on the north side of Sixty-ninth street, from plans draughted by Lamb & Wheeler. They will be 26x97 and 34x85 feet respectively. In the first story is to be a parlor, library, reception hall and butler's pantry. In the widest house there will be private spiral stairs running from the basement to the top of the house. Lifts run from top to bottom. In the basement, the billiard room, laundry, kitchen, and servants' pantries communicate with the butler's pantry by private stairs. There is a fire-place in the wide house, at the balcony overlooking the platform of the stairs. Above the second story all the apartments are arranged in saloon style, with toilet, bath rooms, and so forth. The servants' apartments are in the fourth story. The houses are to be four stories high, with basement, constructed of a combination of brown stone, rubbed, tooled and carved. The cost of the two houses will be upwards of $90,000.

On the south side of Sixtieth street, 250 feet west of Broadway, an apartment house is soon to be built. The main building is 70 feet deep and 90 feet deep over all. It will have a frontage of 75 feet, with an extension of 19 feet 6 inches. It will be six stories high, and built of brick, trimmed with Ohio stone. There will be eighteen suites, each containing nine rooms. It will have a butler's pantry extension, and be heated by steam. It will also have a steam elevator. The finish is to be hardwood. The front will be plate glass. It will cost from $90,000 to $100,000. Margaret Crawford is the owner and A. B. Ogden the architect.

F. R. Walker will erect three houses on the

south-east corner of Seventy-ninth street and Lexington avenue. Two of the houses are to be 16x60 feet, and one 18x60 feet. They are to be three stories high, with basement, having brown stone fronts and iron cornice. The cost is $35,000. The architect same as last.

On the southwest corner of Second avenue and Seventy-third street a six-story brick cigar factory is to be built, it will have 51 feet front, with a depth of 110 feet. The cornice is to be iron. Sutro & Neumark are the owners, and the cost $40,000. A. B. Ogden is the architect.

The same firm will construct five tenements, of which three are on Seventy-third street, and two on Second avenue. They will be 28x70 feet, four stories high, built of brick with brown stone fronts. The estimated cost is $60,000. Mr. Ogden is the architect.

Mark Rinaldo is to erect two French flats on the south side of Fifty-fifth street, 100 feet east of Second avenue. Each will have a frontage of 25 feet, with a depth of 59 feet for the main building, 21feet extension. They are to be five stories high. Each apartment is to contain eight rooms. They will cost $13,000 each. They were designed by A. B. Ogden.

An extension is to be added to the stable on Fourth avenue, 51 feet south of Seventy-eighth street. It is to be 25x85 feet, 4 stories in height, and constructed of brick, with brick cornice. John Webb is the owner, and the cost $10,000. The plans were drawn by Mr. Ogden.

Mr. Cole will add a one-story brick extension to his house at 162 East Sixty-second street. It will be 13x20 feet, and cost $1,500; architect same as last.

At 674 and 676 Washington street a brick building for storing ice is to be erected by Beadleston & Woerz, the brewers. It will have a frontage of 54 feet, and a depth of 110 feet 5 inches. Its height is to be five stories, and cost, $50,000; A. Pfund is the architect.

J. & C. Fisher, piano-makers, will erect a brick factory, 70x100 feet, nine stories high, on West Twenty-eighth street, between Ninth and Tenth avenues, from designs of G. B. Pelham. The cost is $35,000. Mr. Pelham has plans for raising the Park building, bounded by Park row, Beekman and Nassau streets. It will be raised three stories and be fitted up for offices. The material will be brown stone, with iron mansard roof. It will have two steam elevators. On Park row and Nassau streets the fronts will be 90 feet, and 120 on Beekman. The cost is estimated at $70,000. Orlando B. Potter is the owner.

H. J. Schwarzmann & Co., the architects, have just won by competition the right to draught plans for a home to be erected for the Society of B'nai B'rith at Mount St. Vincent on the Hudson. The building is intended to accommodate one hundred persons. It will be built of brick, with stone trimmings. Its height is three stories with attic, and the cost $75,000.

Mr. Edward Clark has commenced the excavation of the plot of ground on the north east corner of Seventy-third street and Ninth avenue running east 600 feet. preparatory to the building thirty-six first class four-story and basement private dwellings.

The New York Central and Hudson River Railroad are about to erect buildings on the ground formerly occupied by the Manhattan Market, on the block bounded by west Thirty-fourth and west Thirty-fifth streets and Eleventh and Twelfth avenues. They are to be built of brick and granite trimmed with blue stone, two stories in height, heavily and substantially built, and the foundations will all be on spiles. They will be built in two rows with an arched centre, in which there will be two tracks erected, so that the railroad company may deliver merchandise directly at the doors of their tenants. The cost will be about $150,000, and the plans were drawn by Joseph Richardson.

Mr. Coggeshall is to build a five-story apartment house on the corner of Ninth avenue and Fifty eighth street. It will be 100x70 feet, and constructed of brick, brown stone and terra cotta. It will contain twenty-five apartments, each having from seven to eight rooms. The cost is $75,000. The designs were made by C. W. Romeyn.

A Hebrew Benevolent Orphan Asylum is to be erected in Tenth avenue, extending from One Hundred and Thirty-sixth to One Hundred and Thirty-eighth street. It will accommodate six hundred children. Bonds to the amount of $400,000, at 3 per cent., for thirty years, have been placed for its completion. Some three or four architects are now competing for the right to prepare plans for the building.

William Jose has perfected plans for a laundry and bakery for the orphan asylum to be built on the North Side of Eighty-ninth street, and 150 feet east of Avenue A. It will have a front 65 feet, and a depth of 25 feet. The cost is $6,000.

At Blauveltville, Rockland Co., a large orphan asylum has been completed. The building has a frontage of 100 feet and a depth of 50 feet. It is constructed of brick and has fire-proof stairs. It will be heated by steam and ventilated by steam. It will also have a steam laundry. There will be ample accommodations for 300 children. The steam fitting was done by Nassau Manufacturing Company, the plumbing and gas fitting by Butler, McAuliffe & Gaboy, and the gas machine was furnished by O. Tierill. It cost $45,000. William Jose is the architect.

There is great activity among the builders of Yorkville and Harlem, particularly in the neighborhood of Avenue A, or, as it is now beginning to be more euphoniously called, Pleasant avenue. The larger number of the buildings being erected are apartment houses for which there is an unusually great demand, in fact, some families preferring to wait in their present homes until the first of June, so as to be able to get rooms in one of the new houses being erected on Pleasant avenue.

BUILDINGS NEARLY COMPLETED.

In West Eighty-third street near the Boulevard, Mr. C. Kruse has nearly completed the Hanover apartment house, which will be ready for occupancy in a few days. It will be 31x86 feet, and five stories high. The front is brown stone. It is finished partly in hard wood. The plumbing has been done in the most substantial and satisfactory manner. The windows in each room open into the outer area, thus giving ample light. There will be a separate stair case for the servants, at present nearly all the apartments are let. Mr. Kruse intends to build several other houses. Wm. Kuhles is the architect.

Brooklyn.

Mr. C. Edward Fougera will erect a large apartment house on Atlantic, Clinton and State streets. It will have a frontage of 180 feet on Clinton, 91 feet 6 inches on Atlantic, and 91.6 on State street. It will be built of brick, with stone trimmings, and be seven stories high. In it will be eight stores and forty suites, each suite containing eight rooms. It will have a steam elevator for the use of the tenants, and one for the use of servants. The grand entrance hall will be fire-proof throughout. The servants' stair-case will also be fireproof. It will contain all the modern improvements, and be constructed in the most substantial manner. This structure is intended to be equal to the best buildings of its class in New York. M. J. Morrill is the architect.

On Washington avenue, near De Kalb, Chester B. Lawrence will build a house 25x75 feet, and four stories high. It is to be constructed of brick, with stone trimmings, including the cornices and dormer windows. Mr. Morrill designed it.

An extension is to be built to Dr. Cuyler's church, corner Lafayette avenue and Oxford street. It will contain a Sunday school-room, 96x100 feet. In the first story is to be a lecture-room, pastor's study, two church parlors and a large entrance hall. The Sunday school-room will be in the second story. The kitchen, which will be in the basement, will have dumb-waiters running up to the parlors. The cost, including the purchase of adjoining property, is about $30,000. The architect is M. J. Morrill.

A new wing is to be added to the Homeœpathic Hospital on Cumberland street, near Myrtle avenue. It will be 102 feet long, 23 feet wide and four stories high. The hall, staircase and elevator are to be fireproof.

There are to be three wards, with twenty beds in each It will contain a kitchen, laundry, pantry, closets, &c. It will be built of brick, and heated by steam, the steam heat being extended through the old building. Mr. Morrill is also the architect. The cost, $20,000.

The house on the southeast corner of Second place and Court street will soon be remodelled into stores. It will be three stories high, 50x25 feet, with stores underneath. It will be built of brick, with brown stone front. The front is to be plate glass. The cost, $4,000. Mr. R. Dixon is the architect. About 50 feet from the corner of Court street Dr. Ambrose will erect a two-story brick store, 32x25 feet, from designs by the same architect, at a cost of $2,500.

Mr. Wilbur will add a one-story extension to the store at 316 Court street, between Degraw and Sackett streets, 15x42 feet. It is to be constructed of brick, and cost $1,000. R. Dixon is the architect.

On St. James place, between Fulton and Atlantic avenues, Mr. Stafford will erect five private residences, 20x45 feet, and three stories high, with basement, from plans drawn by Mr. Dixon. They will be of brick, with brown stone fronts, and will cost $35,000.

George Phillips will put up three houses on Hancock street, between Nostrand and Marcy avenues. They will be of brick, with brown stone fronts, three stories high, with basement, and cost $7,000 each. R. Dixon is also the architect.

On the northwest corner of Sackett street and Sixth avenue, Isabella Gordon will build two houses, 20x45 feet, three stories high, with basement and French roof. They are to be brick, with brown stone fronts. The cost is $16,000. Mr. Dixon is the architect.

At Coney Island, Mr. W. Vanderveer will erect a mammoth bathing pavilion, 200x60 feet, and containing 700 separate bathing houses. It will be fitted up with restaurant, billiard and bar rooms. There will be a large cupola in the centre, and a small one at each end. It is to be constructed by days' work, and will cost, when completed, $75,000. R. Dixon designed it.

Harman Phillips will build four brown stone houses, 20x45 feet, three stories high, with basement, on the south side of Halsey street, and east of Arlington place, from designs by I. D. Reynolds. The cost is $24,000. They will be for sale.

A first-class three-story frame dwelling house, 20x45 feet, will be erected by E. W. Brunsen, on Spencer street, near Myrtle avenue. It is to be divided into three flats. It will cost $3,500. I. D. Reynolds is the architect.

Hudson County, N. J.

JERSEY CITY.

Never since the inflated period, immediately preceeding the disastrous panic of 1873, has the demand for houses in Jersey City and the surrounding neighborhood been at all adequate to the supply until within the past sixty days, when the applications for small dwellings and flats began to pour in to the real estate brokers, and now they report that absolutely every desirable home is rented for the coming year, and that they are daily turning away scores of applicants. In proof of the above, one broker cites the case of a galvanizing company, lately started in Jersey City, who employ sixty families, fifty of whom are actually living in Brooklyn from lack of suitable homes adjacent to their factory. The greater portion of the applicants are residents of Brooklyn, Newark or Harlem. The advance in rents has been from 5 to 8 per cent. for small houses and flats, while large dwellings may be obtained at last year's prices; although we hear of an exceptional case of a house, located at Sussex and Warren streets, which had been renting for $900, now bringing $800.

There is considerable demand for houses worth from $2,500 to $7,000, from persons looking for

homes within easy access of New York, and quite a number of sales have taken place, without causing any material advance in prices as yet. There have also been several auction sales, at which the various parcels offered have brought satisfactory prices. If some of our capitalists would build a number of Philadelphia one-family houses, or apartment houses in locations near the ferries, they could readily realize 10 per cent. on the investment, or at least so say the real estate brokers.

The high tax rate, no doubt, keeps many people away from Jersey City, and this is caused by two facts; first, the State of New Jersey takes charge of the money produced by the renting of the water front; and, secondly, the different railroad companies pay their taxes to the State Treasurer, who divides the proceeds among all the counties for a school fund. Thus Jersey City gets only a small portion of what she is entitled to. The People's Protective Association, to whom belongs the credit of making the numerous horse-car companies reduce their fare to five cents, are about taking action looking to a change of the existing laws regarding the payment of taxes by the railroad companies. The Pennsylvania Railroad have purchased considerable property in the neighborhood of First street, to be used in straightening their road by a cut through Bergen Hill, instead of going around it as the trains do at present. This will be an improvement over the old-fashioned tunnels used by the other railroads.

ON THE HEIGHTS.

The advance in the price of realty on Jersey City Heights this spring has been marked, and it is claimed by some of the real estate brokers that it is equal to thirty per cent. over and above the price prevailing two months since. In confirmation of the above, we heard of a dwelling on Madison avenue for which the owner refused an offer of $10,000 this week, and for which house he only paid $7,900 two months ago. There has not been a proportionate advance in rentals, although houses are in good demand. Without doubt, when the fact that this beautiful and healthy suburb can be reached in seventeen minutes from Liberty street ferry, by the Newark & New York Railroad—sixty-three trains daily—becomes generally known there will be a large increase in the permanent population of the Heights. The rates of commutation have been fixed at $5 per month, or $45 per annum. It can also be reached by crossing the Cortland or the Desbrosses street ferry and taking the Monticello avenue, Greenville, Court House or Montgomery street line of cars. Fare, but 5 cents on cars, and ferry tickets ten for 25 cents. Most of the houses have all modern improvements and conveniences, the streets are all flagged, paved, sewered and lighted by gas. There is a considerable number of new buildings being erected, principally three-story brick houses, rows of which have been commenced on Madison, Storm, Virginia and Bergen avenues and Veteline place.

Sales.

Messrs. Wm. Harney & Son have sold a plot of ground on Jersey avenue, near York street, 55.6 x100, to Mr. Tierney for $12,000, and seventeen three-story and basement brown stone dwellings on York street, near Varick street, 16.8x45x100, for $7,500 each for the account of Mr. Tierney.

Mr. F. H. Spengeman has sold the two-story frame house No. 22 Jewett avenue, 25x100, to Carl F. Grabo for $1,700.

Mr. Joseph Warren has sold the lot No. 51 Sussex street, 108x100, for $1,450; the lot and three-story brick dwelling No. 274 Third street, 20x33x100, for $4,700; the two-story brick house No. 306 Fourth street, 16.8x75, for $2,790; the two-story frame house No. 347½ Fifth street, 16.8x100, for $2,500; the two-story frame house No. 315 Fourth street, 16.8x100, for $1,725, and the brick dwelling No. 236 Third street, 18.9x30x100, for $4,525.

Messrs. John Craven & Son have sold the three-story brick dwelling at the southeast corner of Wayne and Barrow streets, 68x100, to George R. McKinsie for $12,000 cash; four frame houses Nos. 233 and 235 Newark avenue, 44.10x63, for $10,000 to Mr. Scott, and a lot and stable on Jefferson street, near Palisade avenue, 25x102.6, to Mr. Callahan for $550.

BUILDING ITEMS.

Mr. Wm. McKean is erecting an apartment house, 31.6x55, on Greene street, near Montgomery, and adjoining which another flat is being built.

Mr. Cornelius Traphagen is building a row of four apartment houses with stores on the first floor, 25x55, at the corner of Pavonia avenue and Henderson street, and one at the corner of Ninth and Henderson. These flats will be constructed of pressed brick, highly ornamented with blue-stone trimmings. The architect of these buildings is Mr. L. N. Broome, who has also just completed a plan for a dwelling in the modified Queen Anne style which is to be erected on Broadway, near Graham avenue, Paterson, for Mr. Strange at a cost of $25,000.

Mr. Tierney is erecting three three-story brown stone houses at Jersey avenue and York street, and will soon commence to erect three more on the adjoining plot of ground purchased by him this week.

HOBOKEN.

In this beautiful suburban city of 30,000 inhabitants numerous improvements are making, such as the building of a new City Hall, the paving of Washington street with Belgian blocks and the tunnelling of the Palisades from Weekawken to New Durham, a distance of about 2 miles. There also is located the famous Stevens' Institution in addition to what is claimed to be the best German-American school in this country, and for the benefit of which a fair has just been held, realizing some $8,000. There has not been much advance in the price of real estate in Hoboken within the past twelve months, nor has the price of rents materially changed, although the demand for small houses and flats is much greater than that existing last year.

The Hoboken Land and Improvement Company will soon start to cut through the street leading from the center of the ferry house to Hudson street, a distance of about 300 feet, and will erect on either side of the new street rows of dwelling houses.

Sales.

James Benson's Sons have sold the three-story brick dwelling No. 66 Bloomfield street, 20x45x100, to Mary E. Griffith for $4,000; the brick dwelling No. 263 Garden street, 15x45x100, to Sarah Greenbaum, and a lot on Washington street, 200 feet south of Seventh street, 24.6x100, for $3,000.

The Oswego & Midland and the West Shore Railroad companies, in both of which the Hon. Samuel J. Tilden is the leading spirit, have been buying property principally in the northern portion of the town. The latter company have also become the owners of the Weehawken Ferry, which they intend to move to a point adjacent to the new tunnel.

BUILDING ITEMS.

Mr. T. Butts is erecting five brown stone houses on Hudson street, between Ninth and Tenth, to cost, including the ground, $70,000. These houses are being erected to sell, and the owner has placed the charge of them in the hands of Mr. E. N. Strother.

Mr. Meyerberg is erecting a large silk factory at Third and Clinton streets.

Messrs. Keuffel & Esser will soon complete a new factory for the manufacture of mathematical instruments in Fourth street, near Adams.

Mr. Dodd is erecting a residence on the corner of Hudson street and Ninth. It is to be in the Queen Anne style and will cost not less than $40,000.

A row of brown stone houses have been built on Garden street, between Tenth and Eleventh.

Mr. Brown is building three brown stone dwellings on Bloomfield street, near Eleventh, at an expense of $19,000.

The American Architect and Building News has an intelligent New York correspondent who criticises unfavorably, from an architectural point of view, the United Bank Building, corner of Broadway and Wall street. He complains that the design is a mixed one, that, while strong in parts, it is feeble in others, and that there is no congruity between the classic treatment of the pilasters and the Roman character of the entrances. He thinks better, however, about the Union League building by the same architects. The building is certainly a striking one, and if the interior arrangements are all right and the tenants satisfied, the owners can afford to let purists in architecture criticise the building as much as they please.

THE CITY HALL, HOBOKEN.

The new City Hall, which will soon be completed, occupies the block bounded by Washington, Newark, Bloomfield and First streets. It is erected in the centre, and will be surrounded on all four sides by a lawn laid out with flower-beds, etc.

The building fronts on Washington street 110x93, and is three stories high. The basement contains the Recorder's court, the Chief of Police's private office, the city prison, the police station, the janitor's apartments and lodging rooms for vagrants. On the first floor there are offices for the Mayor, City Clerk, Treasurer, Water Register, Water Commissioners, Police Commissioners, Assessors, and the Council Chamber, 60x30, with a committee room, having fire-proof walls, for the preservation of documents. The second floor contains the Armory, a drill hall, 60x107, with a ceiling extending into the roof, 35 feet high, and seven company rooms of various sizes.

It is substantially built, the lower walls being 2 feet thick and the upper ones 20 inches, and the division walls vary from 12 to 16 inches; the corridors are 12 feet wide with grained ceilings representing cross walls, and there will be three entrances, one on Newark avenue to the basement, one on First street to the Armory, and the main entrance from Washington street.

The front is of pressed brick, the basement being entirely faced with Middlesex brown stone, the rest of the building is trimmed with the same material: the cornice is of galvanized iron, the French roof is covered with metallic shingles and the whole building will be heated by steam from a boiler located under the pavement on First street. The engine house, now on the southwest corner of Washington and First streets, will shortly be removed, and First street widened 10 feet, the length of the block. The plans for this improvement have been designed by Mr. F. G. Himpler, and the cost will exceed $60,000.

THE ARCHITECTURAL LEAGUE.

This is the name of a club recently started by young architects who wish to perfect themselves in their business. It meets at 23 East Fourteenth street, and has already collected a great deal of material in the way of photographs, casts, models, drawings, etc. Twice a month they meet, when a design is submitted by one of the members, its merits or demerits discussed and its decision is left to some architect of repute. These young architects are practical people and, instead of designing palaces and temples, make for their subject a village school or the best plan for a twenty-five feet front house. They deserve encouragement.

THE ASSESSMENT COMMISSION.

At a recent meeting of the commissioners, inquiry was made by several property-owners as to the manner in which the commissioners would proceed to hear facts and circumstances relating to certain assessments as to which they had filed objections.

The Chairman, pro tem, Commissioner Kelly, on behalf of the commissioners, stated that they would proceed in the manner provided by the third section of the act, chapter 550, Laws of 1880, which is as follows:

Section 3. It shall be the duty of said commissioners, or a majority of them, to inquire into the facts and circumstances relating to any assessments to which objections may be made, and the notice filed as aforesaid, and to hear the evidence in the support of such objections or in oppositi n

thereto, and on every such inquiry and hearing to administer oaths or affirmations to all persons testifying, and after duly considering the evidence, to determine whether substantial injustice was caused by the confirmation of such assessments or otherwise; and any assessment as to which the said commissioners, upon such inquiry, may determine that substantial injustice has been caused by the confirmation of the same or otherwise, may be revised, modified, or vacated by the said commissioners, and they may award such relief to the respective parties filing such applications as shall be, under the circumstances and on the evidence presented, just and equitable; and they shall, in determining such relief, consider the fair value of the work done, for which the assessment is imposed, and the amount of benefits conferred over and above the damages, if any, caused by the improvement.

Similar proposals will be received for erecting a house for Engine Company No. 27 at 173 Franklin street.

Estimates for painting the eight free floating baths must be in the office of the Commission of Public Works Department before noon of May 4.

Proposals for repairing and painting Grammar School No. 55, in West Twentieth street, will be received up to the 9th of May at the hall of the Board of Education.

Sealed proposals for furnishing the materials for erecting a house for Engine Company No. 21 at 216 East Fortieth street will be received at the headquarters of the Fire Department up to noon of May 11.

Edward E. Rath, architect, is about to make important additions to the great building on the corner of Locust and Sixth streets, St. Louis, now owned by the Mercantile Trust Company of New York This is one of the most famous fireproof structures in the country. Three stories are to be added to it, making it 150 feet from curb to roof. It will have a mansard roof; the Equitable Life will have offices in it, as well as several Government and New York business interests.

ABOUT SOME LARGE BUILDINGS.

The Windermere apartment house on the southwest corner of Fifty-seventh street and Ninth avenue, is a notable one. The plans were draughted by Wm. F. Burroughs. The frontage on Ninth avenue will be 100 feet, on Fifty-seventh st, 125 feet, while the height from curb to roof will be 90 feet. It is seven stories high, with basement, and built of Ohio stone, Philadelphia red, buff and black hard pressed brick. This happy blending of colors will give the exterior a pleasing appearance. The columns which flank the entrance are of polished Aberdeen granite. The interior has five divisions, with thirty-eight suites of apartments. Each apartment has seven to nine rooms, and each is furnished with a buffet, sideboard and pier glass. In the basement will be large kitchens for the use of those who do not wish to cook in their own apartments. There are three hydraulic elevators which will run day and night. The entire building will be heated by steam, and be connected by telephone with all parts of the city. All the suites will have electric bells, which will connect with the janitor's rooms; and also an automatic electric fire-indicator to notify the janitor when a fire breaks out in any part of the building. The four walls will inclose a court 30 feet square, which is open to the sky; in this there will be a large automatic fire gong, while the different suites will have a smaller one. It also has abundant fire-escapes. There will be a private passage way extending from Ninth avenue to the interior court, for butchers', bakers' and grocers' wagons. Here elevators are provided for delivering goods to the different suites. The halls are tiled. Colored hall boys will be on duty day and night. The owners, N. A. McBride and Theophilus G. Smith, will furnish coal to tenants the year round at summer prices. They have already contracted for 10,000 tons to be delivered during the summer. The Windermere has been constructed under the personal supervision of Mr. Smith by days' work, at a cost of $350,000.

The trimmings inside are of hazel wood, the object being to get a hard wood lighter than black walnut. The top of the whole corner, 50x115 feet, will be covered over and used as a drying-roof. The open circular windows in the brick cornice will give ample circulation, and assist in the drying process.

At Sixty-second street and Broadway a new family hotel is to be built, which will be known as the Inca. The owner is John C. Thompson, Jr., and the architect J. C. Martin. In the erection of this hotel the intention is to supply a want, catered to in Europe, but to which little attention has been given in this country, a hotel where families may reside and have their meals served directly from the kitchen, in their own private dining-rooms. The hotel will be seven stories high, with basement irregular in shape, and cover five lots. The frontage on the Grand Boulevard will be 197 feet 7 inches long, the two lower stories being constructed of Bay of Fundy stone, the first of the rustic Ashlar style, and the second in rustic interspersed with picked stone. The five upper stories are to be of Philadelphia brick and picked stone, which will make a handsome and solid combination. The main entrance, 13 feet wide by 16 high, will be on Broadway; Egyptian Doric will be the style. Along the entire length of the front at the sixth story will extend an iron balcony 3 feet 4 inches wide. The balcony brackets will be wrought iron, and a cornice of galvanized iron will cap the building. Besides the main entrance on Broadway, there will be a private entrance on Sixty-second street leading to the elevator in the centre of the house, and by means of stairs and passages to all parts of the building. The first floor is to be 21 inches above the curb, and a hallway 8 feet wide will lead from the main entrance to the elevator and grand dining-room on the north side of the building. This room will be 64 feet long by 14 feet wide. On this floor there will be four waiting rooms 20 feet in length by 10 feet wide, and four parlors, one on each side the main private entrances. Also, on this floor are to be three suites, containing nine rooms each, and the smallest will contain 81 square feet. Each suite will have dining-rooms 20 feet long by 10 feet wide. There will be four suites in each of the five upper stories, and the whole number of rooms in the hotel 231. The basement is to be used for the working purposes of the Inca; a cistern with a capacity of 60,000 gallons, kitchen, storehouse, laundry, janitor's apartment, and a post office and telegraph office, will add to the convenience of the house. It will be fire-proof, the partitions of plaster, and the floors supported on iron. The stairs are to be of ornamental iron work, and the hallways and wainscoting laid in encaustic tiles. The front windows will be of plate glass, and the rooms finished in hardwoods. There will be a hydraulic elevator capable of carrying ten persons, which will run night and day. Central Park is only a step away, and from the upper rear windows the occupants can glance across to Fifth avenue. Although the foundations are not laid, apartments on the upper floors are already leased. The cost of the entire structure, when completed, will be $350,000.

The new office building which is projected at the southwest corner of Nassau and Beekman streets will necessitate the removal of a land mark of more than ordinary interest to old New Yorkers. The building which is to be torn down on May first was the Clinton Hall of the last generation, where lectures, musical and literary entertainments were given as much as forty or fifty years ago. Here Professer Silliman, the elder, delivered a series of lectures on chemistry in the year 1835, the hall being at that time in the fashionable quarter of the city. The original cost of the ground, excepting the corner lot, was in 1839 $55,000. The property cost Mr. Kelly in round numbers $400,000.

The plot of ground on Twenty-third street, between Seventh and Eighth avenues, formerly occupied by the Ninth Regiment as an armory, and which, it will be remembered, was burned to the ground about three years since, is now being excavated for the foundations of a magnificent apartment house.

The plot is on the south side, 200 feet west of Seventh avenue, 175x88.9, and adjoins the Twenty-third Street Presbyterian Church on the east and the Third Reformed Presbyterian Church on the west. It is also convenient to most of the leading clubs, theatres, stores, etc.

The structure when completed will be known as "The Graham," and will be seven and eight stories high, and will contain forty-two apartments, besides steam drying rooms, storage rooms, etc. The building will be essentially fire-proof; the principal staircases will be of iron and marble and the rear staircases of solid blue stone, built into the brick walls.

The halls and principal rooms will be furnished with cabinet work, in hardwood, with bronze locks, etc., on the doors and windows. It will be built upon solid rock and the plumbing will be arranged with all the modern improvements in sanitary science. The system of drainage will be as complete as that of any apartment house in this country. Equal attention has also been paid to ventilation and steam heating. Each principal room and all the hallways will be heated by steam free of charge, and each room will have an open fire-place. All the interior rooms will open into large yards. There will be three hydraulic elevators. The main halls will have tiled floors and will be wainscoted from bottom to top with marble. The front will be of Philadelphia brick with bands of light limestone, and of which latter material the cornices will be constructed. There will be three entrances on Twenty-third street, which will be handsomely ornamented with columns of polished Scotch granite. The tympanum will be of sculptured limestone. On either side of the main entrance there will be large bay windows extending to the top of the third floor.

Mr. John G. Hyatt is the owner of the property, and it will cost him when completed, including the price of the ground, $690,000. The architect is Mr. Henry J. Dudley.

REAL ESTATE IN THE ANNEXED DISTRICT.

A representative of THE REAL ESTATE RECORD took a trip during the past week through the annexed district above the Harlem River in order to obtain by personal observation and conversation with gentlemen interested in real estate there some general ideas regarding the condition of affairs and the future prospects.

In Fordham business was found to be very quiet. There is a great deal of property offered, and there have been and are some negotiations going on, but very few bargains closed.

A new fire engine house is building on Webster avenue, near the depot, which will cost about $12,000. This avenue is to be widened to 100 feet and re-named Thomas avenue.

Mr. Haskins intends erecting eight or ten frame dwellings if the ordinance permitting them is passed.

C. V. Folin & Son are building two two-story and basement frame dwellings on John street, to cost about $2,500 each. H. B. Claflin is said to be interested in this property.

At Tremont the market is almost equally quiet, but there have been many houses rented this spring, and what remain are generally poor. August Meyer has sold a cottage and lot, 50x100, on Elm street, between Orchard street and Southern Boulevard, to Alice C. Wright for $550.

At West Farms there is no building going on and little doing. There has been an active demand for small houses to rent at from $7 to $15 a month, and if there were one or two hundred empty they could be easily rented.

In Morrisania, Mr. George E. Sherwood, who is one of the most active and successful brokers in that district, reports that there has been an immense demand for small houses to rent. He has seven or eight hundred thousand dollars worth of property on his books to sell and finds considerable inquiry, but much timidity on the part of buyers for the present. "Each one," he says, "seems to be waiting for the other. But those who buy now will never regret it." There are a number of places offered for half what they are worth. For instance, a property is offered for $10,000 that passed in a trade at $30,000 a few years ago. A purchaser was recently offered a place worth $12,000 for $6,000, and he bid still less. Another residence, the house of which alone cost $6,000, is offered at $3,700. These properties are generally offered by people who lived too fast in the good times and are compelled to unload. There is very little building in this locality, although there is a large demand for houses at moderate rents. Mr. Sherwood who has lived there for thirty-two years and built very largely some years ago, thinks there will be more houses put up next year than in any previous year. Of course, if an elevated railroad be carried up there an immediate "boom" would be the consequence. He has rented many houses this spring, but not so many as last year, as the kind that are called for—at about $25 a month—are not to be had. Higher-priced houses are not rented so readily.

A two-story frame house is to be put up on Washington avenue, by Mr. Van Keuren, to cost from $2,000 to $3,000.

There is considerable activity in Mott Haven and vicinity. Negotiations are pending for the sale of a large piece of ground which, if they are carried through, will lead to the building of a large number of houses.

The writer had some conversation with a gentleman who is well acquainted with real estate matters in the annexed district to the following effect:

"Mr. X, do you find much revival in real estate matters on the other side of the Harlem River?"

"Well, so far as rents are concerned, there is a decided difference between this year and several years back. Up in Morrisania, Tremont and Fordham there have been many good houses bringing no rent during the winter time or perhaps the whole year round, but they are now all being filled with tenants at a fair rents. They may not pay a good interest on the investment, but the rents are fair, considering the past few years."

"But how is it in regard to the demand for purchase. Is there much enquiry?"

"At any point within convenient reach of the elevated railroads, say below One Hundred and Fiftieth street, there is considerable activity, but farther up there is very little doing in buying and selling. Owners and buyers are far apart in their ideas regarding values as yet. But the condition of things is improving. The recent reduction of fares on the Harlem Railroad has brought many more people to the upper part of the annexed disrtict, as is proved by the increased demand for houses to rent."

"Has the completion of the new railroads had much effect?"

"As you may see by a glance at the map, the Jerome Park Railway is only a spur from the Harlem Railroad to Jerome Park. It is merely adapted for the accommodation of visitors to the race course, and is of little account otherwise. But I find that the New York City & Northern is already attracting the attention of investors to property in its vicinity. There is a movement among the people living a little to the west of the Harlem Railroad to move still further west toward the line of the new road."

"There is some complaint regarding to lack of street improvements above the Harlem; what is your experience in the matter?"

"In the part where I am interested, Tremont and Fordham, the most pressing need is the completion of the Mill Creek sewer. It is finished only as far as One Hundred and Sixty-fifth street as yet, but the plan to carry it to Fordham should be at once carried out. I know of many parties in Tremont and that vicinity who would begin to build if that improvement were carried forward. Any one who walks through Washington avenue, from Melrose upward, will see that we have out-grown the condition of a village, and need the improvements which a crowded population demands both for health and convenience."

"What is the condition of real estate affairs in West Farms?"

"West Farms lies in a sort of pocket, out of the way of convenient lines of communication. There is no building there, and the people are, many of them, used to the old-fashioned ways and do not welcome any new improvement. It is a mile distant from Tremont station, and the only direct route to it is the horse car line, on which the fare is ten cents. There is a chance, however, of a new bridge being built over the Bronx, and a direct road being made to the Westchester station of the Harlem River & Portchester branch of the New Haven Railroad. If that were done, it would cause an immediate and favorable change in the prospect of West Farms real estate.

LAWS OF NEW YORK, 1881.

CHAPTER 33.

AN ACT relative to the collection of taxes and assessments, and of arrears of taxes and assessments, and Croton water rents, in the city of New York.

Passed March 16, 1881; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. If any taxes of any year shall remain unpaid on the first day of November, after the assessment rolls and the warrants to collect such taxes have been delivered to the receiver of taxes in the city of New York, it shall be the duty of said receiver to give public notice, by advertisement for at least ten days in two of the daily newspapers and in the *City Record*, printed and published in said city, respectively, that unless the same shall be paid to him at his office, on or before the first day of December in any such year, he will immediately thereafter proceed to collect such unpaid taxes, as provided in the following section of this act:

§ 2. If any such tax shall remain unpaid on the said first day of December, it shall be the duty of the said receiver of taxes, in said city, to charge, receive, and collect upon such tax so remaining unpaid on that day, in addition to the amount of such tax, one per centum on the amount thereof, and to charge, receive, and collect upon such tax so remaining unpaid on the first day of January thereafter, interest upon the amount thereof at the rate of seven per centum per annum, to be calculated from the day on which said assessment rolls and warrants shall have been delivered to the said receiver of taxes to the date of payment.

The same rate of interest shall be so charged and collected upon any tax levied in the year eighteen hundred and eighty, remaining unpaid at the date of the passage of this act.

§ 3. All existing provisions of law which impose a charge and require the collection of interest at the rate of twelve per centum per annum upon arrears of taxes on real and personal estate within the city of New York, upon arrears of assessments for local improvements and street openings in said city, and upon arrears of Croton water rents in said city, are hereby repealed; and in lieu of such charge of interest at the rate of twelve per centum per annum, there shall be charged and collected by the officer, authorized to collect and receive any such arrears of taxes and assessments and Croton water rents, interest upon the amount thereof at the rate of seven per centum per annum, to be calculated for the same period as interest at the rate of twelve per centum per annum is now required by law to be calculated thereon. This provision shall apply to taxes, assessments, or Croton water rents remaining unpaid and due, for the nonpayment of which the lands and tenements liable therefor shall be hereafter sold at public auction as now provided by law; provided, however, that nothing in this act shall be construed to affect the rights of purchasers at sales for taxes, assessments, or Croton water rents, heretofore made, or to authorize the redemption of lands and tenements from sales heretofore made, or to authorize the redemption of lands and tenements from sales heretofore made for any lesser sums than the sums collectible for such redemption under the provisions of existing laws.

§ 4. It shall be the duty of the comptroller of the city of New York to give public notice, by advertisement, for at least ten days, in the *City Record*, printed and published in said city, immediately after the confirmation of any assessment for a local improvement or street opening in said city, that the same has been confirmed, specifying the title of such assessment, and the date of its confirmation by the board of revision and correction of assessments in proceedings for local improvements, and by the supreme court in proceedings for street openings, and also the date of entry in the record of titles of assessments kept in the bureau for the collection of assessments and of arrears of taxes and assessments, and of Croton water rents, notifying all persons, owners of property affected by any such assessment, that, unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of any such assessment, interest shall thereafter be collected thereon as provided in the following section of this act; and all provisions of law or ordinance requiring any other or different notice of assessments and interest thereon are hereby repealed.

§ 5. If any such assessment shall remain unpaid for the period of sixty days after the date of the entry thereof in the said record of titles of assessments, it shall be the duty of the officer, authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon, at the rate of seven per centum per annum, to be calculated from the date of such entry to the date of payment.

§ 6. This act shall take effect immediately.

LEGAL DECISION.

A peculiar case has been decided in the Supreme Court by Judge Van Vorst, in which Susan S. Franklin, one of the plaintiffs purchased certain mortgaged premises at a foreclosure sale for $121,000 and entered into possession; on September 14, 1880, she executed a mortgage on the premises with other property to the Mutual Life Insurance Company for $140,000, on which she received $50,000; and then for the first time learned that one Hayward held a junior mortgage that had been overlooked at the time of the foreclosure. On September 22 the other plaintiff Day, paid the $50,000 to the Mutual Life Company and took an assignment of the mortgage. The mortgage that had been foreclosed was then assigned to Susan S. Franklin and she joined with Day to foreclose this mortgage a second time. Hayward being made the defendant. The substantial question raised by his demurrer was, can this action be maintained? It was decided that the allegations of the complaint disclosed a course of action and that Mr. Day was a proper party to the suit and judgment was given for plaintiffs on the demurrer with liberty to the defendants to answer on payments of costs.

A bill has been reported from the Committee on Commerce in the Assembly, which effects the interest of all owners of property, on the water front of the city of New York, and also of importance to the city generally. It is as follows:

SECTION 1. In all cases where the right to collect wharfage, or other emolument arising from wharf, pier or bulkhead within the city of New York will or is likely to be affected, injured or destroyed by or for the purpose of any contemplated change in water front, or by or for the purpose of any contemplated alteration, change or improvement determined upon by any department of said city since April eighteenth, eighteen hundred and seventy-one, or hereafter to be determined upon in front of, adjacent to or near a bulk-head or pier, or by hereafter taking, occupying or interfering with for any of said purposes the water front or any bulk-head or pier, the person or persons having or exercising such right shall be entitled to receive compensation from the mayor' aldermen and commonalty of said city for the value and worth thereof, as such value or worth would have been or existed, provided such water-front had not been changed, and such bulk-head and pier respectively had been permitted to remain as part of such water-front, and such right had not been contemplated or intended to be affected, injured or destroyed, and it shall not be lawful for the Mayor, Aldermen and commonalty, or any department or officer thereof, to make or proceed with any work, change, alteration or improvement aforesaid, affecting, injuring or destroying such right without having first made compensation for the value and worth thereof as aforesaid, to be ascertained, fixed and determined, and paid as in the third section of this act provided.

SEC. 2. Whenever any such right as is mentioned in the first section of this act shall have heretofore been affected, injured or destroyed, as or by any of the means, or for any of the purposes in said section specified, the owner of or person having at the time thereof such right shall be entitled to compensation therefor, and for the value or worth thereof, to be ascertained as in the next section provided, as such value would have been at the time when the same was so affected, injured or destroyed, provided the same had not been thus affected, injured or destroyed, but such water-front, and such bulk-head and pier respectively had been permitted to remain and had remained part of the water-front of said city.

SEC. 3. It shall be lawful for the said Mayor, Aldermen and Commonalty, through the Department of Docks, to agree with the owners of any such right in the first section of this act mentioned, upon a price for the value thereof, and said department shall certify such agreement to the Commissioners of the Sinking Fund of said city: and if said Commissioners approve of such agreement such department shall at such price take from such owners the necessary instruments in writing for determining and putting an end to such rights, and all claim and demand to such wharfage and cranage, or releasing the same to the said Mayor, Aldermen and Commonalty of the City of New York, and such owners shall be paid such price from the city treasury. In case of failure to agree upon, or of the said Commissioners of the Sinking Fund to approve such price, the said Mayor, Aldermen and Commonalty, by and through the said Department of Docks, may direct the counsel to the corporation to apply and in cases where such right may have already been affected, injured or destroyed as aforesaid, the parties who at the time thereof have had such right, their legal representatives or assigns may, upon notice to the counsel to the corporation, apply to the general term of the supreme court for the appointment of three commissioners to ascertain, fix and determine the value of such right, as such value would have existed if such bulk-head, or portion of a bulk-head, or pier, or portion of a pier were to or had remained part of the permanent water-front of said city, and such right had not been in contemplation to be or had been effected, injured or destroyed, and to report the same to the general term of the supreme court. Upon the approval by the commissioners in the sinking fund as aforesaid, or upon the coming in and confirmation of said report, the amount ascertained, fixed and determined thereby, or in case of approval, the price so approved as aforesaid by the commissioners of the sinking fund shall be due and payable to such owner or owners, or person or persons having or having had such right, their respective legal representatives or assigns by the said mayor, aldermen and commonalty, and the comptroller of the city shall pay and discharge the same as judgments against the city, and upon payment teoreof, said right shall forthwith vest in and belong to said city.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages iii, iv and v of advertisements.**

This is a kind of an off week, on account of the May moving. Our list of conveyances will be very large for a couple of weeks to come, but they represent past transactions. Buyers like to take title at the beginning of the renting year. It is not to be disguised that there has been some disappointment in the matter of rentals. There are quite a number of houses for which there are no tenants. The large exodus to Europe accounts for some of the vacant apartments; the increased accommodations furnished by the new houses, and especially the large apartment palaces, is another factor in the case. And then the competition of Brooklyn, Jersey City and Hoboken tenements have had their effect in preventing all our vacant residences being occupied. The clamor about dirty streets, typhus fever, diptheria and the like has no doubt had its effect. Our daily newspapers have done all they could to discredit New York and to frighten people away from it. Indeed, the noticeable check in the buoyancy of real estate, so promising early in the year, is in great part due to the exaggerated statements made by the daily press respecting the deplorable condition of the Metropolis.

Still, a very fair business has been done during the past week, but prices have not been up to expectation. Every piece of improved property bought has been a bargain. There are plenty of 8 and 10 per cent. properties in the real estate market to-day. A house on Broadway, near Walker street, sold for $131,000, which is rented for $14,000, and which next year may command $17,000. It was bid in rather then be sacrificed. Vacant lots are very cheap and house property in the older parts of the city does not command good prices, judged by the rentals as compared with the selling rates.

The estate of Joseph Seligman, deceased, will be sold by E. H. Ludlow & Co. on May 11. It embraces buildings and lots on Madison, First and Fourth avenues, as well as vacant property on One Hundred and First, One Hundred and Second, One Hundred and Eighth, One Hundred and Ninth and One Hundred and Twenty-first streets. Also a number of plots on the Dykeman estate. This will be a notable sale, under order of the executors, and will undoubtedly draw a large attendance. The dead banker belonged to a race and was the head of a house which seldom made mistakes in its investments. The property he thought desirable, when living, ought to be high in favor with investors, who are distrustful of their own judgments.

Investors who want property in the annexed district cheap would do well to be on hand at A. J. Bleecker & Son's sale on Tuesday, May 17. Ten acres and over of land will be sold on the Boston Post Road and Southern Boulevard, running through and fronting on the West Farms and Hunter's Point road. Dwellings and other buildings to be sold with the property. A bargain may be expected.

A. H. De Motte has sold the two-story and attic brick dwelling, No. 696 Greenwich street, 19.11x69.7, irregular, for $5,300 cash, to Margaret O'Neill.

There will also be an important sale on May 12th of fifty-two lots on One Hundred and First and One Hundred and Second streets, near Tenth avenue. For particulars see advertisement. R. V. Harnett, auctioneer.

The Matt. Brennan estate, on the Boulevard and corner of One Hundred and Fifth street, will be sold on Tuesday, May 3d, by Scott & Myers. The property includes a two-story dwelling, a stable. The lot is 110 feet on the Boulevard and 200 on the street. The ground is finely laid out, overlooking Riverside Drive, Riverside Park and the Hudson River. As the grade of One Hundred and Fifth street and Eleventh avenue is 10 feet higher than the grade on One Hundred and Fifth street, and Riverside Drive being 110 feet above tide water, this is one of the highest and presumably the most healthy locations in the city.

On Thursday there were quite a number of sales, but the figures were not generally satisfactory, and much of the property was apparently bidden in by the offer-

ers. The sale of Inwood lots, on Friday, was among the most interesting of the week.

The sales advertised for the coming week are very light. Among the legal sales is some property on Eightieth street near Fourth avenue, and on the Fifth avenue will be sold a two-thirds interest in a plot of ground on the Boulevard, Sixty-first street and Eighth avenue. For obvious reasons there are very few other sales this coming week. But for the second week in May, there will be quite a good deal of property offered.

In Brooklyn there is an unusual number of houses untenanted. The landlords did not succeed in materially advancing rents.

Gossip of the Week.

James Wood recently sold four lots on East One Hundred and Sixteenth street, at the northwest corner of First avenue, for $21,750. Henry Meeker was the buyer. Mr. Wood also sold three lots on the northeast corner of One Hundred and Fifteenth street, to Mr. Fernchild, for $12,000. On the north side of One Hundred and Twenty-fifth street, 100 feet east of Third avenue, two lots have been sold to Mr. Richardson, at $6,000 each.

There are many fine houses up town now finished, and nearly completed, which are in the market. The prices are generally low, considering the locality. There are four very fine houses on the east side of Madison avenue, corner of Sixty-second street, now ready for occupancy, which have been in the market for several months without finding a purchaser. On Sixty-seventh street, west of Madison avenue, are three or four houses, models of their kind, yet for some cause unsold. In the upper part of the city the placards for sale are almost as numerous as those to rent. The demand seems to be for cheaper houses than many have built. In some cases the scanty proportions of the rear yards hurts the sale of property. Buyers do not consider that larger yards enhance the value of a house from $10,000 to $15,000.

The two lots on One Hundred and Fifteenth street, between First and Second avenues, that were sold about three weeks since for $5,500, have been re-sold by L. Z. Bach for $5,800.

The three-story brown stone house and lot, No. 533 Lexington avenue, has been sold for $10,000.

Two lots, on the northeast corner of Fifth avenue and Ninety-third street, have been sold to Robert Maclay, President of the Knickerbocker Ice Company, for $60,000.

Five lots on the south side of One Hundred and Twenty-fifth street, between Fifth and Sixth avenues, have been sold for $55,000.

Mr. Edward C. Sheehy has purchased three lots and houses on the east side of Third avenue, between One Hundred and Third and One Hundred and Fourth streets, the price being $16,000.

Eleven lots on the southeast corner of Ninth avenue and Fifty-sixth street have been purchased by the New York City & Northern Railroad Company for $135,000, and on which they propose to erect a freight depot.

F. Zittel has sold the three-story brown stone dwelling, No. 131 East Sixty-fifth street, 20x50x100, to Mr. D. Smith for $17,000, and the four-story brick tenement, No. 1147 First avenue, for $11,750.

Mr. R. Guggenheimer and others have sold the plot of ground on the east side of First avenue, between Sixty-third and Sixty-fourth streets, 210x306.9, to Mr. Brander for 105,000, and on which he will erect twenty-five five-story brick tenements with brown stone trimmings.

R. Guggenheimer and S. Marx have purchased the lot at the southwest corner of One Hundred and Twenty-third street and Avenue A, 26x100, through Mr. F. Crawford, for $5,600.

James Gault has purchased from R. Guggenheimer, with a builder's loan, the plot of ground on the west side of Avenue A, 24.2 north of One Hundred and Twenty-second street, 76x100, for $12,000, and on which he will erect five three-story brown stone dwellings.

Dennis Loonie has purchased the plot of ground on the southwest corner of Seventy-first street and Second avenue, 200x100, from S. Marx, and on which he proposes to erect first-class brown stone flats, to cost not less than $13,000 apiece.

Mr. Jefferson M. Levy has purchased the plot of ground at the northwest corner of Madison avenue and One Hundred and Fifteenth street, 100.11x85, for $22,000, and while signing the contract was offered $24,000 for his bargain, which offer he refused.

St. Mary's Roman Catholic Church have decided to purchase the lot adjoining their school on the south side of Madison street, near Clinton street, for $5,000.

The plot of ground on the southwest corner of Park avenue and Sixty-ninth street, comprising about five city lots, has been sold, and the erection of handsome dwellings thereon is contemplated.

The lot at the northeast corner of Fifth avenue and Ninety-third street, 50.4x102.2, has been sold for $60,000.

Messrs. Arnold, Constable & Company have purchased a plot of ground on the north side of Eighty-third street, between Fifth and Madison avenues, 80x half the block, on private terms, although the price is a fancy one, and will soon commence the erection of two elegant dwellings.

Mr. Max Danziger has sold the plot of ground at the northeast corner of Seventy-first street and Second avenue, 100x100, to Charles A. Buddensick, for $30,000, with a builders' loan of $25,000, and Mr. Danziger agreeing to make the excavations for the cellars of four apartment houses with stores to be erected thereon.

Four lots have been sold on the west side of Madison avenue, not far from Eighty-sixth street, for $100,000.

The sale reported in our last issue, of the southeast corner of Seventy-fourth street and Fourth avenue, should have read the southwest corner.

Messrs. Riker & Co. have sold a lot on the north side of Fifty-eighth street, 200 east of Seventh avenue, for $15,000, and one 50 feet further west, already excavated, for $18,500.

A wager was made this week between two prominent Pine street brokers, that unimproved property on the West Side would advance at least 20 per cent. between now and December 1st.

Negotiations are pending for the sale of the west side of the Boulevard to Claremont avenue, from One Hundred and Twenty-first to One Hundred and Twenty-second street, comprising about sixteen city lots.

SALES.

Mr. P. H. Berrian, of Fordham, has recently sold the M. & C. Archer farm, containing fifty acres, for $12,000. The above farm is located near Mount Vernon depot. Last week the same gentleman sold the house and plot of ground owned by Mr. Cornelius Berrian, of Fordham, for $9,500.

Brooklyn Gossip.

Two four-story brown stone front houses on Garden place were sold recently for $12,000 each. These houses had just been completed by James W. Dealing. On Lincoln place between Sixth and Seventh avenues, a lot 25x120 feet, has been sold for $4,000 cash. Other sales of large parcels of lots in the vicinity of Union street, Seventh avenue, have been made on private terms. It is stated that lots in the neighborhood of Flatbush avenue, Union street, and Seventh avenue, can be sold at as high a cash price as was attainable previous to the panic.

W. S. Brown informs us that property sells readily at an advance of from 10 to 15 per cent. over last year's prices. In front of Prospect park the interest in real estate is increasing. Lots have been sold in that locality for $10,000, that would not have brought $9,000 last year. Between Fulton and Myrtle avenues, a general rise is likewise reported. In the vicinity of Bedford avenue and Hancock street, property has been sold at an advance of $1,000 over what was obtainable last year, forty or fifty houses were recently sold in this locality, three of which have only just had the cellars stoned. On Seventh avenue and Lincoln place, several houses built by Mr. Flanagan have been sold for more than $10,000 each. He finds a ready sale for houses as fast as he can build them. Several houses have been sold in the Twenty-third Ward at from $5,000 to $9,000 a piece. On Stuyvesant avenue and Lincoln place three brown stone front houses were just sold at from $4,500 to $5,000. Lots not worth $700 last year have been sold for $900. In South Brooklyn, on Bridge, Lawrence and Jay streets, considerable old property has been sold to persons who have drawn their money lying idle in the banks to purchase it. On First and Second places, Henry, President and Sackett streets, property brings $500 to $1,000 above last year's prices. Old country people are the principal purchasers. Property on Schermerhorn and Livingston streets sells readily at a corresponding advance. It is a noteworthy fact that most of the buyers are inclined to pay cash.

Forty-two lots in the Eighteenth Ward of the city of Brooklyn will be sold on the seventh day of May, at the Kings County Court House, by order of the Supreme Court.

On the fourth of May Jacob Cole will sell at 389 Fulton street, Brooklyn, about seventy lots, situated in the town of New Lots.

Messrs. Bulkley & Horton have sold the four-story brown stone house and lot, No. 233 Clermont avenue, 22x200, to L. A. Arthur, for $17,500; the four-story brown stone house and lot, No. 229 Clermont avenue, to W. C. Vosburgh, for $16,500; the three-story brick dwelling, No. 248 Clermont avenue, 20x40 x90, to Mrs. Fisher, for $6,000; the three-story brick dwelling, No. 212 Clermont avenue, 17x40x75, to Mr. Farrington, for $5,500; and a three-story brown stone dwelling on Washington avenue, between Myrtle and Willoughby avs., 16.8x45x100, to Mr. Wasserman, for $7,000.

The following are the sales at the Exchange Sales room for the week ending April 29:

** Indicates that the property described has been bid in for plaintiff's account:*

R. V. HARNETT.

Catharine st, No. 58, w s 22.5x65, four-story brick store and tenem't. Theodore Hendricks	$12,700

Total..... $106,771

BUILDING MATERIAL MARKET.

BRICKS.—On the market for Common Hards the situation is a little monotonous. Prices have scarcely varied since our last, and there appears to be no new feature whatever shown in the general form or character of business, except possibly as light falling off in demand from a few quarters, more than balanced by a lessened arrival. In fact, supply and demand have been very closely adjusted, and neither buyer or seller can claim any any great advantage on the week's operations. We quote at $6.25@6.75 for Haverstraws; $5.50@6.00 for "Up Rivers" Advices from the primary points indicate that all manufacturers who can do so are pushing forward their preparations for the new crop, but a large number are behind hand, owing to the scarcity of labor. Workmen, however, are commencing to drop in, and it is hoped within a month or two to have everything under full headway. Prospective consumption indicates that all will be wanted. Pale Brick have been doing very well all the week. A few very inferior lots were forced for sale, and holders accepted as low as $2.00 per M, but nothing showing any quality at all could be reached for less than $2.50, and the best lots commanded $3.50 per M. Some few cargoes extra fine were taken here, but the great bulk of the offering found its outlet in Brooklyn, and the call from this source promises to continue full. Fronts firm and in good demand, with only a moderate supply available, and this mainly in second hands.

HARDWARE.—Demand shows some improvement, with an occasional inclination to animation, and the market generally has a fairly cheerful and encouraging tone. In some cases the season is so late that the purchase of certain styles would be useless, but generally hardware is wanted, and in particular such goods as are required for consumption through the progress of building operations, with promises that the outlet will increase. Values show some irregularity, and recent changes were mostly in favor of the buyer. The List prices of Door Knobs and inferior grades have been lowered at a meeting of manufacturers, but discounts remain as before. The Dibble Mfg. Co from a new price list for Hermacite Knobs, Locks, Trimmings, &c., quote a discount of 40 per cent. The Manufacturers of Bright Wire goods have reduced their prices to discount 70 and 10 per cent. Brass Butts still weak and quoted at 75@75 and 5 per cent. off. The Manufacturers of Copper Rivits and Butts have formed a combination, and placed the discount at 33⅓ per cent.

On a revision of the list Flat Head Iron and Brass and Wood Screws are advanced on the larger sizes and reduced on the smaller sizes, with the discounts as follows: Flat Head Iron, discount 40 per cent.; Round Head Iron, discount, 35 per cent.; Flat Head Brass, discount, 40 per cent.; Round Head Brass, discount, 30 per cent.; on Flat Head Blued Wood Screws, 2½ per cent. will be added to the net amount of invoice.

Some of the principal makers have issued a reduced list on Door Locks and Knobs, and the Trenton Lock & Hardware Co. make the following changes in discounts: Philadelphia Hanging Sheaves, 33⅓ per cent.; Wrought Way for Hanging Sheaves, 33⅓ per cent.; A, Noiseless Pulleys—Change list, No. 6 to 45c., No. 7 to 55c.; B, Noiseless Pulleys—Change list, No. 313 to 80c., No. 413 to 95c.; Wrought Shutter Bolts, No. 60, 60 per cent.; do. do. do., No. 70, 55 per cent.; do. do., 33⅓ per cent.; do. Flush Bolts, No. 15, 65 per cent.; Hinge Nails, 20 per cent.; Wrought Hooks, 20 per cent.; Hooks and Staples, 20 per cent.; Meat Hooks, 25 per cent.; Sash Fasteners—Change list, No. 3,224 to 95c.; Bronze Metal Sash Lifts, 55 per cent.; Bronzed Shutter Knobs, 55 per cent.; Bronzed Metal Shutter Knobs, 55 per cent.; Cupboard Bolts, 50 per cent.; Japanned Door Buttons on Plates, 30 per cent.; Screen Door Catches—Change list, No. 3,678 to $8.75.; Door Pulls, Dark Bronzed, 60 per cent.; Door Pulls, Bronze Metal, 55 per cent.

LATH.—General indications have favored the receiver and a comparatively steady tone was preserved on the market during the greater portion of the period since our last. This, however, may be attributed in the main to an absence of any serious pressure from stock afloat, as the demand was not free or general and buyers who negotiated seemed to think it was rather a favor on their part to do so. A great many supplies are already in second hands and can meet a full call from consumers for some time to come, and it is only here and there a dealer is found who really seems to want stock. Beside this, the talk about manufacturers holding back at this season does not amount to much. At one or two ports this policy is sometimes pursued, but all manufacturers are making lath steadily now and as soon as they get a vessel load they send it along, and generally to New York, unless unusual encouragement is given at other points. As we close, the quotations range from $1.40, as about the average bidding rate, up to $1.50, as probably the lowest sellers would be willing to negotiate on choice cargoes with moderate offerings making both on spot and to arrive.

LIME.—No further changes of a quotable character are announced on the price of Eastern, and at the revision of figures given last week, the market seems to be somewhat steadier and more cheerful. Receivers are hopeful of preserving a better balance between supply and demand, and this must afford basis for a uniform market. State common lime is unsettled on a range of 85@90c. per bbl., but agents generally are quoting Finishing at $1.15, and claim it has a special consumption which gives it a position independent of other grades.

LUMBER. We find in some instances a disposition to grumble over the condition of the wholesale market, but exactly upon what basis it is difficult to determine. About the only grade of stock upon which prices show any loss since the commencement of the season is spruce, and this merely went off from a winter extreme to about what might have been expected. Especially as the first arrivals came in a month earlier than the trade required, owing to the unfavorable influence of the weather in retarding consumption, even a portion of this break seemed to be due to unskilfull management and has already had an influence to check shipments, while on other grades the demand has at least been equal to the supply and in some cases in excess, with prices strong generally. The grumblers, however, seem to be dissatisfied because there is not a constant "boom" to the market through which they may realize inflated expectations, but they are in a very decided minority, and while entitled to notice as one of the features of the movement have very little effect upon the position. In a general way the expressions are cheerful and confident in the maintenance of a good, fair line of values subject to such occasional fluctuation as may result through temporary lapse in demand or excess of supply, but so promising are all indications for distribution that it is considered certain important advantage can accrue to buyers before the midsummer lull. Most of the present export trade is with the West Indies, the South American movement embracing only small odd parcels.

Spruce is handled without any uniformity of action either at the primary points or here, and at this season, when about all the mills are at work, there is always more or less of an unsettled feeling current. Even when dealers are really anxious to handle stock, they hesitate about going ahead lest sudden arrivals just after their purchase is completed, should make their stock look dear, while, on the other hand, receivers hold good offers long in abeyance in hopes of doing a little better through the influence of a light run of arrivals. Sometimes these hopes are realized, but quite as often, if not more frequently, are they doomed to disappointment, and this keeps a feverish tone. Business, however, is in really good shape, so far as the amount of consumption is concerned, and the wants of the market do not appear likely to fall away for some time to come, which, in conjunction with the disposition among manufacturers to hold back supplies, gives a firmer tone. About $14 is now as low as sellers talk on good randoms, and the offering from first hands is comparatively moderate.

White Pine continues to hold a strong position in the general market. The stock seems to be a little unevenly distributed among the Trade, and, as a result, we have heard nearly every quality talked down somewhat. That is, a holder of South American Shippers, as a large proportion of his accumulation, thinks every other grade a little "off," while another, carrying West India Shippers, thinks his neighbors with only some other qua ity to offer must be a little backward in business, and so on through the whole list. Yet from their own offering all claim to be distributing liberally, and commanding full prices without difficulty. The Albany supply is moderate and firmly held, and we understand that some of our dealers have gone further inland and made contracts for stock, to be moved as soon as the canals open, and a few under special rates, intending to ship by rail. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine does not require much of a report. Demand continues first-rate, and agents could contract for a much larger amount were the mills in position to make the early delivery required, but the majority have engagements enough now to keep them busy right into the summer months, and buyers are a little more cautious about the distant deliveries. Randoms of choice quality would receive attention, and one or two of the Trade report a good call for dry flooring. From accumulations here an occasional sale is made, but the business is not regular. We quote random cargoes at about $23.50@25 per M; ordered cargoes, $26@27.75 do.; green flooring boards, $24@26 do., and dry do. do., $25.50@27. Cargoes at the South, $15@19 per M for rough, and $20@24 for dressed.

Hardwoods remain in a firm condition for all grades, with a great scarcity of desirable stock, and none immediately expected, more especially walnut in merchantable condition. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles of desirable grade appear to have a firm position, and, while the foreign demand as reported exceeds the amount shown in the exports, it may, on the whole, be considered fair and about the average amount also going out on home account. We quote Cypress at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 or No. 1.

From among the lumber charters and engagements recently reported, we select the following:

A Br. barque, 959 tons, from St. John, N. B., to Bristol Channel, Deals, 60s., c. d; a Br. barque, 361 tons, from St. John, N. B., to Swansea, Deals, 60s.; a Br. barque, 593 tons, from St. John, N. B., to East Coast, Ireland, Deals, 60s.; an Am. barque, 734 tons, from Savannah to Montevideo or Beunos Ayres, lumber, $19 net; a Nor. barque, 512 tons, from Brunswick to Rio Janeiro, lumber, $19.50 net; an Am. barque, 581 tons, from Portland to Montevideo, or Buenos Ayres, lumber, private terms, quotable about $14; a Nor. barque, 428 tons, from Savannah to Barcelona, lumber, $14, and cotton ¾c.; a For. barque, 480 tons, from Brunswick to Valencia, lumber, $14; an Am. barque, 466 tons, from Union Island to Rio Janeiro, lumber, $19.50 net; a schr., 400 tons, from Brunswick to Santos, lumber, $21 net; an Am. brig, 591 tons, from Bridgewater, N. S., to South Side Cuba, lumber, $7; a schr., 197 tons, from St. John, N. B., to New York, Philadelphia or Baltimore, lumber, $3, and laths, 60c.; a Br. brig, 298 tons, from Darien to St. John, N. B., resawed lumber, $9; a schr., 197 tons, from Pokomski Sound, Va., to St. John, N. B., timber, $4.50 per ton; a barque, 350 M lumber, from Pensacola to New York, $9; a schr., 225 M dry boards, from St. Mary's to New York, $7.50, option of Providence, $8; two schrs., 150 and 240 M lumber, from Savannah to New York, $7; two schrs., each 200 M lumber, from Savannah to Philadelphia, $6; a schr., 135 M lumber, from Savannah to New Bedford, $7.50; a schr., 350 M lumber, from King's Ferry to New York, lumber, private terms; a schr., 250 M lumber, from Jacksonville to Washington, $7; a schr., 400 M car stuff, from Brunswick to Baltimore, $6.50; a schr., 235 tons, hence to Jacksonville, stone, $1.50, and back with lumber, $8.25, option of Providence, $8.75; a schr., 270 M lumber, from Brunswick, to New York, private terms, quotable, $7.50; a barque, 350 M, and a schr., 275 M lumber, from Pensacola to New York, $9; a schr., 220 M lumber, from Wilmington, N. C., to Baltimore, $5; a schr., 175 M lumber, from Charleston to New York, $6.50; a schr., 300 M lumber, from Fernandina to a Sound port, $7.50; a schr., 150 M lumber, from St. Simon's Island to New York, private terms; a schr., 150 M lumber, from Savannah to New York, owner's account; a schr., 280 tons hence to Charleston, stone, $1.50, and back from Bucksville to Maine, lumber, about $9; a schr., 98 tons, from Portland to Newark, lumber, $2.12; a schr., from Portland to New York, lumber, $2; a schr., 217 tons, hence to Jacksonville and back with lumber, $10 for the round.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	1,040,739	14,622,023
South America	179,330	7,370,484
East Indies, Africa, etc	20,000	1,739,400
Europe, Continent	15,000	523,150
Europe, United Kingdom	40,000	1,500,375
Total	1,295,069	25,755,432

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus.

FOR THE WEEK ENDED APRIL 26, 1881.

We can report a good trade on our reduced stock, and very firm prices; the main reduction in stock is in what was taken away on Friday and Saturday last by the Export Lumber Company. Inch box is in almost nominal stock, and is very firm in price. A round lot of half a million feet pine lumber was taken on Friday for Newark, N. J.

Hardwoods are well held with a steady demand.

In coarse lumber we have not anything new to report; prices are steadily held.

Freights, both lake and canal, will, it is expected, rule high. Saginaw freights to Buffalo and Black Rock are quoted at $3.00@3.25.

Every possible endeavor will be made to have the canals navigable by tenth of May and earlier, if it be possible.

River freights are:

To New York, ₱ M ft..... $ @1 00
To Bridgeport..... @1 87½

To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

The following from the Northwestern Lumberman:

A majority of the reports that have reached us during the past week indicate that trade is quiet; the balance represent it as active. The difference in the nature of the reports is at once apparent. Inactivity is complained of at points where a large trade cannot be expected in the absence of good roads or navigation, and many towns are literally stuck in the mud, and the ice, as yet, lays an embargo on navigation. At other places where business is done exclusively by rail, there is no lack of it, and in some cases sufficient cars cannot be had for the transportation of the lumber that is sold.

We do not hear of a decline in prices anywhere. At most points the figures remain the same, and in a few markets certain grades have been marked higher A few of our correspondents express themselves as fearful that the indications of a successful season may prove delusive, but as a rule, the feeling throughout the country could not well be firmer. There is an understanding that the season will be shorter than usual, and possibly the business of the season will be largely done after the closing of the spring months. Every farmer will be busy as soon as he can possibly get at work, and it is a reasonable conclusion that the getting in of crops will receive attention before he repairs and builds.

Broken assortments are generally reported, and as they cannot be made whole with dry stock it becomes evident that more green lumber will be sold this year than in any year before.

CHICAGO.

During the past week some evidences of the approach of the activities of another season have been manifest in the arrival of a few vessels loaded with lumber, timber and shingles. The first arrival was the steam barge Tempest from White Lake with 180,000 feet of culls. She was succeeded by the schooner Apprentice, with shingles, from Grand Haven. All the lumber which has thus far arrived had previously been purchased, and none of it was offered at the cargo market. Of the shingles one cargo was of Standards, which sold on the market at $2.50, and one load of *A*, which brought $2.70. The receipts of lumber included in our present report are about 16,000,000 feet short of the amount received up to the same date last year, shingles being about 4,000,000 less in the gross quantity. It is, perhaps, fortunate that so little lumber and so few shingles have thus far arrived, for the yards in the district have been busily occupied for several days with a less welcome visitor in the shape of a freshet, which has materially interfered with trade.

The Chicago River has never but twice in the memory of the oldest inhabitant attained the height which it now presents, and some of the yards on the south branch have ample occasion to hope that it will never be able to do so again. Several of them are flooded, and in a few of them water is standing at a depth of from one to two feet, disarranging loose piles, moving plank boards and preventing shipments. At nearly all of them the water is too high at this time to permit of handling newly arrived lumber, and light receipts for a week to come will be more welcome than heavy ones. Northwithstanding this drawback, the volume of shipments has largely increased during the week, the reported shipments being over 7,000,000 feet greater than for the corresponding week of last season, and the actual shipments reaching 27,757,000, or an average of 4,500,000 feet per day. Prices are reported firm and we can learn of nothing which should lead to a doubt of the correctness of the claim.

A buoyant feeling is manifested among the dealers, and all are looking forward to a short and active season, the gross result of which will exceed anything heretofore known. This feeling so far as we can learn, is shared by the trade everywhere.

Receipts and shipments of lumber and shingles from January 1 to and including April 20:

	Receipts.		Shipments.	
	Lumber.	Shingles.	Lumber.	Shingles.
1881....	60,437,000	25,692,000	140,469,000	24,838,000
1880....	76,332,000	58,439,000	144,271,000	27,697,000

HARDWOODS.—Dry whitewood is scarce, particularly 1½ and 2-inch. It is used largely for tanks, and the distilleries have been making more than usual demands lately. A reliable dealer informs us that he has been getting $35, on track, by the car load, for the two grades of box boards, dry; $32 for green, and $16 for culls. He is also selling dry, thick cherry at $65, on track. We do not change the figures on walnut, first and seconds, simply because no figures can be given that will exactly explain the situation. We know of dealers who have paid, at wholesale, $75, and we know of manufacturers who would be willing to pay a handsome advance on that.

The report of the Lumberman's Exchange shows that there is 11,000,000 feet of hardwood in the yards. No comparative statement can be made, as it has never before transpired how much stock the yards contain, but the leading dealers call it a full one for the time of year, so far as size is concerned, but a deplorable one when quality is considered. The yards are sadly short of the most desirable woods, even in green. Oak is everywhere plentiful, some dealers having a bigger stock than they really want. We noticed a stick of white oak from Indiana that measured upwards of 1,000 feet, that will be made into trip hammer handles.

In Indiana the hardwood business will be a little slow for a while, as the smaller mill men mostly depend upon farmers to do their hauling, which the opening of weather for spring work will interfere with.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

Considering the almost unprecedented floods which e visiting the West, and the continuance of storms, e amount of lumber which is being sold is remarkae. The railroads are many of them blockaded by ss of bridges and the washing away of tracks, while vast quantities of freight are accumulating in the storehouses waiting transportation. This is especially true of Iowa lines, where thousands of car loads of grain are ready for shipment. Under such circumstances that the trade should exceed that of any corresponding year is the best proof that it is only the bad weather and roads which keeps back an immense trade, which will begin when these causes are removed in the near future. There is no change to note in the lumber market so far as prices are concerned, but the stocks are being broken of assortment rapidly. Comparatively few yards from St. Louis to Minneapolis can now fill a retail country yard with the usual sorts, a large amount of swapping has to be done to get over the trouble.

The lumbering streams of Wisconsin are gradually opening, and the snow disappearing without creating any damage by floods, and even causing some fears of a want, rather than a surplus of water. This is the case on the Chippewa and Wisconsin, both of which main streams are open. The lakes are solid yet, and driving, with a few small exceptions, has not commenced anywhere. There is an abundance of time yet to get out the new crop of logs by the time the old ones held over can be sawed into lumber. As to the quantity of logs cut last winter, we see no reason to alter our former estimates. Logs are held about 10 per cent. above last year's prices.

THE SOUTH.

The Charleston News and Courier as follows:

TIMBER AND LUMBER.—These articles exhibited a firm market with moderate sales. Hewn timber may be quoted at $4@5.50 per M for docking, $5.50@7 per M for mill, and $7@9 per M for shipping qualities. Lumber sells at $12@18 per M for city sawed, $10@13 for railroad and $9@12 for rafted qualities.

EXPORTS OF LUMBER FROM THE PORT OF CHARLESTON FROM SEPTEMBER 1, 1880, TO APRIL 22, 1881.

Exported.	1880-81. Feet.	1879-80. Feet.

Grand Total	31,600,515	6,021,679

LUMBER.—By sale.—The coastwise offerings are not equal to shippers' requirements, and arrivals command ready business at an advance. West India and South American cargoes are also offering. Our figures include the range of Savannah, Darien and Brunswick, from 50c. to $1 being paid here for change of loading port. We quote: To Baltimore and Chesapeake ports, $5.50@6.50; to Philadelphia, $6@7; to New York and Sound ports, $6.50@7.50; to Boston and Eastward, $7@8; to St. John, N. B., $8@90; [Timber $1 higher than lumber rates]; to the West Indies and windward, $7@9; to South America $19; to Spanish ports, $14.50@15; to United Kingdom for orders, timber, 34s., lumber, £5 5s@£5 10s.

FOREIGN.

The London Timber Trade's Journal as follows:

There is not much change in the market since our last report; what alteration there is shows slight improvements in the demand, and buyers are coming forward again though very slowly. Most of the transactions heretofore have been confined to f. o. w. shipments, comparatively few contracts having as yet been made for goods to arrive in the fall. Buyers seem to prefer running the risk of the stocks being sold out than by being too early in the field losing the benefits that might otherwise derive from a further come down in prices, which in some quarters is looked upon as certain.

LIVERPOOL.

Another week has passed without bringing forth any signs of a return to a more active condition of business than has prevailed for some time past. The winter has at last departed sufficiently to admit of building operations proceeding, but this has not yet affected our trade in any noticable degree, for orders come in slowly, and when they do come are competed for eagerly on all sides.

All rumors from Canada that have reached this side point to a maintenance of the prices that were paid early in the present year, but we cannot find many buyers in this district willing to operate at the rate demanded by shippers.

The outlook for the coming season is far from bright, for the present state of trade in the country is not brisk, and as will be seen from the stock list appended, there is now on hand a stock equal to the probable demand for the next five or six months. In the face of this, it is most difficult to understand why such high prices should be demanded abroad, and still more difficult to comprehend why they should be paid, seeing that, so far as this port is concerned, the tendency of the market has been downward, not only for one or two articles, but for nearly every class of wood goods imported.

METALS.—COPPER.—Ingot has found about the usual trade demand for small lots, but was at all times lacking in animation, and with quite fair offerings of stock prices favored the buyer. It is claimed that the bulk of the offering came from outside lots, and that the companies refuse to accept ruling rates. We quote at 19@19⅛c. cash for Lake. For some little time past there has been quite a business doing in contracts for export, and it is now understood that the amounts will reach in the aggregate about 1,000 tons, the bulk taken on French account, with deliveries to extend over the next two or three months, and at rates below present values, but the full particulars not given. Manufactured Copper is valued about on a line of former figures, but the tone not quite so firm, and it is intimated that considerable quiet cutting of "official" rates takes place. We quote as follows: Brazier's Copper ordinary size over 16 oz per sq foot, 28c per lb; do do do, 16 oz and over 12 oz per sq foot, 30c per lb; do do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz, per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz, per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON—Scotch Pig has met with very decided neglect on all outlets, and the tone of the market ruled weak and unsettled. Importers have not openly offered stocks with freedom, but there was at all times an ample supply for the outlet, and in a quiet way buyers learned that if willing to handle large invoices, they could obtain very favorable terms. We quote at $20.50@23.50 per ton, according to brand and delivery. American Pig was at times under complete neglect, and the market in a very dull and stupid condition. In fact, the feeling was quite demoralized, and, while only a comparatively moderate showing of cost was made on the surface, it was well understood that in a quiet way concessions to liberal buyers would be very free. Stocks are accumulating, and in many cases owners are under necessity of making an effort to realize. We quote at $24.00@25.00 per ton for No. 1 X foundry; $21.00@22.00 do. for No. 2 X do. do., and $19.50@20.00 do. for gray forge. Rails have sold rather slowly, and, indeed, the demand was confined almost entirely to small and irregular parcels to "fill out." Offerings have been quite fair of foreign stock, and on late summer and fall deliveries the home companies were more generally open for engagements. Prices weaker. Old Rails were quite decidedly dull and tending downward, with importers anxious to realize in several instances. We quote Rails at $43@45 for iron, and $60@62 for steel, according to delivery. Old Rails $27.00@27.50 per ton; scrap, $28.00@30.00. Manufactured Iron has, in some instances, shown a little more animation, but the movement was of a spasmodic character, and, in common with the general market, the feeling is very unsettled throughout. Structural shapes receive the most attention, though, with one or two bridge contracts, the sales were in small lots. We quote Common Merchant Bar, ordinary sizes at 2.3@2.5c from store, and Refined at 2.5@3.5c; wrought beams at 3c. Fish plates quoted at 2⅜@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c less on large lots from cars. LEAD—Domestic pig has found a somewhat irregular demand, but at no time developed any great amount of animation. The offering fair, and readily offered with prices favoring the buyer. We quote at about 4⅝@4¾c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 6½c, and Sheet, 7c, less the usual discount to the Trade; and Tin-lined pipe, 15c; Block Tin Pipe, 40c, on same terms. TIN—Pig has been rather neglected in a wholesale way, and, to a large extent, nominal, but a fair movement of jobbing parcels occasionally took place with only moderate allowances on price necessary in order to secure customers. We quote 20⅛@20¼c for Australian, 20@20¼c for Straits, 20@20¼c for English Refined, 20@20½c for do. Common. Tin Plates on jobbing parcels have remained quite steady, with a fair demand prevailing and holders unwilling to offer stocks with freedom. In a wholesale way business dull and the tone unsettled. We quote I. C. Charcoal, third cross assortment, $5.75@6.00 for Allaway grade, and $6.12½@6 25 for Melyn grade; I. C. Coke, $5.00@5.12½ for B. V. grade; $5.12½@5.37 for Yspitty grade; Charcoal terne, $5.37½@5.62½ for Allaway grade 14x20; $10.50@10.87½ for do. 20x28; Coke terne, $4.75@4.87½ for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots Spelter continues in moderate, uncertain demand, and the market to some extent nominal, though the tendency is in buyers' favor, quoted at 5⅛@5¼c, as to brand, etc. Sheet zinc has met with a moderately active call and ruling fairly steady at 7@7¼c from store, according to quality, quantity, &c.

NAILS.—Buyers quite generally appear inclined to move with caution, and while the demand in the aggregate reaches fair proportions, it is of irregular development, and does not act as a stimulus to the general market. The line of prices is without further change, and nominally steady for 10d to 60d, with the revised list showing other sizes in a proportionate line of value. The recent advance on the list rates has rather a "fishy" look, and it is doubtful if it can be maintained.

We quote nominally 10d to 60d, common fence and sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 9d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65

PAINTS AND OILS.—The movement of supplies has been somewhat irregular, and confined in the majority of cases to special orders for immediate distribution, buyers still preferring to operate close, and leave the carrying of stock to first hand holders. There is a prospect for better trade, however, with some paints in the interior, from whence advices recently at hand show greatly reduced accumulations. The supplies here of both domestic and foreign goods are of good proportions, and very well assorted. On prices, the changes reported are few and unimportant, but, as a rule, the tendency is of a steady character, and holders seem generally confident. Linseed Oil has met with rather moderate sale, in a wholesale way, but there was an improved jobbing movement, and the tone of the market, as a rule, proved quite cheerful. Supplies fair, and at the close about former rates ruling. We quote at about 55@57c. for City, and 61@62c. for Calcutta from first hands.

PITCH.—Business moderately active and in most cases confined to small irregular parcels to satisfy immediate wants of consumers. Offerings fair and the tone about steady. We quote at $2@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—The market has continued in an unsettled condition with advantages alternating from buyer to seller. It was, however, difficult to wake up any decided buoyancy in view of the season when the new crop is coming in, and few purchases took place beyond the pretty well assured necessities of the hour. As supplies in hand are very well under control, however, holders refrain from any direct pressure to realize. As this report is closed, the quotations stand at about 41@43c. per gallon, according to the quantity of stock handled.

TAR.—The market has remained quite strong all around with a fair amount of animation shown, and the new features worthy of note are a reduced supply and the higher and confident views of holders, both for spot stocks and parcels to arrive. We quote $2.75 @3.00 for Newberne and Washington, and $2.87@3.12½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.
2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

JUDGMENTS.

*In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

CO-PARTNERSHIP NOTICES.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

R. E. MOORE,
JAS. F. SUTTON.

WE, THE UNDERSIGNED, GEORGE W. MILlar, William D. May and William Roberts, having formed a limited partnership do hereby certify:

I. The name or firm under which such partnership is to be conducted is GEORGE W. MILLAR & CO.

II. The general nature of the business intended to be transacted is that of Paper and Paper Stock Dealers.

III. The names and respective places of residence of all the general and special partners interested therein are as follows:

George W. Millar is a general partner, and resides at No. 17 Cottage place, in the city of New York.

William D. May is a general partner, and resides at No. 249 East 110th street, in the city of New York.

William Roberts is a special partner, and resides Waltham, in the Commonwealth of Massachusetts.

IV. The amount of capital which the said special partner, William Roberts, has contributed to the common stock is Ten Thousand Dollars in cash.

V. The period at which the partnership is to commence is the 21st day of March, 1881, and the period at which it will terminate is the 1st day of January, 1882.

Dated March 21st, 1881.

GEO. W. MILLAR.
WILLIAM D. MAY.
WILLIAM ROBERTS.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and specia partners interested in said partnership are as follows:

Charles Duggin is the special partner, and resides in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York, s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

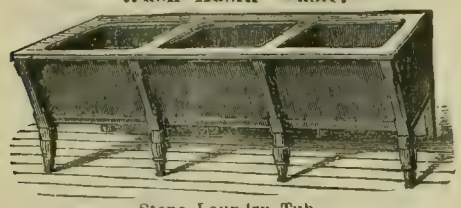
Sworn this 30th day of March, 1881, before me
CHARLES NETTLETON,
Notary Public for New York County, N. Y.

JOHN F. DONNELL & CO, J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.



Dated, New York, April 1, 1881.

JOHN F. DONNELL,
JURGEN KASSCHAU,
JACOB KASSCHAU,
} General Partners.
ADOLPHINE D. C. SCHONHARDT,
Special Partner

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. XXVII. NEW YORK, SATURDAY, MAY 7, 1881 No. 686

Published Weekly by The
REAL ESTATE RECORD ASSOCIATION
TERMS:
ONE YEAR, in advance - - - - - $6.00
Communications should be addressed to
C. W. SWEET, 137 Broadway.
J. T. LINDSEY, Business Manager.

There are certain remarkable features about the real estate market which will attract widespread attention as soon as their meaning is fully understood. If our readers will take a copy of to-day's REAL ESTATE RECORD and compare it with any previous number for the last eight years, they will be struck by the following facts:

First. The extraordinary increase in the number of transfers of real estate.

Second. The almost entire absence of foreclosure suits and sales, once so common as to equal in number the voluntary transactions.

Third. The satisfaction of old judgments and the very few new ones entered against delinquent debtors.

Fourth. The reduction in the number of mechanics' liens, and the increase in the number of satisfied liens.

Fifth. The very limited number of assignments for the benefit of creditors.

In other words, it shows that people are out of debt; that they are paying up their old bills and are assuming no new obligations they cannot meet. It will also be noticed that the 5 per cent. rate is becoming quite common in the new mortgages. The real estate interest was never in a more satisfactory state, nor was the outlook ever so promising.

The pressure on our columns, due to the favors of our advertising patrons, forces us to omit this week a great deal of interesting reading matter. Never were there so many advertisements in THE REAL ESTATE RECORD, and the probability is that they will continue to increase in consequence of the additional business in real estate. This week also, the conveyances and mortgages are exceptionally heavy, and hence we are forced to give a forty-four page paper. What is actually done in the market, being of prime importance, we give that to the exclusion of mere comments. The number of transfers shows a great deal has been doing in real estate; the most wholesome sign is that very few of these transactions represent foreclosure suits or forced sales. The list is made up of purchases for permanent investment. There is no evidence as yet of any "boom," or any marked advance in price; there is still plenty of cheap property in the market. Eight, nine and ten per cent can still be insured by purchasing well located realty.

The *Herald* and other papers still continue their absurd misstatements about the health of New York city. One of the papers even publishes a map, showing the locations where people have died. It proves just nothing at all, except that in a city of 1,300,000 people, a certain number die in different parts of that city. We have passed through a very severe winter and an unusual number of aged and ailing people, have died in all the centres of population. New York has suffered no more than other large cities, and it is scandalous that our own local papers should seek to discredit the city that supports them, by representing it as in a worse condition, with regard to its deathrate, than its other commercial rivals. If New York was more unhealthy than its neighbors, it would not be just to the public to keep the fact concealed. But the *Herald*, in order to create a sensation or make a newspaper point, has emphasized the increase of deaths in New York, without pointing out that the same is true of other localities, and can be accounted for by the exceptionally severe season.

The fire insurance business is establishing itself permanently in Broadway, between the City Hall Park and Wall street. The Niagara has found its headquarters at the corner of Liberty street and Broadway, and but few companies in the country will in time be unrepresented in this section of our chief thoroughfare. This tendency to specialization of business, becomes more marked as the city grows older. It is to the convenience of every one concerned, seller as well as buyer, to have trade concentrated in certain special centres. Hereafter, people who want to insure against fire, property in any part of the Union, will be enabled between Fulton and Wall street, to have their pick of a hundred of the best companies in the country.

The stock market this week has been a bull one. Many large operators in the street were bears, and every possible argument was used to keep down and depress prices. All the most potent influences in the street were used to force investors to sell their holdings and keep the public away from the stock market, and there were many arguments that could be used with effect by the bears. We have had a severe winter, a late spring, destructive freshets, and then we have literally had no spring trade in this city. But last Saturday the bull campaign was opened and the bears ingloriously routed. Prices have been steadily marked up, and there does not seem to be any cloud in the sky until the time comes when the crop question will be definitely settled. Money is abundant and easy, the emigration is enormous, and the outside public are again dabbling in the street. The Government is disbursing a great deal of money, and will continue to do so. Then, very important consolidations are in order, and all the active forces in the street are engaged in blowing up prices. All the indications at present point to a strong and advancing market. There may be a catastrophe, but there is nothing to warrant a speculator in supposing that there is any great danger ahead.

The very remarkable success of the subscriptions to the Mutual Union Telegraph Company, is largely due to the exceptional ability of the firm which had the marketing of the bonds. George Wm. Ballou, the head of the house is from Boston, where he successfully carried through some very notable financial enterprises. But he found the chief city of New England did not give him "scope and verge" enough, and so he came to the financial centre of the country and here he speedily made his mark. He has the advantage in all his undertakings, of having a powerful Boston following. But New York is the proper headquarters for raising money to carry on works of national importance. We are just entering upon an era of great enterprises and new firms are needed, which will represent the younger race of bankers. Methods of business change from time to time and firms which have been successful in one period, are apt to grow into a certain routine which limits their usefulness when new exigencies arise. Men like Jay Cooke were needed to float the Government loans in war times. The bankers who flourished before the rebellion, were at a loss how to deal with the new epoch. Since the war, the great Government loans have been handled by syndicates, and it is as yet an open question whether Secretary Windom will be able to refund the 5 and 6 per cent obligations of the Government, without the aid of the bankers. But we are living in the beginning of a new era. From being a debtor, the United States is becoming a creditor nation. The money of the world is coming here for investment, and there is a splendid chance for young, sagacious and enterprising firms, such as that of George Wm. Ballou & Co. to make their mark. It is worthy of passing remark, that every one who has invested so far in the securities marked by this firm, has made a great deal of money.

The loan of the new telegraph company was wisely confined to investments of less than $10,000. It was practically taken up before the books were opened and had the call been for twice the amount instead of $5,000,000, it would have been subscribed for in two days. The bonds are already quoted at a handsome premium.

At last the Tribune building is to be extended according to the original plan. It will be constructed in the solid and substantial style of the present building. Forty-six feet will be added to the frontage on Spruce street, thence the building will run back 169 feet through to Frankfort street and face that street with a front of 28 feet, 9 inches. The extension will be of the same height as the original building, viz., ten stories, with cellar underneath. The design of the Spruce street is a continuation of the present building. The Frankfort street front is to be of cast iron set between the wall-heads of the longitudinal walls. The building will be fire-proof throughout, and all the beams will be supported by brick-work. The interior is to be finished in hard wood. The halls will be tiled and have marble wainscoting; an additional elevator is to be put for the exclusive use of the Tribune employees. The interior is to be so arranged that small offices can be rented separately or in suites.

A novel feature will be the arrangement of a ladies' toilet room on each floor, something that has not yet been done in any other building. The whole of the extension, with the exception of the cellar and top floor, will be for rent. The cost is $228.000. The structure will be completed April 1st, 1882. Under the main entrance arch to the Tribune counting-room will be set the statue of Horace Greely. Work will commence at once

on the new structure. The plans were drawn by Edward E. Raht, the architect.

The passenger tariff on the New York and Northern Railroad has been published, and the fares are very liberal for persons who live north of the Harlem river. For instance, a hundred rides from Rector street, or any point on the Metropolitan road, to South Yonkers cost only $13.50. To East Tarrytown a hundred tickets can be bought for $22.50. The new road is wise in charging low fares, and the stretch of country between Highbridge and Yonkers must soon feel the effects of this great advantage. The Harlem company has been very unwise in its local charges. It has injured property, driven people away to other lines, when, had a more liberal policy been adopted, the road might run through a densely populated region from Harlem river to White Plains. Investors would do well to look around the line of the New York and Northern road for a choice property. It is a picturesque region, and will some day be very densely populated.

OUR REAL ESTATE INTERESTS AT ALBANY.

(From our own Correspondent.)

ALBANY, May 5th.—The struggle over the bill changing the Spuyten Duyvil Parkway from the Port Morris Railroad Company's depot at Spuyten Duyvil to Riverdale is still kept up in the Senate committee. Under the plans adopted by the Park Department for laying out that parkway and the section of the city on the river bank and bluffs between Spuyten Duyvil Creek and Riverdale, a double road was mapped out, and numerous small parks designated, under the theory of preserving the natural surface of the land. In the proceedings for procuring title to the land thus required for the double roadway and the several small parks, and the assessment of the property benefitted thereby, a portion of the property is swamped. The parties whose lands have been taken have been awarded large sums, and if the improvement, as originally designed, is carried out, they will receive larger sums as compensation than they can get for the land for years to come. They naturally oppose the bill abolishing the small parks and doing away with the double parkway with extensive adornments. On the other hand, those who are assessed to pay the expense of the improvement find themselves taxed from five to eight thousand dollars per acre on land which they would be glad to sell for one thousand dollars, and in some instances, for one-half that sum. So then the consumation of the old improvement as designed by the Park Department is confiscated for the benefit of those whose property is taken for the roadway and small parks. They urge the passage of the bill abrogating the old plan of improvement, and in its place establishing a single street or avenue sixty feet wide from Spuyten Duyvil Creek to Broadway and Riverdale, without the expensive attachments of small parks and extensive adornments. It is a contest between those who are to pay for the original designs and those whose property is to be paid for by the city for the improvement. The struggle is an interesting one, each side receiving all the signatures to memorials and remonstrances possible. It has passed the Assembly, and the fight transferred to the Senate.

The bill authorizing the construction of a pier on the Battery for the Police Department has been amended so as to provide a pier for general use at Twenty-third street, taking portion of the property occupied by the Erie Railroad. This amendment is pressed by the Twenty-third street Railroad, which desires a pier to land its supplies and for the excursion boats to take on passengers, under the theory that the starting and landing of excursions at that point will increase the travel over the Twenty-third street road. The owner of that road had entered into an agreement with the Dock Department whereby accommodation was to be given just above the property used by the Erie Railroad at Twenty-third street for dock purposes, and the first that they knew the owner of the Twenty-third street Railroad appeared here and obtained an amendment to the Police Dock bill, taking property at the foot of that street which was not embraced in the agreement, and encroaching upon the Erie Railroad property. This rider on the bill has delayed its passage in the House, and may result in the defeating of the original bill.

The bill providing for the enlargement of the Museum of Art building in Central Park by the Park Department, upon plans prepared by the trustees of the Metropolitan Museum of Art, has passed both houses, and now only awaits the signature of the governor to become a law. It provides for an expenditure of not exceeding $60,000 for each year for four years, and the amount to be inserted in the tax levy by the Board of Estimate and Apportionment.

The governor has signed Senator Astor's bill requiring a certified check to be deposited with every bid for work under the city government by contractors of from three to five per cent. of the amount of the bid, as security. It also applies to all offers for furnishing supplies to the city or any of the departments.

The bill to widen East One Hundredth street, alluded to in my letter of last week, has passed the Senate, also Senator Strahan's bill for the amendment of the building laws in New York City, further regulating the powers of the Superintendent of Buildings.

The following bill has passed the Senate and ordered to a third reading in the Assembly:

SECTION 1. The commissioners of the department of public parks of the city of New York are hereby authorized and directed to proceed with the improvement, by inclosure and otherwise, of the public parks or places in the twenty-third ward of the city of New York, shown on a map of the "Hunt's Point District," dated "March twenty-third, eighteen hundred and seventy-eight," and filed by the commissioners of the department of public parks in accordance with the provisions of chapter six hundred and four of the laws of eighteen hundred and seventy-four, and chapter four hundred and thirty-six of the laws of eighteen hundred and seventy-six, respectively, situated at the intersection of Third avenue with Boston avenue, and at the intersection of Franklin avenue with Fulton avenue.

§ 2. To provide the money necessary to do the work authorized by the first section of this act, the comptroller of the city of New York is hereby authorized and directed to issue, upon the requisition of the said department of public parks, in the name and on behalf of the mayor, aldermen and commonalty of the city of New York, revenue bonds of the city of New York to an amount not exceeding twelve thousand dollars in all, with interest at the rate not exceeding six per cent per annum, and the proceeds of said bonds shall be applied to payment for the work, labor and materials required to be done or purchased under the authority of this act.

§ 3. The board of estimate and apportionment of the city of New York is hereby authorized, directed and required to include in the final estimates of the amounts required to pay the expenses of conducting the public business of the city and county of New York for the year eighteen hundred and eighty-one, an amount sufficient to pay the revenue bonds herein directed to be issued, with all interest due, or to become due thereon.

The bills for an iron bridge over the railroad tracks on Fourth avenue at Ninety-seventh street; for the completion of the entrance to the Museum of Natural History on Eighth avenue, and the act relative to assessments for street extension below Fourteenth street, have all been ordered to third reading in the Assembly. The act already passed the Senate for the widening of East One Hundredth street, and the act providing for the payment of assessments for street improvements in the Twenty-third and Twenty-fourth wards, in yearly installments at five per cent. interest, have been formally reported by the Assembly Committee on Cities.

A bill has been introduced in both Houses to reorganize the Register's office in the city of New York. It requires the payment of all fees for recording deeds, mortgages, and for vouches of titles, to the city, fixes the salary of the Register at $8,000, to be paid by the city, and the pay of the clerks in the same manner. The large income of that official under the numerous transfers of real estate has suggested this change, and figures estimating the profits of the Register have been brought here to use in pressing the bill. They make out that the profits of the Register was nearly one thousand dollars during the last three days of April.

The struggle over the proposed charter has commenced in the Assembly with every indication that it is to be radically changed before being reported by the cities committee, and probably so changed that it will finally fail between the two houses.

A singular bill has been ordered to a third reading which provides for the appointment of water inspectors in Putnam County, to prevent the drawing of the water in the lakes below certain points for New York City, and the salary to be paid by the city. The bill originally provided that these inspectors should be appointed by the Board of Supervisors of Putnam County, but after the bill had been reported an election for Supervisors took place in that county and the Democrats for the first time in many years secured a majority of the board. The bill was then sent back to the committee and changed so that the county judges, County Clerk and Sheriff should constitute the appointing board, two out of the three being Republicans. In this form it has been ordered to third reading in the Assembly.

The Committee on Commerce and Navigation of the Assembly has made a preliminary report stating that it has found many irregularities in the Dock Department of New York and a criminal negligence in keeping the records and in the collection of the revenues, whereby large sums have been lost to the city and large defalcations with false entries in the books, and that there is reason to believe that still other irregularities exist, and ask for power to employ experts to examine the books, vouchers and all papers of that department and to continue the investigation during the summer, reporting to the Legislature of 1882. This authority and power was granted by the Assembly to-day.

MINING INFORMATION.

Bulwer is selling for $3 a share; $300,000 for the mine. It has $60,000 in the treasury, and its mill is earning about $9,000 a month, net. In other words it will pay about 9 per cent on $1,000,000 without counting the ore. The west crosscut from the standard thousand foot level, may strike good ore in the Bulwer ground. Up above there was two hundred dollar rock, but all the ore in sight now is low grade. Bulwer would seem to be a good gamble.

The Silver Cliff Company had their annual meeting last Monday. The annual report was a very satisfactory one. There are 60,000 tons of ore in sight, which, it is hoped, will average $22 to the ton. The new mill turns out a hundred tons per day. The company has a debt which can be cleared up in a couple of months. Mr. James R. Keene, the President, stated that they could within a month commence the payment of fifteen, twenty or twenty-five per cent dividends. There was no promise of dividends however for three months to come. From statements at the meeting, it seems that the bulk of the stocks is in the hands of several large holders, Keene, Wormser, Moore and two others. Mr. Keene has unbounded faith in the mine.

Col. Alma Webster is now superintendent of the Hukill mine. A gentleman who is trustworthy sends us an account of a visit he paid the mine recently. He says they have recently struck a large body of $150 ore. In his judgment, the stock will be cheap at $2 a share.

Our readers will remember what we have said about Mono for the past six months. When we advised its purchase, it was selling for seventy-five cents a share. During the past week, it has been quoted as high as $3.60. We expect to see Mono sell for $15 before the 1st of November.

Father de Smet, we hear, will be forced to suspend dividends for three months at least. The winter has been so severe, that the mill was not able to do quite work enough to pay the dividend. Now that some new stamps are to be added, it has been thought better to stop the dividends until the additional stamps are put in. De Smet will be a good purchase at $6 or $7. It is a great mine and has no end of ore in sight; the grade of the ore is low.

Oro, Noondays, Mono, Bodie, Bulwer and Bechtel, are all purchases at the present figures. Five thousand dollars invested in these stocks to-

day, might be worth twenty thousand dollars before the close of the year.

STATE LINE MINES.

Editor REAL ESTATE RECORD:

My information differs somewhat from yours as to the value of the State Line mines. I believe that potentially the property is very valuable. A person who recently visited the mines and who is trustworthy, tells me the gold ledge is a noble one and very promising in future results. Captain Hall, once a large owner in the Standard of Bodie, believes in the property and expects to visit it within a few months time. But I agree with you that the property is not as yet worth what it is selling for. The mines are away from railroads, freight is very high and the developments are as yet of not much account. Like the Black Hill properties, the State Line mines require a great deal of machinery and an abundance of water. The country is arid, water must be brought from a distance, a shaft sunk and immense mills constructed. This will require a great deal of money and time. The people who control the management, are the same who manipulated Chrysolite, Little Chief, Hukill, Freeland and other Colorado properties. They are selling their stock to-day for what it may be reasonably worth three years from now. Something besides a good mine is wanted to give value to a property. Honesty and capacity are also needed. He who purchases State Line mine shares, will get an interest in a property which may be good three years from now. Capacity will be shown in the stock manipulation, but as to the honesty, read the history of Chrysolite.

CAUTION.

OUT AMONG THE BUILDERS.

Frederic S Barus has in hand plans for nine four-story single flats to be erected on the south side of One Hundred and Twenty-third street, 283 feet west of First avenue. Two of the houses are to be 19.10 by 65 feet deep, and seven 19 feet 4 inches by 65 feet in depth. They are to be built on a full size lot. They will be constructed of brick with brown stone fronts. J. C and J. W. Wandel are the owners. The cost is to be $12,000 each. When completed they will be for sale.

Thomas Smith will build two apartment houses, on One Hundred and Third street corner Lexington avenue, from designs by J. C. Burne. The large house will be 27x100 feet, five stories high, and built of brown stone. The cost is $20,000. The small house is to be 25x30 feet, four stories high, and is to cost $8,000.

On the corner of Seventy-sixth street and First avenue, Q. W. Hawkes is to construct four houses. Three of them will be 25x60 feet, four stories, with stores underneath; one is to be 27x 60 feet. It will be a four story apartment house. The four are to cost $50,000. J. C. Burne is the architect.

Eight houses to be constructed entirely of brown stone, are very soon to be put up on the of Second avenue, between Eighty-fourth and Eighty-fifth streets. The six on the avenue will be 25x70 feet, four stories high with basement, one on Eighty-fourth street is to be 26x70 feet and four stories high, and the one Eighty-fifth will have the same dimensions. James E. Frame is the owner, and the architect Mr. Burne. The estimated cost is $125,000.

Samuel Phillips will soon erect a four story brick house in West Thirtieth street, near Tenth avenue, from plans by the same architect at a cost of $8,000.

In West Thirtieth street near Sixth avenue, Dr. Ranney is to build a four-story brick, 25x38 feet. It will cost $6,000. Architect same as last.

S. Haberman will erect four five-story apartment houses on the corner of Seventy-fifth street and First avenue at a cost of $48,000. They will be 25x70 feet, and used for stories on the first floor. The plans were drawn by J. C. Burne.

Five houses are to be erected on the Northeast corner of Thirteenth street and Third avenue, from designs by H. J. Dudley. One will be 25x76 feet, two 25x62 feet, and two 25x82 feet. They will be five stories high, and built of brick with brown stone fronts, and cost $100,000. Owner unknown.

A semi-detached frame cottage, is to be erected at Rockaway Beach by Mr. W. George. It will be 27x46 feet, and two and one-half stories high with extension. J. Straud is the architect, and the cost $3,000.

S. McMillan will build an apartment house in Thirty-eighth street, between Seventh and Eighth avenues, 25x86 feet and five stories high. It will be constructed of brick with brown stone front, and cost $20,000. Thom & Wilson are the architects.

In Eleventh street between Broadway and University place, will be erected an apartment house 25x86 feet and five stories high. It will also be of brick and brown stone front, and cost $20,000. Owner and architects same as last.

James A. Frame will put up four four-story brown stone apartment houses, on the North Side of Fortieth street, 200 feet west of Seventh avenue. Each house will accommodate ten families. They are to be 25x80 feet, and cost $72,000. Thom & Wilson designed them.

L. J. O'Connor has prepared plans for a building to be known as the St. Lucy's Retreat, to be erected at Rockaway Beach. It will be 205x100 feet, and two stories high with basement and attic. The frame will be filled in with fire proof material between the studs. It will have brick retaining walls. It is to be for the use of newsboys. The cost is $55,000.

On the southeast corner of Madison avenue and One Hundred and Ninth street Mr. Moore will build five four-story brown stone front houses, 20 x55 feet, from designs of J. H. Valentine. They will cost $10,000 each.

Mr. Moore will also build three houses on One Hundred and Twentieth street, facing Mt. Morris avenue. They will be 18 feet 9 inches wide by 60 feet deep, four stories high, with brown stone fronts. The plans were drawn by the same architect. Estimated cost, $60,000.

On a lot with 100 feet frontage, located on the north side of One Hundred and Twenty-seventh street, between Seventh and Eighth avenues, S. L. Wright will erect six houses 16 feet 8 inches by 50 feet. They will have brown stone fronts, and be three stories high, with basement, and cost $60,000. Architect same as last.

P. H. Lalor is going to put up five houses on the northeast corner of One Hundred and Sixteenth street and Fourth avenue. They will have 18 feet fronts by a depth of 50 feet, and be three stories in height, with basement. They are to be of brick, with brown stone fronts, and to cost $50,000. J. H. Valentine is the architect.

Francis H. Weeks will build a stable for riding school and lawn tennis court on Forty-first street, 125 feet west of Seventh avenue. It will have a frontage of 111 feet on Forty-first street, by a depth of 98 feet 9 inches..

A building to be used as a sanitarium for poor children is about to be erected at Mott avenue and One Hundred and Sixty-fifth street, by the Old Gentlemen's Unsectarian Home.

At 124 East Fourteenth street R. T. Auchmuty will erect a five-story building, to be used for stores. The basement and first story will be 25x 80 feet, and above 25x65 feet. The first story is to be of iron, and the other four of red brick, trimmed with Wyoming stone. It will be built in the Rennaisance style, and cost $25,000. Jas. Renwick is the architect.

An iron foundry is to be erected on the north side of Fifty-sixth street, about 100 feet west of First avenue. One end is to be 30x106 feet, and the other 38x106 feet. It is triangular in shape, built of brick, and is three stories high. T. Schiver & Co., owners, A. B. Ogden is the architect, and the cost $8,000.

Wm. H. Redman is to put up a building on the northwest corner of Third avenue, near Fiftieth street. It will be three stories high, with stores underneath, and cost $8,000. Architect same as last.

James L. White is going to build a large fireproof dry goods store at 67 and 69 Franklin street near Broadway. It will have a frontage of 50 feet, with a depth of 140 feet. Wm. E. Bloodgood is the builder.

Mr. Frederick Loeser, of Brooklyn, will build two large stores at 114, 116 and 118 Greene street, and 102 and 104 Prince street. Henry Fernbach, the architect, is now draughting plans for them.

A new hotel is soon to be erected on the southeast corner of Eleventh street and University place by A. S. Rosenbaum. It is to have 95 feet frontage, and will be 99 feet 6 inches in depth. It will be seven stories high and built of iron. brick and stone. It is to cost $100,000. Henry Fernbach designed it.

On the property of General Hazen, at Sixteenth and K streets, northwest, in the city of Washington, a brick residence is to be erected under the personal supervision of J. G. Myers, the architect. It will cost $24,300.

A new variety theatre, capable of seating 3,000 persons, is soon to be built on the west side of Eighth avenue, between Twenty-fifth and Twenty-sixth streets. It will be T shaped, and be known as Harry Miner's Eighth Avenue Theatre. Thomas Canary is connected with Mr. Miner.

The plans for the new Methodist Church, at the corner of Sixtieth street and Madison avenue, are nearing completion, and at a recent meeting of the syndicate of gentlemen who have subscribed to the building fund, the subscriptions were placed on a legal footing.

On the property owned by the Stuyvesant estate at the southeast corner of Fourteenth street and Third avenue four houses are to be erected. They are to be used as stores and dwellings, The corner will be 25x96 feet, and other three 18x85 feet, all to be five stories high with basement and sub-cellars. They are to be Philadelphia brick with brown stone fronts and cost $80,000. H. J. Dudley is the architect.

Brooklyn.

Mr. George Brown is erecting twenty-seven three-story brown stone flats on Jefferson street, between Nostrand and Bedford avenues.

A. P. Preterri will build four three-story brown stone front houses on the southeast corner of Schermerhorn and Hoyt streets. They are to be 18 feet 6 inches by 45 feet. The same gentleman will erect a three-story brick front house on Hoyt street, 18.6x45 feet. These houses will cost $8,000 each. J. Correja is the architect.

At No. 106 Willow street, Robert A. Granniss will remodel his ordinary two-story house by making it three stories with basement and attic. It will be 25x70 feet, and constructed of brick. brown stone and terra cotta. The cost is $8,000. W. H. Beers is the architect.

REFORM IN TRANSFERS OF REALTY.

This evening at 8 o'clock there will be a meeting of the West Side Association at Municipal Hall, No. 61 Madison avenue, for the purpose of inaugurating a reform in the present method of transferring titles to real estate in this city.

Mr. Dwight H. Olmsted, the president, will deliver a lecture entitled "Transfers of Real Estate, Including a Synopsis of the New Zealand Transfer Act." Other gentlemen of equal prominence will also address the meeting. The lecture will include a history of the methods in vogue in ancient times for the transfers of realty and will advocate the adoption of a compulsory registry system, such as in use in most of the countries of Europe. The lecturer will also discuss the great question of the distribution and mode of dealing with real and personal estate. Mr. Olmstead claims that by the adoption of the system of transfers that he proposes the value of real estate in New York would be increased in value to the extent of $50,000,000.

CONTRACTOR'S NOTES.

Sealed proposals will be received by the School Trustees of the Eleventh Ward, at the Hall of the Board of Education, until Wednesday, the 18th of May, at 9½ A. M., for repairing and painting the schoolhouse No. 15 Fifth street. Plans and specifications at 146 Grand street.

Bids for regulating, grading, curbing and flagging One Hundred Fifty-eighth street from Third avenue to Railroad avenue, will be received at the Department of Public Parks until 9½ A. M., Wednesday, May 18th.

Bids for the following works:

The building of Pile Trestle of the western approach of Madison avenue bridge over Harlem River, and for building bridge over same, will be received by the Department of Public Parks until 9½ A. M., Wednesday, May 18th

Proposals for furnishing the materials and doing the work of erecting Engine House at 173 Franklin street will be received until 10 A. M., May 11th, and must be addressed to the Board of Commissioners.

MARKET REVIEW.

REAL ESTATE.

☞ For list of lots and houses for sale see pages ii, iii, iv and v of advertisements

The Real Estate Exchange this week was as empty as the desert of Sahara. There was scarcely anything done. The Registers of New York and Brooklyn were never so busy as during the past ten days. As our columns show, the number of Conveyances are simply enormous, far ahead of any previous year in the history of this city and Brooklyn. A gratifying feature of these transactions is that they do not represent foreclosure or forced sales. Conveyances are between persons who invest and property-holders who sell, without any legal compulsion. This taking of title will continue perhaps for another week, after which the volume of transactions will rapidly diminish. While these extended lists show that a great deal has been done during the past spring, the figures are moderate. There is no speculation, no boom, no high valuations. Of course, the district just east of the Central Park is being sold at fancy valuations; but there is not another location in or near New York, in which it can be truly said there has been any excitement. That has yet to come. Wall street is booming; the prices of all securities are extravagantly high compared with the figures of a year ago, and it is as sure as fate that this excitement will finally find its way into the real estate market. Those who buy wisely today, will double their money in two years time.

It would be no harm for investors to pay some attention to suburban property. The Linden estate at Flushing, L. I., embracing eleven acres of land, nicely improved, with a house said to have cost over $20,000, sold last Thursday on the Exchange for $15,000. The buyer was a man who generally gets bargains. Investors cannot make mistakes in buying property like this. It is a great deal better than risking money in Wall street at the present prices of securities.

Next week there will be several notable sales. The Seligman estate will be sold by E. H. Ludlow & Co. on Wednesday next. The dead banker was a shrewd business man; while he dealt largely in securities, he was careful to invest a portion of his means in New York real estate. The property consists of both improved and unimproved real estate. There are buildings in First, Fourth and Madison avenues, in Fourth street and Madison square and vacant lots in the upper part of the city. There are also some buildings in Brooklyn. The terms are sixty per cent. on a mortgage at five per cent.

It should be noted that there is no other parcel of twenty-two consecutive lots between Fourth and Madison avenues, and Seventy-second and One Hundred and Tenth streets, the property of one owner except the plot to be sold next week by E. H. Ludlow & Co., and belonging to the estate of Joseph Seligman deceased. The plot mentioned lies between One Hundred and Eighth and One Hundred and Ninth streets, and comprises 255 feet on each street.

The sale of Riverside Drive property, which takes place next Thursday, Morris Wilkins, auctioneer, will, no doubt, prove of unusual interest. Some of the very choicest property on the drive will be offered for sale. It is located upon the drive near One Hundred and Twenty-second street. A good deal of the property is on Claremont avenue. Some of these lots are among the choicest on the whole avenue, and will, no doubt, command very good prices.

Messrs. E. H Ludlow & Co. will sell on Tuesday, four lots at the northeast corner of First avenue and Thirty-third street, six lots at the southeast corner of First avenue and Thirty-fourth street, and five lots on the north side of Thirty-fourth street, east of First avenue. This property has great prospective value, in view of the constant additions in the throng who cross the Hunter's Point ferry.

A notable sale by Richard V. Harnett will take place on Thursday, when fifty-two lots will be sold on Tenth avenue, One Hundred and First and One Hundred and Second streets. This is a court sale, and in a part of the city which must improve rapidly. We expect to see all the keenest real estate dealers in New York present at the sale.

R. V. Harnett will sell on Wednesday, the house and lot No. 114 West Twenty-sixth street.

James L. Wells will sell on Thursday, eight lots on Chestnut street, between Locust and Woodruff avenues, Twenty-fourth Ward.

Messrs. Adrian H. Muller & Son will sell on Tuesday, two lots on the north side of Thirty-seventh street, 130 east of Third avenue.

Ten acres will be sold in the Twenty-fourth Ward, by A. J. Bleecker & Son, on Tuesday, the 17th inst. The location is on the Boston Post road and Southern Boulevard, and the property has also a frontage on the West Farms and Hunts' Point road. No one can go amiss who buys in this region, in advance of the building of suburban roads.

Gossip of the Week.

Messrs. Rasines & Power have sold the plot of ground at the southwest corner of Lexington avenue and Seventy-second street, 100x100, for $56,000, and on which it is understood the purchaser intends shortly to commence improvements; the plot of ground at the southeast corner of Fourth avenue and Seventy-second street, 102.2x130 for $86,000, and two lots on the south side of One Hundred and Twenty-sixth street, between Sixth and Seventh avenues, 50x100, for $13,000.

Messrs. E. H. Ludlow & Co. have sold the four-story brown stone house, No. 2 West Fiftieth street, Columbia College leasehold, 25x60x100, for $40,000, to Geo. H. Sergeant; the four-story office building, No. 112 Front street, 21.9x80, for $50,000, and the four-story brick warehouses, Nos. 238 and 239 South street, 52x80, for $19,000.

Mr. Max Danziger has sold a plot of ground on the north side of Eighty-sixth street, between First and and Second avenues, 140x100, to Q. W. Hawkes, with a loan of $20,000, the price being $40,000, and the purchaser will improve the property by the erection of first class apartment houses.

Mr. V. K. Stevenson, Jr., sold yesterday the four-story high stoop brown stone house with bay window extension, No. 10 East Fifty-fourth street, 19x60, with a dining room extension of 30 feet on a full lot, to George E. B. Hart, for $42,500 cash. The same broker has also rented to the Brush Electric Light Company the building Nos. 133 and 135 West Twenty-fifth street for five years, in addition to their office in the Domestic buildings.

It having been rumored that A. T. Stewart & Co. had completed negotiations for the purchase of the property bounded by Fifth avenue, Twenty-sixth street and Broadway, with the exception of one house owned by Mrs. Hoffman, for the erection of a mammoth retail dry goods house, a representative of the RECORD called upon Judge Hilton to verify the rumor. The Judge, was, unfortunately, out of the city, but the gentleman who transacts his business during his absence, while declining to contradict the rumor in toto, said that he had heard nothing about any such transaction, and that if there was any truth in it, he thought that he would have been posted in the matter.

Mr. Peabody has refused an offer of $75,000 for his two lots on Sixty-eighth street, 253 feet east of Fifth avenue, but this must not be taken as a quotation of lots located in this vicinity, as Mr. Peabody's lots are not in the market.

F. Zittel has sold the four-story brown stone house, No. 46 East Sixty-seventh street, 20x55x80, for about $30,000. The same broker has also sold the handsome country residence of Mr. Lucius H. Bigelow, located in South Norwalk, and comprising about 40 acres, for $23,000.

Mr. A. L. Nosser has sold his four lots on the south side of One Hundred and Fifteenth street, near Third avenue, for $15,000, with a loan, to a West Side builder, who intends to immediately erect brick tenements, with brown stone trimmings.

Mr. Peter A. Lalor has sold six lots on the west side of the Eastern Boulevard, between Fifty-ninth and Sixtieth streets, for $30,000, to Andrew J. Kerwin, who will erect a row of brown stone flats.

Mr. John A. McGuiness has bought a lot on the north side of Eighty-fourth street, between Fourth and Madison avenues, for $9,000.

Messrs. Butler & Matheson have sold the four-story brown stone dwelling, No. 316 West Twenty-third street, 25x65x100.5, to Matilda White, for $20,000, and the brick store, No. 15 Stone street, 25x91.4x91.4, to F. Barclay, Esq., for $25,000.

Mr. William Greene has purchased a three-story brown stone dwelling on the south side of Seventy-third street, east of Ninth avenue, 18.9x50x100.2, for $21,000.

J. F. Blaut has sold a lot on the north side of Grand street, 100 west of Greene street for $25, 00.

Mr. John Glass is building eight new five-story brick stores and dwellings, 25x80, on the southeast corner of Washington and Gansevoort streets, and directly opposite the new market. The corner store has already been rented for a wholesale grocery store, for $2,000 per annum. In this connection it will be remembered that some time since we spoke of the demand for stores in this locality from wholesale grocers.

Mayor Grace and Comptroller Campbell recently paid a visit to Gansevoort market and the surrounding neighborhood, and expressed the opinion that the widening of Gansevoort street should be commenced as soon as possible, as well as the opening of Thirteenth street through what is now known as Jackson square

When these improvements are completed the real estate market in this locality will no doubt have a little boom of its own.

Wm. Harney & Son have sold the two three-story brown stone houses, Nos. 339 and 331 York street, Jersey City, 16.8x45x100, to Mr. Sheperdson, for $15,000; and Mr. Tierney has sold a three-story brown stone dwelling opposite the above, for $8,000.

Brooklyn Gossip.

Mr. W. F. Corwith has sold the three-story brick store and dwelling, No. 402 Manhattan avenue, to Caroline Wolf, for $6,400; the two-story and basement frame dwelling, No. 173 Eckford street, to Emma Sievers, for $2,600; the two-story frame house, No. 44 India street, to John Shields, for $2,550; the two story frame house, No. 175 Meserole avenue, to A. M. Burns, for $1,800; the one-story frame house, No. 137 Newell street, to Patrick Fahy, for $1,250; and the lot on the west side of Lorimer street, 200 north of Calyer street, 22x100, to Hannah J. Williams, for $1,900.

The commencement of the erection of the row of three-story brown stone dwellings at the corner of Eighth avenue and DeGraw street, by John Dougherty has greatly stimulated the market for realty in this vicinity and the inquiries for parcels in this locality, is greater than ever before.

The following are the sales at the Exchange Salesroom for the week ending May 6:

** Indicates that the property described has been bid in for plaintiff's account:*

R. V. HARNETT.

8th av, n w cor 99th st, 45.11x100, three-story stone front dwelling and two-story brick dwell'g. W. H. Bush	$35,500
Rivington st, No. 260, n s, 25x100, three-story frame (brick front) store and dwell'g, and four-story brick tenement in rear. Adam Heppenheimer. (Amount due, abt ($7,400)	8,500

J. T. BOYD.

37th st, No. 445 W., n s, 26.6x98.9, two-story frame dwell'g. Elizabeth Grasmuck. (Amount due, abt $3,350)	6,000

C. S. BROWN.

*8 60-100 acres above high water mark, exclusive of the lands in streets and avenues, and about 3½ acres of land below high water mark, said land being in 24th Ward, on Water st. Kingsbridge av, Riverdale av, &c. Mutual Life Ins. Co	46,000

SCOTT & MYERS.

105th st, n s, extending from Broadway to 11th av, 200x110x150x100.11, two-story dwell'g and stable. A. C. Fransioli	47,500
7th av, No. 1563, e s, 20x80, three-story stone front dwell'g. Jas. K. Hill. (Amount due, abt $10,900)	20,000

A. H. MULLER & SON.

38th st, No. 324 E., s s, 20x87.9x20.2x84.9, three-story frame building, and two-story frame building in rear. J. I. West	3,000
Total	$166,500.

BROOKLYN, N. Y.

In the City of Brooklyn Messrs. T. A. Kerrigan and J. Cole have made the following sales for the week ending May 4:

Bergen st, n s, 150 w Clason av, 50x110; Dean st, s s, 150 w Clason av, 100x110. Vacant. John Allison	$3,620
Cumberland st, Nos. 87 and 89, two three-story brick front dwell'gs. Annie M. Clark	5,800
*Livingston st, n s, 202.8 e Gallatin pl, 22.4x100. Eliza L. Comstock	8,100
Main st, No. 26, s w cor Water st, 37.4x10, four-story brick store and dwell'g; Main st, Nos. 32, 34 and 36, w s, 50x55, three four-story brick stores and dwell'gs; Howard court, Nos. 1, 2, 3 and 4, n s, 75x50, irreg., four three story brick dwell'gs; Water st, Nos. 72-84, 90.11x34.11x irreg., five three-story brick stores and dwell'gs, and two-story brick stables. A. H. Thorp	18,000
St. Felix st, e s, 346.6 s DeKalb av, 3.6x80. Mr. Elliott	1,400
Willoughby st, No. 36, three-story brick dwell'g. Joseph Schwartz	5,150
*16th st, s e cor Jackson pl, 66x100; Jackson pl, e s, 68 s 16th st, 32x66. Conrad Dietrick. (Morts. $12,200)	13,950
17th st, n s, 160 e 5th av, 100x100.2. Herman Schierlah	3,000
17th st, n s, 100 w 6th av, 50x100.2; 17th st, n s, 300 w 6th av, 200x100.2. Vacant. Mr. Barry	7,865
Alabama av, w s, 100 n Liberty av, 75x100; Williams av, e s, 100 n Liberty av, 25x100. A. Leonard	3,175
Alabama av, w s, 88.3 s Atlantic av, 50x100; Williams av, e s, 99.5 s Atlantic av, 75x100; Liberty av, s w cor Henry av, 100x100; Liberty av, s s, extdg from Snedeker to Van Sindern av, 200x100; South Carolina av, Broadway, Snedeker and Van Sindern avs—the block, 200x400; Prospect st, Nos. 130 and 132, s s, 50x100, three and two story frame dwell'gs, and three three-story brick dwell'gs in rear; *Liberty av, s w cor Alabama av, 25x100. Edwina E. Munoz	16,930
*Atlantic av, s s, 210 e Grand av, 20x100; Atlantic av, s s 230 e Grand av, 20x100. Harriet Isabel Ward	7,000
Atlantic av, s s, extdg from Henry to Snedeker av, 8 lots. Theodore Hohensle	5,200

*Canarsie av, e s, 265, Webster av, centre line, 736.3, Brooklyn av, centre line, 260, and Collins st, centre line, 685—block, except plot 40x100 on Webster st, 285.4 e Canarsie av. John E. Tousey	5,000
*Greene av, s s, 160 w Reid av, 20x100. Elenor Doherty. (Morts. $2,500)	4,560
Liberty av, s e cor Williams av, 175x100. C. Locksmith	2,575
Prospect av, s e cor 4th av, 100x100.2. A. M. Melvin	3,375
*Troy av, n e cor Warren st, 52.6x80. Christopher Peterson	600
*Union av, s s, 115 w Bond st, 20x100. Gilliam Schenck	3,200
Waverly av, e s, 135.11 s Gates av, 16.8x88. Charles R. Porterfield	5,600
Total	$124,100

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards have had a slightly irregular market. Early in the week the tone was a trifle slack, and occasional cargoes could be obtained a trifle "off," but the feeling gradually improved and toward the close became very firm, with buyers paying outside figures quickly on fine stock, and exhausting the offering rapidly. The demand developed some improvement, and, in addition to this, arrivals were small, low tides and other adverse shipments tending to check the shipments from the yards. There is said to be quite a full amount of stock still left at the primary point, and the scarcity is attributed more to the absence of proper transportation facilities than to any other cause. Work on the production is also progressing rapidly and it is expected that new brick will be on the market within a week or ten days. Manufacturers, we understand, are well supplied with labor, a recent small advance in wages having attracted really more workmen than required. Haverstraws may be quoted at $6.50@7.00 and "Up Rivers" $6.00@6.50 per M. Paler have become a little slow again. A great many were offered and the demand proved less active than last week, with $8.00 rarely obtained and the business mostly at $2.25@2.75 per M. Fronts still much sought after, and hardening in value. Philadelphia's are particularly scarce and buyers are compelled to content themselves with small parcels to bridge over immediate wants. The present cost is equal to about $23 laid down here and Trenton's worth the same. Baltimore's are finding good proportionate sale and commanding extreme rates.

CEMENT.—For domestic the market continues very active, and the selling interest has a decidedly strong position. Indeed, manufacturers are in receipt of orders far in excess of their ability to satisfy at the moment, and the prospect is encouraging for a liberal business throughout the season. The shipping movement, both interior and coastwise, has already proven unusually full for the time of year, and more stock would have been taken had means of reaching it and getting forward to destination come within the limit of time to which some buyers were confined. Local consumption, also shows an aggregate beyond the average and after a temporary lull, is expected to set in again with greater force than ever. With these supports values naturally rule not only firm but somewhat on the buoyant order and the plan is for a gradual advance during the summer months. Manufacturers, in fact, have agreed upon a graduated scale of prices which will place the cost as follows: May, $1.10 per bbl.; June, $1.15 do; July, $1.20 do; August, $1.25 do, and September. October and November, $1.30 do, all New York delivery. These figures are exclusively for strictly Rosendale cement, and do not cover outside brands and other poor and undesirable offerings, though it is not improbable the latter may follow the improvement to some extent. Lapior's American Portland is reported as in a very active condition with orders frequently refused owing to the impossibility of conforming to the time limit, while the mills are overburdened with back work. This brand has recently been awarded a contract for 4,500 bbls. to be used in the construction of a large sewer in West street, under direction of the Department of Public Works. Foreign cements are a trifle irregular. The well known brands both English and Continental are securing a fair average proportion of local demand, and considerable amounts are going into the interior. Of the latter, some is to meet old contracts, some to satisfy engagements by agents who have just returned from extended trips, and report much success, and some goes out apparently for stock, as accumulations under control of importing agents are known to exist at such points as Buffalo, Chicago, etc. All brands of established reputation are well maintained in a general way, but occasionally fluctuate a fraction under competition. Arrivals have been pretty full during the past month, and embrace some new brands, of which buyers are a little shy. The fresh offering in many cases comes well recommended, but customers commence to feel the benefits of experience, and with a look at the "strange device" make their purchases from stock known to be good through reported trial. A number of the experimental lots will probably have to remain in store for the present.

HARDWARE.—Business is improving and for all goods now in season the prospect is considered bright and cheerful, though a portion of the trade admit that the volume of distribution is likely to fall short of some of the more sanguine calculations. As heretofore builders' hardware is still looked upon as the most promising, especially on city consumption. Prices continue somewhat unsettled, but no violent changes are taking place. For Machine Screws a new price list has also been issued, showing an advance of 15 ₱ cent. on Iron, and a decline of 17½ on Brass. Bright wire Goods are now quoted at 65 ₱ cent discount. The Ax manufacturers have advanced their prices 50 cents ₱ doz. on Single, and $1 on Double Bits. The makers of Cast Butts have put the discount of Loose Pin at 55 ₱ cent., instead of 50, and do. Japanned 60, instead of 55. A reduced price list has been issued for the Record Patent Strap Hinge at $2 ₱ doz. pair for 5-inch; $2 80 do. for 6 do; $4 40 do. for 8 do.; $6 60 do. for 10 do., and $9 40 do. for 12-inch, subject to a discount of 40 and 10 per cent.

LATH.—No new developments of an important character have come to light on this market. The comparatively liberal amounts received during the early portion of the season gives dealers a fair supply for current wants and prevents any open display of anxiety in the demand, yet there is no lack of evidence that buyers could be found were there any attractive supply to offer, and good reason to believe that pretty full rates would be paid. Indeed, receivers claim that the consumption this year is to be among the largest, if not the very largest ever known, and some whose opinion is entitled to every respect are confident that about the lowest rates of the season have been touched in view of an expressed determination among manufacturers to cut down shipments at ruling rates. On the other side of the question, however, operators, while admitting the strong evidences of a liberal consumption ahead, express no fear but that there will be enough stock to meet the call, especially during the open season. Lath, it is claimed, are quickly and easily produced and from very ordinary material. About the present price or a trifle higher has been found profitable in former years, and experience has taught that when the margin runs anything over an ordinary profit, lath head toward this market very freely from pretty much all points, regular and irregular, manufacturers not holding back "worth a cent" at such times if they can in any way secure transportation. Another point is made in the probability that there will be no ice trade with the East this summer, and a larger number of coasters in consequence available. As we close, the price is a little doubtful, owing to the absence of recent sales, but $1.50 would probably be paid for first class stock, and a higher figure is asked on parcels to arrive.

LIME.—This market appears to be just on the turn of recovering from the complaint under which most other articles in the building material line have suffered to a greater or less extent this spring. Too heavy a rush of stock before dealers were ready for it is about the story in a nutshell. No doubt prevails that eventually the consumption will be very full, but the amount required last month was far below the amount offering, and the natural sequence was to be found in the drop on values, as noted. Prices remain about the same as last week and steady all around.

LUMBER.—On the wholesale market everything appears to be in very good shape and the expressions generally are cheerful and confident, the few grumblers previously referred to merely serving as a shading to the picture. Consumption on local account is daily increasing and there is quite a little few of out-of-town orders from parties who have a trade on special lines of stock, but cannot use a general assortment to advantage. They therefore find it more to their advantage to select here than to take full cargoes, etc., and saddle themselves with a large percentage of unsaleable rejections. The pressure of supplies seeking a market here has also been pretty well received wherever it existed and receivers manifest a more determined spirit in resisting attempts to force down values. From primary points the advices indicate pretty good supplies of nearly all the leading descriptions of stock, but orders also plentiful and in surplus probably for some time to come.

Spruce of desirable and attractive quality has a pretty steady position and the feeling among sellers is comparatively cheerful. It is expected that after the experience at the opening of the season the majority of manufacturers will be more careful in making their shipments and a surplus thus avoided, especially as other points both East and South of this port are becoming better customers and exhaust a great many cargoes. Dealers still have their piers pretty well filled with recent receipts, and in the majority of cases it would be difficult to attract demand, yet quite a number of buyers failed to "get in" on the late break and are now a little anxious to negotiate. Receivers think it would be a very poor cargo not to command $14.00 per M, and on specials $16@17.00 are asked with extra difficult at $18.00 per M.

White Pine shows very little change of a decided character. Business is without unusual vigor, but on home and shipping account a goodly number of invoices change hands in one way and another, and the visible supply tends to decrease. With the opening of the canals, however, somewhat larger amounts will become available, including accumulations held over from last fall and new purchases made on primary points this season. Export orders are somewhat uncertain at the moment, but a few West India cargoes are thought to be wanted, and there is also some talk about sending a little more stock around to the west coast of South America. Prices generally very firm and supplies indifferently offered. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine remains in the same firm and well supported position before noted, and the selling interest generally is confident. A great many specials are wanted, but the specifications are accompanied by a limit of time, to which sellers cannot agree owing to the heavy engagements in hand, and a great deal of business in consequence goes over. A premium bid, however, is occasionally named, which proves tempting, and last year tactics of working in orders ahead of those booked at a lower figure are resorted to. As usual, very few large orders can be filled from yard accumulations, but in the ordinary form of jobbing, distribution business is first rate and at full prices. Exporters are fairly represented and have recently closed engagements for both South American and European shipment. We quote random cargoes at about $23.50@25 per M; ordered cargoes, $26@27.75 do.; green flooring boards, $24@26 do.; and dry do. do., $25.50@27. Cargoes at the South, $15@19 per M for rough, and $20@24 for dressed.

Hardwoods still remain in quite a firm position and holders in all cases make a basis of full former rates, about the only limit upon which they negotiate. For walnut of the best quality buyers are fairly inclined to meet the situation, but on other grades seem to be a little more cautious, as advices from the interior show somewhat larger supplies than predicted. Liberal amounts of walnut are still going abroad. We quote at wholesale rates by carload about as follows: Walnut: $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood ⅛ and ¼ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles reported about as before, the demand proving fair on most regular outlets at a steady line of values and no serious accumulation of stock offering. We quote Cypress at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

An Am. barque, 840 tons, from St. John, N. B., to Liverpool, deals, 57s. 6d.; a Nor. barque, 499 tons, and a Br. barque, 461 tons, from St. John, N. B., to the East Coast Ireland, deals, 60s; a Br. barque, 595 tons, from Richmond to Liverpool, timber, £950, f. o. b.; an Am. brig, 348 tons, from Portland to Cardenas, lumber, $6.50; a Russ. barque, 448 tons, from Fernandina to Montevideo or Buenos Ayres, lumber, $19 net; a Br. barque, 310 tons, from Brunswick to Rio Janeiro, $19 net; an Am. brig, 478 tons, from Portland to Montevideo for orders, lumber, $14 net, up-river ports $3 extra; an Am. barque, 487 tons, from La Have, N. S., to Sagua, lumber, $6; a Br. brig, 341 tons, from Bridgewater, N. S., to North Side Cuba, lumber, $6.50; an Am. schr., 94 tons, from Bucksville to Curacao, lumber, $9.50; a schr., 250 M lumber, from Portland to Cardenas, $6; an Am. brig, 454 tons, from Tampico to New York, cedar, private terms, quotable $7 ₱ ton; an Am barque, 295 tons, hence to Laguayra or Porto Cabello, lumber, $7 and foreign port charges; an Am. brig, 382 tons, hence to Laguayra, lumber, $8 and foreign port charges; an Am. brig, 3 0 tons, from Bangor to Port Spain, lumber, $6.50; an Am. schr., 299 tons, from St. Mary's to Port Spain, lumber, $10 50; an Am. schr., 299 tons, from Orange Bluff to Port Spain, lumber, $10.50; a Br. barque, 651 tons, from Pensacola to North Side Cuba, lumber, $9; a Br. brig, 278 tons, from Savannah to Oporto, lumber, $14; a schr., 165 M lumber, from Savannah to Fall River, $7; a schr., 300 M lumber, from Savannah to Baltimore, $5.50; a schr., 293 tons, from Rondout to Port Royal, cement, 20 cts., and back to New York, lumber, $7.25; a schr., 350 M lumber, from King's Ferry to Philadelphia, $7.50; a schr., 320 M lumber, from Brunswick to Philadelphia, private terms; a schr., 160 M lumber, from Jacksonville to Albany, private terms; two schrs., each 170 tons, from Brunswick to New York, lumber, $7.50; a schr., 175 M lumber, from Buckville to Thomaston, $9.50; a brig, 359 tons, from Pensacola to New York, lumber, $9; a schr., 81 tons, from Portland to New York, lumber, $2; a schr., 450 M lumber, from Pensacola to New York, $8.75; a schr., 180 M lumber, from Georgetown, S. C., to New York, $7.50.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1 feet.
West Indies	144,655	14,766,67
South America	279,150	7,649,634
East Indies, Africa, etc	.....	1,739,400
Europe, Continent	.....	523,150
Europe, United Kingdom	197,104	1,697,47
Total	620,909	26,376,34

The exports from this port last month were among the largest ever known for corresponding period reaching nearly ten million feet. The following is comparison of exports from New York for the first third of the year named:

	1881 feet.	1880 feet.	1879 feet.	1878 feet.
January	6,213,559	5,659,838	4,090,563	3,435,77
February	4,789,152	6,480,430	4,024,149	3,753,97
March	5,243,954	4,394,104	6,895,367	4,390,09
April	9,931,677	8,149,423	6,231,355	4,208,91
	26,178,342	24,693,795	21,241,434	15,797,7

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED MAY 3, 1881.

A fair business is reported for the past week. The stock wintered, notwithstanding the steady demand shows a good assortment on hand, and this being at present the acknowledged low-priced market, the wonder is that it has not been more thoroughly reduced. However, the temptations which low prices offer to the buyer may, possibly, before the opening of the canal on the 17th instant, lessen materially what is on hand.

The complaint is becoming daily more general among the lumber merchants here that they cannot bring lumber from points of supply and realize any profit out of the transactions at to-day's quotations. the price asked by the manufacturer and the price paid by the buyer being too close, leaving no margin for the distributor.

The determined attitude of the Michigan and Canadian manufacturer to get his price for his lumber together with the unquestioned certainty of very high lake freights should demonstrate beyond a doubt that much higher prices must prevail; and it is noticeable that those who thirty days ago proclaimed their opinion as otherwise, now seriously acknowledge the importance of an immediate advance, and the sooner the fact is recognized that the manufacturer's cry is "no surrender"—and he means it—the sooner will the business of the Albany lumber market assume its proper commercial tone. The purchases made in the fall of 1879 were favorable to the buyer, and those made in 1880 on a largely increased price founded the prosperous results of last season; but the stock coming into market this year has no such talisman to help it out.

Stocks of spruce and hemlock are very light; receipts are taken as fast as they arrive by rail. Mills on the North River are all shut down on accounto high water. The lakes on the Upper Hudson are still

full of ice. The recent loss by fire of the Bloomingdale Morœ mill will reduce the supply from that source considerably.

We learn from the West that mills up the Saginaw River are unable to saw on account of high water, but at Bay City most of the mills are in operation. Prices there are firmly maintained, and the best stocks are largely contracted for ahead. The time of commencing to saw is on an average about thirty days behind last year.

River freights are:

To New York, ₱ M ft	$	@1 00
To Bridgeport		@1 37½
To New Haven		@1 37½
To Providence, Fall River and Newport	2 00	@2 25
To Pawtucket	2 25	@2 50
To Norwalk	1 25	@1 30
To Hartford		@2 00
To Norwich		@2 00
To Middletown		@1 75
To New London		@1 75
To Philadelphia		@2 00

It is reported that there are upward of 500,000 logs in the big boom above Glen's Falls, N. Y., and including those in the drives and pockets between Glen's Falls and Fort Edward the number exceeds 800,000 standards, equal to over 160,000,000 feet of lumber. Adding to this the amount of stock in the mills when operations were suspended in the winter, if is estimated that at least 175,000,000 feet of lumber will be produced this season. This is an increase of two-fifths over the production last year, when 683,000 standards were put in the booms and drives, and 125,000,000 feet of lumber made.

THE WEST.

The Northwestern Lumberman as follows:

The condition of the markets, as reported this week compares very favorably with what it has been along back. As a general thing, dealers are pretty well supplied with orders, and some of them have rather more on their books than they can readily fill out of their present stocks. The demand, in fact, seems to be very good, considering the backwardness of the season, which still has a tendency to reduce the sales of lumber to a considerable extent. In the East there is a good inquiry at distributing points for lumber, and throughout the interior the consumption of that artical is going on at a rate that is at once gratifying and encouraging to lumber dealers. At Western points about the same story is told. In some of the Mississippi River markets the high water has somewhat interfered with the transaction of business; but, notwithstanding this drawback, a pretty good trade is reported, the demand being good from all sections not cut off from communication by the freshets. Up to this date the general demand for lumber has held up much better than it did last year. At this time in 1880, it will be remembered, the markets were very much demoralized, and complaints of dullness were common in all quarters. The reverse of this is true to day. The feeling of satisfaction with the volume of business is pretty nearly universal, and grows out of the fact that trade is good. Such a general absence of complaints in regard to the business is, indeed, something remarkable, and in itself argues that the lumber merchants are having a most excellent trade for the time of the year.

The developments of the week bring nothing specially new in relation to prices. At a few points changes in the lists have been made, notably at Davenport, Iowa, where it has been deemed necessary to make a slight advance upon the figures heretofore quoted.

From all the information it has been able to obtain, the Lumberman is inclined to believe that stocks are light at all points. There are but few distributing markets that showed earlier in the season so large a proportionate increase over last year as Chicago, and in spite of the fact that the volume of business has not been greatly in excess of what it was in 1880, we find now that there is but little more on hand than there was a year ago. The situation elsewhere cannot be greatly different from what it is here. There have been no additions to the stock yet, and, as it has been drawn upon for a month longer than it was a year ago without replenishment, it may be safely concluded that the quantity on hand is not excessive, to say the least. The dealers themselves say they are short as compared with other years, and the universal complaint of broken assortments goes far to prove that that the assertion is founded on fact.

CHICAGO, April 27, 1881.

The past week has been productive of but slight changes in the status of the cargo market of this city. Vessels are arriving and departing in but small numbers, as the lake is still filled with thick ice for many miles, involving delays and an extra expense for tow bills, such as present rates of freight do not warrant, and such as are submitted to only by a few, who, owning both vessels and the lumber they are to carry, do not stand upon a little increase in expense in obtaining needful supplies. The total lake receipts reported to April 26 embrace 8,008,000 feet of lumber, 16,100,000 shingles, 300,000 lath, 22,700 railroad ties and 90 cords of bark. At the same date last year the receipts had been 63,827,000 feet of lumber and 35,300,000 shingles. The total receipts since the opening of the present year have been 32,612,000 feet of lumber and 2?,447,000 shingles less than to the same date in 1880. It cannot be said that navigation is fairly open at any point.

The trade of the city is large, and the obstructions by flood, mentioned in our last report, are now wholly overcome, and the damages caused to the yards by the flooding of roads and raising of dock-logs, are pretty thoroughly repaired. The reported shipments of the week past have reached 15,808,000 feet, representing an actual shipment of about 23,794,000 feet. It may be roughly said that the trade reaches fully 4,000,000 feet per day, which, as compared with last year, is an increase of fully 1,000,000 feet. The aggregate reported shipments since the first of Janury, at this time lack but 950,000 feet, or one-quarter of a day's shipments, of the amount to the same date last year. These facts speak for themselves as loudly as any words can do in corroboration of the general feeling of confidence which is felt by all the members of the trade in this city.

Prices at the yards are firm, and while rumors are constantly spreading in the West of the cutting which is being done at the Chicago yards, it is doubtful whether they have any just basis to rest upon. Prices by the cargo are not well established, as but little has been offered on the market, but sales of dry culls have been made at from $6 to $6.50. A cargo of day boards and strips of No. 2 stock, from Grand Haven, sold at $12.25, and a cargo of shingles from Muskegon at $2.70.

Freights are unsettled and but few charters are as yet reported. We quote present rates to Muskegon and Grand rivers at $1.50; Manistee, $1.75, and Ludington $1.62½. These comprise about all of the ports from which lumber is as yet coming. Undoubtedly the coming week will show a material increase in receipts at this point, as advices from Michigan points indicate that a number of vessels are now loading, and they will probably try to get through the ice.

HARDWOODS.—The week has been marked by heavy arrivals and heavy sales. Some yards have been receiving more than they could properly care for, the receipts being composed largely of oak and ash. Considerable green walnut has come to town, but it goes out as fast as it comes in. Several of the yard dealers have orders which for some time will take all the walnut they can possibly get hold of. Dry walnut, except in small lots, is impossible to get, and probably a full assortment cannot be found at a yard in the city. A portion of the furniture factories are still idle for want of stock. They report plenty of orders, but nothing to work with. Whitewood box boards are very scarce, and many out of town orders cannot be filled.

Stave dealers say that the market was never so short of stock. Prices are advanced on some kinds. Green staves are picked up closely in the country, many of them going to eastern markets. A gentleman recently visited Toledo, Ohio, the headquarters of a firm that controls seventeen stave-mills, and was unable to buy but one car load of stock. The demand, generally, is heavy, and in Ohio and Indiana the usual quantity of staves has not been manufactured. Parties who have purchased in Michigan have been much bothered by the railways. One lot that was shipped the first of March reached its destination a few days ago. The hunt for staves has become about as general as the hunt for hardwood lumber; buyers are plenty everywhere. We saw some Minneapolis, Minn., men who were looking up stock here, and they report that it never was so hard to find.

We hear of no changes worthy of note at other points.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The little change which has occurred in the condition of our market since our last issue is of a character favorable to the maintenance of the firm feeling then reported. The value of trade has been somewhat lessened by disturbance of postal and transportation connections, with territory to Minneapolis, but orders received from sections easily reached, together with the extraordinary local demand, have given the dealers a trade of very satisfactory magnitude.

The failure, owing to the pressing demand for green timber for railroad and other purposes, to yard the usual stock of timber and dimension, gives at the opening of trade this season a badly broken stock, and orders are filled with great difficulty, and then only by the free interchange of lumber by the various dealers.

With this state of affairs prices are not only easily maintained, but dealers are beginning to feel that lumber on hand is worth net list prices and to refuse the customary discount for cash.

Despite the fact that the log cut of this exceeds that of last winter, giving an increased supply, prices of logs range from $1 to $2 per M feet more than last year.

Mill operatives will probably receive some further advance in wages. With the cost of manufacturing lumber thus increased, and with the stimulus of a great present and prospective demand, firm prices are assured and a positive advance strongly indicated.

FOREIGN.

From Timber Trade's Journal:

LONDON.

At an auction sale by Churchill & Sons the main offering was under reserve, and for these only an occasional bid was offered, which mostly led to nothing, bidders rarely venturing beyond 5s over the upset price the brokers put the parcels to the room at, which was not enough to lead to business. Amongst the unreserved, a parcel of Miramichi yellow pine, 1st 2d and 3d quality, 3x12 and up to 18 in, was knocked down at £6 10s; some 3x11, same ship, at £7 5s, and 7 to 10 in. at £6 10s. In connection with the dimensions and the qualities, as well as the wood, (yellow pine), the figures are simply deplorable. If the stuff had been fished up from the bottom of the docks after lying there a twelvemonth, one would think they would not have been dear at that price.

At another sale there were some large parcels of Quebec goods offered, but mostly under reserve. The upset price of 1st quality bright pine was put at £22 10s, 2ds £15 10s, 3ds £10; 1st spruce $10 15s to £10, 2ds £8, and 3ds £7 15s, but bidders did not respond.

* * * * * *

Among the gloomy views of the spring trade, commend us to the report of a Liverpool firm in a price list they issue. They are almost lachrymose over the deceitful doings of Canadian shippers, who, they say, by representing that wood is scarce, induce people to buy, and it turns out after all that there is plenty, which causes ruin to poor widows and fatherless children of merchants who come to grief through "no wilful misconduct of their own." These wiseacres regard the trade as in a drooping state in Liverpool, and advise their friends to buy sparingly in expectation that prices will recede. Considering that they are timber merchants themselves, this advice is very disinterested on their part. We do not, in a general way, quote from matter intended for builders, but this circular goes into the trade further than is necessary for small retail buyers to follow, and its condemnation of the market changes at Quebec, on which it lays the blame of the losses, is out of place.

NAILS.—Demand continues to show some irregularity, but on the whole appears to be increasing and holders are correspondingly encouraged. Stocks, however, are full, with some in second hands competing for the business, and values slightly variable on actual sales, although the list rates are still named as representing market values and a claim for much firmness is put forth.

We quote at 10d to 60d, common fence and sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

PAINTS AND OILS.—Demand is reported as very good by most jobbers and some claim a steady increase, not only from out of town, but from local sources. The selection is seasonable, but sufficiently general to move more or less of all the leading grades of both domestic and foreign production, and in most cases values are very well maintained. Leads appear to show the greatest irregularity and this is said to be due in the main to considerable close competition, the Western product in particular proving weighty upon the market. Most holders endeavor to adhere to the list rates as closely as possible, but in self-defense are frequently compelled to shade. Linseed Oil has not been unusually active, but still met with a fair, general demand and the market has shown a comparatively cheerful tone throughout. We quote at about 55@56c. for City, and 60@61c. for Calcutta from first hands.

PITCH.—The market has been about steady and without new features, the demand keeping up to a seasonable average, and finding stock to meet it. We quote at $2.00@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—In a jobbing way the movement was fairly active at somewhat variable rates. The wholesale market has been knocked about quite severely, and at one time appeared demoralized, but interested holders prevented too heavy a weight of stock and secured a partial recovery, though failing to greatly increase the interest of buyers. As this report is closed, the quotations stand at about 38½@40c. per gallon, according to the quantity of stock handled.

TAR.—There is little or no change worthy of note. Demand has fluctuated somewhat, but on the whole aggregates fair, and stocks are so controlled as to permit of about former rates well sustained on most grades. We quote $2.75@3.00 for Newberne and Washington, and $2.87@3.12½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT.

THIS IS TO CERTIFY, THAT THE SUBSCRIBERS have formed a Limited Partnership, pursuant to the provisions of Title one, Chapter four, Part two of the Revised Statutes of the State of New York, and of the several Acts amendatory thereof for the transaction of lawful business within the State of New York, to be conducted under the name or firm of KEMEYS & BABCOCK; the general nature of the business intended to be transacted is a General Commission Business, including the buying and selling of stocks, bonds, gold, securities, bills of exchange and commercial paper, exclusively on commission, in the City of New York; the names of all the general and special partners interested therein and their respective places of residence are as follows: general partners, Edward Kemeys and Henry D. Babcock, both of the City of New York; special partners, George G. Haven and Samuel D. Babcock, both of the said City of New York; the amount of capital which said special partners have contributed to the common stock is two hundred thousand dollars, in cash, namely: one hundred thousand dollars by said George G. Haven and one hundred thousand dollars by said Samuel D. Babcock; the partnership is to commence on the second day of May, one thousand eight hundred and eighty-one, and will terminate on the thirtieth day of April, one thousand eight hundred and eighty-four.

EDWARD KEMEYS, } General Partners.
H. D. BABCOCK, }
G. G. HAVEN, } Special Partners.
S. D. BABCOCK, }

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,
General Partner.
IRA BURSLEY,
Special Partner.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

CO-PARTNERSHIP NOTICES.

THE UNDERSIGNED, CHARLES BUEK, HENRY F. COOK and CHARLES DUGGIN, being desirous of forming a limited partnership, pursuant to the laws of the State of New York, do make and severally sign the following certificate:

First. The name or firm under which such partnership is to be conducted shall be CHARLES BUEK & COMPANY.

Second. The general nature of the business intended to be transacted shall be that of conducting, managing, and carrying on the business of Architects and Builders and Dealers in vacant lots or plots of land in the City of New York or elsewhere, and the improvement thereof by the erection thereon of buildings, for sale or to hire, and the selling and renting the same, including the planning, designing, constructing, and erecting of buildings for others, and generally doing and transacting whatever properly appertains to the individual profession or calling of the several and respective parties hereto, and the business hereby contemplated to be done and performed.

Third. The names of all the general and special partners interested in said partnership are as follows:

Charles Duggin is the special partner, and resides in the City of New York.

Charles Buek and Henry F. Cook are the general partners, and reside in the same city.

Fourth. The amount of capital which the said special partner has contributed to the common stock of the partnership is the sum of fifty thousand dollars.

Fifth. The period at which the said partnership shall commence is the first day of April, 1881, and the period at which the said partnership shall terminate will be the 30th day of April, which will be in the year 1884.

Dated New York, April 1st, 1881.

CHARLES DUGGIN,
Special Partner.
CHARLES BUEK,
HENRY F. COOK,
General Partners.

City and County of New York, ss.:

On this first day of April, 1881, Charles Duggin, Charles Buek, and Henry F. Cook, known to me to be the individuals described in and who executed the foregoing certificate, severally acknowledged before me that they executed the same.

HENRY C. FREEMAN,
Commissioner of Deeds,
N. Y. City and County.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have, pursuant to the provisions of the Revised Statutes of the State of New York, formed a Limited Partnership, under the name or firm of E. P. COBY & CO., that the general nature of the business to be transacted is Printing and the manufacture of Stationery, and buying and selling such articles and merchandise as are usually dealt in by dealers in stationery, and that E. Parke Coby and John J. Mountain, who each reside in the City of Brooklyn, County of Kings, and State of New York, are the general partners, and William H. Baker, residing in the same city, is the special partner, and that the said William H. Baker hath contributed the sum of ten thousand dollars as capital towards the common stock, and that the said partnership is to commence on the first day of April, 1881, and is to terminate on the first day of April, 1891.

Dated this 30th day of March, one thousand eight hundred and eighty-one.

E. PARKE COBY,
JOHN J. MOUNTAIN,
W. H. BAKER.

City and County of New York, s.s.

On the 30th day of March, one thousand eight hundred and eighty-one, before me came E. Parke Coby, John J. Mountain and William H. Baker, to me known, and known to me to be the individuals described in, and who executed the above certificate, and they severally acknowledged that they executed the same.

CHARLES NETTLETON,
Notary Public for
New York County, N. Y.

City and County of New York; s. s.

E. Parke Coby one of the general partners named in the above certificate, being duly sworn, doth depose and say, that the sum specified in the said certificate to have been contributed by the special partner to the common stock, has been actually and in good faith paid in cash.

E. PARKE COBY.

Sworn this 30th day of March, 1881, before me

CHARLES NETTLETON,
Notary Public for New York County, N. Y.

JOHN F. DONNELL & CO, J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.

Dated, New York, April 1, 1881.

VOL. XXVII. NEW YORK, SATURDAY, MAY 14, 1881 No. 687

Published Weekly by The
REAL ESTATE RECORD ASSOCIATION
TERMS:
ONE YEAR, in advance - - - - - $6.00
Communications should be addressed to
C. W. SWEET, 137 Broadway.
J. T. LINDSEY, Business Manager.

Secretary Windom has scored a great success. He has practically retired $190,000,000 of sixes, replacing them by a 3½ per cent bond. All this he has done without the help of any syndicate of bankers. Under ex-Secretary Sherman these gentlemen had very fat pickings. The relations of Sherman to the First National Bank, were always a subject for censorious remarks. If Secretary Windom should also be able to retire the fives upon the conditions as stated in his circular, he will take his place in the future history of the country, as one of our very best financial Secretaries. A suggestion of Secretary Windom at the Chamber of Commerce dinner, for a new Government department to look after the interests of commerce, is a good one and should be carried out.

The stock market is unmistakably bullish. Everything seems to favor a rise. Money is easy and likely to remain so; the immigration is phenomenally large, the promise of the crops is fair, the refunding of the government debt is proceeding successfully; every railroad report shows increased earnings, in short, the outlook is brilliant; there is no cloud over the sky of the future. But what most sustains the market, are the enormous foreign purchasers. The orders come both from London and the continental bourses. English consols which bear only 3 per cent interest, are at premium of over 2 per cent, which shows that money is going begging abroad. It is almost needless to say which are the best stocks to deal in. The swelling tide of values affects them all, good, bad and indifferent. Said a well known literary gentleman, who has dabbled successfully in the street: "The man who can't make money in Wall street during the next six months, is a fool."

The people of Memphis were congratulating themselves, that they have the most perfect system of drainage in this country. The two visitations of cholera were so disastrous to the trade of that great cotton entrepot, that everything was done that science could suggest to make the city wholesome. But to the dismay of the people of Memphis the deathrate, for some time past, has been exceptionally heavy. During the first three months of this year, it averaged 41 to the 1,000. At one time the deathrate was 59 to the 1,000. In New York, for the same period it was 30.6 per 1,000. It was not the drainage system, however, which was at fault, but the exceptionally severe winter. Our increased deathrate was due to the same cause. This shows how thoughtless, if not how malicious are the exaggerated statements of the New York deathrate which have appeared in the columns of the *Herald* and other papers.

The immigration is simply phenomenal. Some days nearly seven thousand arrive at this port. Sixty thousand arrived during April, and it is probable that seventy thousand will arrive during May. At this rate the arrivals at this port would be over 600,000 for the year. No wonder stocks are booming and land is rising in value.

THE EAST AND THE WEST SIDE.

Through the operation of some law affecting real estate, the increase of population is far greater on the East than on the West Side of the city. Clearheaded and far seeing men have been sadly mistaken as to the relative values of different parts of this island. It was supposed, at one time, by certain astute capitalists, that Second avenue was to become the fashionable thoroughfare of New York, and there are some fine houses on the lower part of that avenue which were built when this was the impression. This belief was not unreasonable, for Rutherford park and the laying out of Tompkins square, seemed to insure good neighborhoods, which ought to be continuous to the upper end of the island. But Murray Hill quite unexpectedly became the fashion for the finest private residences, and Central and North Second avenues have ever since been given over to tenements. Then there came a time when it was supposed Washington Heights would be the choice aristocratic quarter of New York. The region is a beautiful one; but the investors of twenty-five years ago have seen those picturesque and healthful heights neglected for property just east of the Central Park. Then came the West Side furore; all those interested in realty can recall the excitement which prevailed when Riverside and Morningside parks were planned, and when the Boulevard was under construction. But those who invested at high figures in 1866, 1867, 1868 and 1869, had their dreams of immediate profit dissipated, and those who were not ruined saw the price of property shrink to one-third the value which was bid for it before the panic. There has been a large advance recently in this property, but the figures of 1881, with the improvements all completed, are not as high as they were in 1871 when they were being projected.

It was the judgment of many very long-headed operators that business would continue up Broadway, and that Boulevard property would in time approach to lower Broadway prices. Again it was the unforeseen which occurred, for the Sixth avenue took the large retail store business, which, it was supposed, would continue up Broadway above Fortieth street; and, stranger than all, Fourteenth street, from Broadway to Sixth avenue, became a mart for the sale of goods suitable for women and household adornment.

But during all this period, while capitalists and speculators were looking for great advances in prices on the West Side, population and building steadily increased to the east and northeast of the Central Park. The finest houses were built on Fifth and Madison avenues, while our great working population occupied nearly all the vacant spaces along the line of and east of Third avenue. For every one person who settled west and northwest of the Central Park, at least fifty showed their preference for the East Side, and hence the extraordinary building activity, all the way from Fifty-seventh street to the Harlem River and east of the Central Park.

Nor will this movement of population be stopped by the Harlem River. Rapid transit for the annexed district will mean an immense addition to the business of the Second and Third avenue elevated lines, rather than Sixth or Ninth avenue. An army under a skilful general, marches on interior lines; it never makes a roundabout movement, unless as a surprise. The swarm of advancing population therefore, will pour over the Second and Third avenue bridges, as that is the shortest route to the annexed district. Then, in the, perhaps, not distant future, after General Newton has completed his labors, foreign steamships of heavy draught will reach New York by the way of Long Island Sound, and cast anchor off Port Morris. On the southeastermost point of Westchester county will be located the elevators and the docks, where foreign vessels will receive and deposit their cargoes. The ship canal, which is to connect the Hudson River with Long Island Sound, will add more to the value of land near the latter than the former. In fact, everything points to a dense population just north of the Harlem River and east of the Harlem Railroad. There is a great deal of poor land in this region, but it is the destined site for warehouses, factories, docks, and a great working population. The higher lands of Pelhamville and New Rochelle, will then probably be in demand, for the richer class of citizens who will own the shops, factories and warehouses on the lands below them.

So far as now can be foreseen, the relative increase of the East Side over the West, may continue for the next few years at about the same ratio as for the last ten years. Some real estate dealers, whose judgment is to be respected, believe that population will overflow from the East Side to the north of Central Park, so as to cover the improved and flat country north of the Park and east of Eighth avenue. Already there is active building in the neighborhood of One Hundred and Twenty-fifth street, between Eighth and Fifth avenues; but the great building continues after all along the line of the Third avenue. The West Side undoubtedly has a great future. Some time or other its unequalled picturesqueness will be taken advantage of to build up a new fashionable quarter for New York.

But it does not follow that there may not

be quite as much money in the West Side as in the East Side investments. Then, the projected buildings in contemplation, show that there will be quite an extensive series of improvements on the West Side during the coming year. The longer they are delayed, the finer will be their character. With Manhattan Square andthe Riverside drive put in perfect order and the streets opened to the river, the activity on the West Side will rival that on the East Side.

IN A SOUND CONDITION.

It cannot be denied that the real estate market is in a sounder condition than it has been in for many years past. We are adding largely to the population of the city. Our elevated railway system makes all parts of this island accessible. Building was never so active. There is no "boom," no undue excitement; there is nothing to repel conservative investors, who can purchase to-day improved property that will bring them in 8, 9 and 10 per cent, while the most cautious operator is satisfied that there is a heavy margin in unimproved real estate at present prices.

As we pointed out last week, there are very few new foreclosure suits and scarcely any foreclosure sales. Time was when foreclosure sales formed the bulk of the transactions. To-day they are very few and do not represent one in a hundred in the offered lists. It will be noticed that our lists of judgment suits are very small; while liens on property have fallen off very greatly. All this shows that people are out of debt, are paying up their old obligations, and have plenty of money to spare for new enterprises. From this time forth, therefore, we look for a steady, wholesome advance in the prices of city property, an advance based upon a real demand from purchasers who have made money in stocks, bonds and general business.

Then, the trade of the country is in a very healthy condition. There is an enormous consumption of the metals, especially iron and copper, but the supply is abundant and the price moderate. Cotton, grain, and provisions are also held at prices which command a market in Europe, and the supply is greater than ever before known in the history of the country. Our railway system is in a wholesome condition, as it has all it can do, at fair prices, while the materials which enter in the construction of the railroads, such as iron, copper, ties and the like, are still very cheap.

Under these circumstances it would not be surprising if the summer's business was very brisk. The long winter deprived our merchants of a great part of their spring trade. Many of our goods, imported as well as those supplied by our home markets, will have to be kept over till fall or the coming spring, but the summer trade will be good, and it is certain that the real estate market will be active, though we hope not excited, during July and August. The present excitement in stocks will shortly "slop over" into other investments. Then the time will come for real estate to have its advance.

The *Herald* permits some unwise reporter to continue his warfare upon the prosperity of New York, by publishing daily a list of those who die from zymotic diseases and he has even gone so far as to count the hearses that cross the ferries. Everything is done to give the impression that New York is an exceptionally unhealthy city. The fact is carefully concealed that the severity of the past winter has increased the number of deaths, as compared with former years, in all large cities, not only in this country but in Europe. Take Paris, one of the cleanest and best governed cities in the world. The deathrate in that city was 31.38; while in New York the rate was 32.67 per thousand inhabitants. But the average in New York was based upon a census which allowed us only 1.206.577 inhabitants, when it is known that our present population is fully 1,300,000. As a matter of fact our deathrate is lower than that of Paris, which has the most perfect municipal organization of any city in Europe. Its location is healthy, its streets are always clean and its sewerage and drainage systems represent the best results of modern engineering science. It is true that the deathrate both of Paris and New York, is greater than that of London; but then, the two former cities are famous for their physicians and hospitals, and the deathrate represents people who sicken in other localities. The emigration to this port also swells the mortality of this city, as we are credited with the deaths at the emigrant depots on Ward's Island. It is quite fair to say that New York is not well governed. It is allowable to insist on clean streets and good drainage and sewerage. It is quite true that where soil has been stirred up in certain portions of the island, where improvements are going on, there have been more or less malarial disorders. But the average citizen, living in the paved and sewered portions of the city, is as exempt from sickness, and has as good a chance for life as in any city throughout the Union.

A GREAT BULKHEAD.

Mr. William S. Andrews some time since introduced a bill into the Legislature "to lay out and establish an exterior street along the East and Harlem Rivers of this city." This exterior avenue is to be 150 feet wide and is to run from Thirty-eighth street to the Harlem River.

This is the revival of a project which was much discussed as far back as 1852. It was not then carried out, because there was an abundance of dockage and bulkhead room below Twenty-third street. But the growth of the commerce of the city has been very large since that time, and now dock facilities are needed to the northeast of Manhattan Island.

Undoubtedly the time is coming when great steamships will reach New York by way of Long Island Sound. Before many years are over, thanks to the labors of General Newton, Hell Gate will be cleared of all dangerous reefs and rocks, and the entry to New York from the Sound will be more expeditious and safer than by way of Sandy Hook. Outgoing and incoming steamers are now forced to depart at variable and unseasonable hours, so as to float over the bar at high tide. But when the Hell Gate improvements are complete, great steamers can come and go at any hour the companies may fix on, without reference to high or low tide. Immense vessels are now building in England with a view to this very change in our local waters. The Great Eastern could again be profitably employed as soon as the rocks are removed from Hell Gate.

But quite apart from our foreign commerce, dock facilities will be needed between Twenty-third and One Hundred and Twenty-ninth streets. Our local trade is growing and the improvement of the Harlem River, which cannot be much longer delayed, will necessitate more facilities, not only on this island, but on the southeasterly coast of Westchester County. This bulkhead project is now before the Committee of the Whole in the Assembly, and it is to be hoped will be favorably acted upon.

There are conflicting statements as to the cost of the proposed improvement. Some of the local property holders are bitterly opposed to it, because it would necessitate assessments. The chairman of the Dock Commissioners, Mr. Vanderpoel, says that not more than half a dozen important buildings will have to be destroyed. Some of the cutting will be expensive, especially in the neighborhood of Fiftieth street and higher up. But the filling in and transportation can be cheaply done by scows.

In connection with this scheme the old one of an elevated road, running along the edges of the city and over the various warehouses, is in contemplation. This will some day be accomplished, to the great improvement of the commerce of New York, for it will obviate the necessity for cartage through the city, and do away with all the terrors of a snow blockade, such as those we have had during the past winter. By all means let the proposed bulkhead be sanctioned by the Legislature.

The *Wall Street News* was high in favor in financial circles up to within the past two months. During the rise in prices from June, 1880, to the break last February, it was generally right, and the special points it gave were so good that those who followed its advice made money three times in four. When it became bearish last March it had a large following, and tens of thousands of shorts were made under the inspiration of its advice. But the bears have lost money, and the *Wall Street News* has lost credit. We all know that a serious break must follow this great rise. But the ordinary Wall street operator does not care what will happen a month from now, or even next week. What he wants to know is what he can buy to-day and sell to-morrow, or sell to-day and buy back cheaper to-morrow; and a paper which is violently bear in the face of a persistent bull market is voted a bore; people won't buy it. Consistency is not looked for in a financial journal. The market itself is inconsistent. It is hot or cold, high or low, as the financial tide sets or the currents flow. Prices were off some, and properly so, early in the spring, but it is foolish to be predicting disaster in the face of every factor calculated to advance prices. The financial editor of the *Tribune*, one of the most honest and able men on the press, has been been a consistent and persistent bear since the resumption of specie payments. The market has been against him and his conclusions for over two years, but he keeps right along, in the spirit of the man who, when told that the facts did not agree with his theory, said, "So much the worse for the facts." Some very shrewd men have been mistaken about the course of the market, among others James R. Keene, who must have lost as heavily this spring on the bear side as he did last spring on the bull side. Of course, the coupling of the name of Mr. Keene with the *Wall Street News* is accidental.

THE SPUYTEN DUYVIL PARKWAY.

Editor REAL ESTATE RECORD:

The Albany correspondent of THE RECORD seems to have received some erroneous figures about the Spuyten Duyvil Parkway. The assessments will not exceed $65 per acre nearest to the improvement, and the assessments of those who oppose the present plan and favor the bill pending at Albany will not average as much as $20 per acre.

Yours truly,

THOS. HY. EDSALL.

MINING POINTS.

Don't touch Old Dominion Copper. It is a manipulated stock. The representations made in regard to it are not truthful, and people who buy the stock and hold it, will live to regret it. The extravagant statements made about the copper yield of Arizona have no foundation in fact. The Copper Queen shows a large amount of copper ore, but it is a pocket, not a fissure, and some day will come to the same end as did the ore in the Emma Mine.

There ought to be a good future for copper properties; the consumption just now is enormous, and it promises to be twice as great when the electric light companies get fairly to work. These will require no end of copper wire, yet copper is now so abundant that the syndicate which sells the copper ore for all the companies has sent six million pounds to Europe, where it will be offered for about 16 cents a pound.

The working of the old Spanish copper mines has added largely to the product of the world. It was feared at one time that Arizona would produce so abundantly of this metal as to demoralize the market, but experts who recently visited that territory say that there are not more than three good mines in that region.

The mining market has been dull during the past week, the attention of the larger operators being directed toward the Stock Exchange. Seats in the board are not quoted as high as they were, but there is every prospect of lively business this summer.

Why will people deal in such trash as Copper Knob? Its manipulation is a first-class swindle. Some of the people in it are the same who have stuck the New York public with other North Carolina worthless properties.

The quotations of unlisted mining stocks are worthless, and the newspapers should not publish them. It is impossible to buy or sell at the quotations given.

We notice respectable papers recommending Bodie Consolidated, Consolidated Pacific and Boston Consolidated. These are properties that should not be touched; the people behind them can make deals, but can't develop any of the mines.

The news from the Silver Cliff continues good, but the stock is neglected—indeed there is not much afloat. Mr. Edmunds, the Secretary, has gone to Europe. This stock ought to pay 20 cents a month dividends by September.

Iron Silver is weak, as Mr. Stevens is selling all the market will take at $3 a share. The mine, however, is doing well and will pay another 20 cents in July.

TRANSFERS OF REAL ESTATE.

Mr. Dwight H. Olmstead delivered a very interesting lecture before the West Side Association last Saturday evening, on the subject of real estate conveyances. He called attention to the vast accumulation of records in the Register's office and complained of the delay and expense which attended the transfers of real estate. He also pointed out the insecurity of real estate titles, due to our cumbrous, involved and unnecessary legal forms.

Mr. Olmstead complained that real estate was not as negotiable as personal property, such as stocks and bonds. With a proper system of registry, the sale of a house or a corner lot should be as easily accomplished as the purchase of a hundred shares of stock or the transfer of a $1,000 Government bond. He said the most perfect system extant, prevailed at the antipodes. In New Zealand the transfer of land is as easily negotiated as are stocks or bonds with us. A government stamp guarantees the title. There are no lawyers to be employed, no searches to be indemnified. The confusion in real estate titles with us, is due to the different ways in which land historically came into the possession of its present owners. In great Britain there is no registry. The owners of land do not wish their private possessions to be known. The original title to most land was forcible seizure; it was confiscated from the original owners or alienated from some church. Mr. Olmstead was not hopeful that any change would be effected. The present system is profitable to the politicians and the lawyers. It does not effect the bulk of people who own their property permanently. It is the speculators, the buyers and sellers who are taxed in the purchase and sale of real estate. Nor is it any great hardship in small communities, where the conditions of surrounding property are well known to every one. It follows that the only persons to be benefited are the dealers in large cities; but this is not a class likely to influence legislative bodies, in view of the opposition of the lawyer and the politician.

Since writing the above we learn that Mr. Olmstead has been gratified in finding that many leading lawyers are in favor of the reforms he has suggested. He has been greatly encouraged in finding that these members of the profession would co-operate in any earnest attempt to make our land laws similar to those of New Zealand.

THE STOCK EXCHANGE IMPROVEMENT.

The Stock Exchange with the new addition and alterations, when completed, will consist of a basement and five stories on Broad street, the basement being used as a safe deposit vault and for steam heating and ventilating the whole building; with also a passage-way running through from Broad to New street.

The first story on Broad street is 22 feet high, contains the long room which is 40x70 feet, and which is used for telegraphs, telephones, messages, &c., from which there is a flight of eight marble steps to the level of the board room floor, between which and the board room floor is a vestibule 22x40, containing the elevator which rises to the different stories of the building and connects with the Wall street entrance.

To the south of the long room and in the additional building there will be a room for the use of members, 22x60, containing two mantelpieces of echaillon marble 9 feet wide with pilasters, &c., in harmony with the style of the building; in the rear of this room will be the stairs from the first to the second stories of the building.

The board room, which occupies nearly the whole front on New street, 139x53, and 55 feet in height, is finished in the interior with highly polished pilasters of Nova Scotia granite, having marble bases and bronze Corinthian capitals; above each pilaster is a full Corinthian cornice from which is a coved ceiling with limnets or groins for all the windows. The centre of the ceiling is level, the whole of it being elaborately paneled and constructed entirely of galvanised iron on wrought iron frames.

The whole board room is decorated (as in fact is the whole building) in the renaissance style in colors. Galleries for strangers are located at either end of the room and are accessible from the second story. A hall runs parallel to the board room from the Wall street entrance to the south end of the building, communicating with it by eight doors.

The second story of the Broad street building contains the bond room, 70x40, richly decorated in the renaissance style and in which the seats will be arranged as in a theatre; the secretary's room, 22x29, the president's room, 15x20, with staircases to the upper stories and a corridor running from the Wall street entrance and extending the whole length of the building.

The third aud fourth stories contain six committee rooms each, and are decorated in the same style. The sixth story contains the water tanks, &c. The staircases are of iron with slate steps and the halls are of marble throughout the building.

On the first story of the Broad street front there will be a portico with eight polished columns of Nova Scotia granite with marble caps and bases, two doors and three windows with circular headed arches with keystones ornamented with appropriately carved heads.

The remainder of the front is divided into four stories having coupled fluted pilasters, caps, and bases, the windows are decorated in the renaissance style with leaves and foliage. The main cornice over the fourth story has an architrave sculptured frieze with medallions and consoles richly carved.

The cost of the improvements will be ng $250,000.

Mr. James Renwick is the architect and contemplates having the building completed early in June.

[From our own Correspondent.]

NEW YORK REALTY AT ALBANY.

ALBANY, May 13.

The Senate committee on cities has finally ended the controversy before it over the Spuyten Duyvil Parkway bill and reported it with an amendment. It provides for discontinuance of the several small parks as mapped out by the Park Department, abolishes the double-road parkway, with its proposed costly adornments, and substitutes a single street, as proposed in the bill as it passed the Assembly. The amendments provide for the payment of the expenses of the Commissioners of Estimates and Assessment appointed to obtain title to the property intended to be included in the several parks and the double parkway, and to assess the expenses on the property benefitted, and that all further proceedings shall be discontinued, the property proposed to be taken reverting to the original owners. The expenses which are to be paid are such as have been fixed by the courts for pay of commissioners and their expenses in doing the work. This does away with the assessments upon adjacent property and prevents those whose land was to be taken under the original plan from receiving the large sums contemplated and leaves their land on their hands. It is a relief generally to the property-holders in that section, some of whom were required under the old plan to pay more in assessments than they could get for their property for years to come. The bill as amended will unquestionably pass.

The plumbers' bill, which is of importance to all builders, has at last passed both houses, and has been sent to the Governor. It requires that all plumbers shall be registered and obtain a certificate in order to do work, and that all plans for plumbing new buildings with sewerage connections shall be submitted to the Board of Health, and no work done until plans are approved by that Board, and then executed in accordance with the plans which have been so approved.

The Dayton bill, amending the mechanic lien law, which passed the Assembly some time since, is meeting with considerable opposition in the Senate, with chances against its passage in that body. This is the bill that places the lien ahead of what is termed a blanket mortgage.

The act limiting all assessments upon adjacent property for the opening and widening of any street or avenue below Fourteenth street, New York, to thirty cents per square foot, has passed the Assembly.

The bill for the completion of the entrances to Central Park on Eighth avenue, Seventy-seventh and Eighty-first streets, and the act for placing the maintenance of the Museum of Natural History under the charge of the city, have both passed the Assembly and are now in the Governor's hands. The act authorizing the Sinking Fund Commissioners to renew the lease of the land occupied by the German Hospital to that hospital, has passed the Senate and been sent to the Governor.

The bill to establish an exterior street along the East River from 38th street to Harlem River has been recommitted to give parties an opportunity to be heard against it.

The act for the construction of an iron bridge over the railroad tracks at 97th street, which passed the Assembly last week, has been favorably reported in the Senate.

The Governor has signed the bill for opening an extension of Lexington avenue through certain blocks in Harlem.

The following bill to prevent the spread of infective diseases, and the placing of buildings in quarantine by the Board of Health, which is of interest to all holders of tenement property, has

passed the Senate and now pending in the Assembly:

SECTION 1. Whenever any contagious, infectious or pestilential disease shall exist among the inmates of any tenement or lodging-house, or other building, and shall, in the opinion of the board of health, be a cause of disease or peril throughout the city of New York, the board of health of the said city may take and file among its records what it shall regard as sufficient proof to authorize its declaration that the said building or premises to the extent which it shall specify is in a condition or in effect dangerous to life or health, and thereafter the said board of health may by a resolution duly passed and entered in its minutes declare such house, building or premises and so much of the vicinity thereof as in the opinion of said board the preservation of the public health shall require, dangerous to life and health, and subject to quarantine, and upon the approval of its said resolution by the mayor of the said city the said board of health may quarantine such house, building or premises and vicinity or part thereof and prohibit and prevent all persons living therein, and those known to have been recently exposed to any such disease from leaving such house or premises without permission until fifteen days after the last case of any such disease shall have occurred therein, or the said board of health may, if it judge it necessary to prevent infection or contagion, remove to the hospital provided for the treatment of such diseases all persons sick as aforesaid until they shall have entirely recovered and may also remove to and detain at such suitable quarantine station or quarantine of observation as may be provided for the use of said board, those persons known to have been recently exposed to any such disease, together with their goods and effects for a period not exceeding fifteen days after the last case shall have occurred, unless sooner discharged by the said board. During the prevalence of any such disease the said board may prohibit and prevent all intercourse with those confined at such quarantine or hospital, house, premises, vicinity or part thereof, placed in quarantine as aforesaid, which premises shall be designated by a yellow flag.

The Senate has passed the bill for an iron bridge over railroad tracks on Fourth avenue at Ninety-seventh street, and it now goes to the Governor.

The street cleaning muddle has been sent to a new conference committee, and there is a prospect of an agreement upon a bill to provide that the Board of Health shall have the confirmation of the appointment for Superintendent of Street Cleaning made by the Mayor. The appointment of ex-Alderman Purroy by the Mayor for Fire Commissioner has been used to bring about this change in the Senate.

The politicians are now at work on the McCarthy charter, and propose to fix it up for a report next week in such a manner that it will carry out their special schemes.

WALL STREET GOSSIP.

Secretary Windom's call, offering to extend the fives at 3½ per cent, was not known until yesterday morning and the market opened very strong; operators believing that we are sure of an easy money market all summer, due to the purchases of the Government. Set backs there will be, it is argued; but the market must recover. Hence the bull operators are very bold. It is again announced that Canada Southern will pay a 2½ per cent. semi-annual dividend shortly, and make a showing that 5 per cent. per annum is assured hereafter. There is some wild talk of par for the stock, but the wish is probably father of the thought.

It is predicted that Ontario and Western stock will be active in a few weeks. The construction company stock has been weak, but the roads have been bonded for $15,000,000, which it is hoped, will advance the price of the construction stock, upon which one instalment of 20 per cent has been paid.

From the *World's* gossip and the *Public*, it is evident that Jay Gould wants the public to buy Missouri, Pacific and Iron Mountain, and to sell Texas Pacific, and Kansas and Texas. Gould's organs claim that the combined Iron Mountain and Missouri Pacific can pay 8 per cent, while the future of Texas Pacific and Kansas and Texas is dubious; for the one road runs over two-hundred miles through an artificial desert in the Indian Territory, while the Texas Pacific runs through a real desert as it progresses westwardly.

Ex-Surrogate Hutchings is said to be largely short of the market. He has been a very lucky operator thus far. But then, even the wisest make mistakes in Wall street.

The Chamber of Commerce annual report calls attention to the need of a reconstruction of the sewerage system on the lower part of New York island. Whenever the city has money to spare, this great work should be undertaken.

OUT AMONG THE BUILDERS.

The entering wedge of improvements for business purposes in the immediate vicinity of old St. John's Park was commenced on the first of May. No. 167 Hudson street, which years ago was the residence of Dr. James Anderson, is to be altered and enlarged, iron columns are to take the place of the old fashioned heavy mason work in the front, and the first floor is to be extended to the rear of the lot, 80 feet. When completed it will be occupied by the owner for his tea, coffee and spice business. There will be a first-class engine and boiler of moderate size, built by John McLaren, of Hoboken, and two of Page's coffee roasters with other machinery. It is also proposed to let the upper floors for business purposes. Mr. Chegwidden is said to have much faith in Hudson street, believing it will ultimately be the leading street for the wholesale grocery business, beginning with the Thurbers at Hudson and Reade streets, and running along northward till it meets the new market at Gansevoort street. There is nothing now in the way of solid improvements in this direction, except the use of the public streets for the steam freight cars, which, may it be hoped, will soon be removed, and this historical and eligible site for commerce take its place with the current march of improvements in this ever busy, widening and extending metropolis.

Thomas F. Tracy will build five first-class brown stone houses on the corner of One Hundred and Twenty-second street and Madison avenue, from designs by Charles Baxter. They will be 20x60 feet, and four stories high, with basement. The cost is $20,000 each.

On Washington Heights W. W. Mills will erect a first-class frame house to be used as a private residence. It will be 30x65 feet, three-stories high, with mansard roof, and cost $25,000. C. Baxter is the architect.

In West Forty-fifth street, between Eighth and Ninth avenues, John J. Astor will erect a row of ten houses from plans prepared by Thomas Stent. They are to be constructed of Philadelphia brick and stone, and to be four-stories high, with basement. They will be built in the Philadelphia style, with an alley-way running through from front to rear; 20x70 feet are the dimensions, and the cost $100,000.

The sisters of the Order of St. Dominic will erect a large building on the north side of Sixty-third street, between First and Second avenues. It will be three stories high, with mansard roof, and have a frontage of 100 feet by a depth of 100 feet. It is to be constructed of brick and trimmed with Belleville stone. It is for the exclusive use of girls and will accommodate several hundred. Besides the dormitories, it will include a large chapel. William Schickel is the architect and the cost, $75,000.

On the corner of One Hundred and Fifty-fourth street and Third avenue, Jackson Rogers is going to build a three-story brick building, to be used as a store and dwelling, from designs of John Rogers. It will be 25x40 feet, and cost $5,000

On the corner of Fifth avenue and Fifty-third street a first-class private residence is to be erected. It will be 50.5x180 feet and constructed of Connecticut brown stone. It will be of the Doric order, four stories high, with basement, and finished in hardwoods. James Renwick is the architect and the cost $100,000.

In Sixty-eighth street, between First and Second avenues, W. C. Schermerhorn will erect a row of eight brown stone high-stoop houses. They will be 16.9x48 feet, thoroughly built and cost $75,000. H. J. Hardenbergh is the architect.

Mr. Hill will build a stable in West Fifty third street, 25x85 feet, and two stories high. The front will be of brick and red free-stone. The carriage room is to be finished in hardwoods and the storeroom lined with yellow-faced brick. In the second story in front will be the coachman's apartment, with a storeroom for carriages in the centre. From the first story there is to be an elevator. The feed room will be in the rear. The cost is estimated at $8,500. Mr. Renwick designed it.

A depot for the Brooklyn & Newtown Railroad Company is to be built on the block bounded by Stockholm street and Central and DeKalb avenues. It will be 200x275 feet and three stories high. The first story, on a level with the street, is for the cars. The second story will be for the horses, and contain 500 single stalls and 27 box-stalls. The third story will be used for storing cars and feed. It will be a substantial brick building and cost $120,000. Edward E. Raht is the architect.

Nathan P. Rogers is pulling down the old building at the corner of Wall and Front streets, preparatory to erecting a new one. It will be 60x60 feet, and built of brick, with Wyoming Valley blue stone trimmings. It will be four stories high with basement. The base will be granite ornamented with carved brick. The cornices are to be of brick and stone, ornamented with carved panels. It is the intention to build the walls sufficiently thick for two or three additional stories, should the business of the neighborhood demand it.

The building, when completed, will be leased to the Matthiessen & Wiecher's Sugar Refining Co., who will occupy the first story and basement as offices, and rent the upper floors. It is to cost $40,000 to $50,000. D. & J. Jardine are the architects.

At 67 Wall street, another old landmark is being removed to make room for a new office building to be built by the Estate of Daniel Parish. It will be 37x79 feet, and seven stories in height. It is to be fire-proof throughout, and to have iron beams supported by brick arches. The front will be of Westchester marble, and the finish hardwoods. D. Lienau is the architect, and the cost $90,000.

Thomas Kilpatrick is going to put up a block of twelve houses on Alexander avenue, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, from designs of C. W. Romeyn. They will be 16.8x42 feet, three stories high with basement, and built of Philadelphia brick and brown stone. The cost is $72,000.

Mr. D O. Mills will erect an extensive building at 35 Wall street, extending through to 11, 13, 15, 17, 19 and 21 Broad street, and taking in 35 Exchange place. It will have a frontage of 28.11 on Wall street, 163.6 on Broad street, and 100.9 on Exchange place. The basement will be built of granite, and above the base of brick and Belleville stone. It will be ten stories high, and fire proof throughout. The intention is to make it as fine a building as can be put up. The first, second and third stories will be arranged for offices of bankers and railroad companies, while the stories above will be finished for ordinary offices. The building will be completed May 1st, 1882, and will cost $1,000,000. G. B. Post is the architect.

In Ninety-third street between Lexington and Third avenues, Frank E. Smith will erect seven four-story brown stone front houses, 28.6x86 feet from designs of W. S. West. They will cost $112,000. They are to be first class flats, and contain all the latest improvements.

W. H. Hoover will put up four flats in One Hundred and Sixtieth street between Avenue A and First avenue. Two of them are to be 20x60 feet, and two 30x76 feet. The whole frontage is 100 feet. They will be four-story brown stone fronts, and cost $48,000. Mr. West is the architect.

The congregation of the Church of the Holy Spirit are about to erect a new church on the northeast corner of Madison avenue and Sixty-sixth street. The plan has been completed by Mr. R. H. Robertson, who estimates the cost at about $40,000.

The old building adjoining the Gilsey House on Broadway, 67x100, irregular, is being torn down, and the plot will be rebuilt with a building of pressed Philadelphia brick, three stories in hight, and will contain three stores on the ground floor, while the upper floors will be used in connection with the hotel.

HOUSES JUST COMPLETED.

Three houses just finished, on the corner of One Hundred and Fortieth street and Alexander avenue, are first-class of their kind for that vicinity. They were built by Andrew J. Odell as an investment at a cost of $16,000. They are 16 8x40 feet, three stories high, with basement, and built of brick. Long before their completion they were rented at from $500 to $600. John Rogers was the architect.

Brooklyn.

HOUSES COMPLETED AND UNDERWAY.

John T. Rockwell has just completed eight houses on Sixth avenue, between Lincoln place and Sackett street, from designs by C. L. Morse. They are 16.8x48 feet, three stories high with basement, and built of brick and brown stone. A noticeable feature about these houses is the stone work, which is much heavier than in ordinary houses. These houses were built as an investment at a cost of $8,000 each. The interior finish is plain, but substantial. To those seeking large airy dwellings in a desirable neighborhood they will commend themselves.

¶ On Joralemon street, corner of Henry, Mr. Edwin Packard is erecting an elegant private residence. It is irregular in shape, 30x60 feet, and built in picturesque domestic style. This is three stories high with basement, and constructed of brick with stone facings. Adjoining this is the house of Nathan A. Fish, 34.6x46 and 64 feet, four stories high with basement, and constructed of brick trimmed with stone. The style is of the domestic gothic order. Mr. Packard's house will cost $25,000. Cost of Mr. Fish's unknown. Each will have spacious chambers, sitting rooms, closets, etc. The windows in the first story of the Packard house are stained glass in various colors. The interior of both houses is ornamental wood finished in cabinet style on the first floor. A conspicuous feature in each is a very handsome flight of stairs, lighted from the top

Great pains has been taken with the plumbing, all the latest safeguards against sewer gas being introduced. C. L. Morse is the architect of both.

William Flanagan has recently finished a block of eight brown stone houses on the corner of Seventh avenue and Lincoln place. They are the Boston swell fronts and cabinet finish. They cost $10,000 to build and sell readily at $13,000 apiece. Opposite to these houses on Seventh avenue is a pretty two-and-a-half story cottage, built in the Queen Anne style, and owned by Mr. James Davenport. William Halsey Woods, of Newark, N. J., is the architect. It is built entirely of brick, and is a pleasant relief from the typical brown stone houses one sees on every hand. In the rear, a doctor's office is being fitted up in hard wood, over which is a handsome glass conservatory.

On the south side of Fulton street, 100 feet east of Rochester avenue, Henry Quinn will erect 6 three-story flats 16.8x45 feet, from designs by I. D. Reynolds. They are to be of brick with stone trimmings, and to cost $21,000.

Ground is being broken on Sackett street, near Sixth avenue, for the erection of 5 three-story and basement houses. They will be of brown stone, 20x42 feet, and cost $6,000 each. John Magilligan is the owner, architect and builder.

Mr. John Gordon is building 2 houses on Sixth avenue corner Sackett street. They will be 20x48 feet, three stories high with basement and constructed of brick. They are to be first-class in every respect, and to have hard wood cabinet finish. The doors will be of polished hard wood They will cost $20,000, and be for sale when completed.

William Flanagan is going to build 4 houses on Sackett street, between Fifth and Sixth avenues. They are to be 20x42 feet, and three stories high, with basement. They will be built of brown stone and cost $25,000. Mr. Flanagan will also build 2 houses on Seventh avenue corner Sackett street. They will be first-class in every respect, finished in cabinet style, and cost $28,000. The same gentleman will put up 2 houses on Lincoln Place near Seventh avenue, 20x48 feet, and three stories in height with basement. They are to be constructed of brown stone with cabinet finish. They will cost $10,000 each. Mr. Flanagan is his own architect and builder. All of these houses are built as an investment.

Parfitt Brothers have prepared plans for the Home for Destitute Children, to be erected on Butler street, near Flatbush avenue. It will be 150x150 feet, four stories high, and built of brick, Martinville stone and terra cotta. The entire cost is $150,000.

At 187 Broadway Mr. Alfred Becar will add two stories and mansard roof to the present building. The construction will be of iron and slate. A seven-story extension will also be added in the rear. The alterations will cost $25,000. W. A. Mundell is the architect.

A new building is to be put up at 92 East Broadway in place of the one now being torn down.

Permission has been given to the trustees of the Fifth Avenue Baptist Church to make alterations in the present porch of their church.

NOTES AND ITEMS.

Wall paper is again criticised from a new point of view. In addition to the green, gray, brown and red pigments, which contain arsenic, it now appears that one of the most universal useful of blue coloring substances, ultra-marine, is liable to decompose and give off sulphurated hydrogen. Under ordinary conditions it is not harmful, but a strong acid sometimes separates the soda and sets free the sulphur in combination with hydrogen. A very little of this will taint the air of a large room and make it unwholesome. The acid which works this mischief, is often to be found in the paste which is used to stick the paper to the wall.

The immense increase in railroad construction is rapidly bringing the iron trade into the condition it occupied before 1873. The Baldwin Locomotive Works, which have already supplied the Mexican Central Railroad with six locomotives, are building thirty more for the same road. The same works have also recently contracted to supply the Mexican National Railroad with 200 of the strongest locomotives ever made, the contract to be completed before 1883. The amount of this order is said to be $1,500,000.

According to a census bulletin, the assessed valuation of Richmond County real estate is $10,766,906, and of personal property, $482,050. The bonded indebtedness of the county is $890,800, and the total debt, exclusive of school districts, $996,300.

The committee which was appointed by Mayor Howell for the purpose of harmonizing the conflicting interests of those interested in rapid transit in Brooklyn, have agreed upon a plan which is to be submitted for approval. The scheme is to have an elevated road from the Brooklyn Bridge to the Long Island Railroad Depot, at the junction of Flatbush and Atlantic avenues, probably by way of Adams or Pearl streets, to Willoughby street, to Debevoise street, and then across DeKalb avenue to Flatbush and the depot. The committee recommends a depressed road from the depot through Atlantic avenue to East New York.

A commission has been appointed by Justice Dykman, upon application of the Long Island Railroad Company, to condemn land for the extension of the Brooklyn and Montauk Railroad from Patchogue to Moriches. This extension will complete a direct line from Brooklyn to Sag Harbor.

The Kalb Brewery property, in Newark, which in the period of high prices, is said to have cost $185,000, was sold recently, subject to taxes for some years back, for only $400.

The Sinking Fund Commissioners have directed the Counsel to the Corporation to bid in the three lots of land numbered 24, 25 and 26 Bogart street, which are to be sold under foreclosure of a mortgage made by the late John Sexton in favor of the city.

It has been resolved by the Commissioners of the Sinking Fund to lease for one year the premises used as an armory by the 22d Regiment for $18,000.

The Board of Directors of the Brooklyn Underground Railroad Company have petitioned the Common Council for the consent of that body, to construct a rapid transit road from near Fulton Ferry to Prospect street, which it crosses four feet below grade; it then passes as an underground road under Sands street at Washington and up Washington street, until it reaches a point between High and Nassau streets, where it connects with the tracks of the New York and Brooklyn Bridge. Continuing the road reaches Fulton street and taking the centre of the same, it continues to Flatbush avenue along which it runs to Malbone street in the town of Flatbush. The tunnel is to be sixteen feet high and twenty-six feet wide. The petition has been referred to the Railroad Committee.

Work is now progressing rapidly on the Brooklyn Elevated Railroad.

The work of construction on the new pier now in the course of erection at Coney Island opposite the Observatory Plaza, progresses at the rate of 50 feet per day, and it will be completed and open to the public about June 15th. No doubt, after its completion, there will be a sharp competition between the owners of the two piers which will probably result in extremely low fares to the Island.

The Registrar of Water Rents of Brooklyn announces that he will be compelled to cease receiving all moneys at 2 P M. during the present month, as Section 5 of Title 7 of the Charter of 1873 provides. If any collector shall retain in his possession for more than one business day any moneys received by him, he shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall pay a fine of $500 for every business day during which such moneys are retained by him.

Resolutions are before the Brooklyn Board of Aldermen, in favor of a depressed railroad on Atlantic avenue. It is to be done however without expense to the city or the corporation.

A petition for an underground road was also presented. The tunnel is to be 26 feet wide and 16 feet high its entire length.

The road is to start as an elevated road from near the Fulton Ferry and extend as such to Prospect street, which it will cross some four feet below the present road. It will be an underground road, passing under and across Sands street at Washington; thence under Washington street, connecting High and Nassau streets with the bridge, for the convenient passage and transfer of cars to and from the bridge, with a right of way across Sands street at grade, and with station grounds on the westerly side of Washington street, between Sands and High streets, 75 feet deep on Sands street, 104 feet 8 inches front on Washington street by 100 feet deep, 31 feet front and 60 feet deep on High street, with right of way under and across High street. The road will continue under Washington street to Fulton, under Fulton street to Flatbush avenue, under Flatbush avenue to Malbone street, in the Town of Flatbush. There a connection will be made near the Willink entrance to the Park with the Brooklyn, Flatbush and Coney Island (Brighton Beach) Railroad. Connection will also be made with the Long Island Railroad, at the depot, junction of Atlantic and Flatbush avenues.

The matter was referred to the Railroad Committee.

OBITUARY.

MR. ANDREW B. HINE, REAL ESTATE AGENT.

Mr. Andrew B. Hine, the senior member of the well known firm of Hine & Gray, Real Estate Agents, died at noon on Sunday the 9th inst. at his residence No. 221 West 21st street. Mr. Hine and his father before him, have been established in the Real Estate agency in this city, for more than forty years, and succeeded in gathering a very large and remunerative business. Before joining his father in the Real Estate business, now more than thirty years ago, he was engaged in carrying through a number of extensive Railway Contracts in the South and Southwest. During the thirty years he has been in business in this city, he has been instrumental in completing a great number of very large transactions. His kindness and urbanity of manners were proverbial. He was the friend of all and the enemy of none, and his death will be deeply regretted by a very large circle of friends. Mr. Hine never entered into the married state, but leaves behind him an aged mother and three brothers.

THE NEW ZEALAND LAND LAWS.

After the lecture. delivered by Mr. Dwight H. Olmstead, before the West Side Association, on Saturday evening last, which was fully reported in the daily papers, there was a general discussion on the practicability of naturalizing the New Zealand Transfer Act in this country.

Mr. Turner, who formerly had charge of the searching of titles for the Mutual Life Insurance Company said that, owing to the opposition which would be raised by the pot house politicians and the legal profession, it would be impossible to have any act looking to such a radical change in the existing laws, relating to the transferring of realty, enacted. The speaker went on to say that there was no place in the City of New York where a property-owner could go, money in band, and ascertain and pay what is due on his house, but he must first pay a tax search, and the officers who make the search give no bonds for the proper performance of their duties, consequently he has no security in case they make mistakes. Mr. Charles B. Curtis said there is no doubt of the practicability of the New Zealand system of transfers, as it has given and continues to give perfect satisfaction where it has been tried, and by it land is transferred as easily or almost as easily as stocks. How much, he asked, would it detract from the value of our 4 per cent. bonds if you had to employ a register, a lawyer and a recorder if you wished to transfer them? Not less than 10 per cent. The present system of transfers create an immense mortgage on the value of the realty of our city.

Mr. Whitesides said, that while he was aware that the system of transferring real estate works well in Queenstown as well in New Zealand, yet after giving the matter great attention, he thonght it would be very hard to make it work in our country.

After some further discussion Mr. Curtis offered a series of resolutions, directing officers the of the Association to draw up a bill, embodying the plan suggested by Mr. Olmstead to be presented to the Legislature at an early date.

REAL ESTATE IN NEWARK.

There is considerable difference of opinion among the real estate brokers of Newark as to the state of the market in that locality. The old and most conservative brokers shake their heads and say there has been no appreciable change within the last year, and the time for a real estate boom in Newark has not arrived; while their younger and more enthusiastic brethren announce the boom as already well under way. A representative of the REAL ESTATE RECORD took a trip Newarkward this week and will try and give an exact statement of the situation from personal observation and the opinions culled from the most prominent dealers of realty in that city.

There has been no advance in the prices of first-class dwellings, nor have the rentals for this class of property improved, but for moderate and small-sized houses there has been no trouble in making sales at prices somewhat better, say 5 per cent. or even 8 per cent. higher than was demanded for them less than six months ago, and there are plenty of tenants willing to pay an advance of 5 to 10 per cent. over last year's rentals. Furthermore, at this time last year there were any number of small vacant houses and apartments, while to-day there is a dearth of the same in any desirable locality. For unimproved property there is more inquiry, (which would no doubt be much greater had it not been for the successful strike of the masons and carpenters this spring; the former now get $3.00 and the latter $2.50 per day), and some sales have been made at an advance. Witness the sale lately made by the Mutual Life Insurance Company, of which we will speak hereafter.

The market for unimproved property is not strong enough yet to bear forcing as was shown by the recent auction sale of the lots on Washington street, near Clinton avenue. Upon the whole there is a better feeling prevailing without great change in prices, and purchasers who invest in good locations, improved or unimproved, may look for a reasonable profit

If the people of Newark expect to attract our population to their city they should look to the condition of their streets, for to put the best face on this matter one might say that, as to regard to cleanliness, they do not compare unfavorably with those of our own city. This will not apply, however, to the immediate vicinity of their two beautiful parks, Military and Washington, both of which are kept in excellent order, and one cannot fail to be struck with the magnificent old elm trees that they contain, many of which were there long before the advent of the present century; some of the streets are also shaded by these beautiful trees. It may be remarked in passing, that this is the third largest manufacturing city of the Union, and that some of the finest of our breweries are established here.

SALES.

James E. Garabrant has sold the house and lot No. 257 Prince street, 25x100, for $1,200; the two lots Nos. 140 and 142 Bergen street, 50x100, for $3,000; the three-story frame dwelling No. 341 Court street, 30x100, for $3,300; the three-story frame house No. 81 Livingston street for $1,850; a small house and two lots on South Orange avenue, near Munn avenue, in South Orange, for $1,200; and a brick house and one-quarter of an acre of ground on the old Bloomfield road for $2,500.

The Mutual Life Insurance Company of New York have sold the old tannery, Nos. 263 and 265 Washington street, 66x76, for $9,500, which property they had been offering for $8,000 not long since.

At a recent auction sale of unimproved property on Washington street, near Clinton avenue, a choice locality, the ground was knocked down at $162 per foot, or $6,000 for the plot, while many well-informed persons value the property at $10,000.

Mr. Arthur Devine has sold the property of the Peters Manufacturing Company, comprising an entire block of land and five-story brick buildings, lying between Fourth, Fifth, Bergen and Sussex streets, to the Edison Light Company for $55,000; a two-story frame house and lot on Fairview avenue, 25x87, for $1,600; a three-story brick house and lot on Grant street, 25x90, for $6,500; thirteen lots on Parker and Aqueduct streets for $400 each; the three-story frame house and lot No. 378 Plane street, 28x100, for $3,300; the two-and-a-half-story frame dwelling and lot No. 83 Eighth avenue, 35x112, for $2,500; the house and lot No. 406 Bank street, 25x100, for $2,000, and four unfinished brick houses in Bloomfield on Newark avenue, 20x100, for $2,800.

BUILDING ITEMS.

Mr. George Clark has nearly completed his new, palatial mansion at a cost of about $250,000.

A very elegant apartment house, the plans being already completed, will soon be erected at the corner of Lombard and Broad streets. It will be five and six stories in height, built of brick, elaborately trimmed and ornamented with brown stone, and will be fitted throughout with all the latest improvements.

Eight two-story cottages are being built by Dr. Southard on East Kinney street, between McWhorter and Pacific.

Messrs. Roberts & Taylor are erecting a row of three-story brick dwellings on Wakeman avenue, near Second avenue, and a row of houses on High street, near Court, in the Queen Anne style.

Mr. Valentine has just completed an extensive brewery on Freeman street, between Ferry and the Bowery, at a cost of about $175,000, and the same gentleman is also erecting a handsome dwelling for his daughter, Mrs. Frelinghuysen, on the corner of James and Washington streets, which is to cost about $15,000.

Tompkins & Persons are erecting three new dwellings on Belleville avenue, near Gouverneur street.

Mr. A. L. Denis is building five three-story brick houses in High street, opposite Mercer.

John Whartan is erecting a large factory and dwelling on Market street, near Lawrence.

TWENTY-THIRD WARD PROPERTY.

The people in the vicinity of Woodstock or Deckerville are generally agitated over the question of building an elevated road on Third avenue. If it is built on this thoroughfare the land can be had for nothing, whereas if it is built 100 feet east, according to the original plan, private lands will have to be bought. Everybody seems desirous that the road be built, the sooner the better. If this project is carried out the local brokers say it will cause the greatest boom in real estate known in that region. The rise in realty in Harlem will be nothing compared to it. In this event, so the local owners think, as true as the needle is to the pole, real estate in Woodstock must double in value in a short time. Lots can be had there at an average cost of $700, while in Harlem, only twenty minutes' walk away, the same sized lots bring $3,000 to $4,000. In Fordham, Tremont and Fairmount, a short distance beyond, good lots can be bought for $150 to $300. Should rapid transit be secured, these places would gain more than Woodstock. Property in Deckerville, so say the dealers, pays a larger percentage on the investment to-day that in any other part of New York. The ground being high, the locality must necessarily be a healthy one. As a rule New Yorkers know little of the advantages this section offers: if they did capital would pour in much more rapidly.

Many people have never been above Harlem bridge, and one man, a short distance beyond Woodstock, it is claimed, has not been below the bridge in thirty years. It is not strange, then, that comparatively few people know what is going on in the Twenty-third Ward. Property which is within 35 or 40 minutes' ride of the City Hall must inevitably rise in value. Fine private residences in this sylvan retreat, away from the dust and turmoil incident to the lower part of the city, must in the near future command high prices.

A capitalist who invests here is much surer of a speedy rise than one who invests in the unimproved lands of the far West.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages II and III of advertisements.**

This has been a very interesting week in the real estate market. A great deal of very valuable property was offered, and some of it commanded very fair prices. A house in West Twenty-sixth street, near Sixth avenue, which rented for $1,200 sold for $9,250. Sometimes houses, however, do not bring full prices, on account of the neighborhood or the uses to which they are put.

The sale of the Seligman estate brought a large attendance, and the bidding was sometimes spirited. It is the misfortune of property owned by rich people that it does not command full prices, from a belief on the part of the bidders that it is protected. It is argued that the relatives of a rich banker will not permit his property to be slaughtered. Better prices are always brought when there is a court sale, and when the property does not represent the holdings of well-to-do people. The Brooklyn property and Washington square house and the fine Forty-ninth street house did not bring the prices they were worth. The lot on the southwest corner of Seventy-sixth street and Madison avenue commanded a good figure. Only three of the lots on One Hundred and Twenty-first street, near New avenue, were sold. The lots on One Hundred and First and One Hundred and Second street, near Fourth avenue, were not very desirable, being very far below the grade, but they brought, under the circumstances, a fair price. Some of the lots in One Hundred and First street were withdrawn and all the lots of the Dyckman property. These will be sold within 30 days.

The partition sale of 52 lots on 10th avenue, 101st and 102d street, on Thursday, was decidedly successful. The attendance was large, the bidding spirited, and except for the lots on the east side of the avenue, the prices very good indeed. Some of the oldest and shrewdest operators in the city were present and there were several new buyers, one person who has made a great deal of money in the patent medicine business. The avidity with which these lots were bought, shows that in the opinion of far-seeing business men, the Tenth avenue will soon be the scene of busy building activity. Indeed, it now looks as if this avenue will lead all the others on the west side for early improvement. A visit to the west side will show that the present business activity is gravitating toward this avenue. The fact that this sale was held under the order of a court, attracted *bona fide* bidders. We consider that every lot bought was a bargain.

But what is the matter with Riverside Drive? Of the large number of lots offered on Thursday only two were sold, and although they were on the finest part of the avenue and could be fairly classed as the best of the inside lots, they brought less than $10,000 each. The rest of the property was withdrawn to be resold next fall. There are plenty of real estate dealers who think that Riverside Drive lots will sell for $30,000 within five years time. There is no speculation in this property to-day. It is neglected, but whoever secures it at present prices will be a lucky investor.

Investors, those who want to buy cheap, are to be congratulated on the outlook. There is money to-day in buying and holding real estate. No one need fear not getting a bargain in unimproved lots on any part of the island.

The sale of 96 choice Fordham lots, next Thursday, should not be overlooked. They will be auctioned off by Richard V. Harnett, and whoever secures property in that beautiful suburb will not regret it.

In the official list of plans and specifications it will be noticed that six three-story brown stone dwellings, costing $9,000 each, are to be erected in One Hundred and Fifty-third street, on the south side, 175 feet east of Tenth avenue. They are to be 16.8x42, and the owner is Mr. Henry Webendorfer. This looks like a new departure. Can it be that this section of the city will be improved before further down town on the West Side? It will be noticed that Tenth avenue promises to become the line of improvement on the West Side, from Seventy-second street up.

It will be noted that among the buyers of the Tenth avenue property, on Thursday, were several well-known real estate brokers, who, in all probability, were acting for their clients. It would be well if purchasers, even at auction sales, employed brokers to do the bidding. There are outside sharps in the market, who, when they see a new buyer, anxious to secure blocks of property, jump in and bid up the market, so as to secure lots which the large purchaser must have, and for which he subsequently pays a round price. A trained broker knows how to deal with these people.

Richard V. Harnett will sell at the Exchange on May 17 a great deal of very valuable property, situated in various parts of the city. It includes vacant lots, tenement houses, the Glenham hotel, water rights, etc. Dealers who want a guide as to valuations in the different parts of the city, would do well to get one of the book maps at the auctioneer's office and attend this very interesting sale.

Among the advertised legal sales are several pieces of property worth looking after. Ten acres of land on the Boston road, leading from West Farms to Hunter's Point, are to be sold on the 17th by A. J. Bleecker & Son.

Bernard Smyth will sell on Tuesday the house and lot, No. 332 West Forty-first street, the lot and three-story brown stone flat, No. 417 West Forty-sixth street, 20x55x100.5, and the five-story store and dwelling, No. 975 First avenue, 19.7x53x70, and on Thursday a lot on Sixty-eighth street, 100 east of Eleventh avenue.

D. M. Seaman will sell on Monday the two three-story brown stone houses, Nos. 134 and 136 West Forty-seventh street.

Hugh N. Camp will sell on Friday a plot of ground, about eighty-eight city lots, in the Twenty-third Ward and known as the Fox estate.

Peter F. Meyer will sell on Wednesday the house and lot No. 238 Broome street, 21.10½x60.

R. V. Harnett will sell on Wednesday the four-story brown stone house and lot, No. 154 Second avenue, 22.3x125; on Thursday fourteen lots in the town of West Farms, sixteen lots and three-story frame dwelling known as the Kayser Homestead on Columbus avenue, Fordham, and three lots on Prospect avenue, Mt. Vernon.

Gossip of the Week

Thomas J. O'Kane recently sold three houses on Willis avenue, near One Hundred and Thirty-fourth street, to Mr. Fox, editor of the *Police Gazette*, on private terms.

Mr. G. F. Brown has purchased four lots on the south side of Ninety-third street, between Eighth and Ninth avenues.

The plot of ground on the east side of Tenth avenue, between One Hundred and Third and One Hundred and Fourth streets, 201.10x327.6x196.8 has been purchased by ex-Governor E. D. Morgan, for the Home for Indigent Females, for $77,500.

Patrick Colleran has sold the house and lot No. 115 East One Hundred and Fourteenth st, 16x100.10 to August R. Mattladge, for $7,650.

F. Zittel has sold three lots on the south side of Sixty-fourth street, 175 west of Fourth avenue, 75x100, for nearly $19,000 each; the gentleman who now disposes of them paid $5,000 apiece for them in 1867.

Moritz Bauer has sold the house and lot No. 166 East Sixty-fourth street, 20x65x100, to Mr. Byrne, for $21,000, and has refused an offer of $16,000 for the adjoining house, 15x65x100.

Four lots on the south side of Seventy-first street, between First avenue and Avenue A, have been sold for $13,000.

A bid of $8,750 apiece has been refused for five lots on the north side of Eighty-sixth street, between Lexington and Park avenues.

Jacob Bookman has purchased two lots on the south side of Eighty-sixth street, between Lexington and Third avenues, for $7,500 cash, and for which he has since refused $8,000.

Messrs. Butler & Mathewson have sold the four-story brick building, No. 45 Pearl street and running through to No. 32 Bridge street, 25x65, for Mr. Livingston, to Mr. Cheeseborgh, for $19,750. Mr. Livingston purchased this property on January 3d of the present year for $14,500. The same brokers have sold the four-story brick office building, Nos. 60 and 62 New street, to Mr. Willets, for $42,000.

The "Old Waring Farm" on Central avenue, Tuckahoe and Yonkers roads, lately purchased by Mr. Crosby, has been resold to a New York party for a herd farm, the price being $50,000. As this property comprises 170 acres and is located in a neighborhood where but little realty can be bought for less than $500 to $600 per acre, it is not dear at the above-mentioned figures.

Messrs. Levy and Cole have resold the seven lots on One Hundred and Twenty-eighth street, 205 east of Third avenue, for $28,000, which they purchased sixty days ago for $21,000.

Mr. James Rufus Smith has sold the six gore lots on the north side of Eighty-second street, 300 west of Ninth avenue, 150x65x151x77.1, to Geo. S. Miller, for $24,000, and on which he will erect eight brown stone dwellings, at a cost of about $65,000.

V. K. Stevenson, Jr., has sold the plot of ground, comprising about seven lots, at the southeast corner of Madison avenue and Ninety-eighth street, 100x170, to James A. Morrison, for $37,875, account of Mr. J. A. Rogers, proprietor of the Coleman House, who purchased them about three weeks ago for $32,500. The same broker sold yesterday, the two lots at the northeast corner of Tenth avenue and one Hundred and first street, which he purchased at auction on Thursday, for $9,000, to the Hon. Edward Kear, the price being $9,500.

Brooklyn Gossip.

I. C. Simonson recently sold property at 35 Stuyvesant avenue for $3,000; also house and lot 100x100 on Lafayette avenue, northwest corner of Lewis street, at $5,000.

Mr. R. B. Kinney sold the water front between Thirty-second and Thirty-third streets, South Brooklyn, for $29,000 cash. The purchaser is R. T. Bush, of the firm of Dinslow & Bush, 130 Pearl street, New York. This is the largest cash sale for property in this vicinity for a number of years.

The Twenty-second Ward is improving more rapidly than any other section of the city. None but strictly first-class houses are being built here. Being in so close proximity to Prospect Park, renders it a highly desirable neighborhood.

Lots in this vicinity have doubled in value within the past few months. There are still plenty of vacant lots which can be bought as an investment with absolute safety.

Mr. Levi Fowler recently sold two stores covering a lot and a half on Fulton avenue, near Yates avenue, on private terms. He states that the prices of real estate have advanced since the 1st of May, and that considering the increased number of conveniences property is cheaper in Brooklyn to-day than it was thirty years ago. He also thinks that the prospect for real estate is the best Brooklyn has had for thirty years. It will be well for capitalists to bear this in mind.

Great activity is manifesting itself in Brooklyn unimproved property, and several large sales have been consumated in the Twenty-third and Twenty-fifth wards by Jere. Johnson, Jr., at prices largely in advance (25 per cent.) of those current a month ago, the particulars of which we will give in our next issue.

J. N. Kally has recently sold the three-story brick house and lot No. 264 Deane street for $6,000, and the three-story brown stone dwelling No. 371 Deane street, 15x80, for $8,000.

The following are the sales at the Exchange Salesroom for the week ending May 13:

** Indicates that the property described has been bid in for plaintiff's account:*

Total..... $57,250

BUILDING MATERIAL MARKET.

BRICKS.—On the market for Common Hards the selling interest retained most of the advantage during the interval since our last, and the position has been cheerful and encouraging. Receipts were full, at times quite liberal, and there appeared a demand equal to the offering, and it very seldom became necessary to carry cargoes over for any length of time. Haverstraws, on the entire range, have sold mostly at $7.00 down to $6.50 per M, mostly at $6.75 per M, but "Up Rivers" brought relatively more money, and realized on the bulk of the sales $6.25@6.50 per M. The better position of the last named class of stocks is attributed, in the main, to the fact that dealers in a great many cases are under contract to deliver brick at rates which afford scarcely any margin at the present cargo cost, and hence they seek to handle stock which saves them even a small fraction per M. Especially as a strike of the hired cartmen for $4.00 per day has added still further to their difficulties. The addition to the cost of moving brick, however, seems to be having some influence on the general market as we close, the large amount of stock already secured enabling buyers to stand off a trifle, and while no positive reaction can be noted, extreme prices are not so easily obtained. Some new brick are at hand from the Hudson River yards, as well as from New Jersey, nd a gradual addition to the arrivals may now be expected. Pales have continued plenty and the market unsettled. Some very nice lots sold at $3.00 per M, but $2.75 was a more general top rate, and sales were made all the way from this down to $2.25 per M. according to quality, etc. For all kinds of Fronts there is a good solid demand, and of the best grades it is almost impossible to obtain stock except for distant delivery.

GLASS.—Jobbers appear to be doing a pretty good trade in window glass; in fact the distribution is increasing if anything, and not much complaint is heard on this division of the market. In a wholesale way, however, matters are slow and somewhat unsatisfactory. From about all points from whence demand should have come with some volume the calls have been insignificant, and the indications are still somewhat doubtful. Holders, however, manifest a considerable degree of steadiness, and while the condition of business places values in a nominal sort of position, former rates are quite generally asked. The accumulations are rather full, but in no case urged to a sale.

HARDWARE.—On the general market the tone is fairly promising and dealers complain less than a month ago. A great deal of trade has unquestionably been lost this season, but a good distribution is considered certain before extreme hot weather, and a hopeful strain pervades the market. Of mechanics' tools and builders' hardware the distriouution is already full and steadily increasing. Supplies available are fair but offered without pressure, and no desire to realize is shown. The Trenton Lock and Hardware Company have recently published the following discount sheet on Butt Hinges:

Narrow Fast Joint, Drilled and Wire Jointed, 45 per cent.; Broad Fast Joint, Drilled and Wire Jointed, 45 per cent.; Narrow Loose Joint, Drilled and Wire Jointed, 55 per cent.; Broad Loose Joint, Drilled and Wire Jointed, 55 per cent.; Mayers' Loose Joint, Drilled and Wire Jointed, 55 per cent.; Loose Pin, Ornamental, No. 33, 55 per cent.; Loose Pin, Ornamental Japanned, No. 35, 60 per cent.; Loose Pin, Ornamental Japanned, Plated Tips, No. 37, 60 per cent.; Loose Pin, Ornamental Dark Bronzed, No. 43, 55 per cent.; Loose Pin, Ornamental Dark Bronzed, with solid Bronze Metal Tips, No. 47, 50 per cent.; Loose Pin, Ornamental solid Bronze Metal, No. 53, 45 per cent.

LATH.—There is a feverish and apparently very buoyant feeling on this market, though up to the present writing nothing is shown with sufficient clearness to fairly establish a wholesale value. That buyers will have to pay a higher rate, and are willing to, is plain enough, but no reports of sales are made to show what that rate is, and it may be well to look upon the position as nominal for the time being. Early in the week sales were made at $1.65 for delivery at Newark, but higher figures have since been asked here, and it is rumored paid, with the small amounts due very sparingly offered. The current consumption is heavy and promises to increase rather than diminish, and with nothing to contravert the claim that shipments from the eastward are very small, sellers appear to be carrying a large advantage. "For ways that are dark and tricks that are vain," the lath market is occasionally "somewhat peculiar," and, notwithstanding adverse appearances, many buyers are inclined to move with caution.

LIME.—Little or no change of a decided character can be advised on this market at present. The demand is fair and fully in proportion to that for other building material, but supplies are full, and to keep cargoes in motion sellers find it necessary to accept about former rates on both Eastern and State. It is understood that manufacturers propose reducing the amount of shipments somewhat.

LUMBER.—The selling interest does not appear to have much reason to find fault with the condition of the wholesale market. Pretty much everything possessing attractions receives prompt attention, generally followed by supplies changing hands, and at full rates, with frequent evidence that something additional could have been placed. On coastwise offerings buyers are possibly somewhat more particular and close their selection, as the amounts in hand are fair, and in the natural desire is how to improve the assortment while adding to the bulk, but as the supply seeking sale is moderate, it must be something very ordinary indeed, to be affected in value. From the interior the asking rates continue very full, but we do not hear of late that many buyers are submitting. There is a temporary lull in the consumption for building purposes, but for manufacturing account the demand is full and rather on the increase. Exporters move with some caution, and handle stock only on positive orders.

Spruce has a pretty good market and appears to be rapidly recovering from the severe depression to which it was for a time subjected. There is no special inclination to buoyancy, nor eager demand for stock, but prices are supported without difficulty and an outlet is secured for everything of an attractive character as it comes to hand, with quite a number of buyers handing in specifications for cuts wanted, some extending into the fall months. Dealers also have their earlier purchases stowed or in part resold and will give attention to anything of attractive quality. About $14.50 per M is inside on random and some extra stock sold at $16@16.50, while on specials as high as $18 is asked, and manufacturers not anxious in view of the uncertainty about meeting engagements until they know more about the run of logs.

White Pine continues to secure a very satisfactory trade. Consumption is good on all local outlets, with a gradual increase of the call from builders, etc., and the domestic shipping trade is very fair. This latter covers, in the main, special selections to meet the requirements of dealers whose business will not exhaust a general assortment, and who can scarcely accommodate themselves at the primary points. Exporters are a trifle slow in their movements in view of the heavy amounts already sent forward, and the reduced assortments from which to select. Prices are firm and tending upward, if anything, the current figures ruling relatively lower than at primary points. We

quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine is firmly maintained in value and sparingly offered, as there is scarcely a mill in the South not behind on orders, and buyers can still be noticed as somewhat anxious in their mood. Indeed, many would be willing to submit to quite a premium for the sake of securing an earlier delivery, and it is supposed a few have been accommodated. The demand is for railway building and yard use, the assortments in jobbers' hands being pretty well broken up, and some of the dealers are already looking out for their fall supplies. Two or three railroad contracts are under consideration that will require several million feet to meet them. We quote random cargoes at about $23.50@25.00 per M; ordered cargoes, $26.00@27.75 do.; green flooring boards, $24.00@26.00 do; and dry do do, $25.50@27.00. Cargoes at the South, $15.00@19.00 per M for rough, and 20.00@24.00 for dressed.

Hardwoods present much the same general features for some time noted. Sellers' ideas at all points and for all kinds are strong and confident, with extreme bids necessary in order to attract attention. Buyers seem to think that on some kinds they will secure advantages before the close of the season, but no signs of weakness are as yet shown. It is almost impossible to find a good assortment of Walnut. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple. $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ¼ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles find very good favor, and the demand rather tends to increase, especially on home account, while prices in all cases are well maintained. We quote Cypress at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

Among the yards business is first-class, and tending to improve if anything, with prices well maintained on all grades of stock.

From among the lumber charters and engagements recently reported, we select the following:

A Br. ship, 1,250 tons, from St. John, N. B., to Liverpool, deals, 56s. 3d.; a Br. barque, 788 tons, same voyage, 57s. 9d.; a Br. barque, 1,072 tons, same voyage, 57s. 6d.; a Br. ship, 870 tons, same voyage or Bristol Channel, deals, 58s.; three Br. ships, 1,471, 1,292 and 1378 tons, from St. John, N. B., to Liverpool, deals, 57s. 6d., c. d.: a new Br. barque, 1,050 tons, same voyage, 56s. 3d., c. d.; a Br. ship, 1,072 tons, same voyage, or Bristol Channel, 57s. 6d., c. d.; a Nor. barque, 422 tons, from St. John, N. B., to Cork Quay, deals, 58s.; a Br. ship, 757 tons, from St. John, N. B., to the United Kingdom, deals, 58s. 9d.; a Br. barque, 511 tons, from St. John, N. B., to Marseilles, deals, 70s.; a Br. barque, 757 tons, from St. John, N. B., to Bordeaux, deals, 60s.; a Br. barque, from St. John, N. B., to St. Hillier, deals, 67s. 6d.; a Br. steamer, 1,290 tons, from St. John, N. B., to Bristol Channel, deals, 58s.; an Am. barque, 552 tons, from Portland to Buenos Ayres direct, lumber, $14.50; a Ger. barque, 617 tons, from St. Mary's to Montevideo for orders, lumber, $19 net; a Nor. barque, 562 tons, from St. Mary's to the River Plate, $19 net; a schr., 475 tons, hence to Demerara, lumber, at or about $5.50; a Br. barque, 884 tons, from Brunswick to Carthagena, lumber, $14.50; a schr., 124 tons, from Jacksonville to St. Thomas, lumber, $12; a schr., 215 tons, from Wilmington, N. C., to Hayti, lumber, $8, and back with logwood, $5.25 and port charges; a schr., 137 tons, from Bangor to Bridgeport, Conn., lumber, $2.25; a schr., 500 M lumber, from Pensocola to New York or New Haven, $8.50; a schr., 160 M lumber, from Brunswick to New York, $7.50; a schr., 590 tons, hence to Charleston, stone, $1.50, and back from Fernandina, square railroad ties, $6.25 ₱ M net; a schr., 340 M lumber, from Darien to Baltimore, $6.50 ₱ M; a schr., 200 M lumber, from Jacksonville to New York, or Richmond, $8, option of Philadelphia, $7.50; a schr., 180 M lumber, from Fernandina to Philadelphia, $7.50; a barque, 300 M lumber, from Pascagoula to New York, $9 ₱ M; a brig, 200 M lumber, from St. Simon's Island to New York or New Haven, private terms; a schr., from Hillsboro, N. S., to Portland, railroad sleepers, 10c. apiece.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1. feet.
West Indies	1,275,683	16,042,361
South America	810,144	8,459,778
East Indies, Africa, etc	391,312	2,131,312
Europe, Continent	1,500	524,650
Europe, United Kingdom	130,000	1,827,479
Total	2,609,239	28,985,580

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED MAY 10, 1881.

The chief features to note are less stocks and broken assortments at all distributing points. Stocks in consuming districts are also small, with large consumptive necessities; an active demand is looked for and firm markets. It is ascertained that shipping grades of Pine and of inch box are run off as low at other markets as here; prices as a consequence ought to remain very firm. In view of increased cost at and removal from producing points any decline in prices, for any kind of Lumber, is out of the question.

The opening of the canal in a few days will give us free receipts of Spruce and Hemlock with freer movements thereof in the District.

Some large sales are reported during the past week, and considerable inquiry for grades of which the District has but a scanty supply.

The foreign shipping trade in New York continues active, and the largest operator in that market is here to-day, closely canvassing the District.

The first load of Lumber by Lake from Saginaw left on the 30th ult. with 305,000 feet for Cleveland; at same date last year 80,000,000 feet had been shipped by Lake.

The receipts of Lumber at Chicago, by Lake, this season to May 5th are 49,400,000 feet against 105,100,000 feet to same date last season.

River freights are:

To New York, ₱ M ft	$ @1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

The market has been more active the past week, and a large amount of lumber has changed hands, one party reporting sales amounting to six million feet. Numerous other sales are reported, and the entire sales would aggregate a handsome figure. Nearly all has been sold at market rates, although sales of ordinary stock have been made at $6.50, $13 and $30, which is somewhat under the market, $7.50, $15 and $35 being the figures for good stock. At these figures the most of the stock sold the past week has changed hands. There is a disposition among some holders of coarse stock to accept $6.50, $13 and $30 as the ruling rates.

Navigation is fairly open and a good deal of lumber has been shipped, perhaps ten million feet. All the barges on the river are loading, and will no doubt be actively employed for the season. Freight rates at present are $3@3.25 to Buffalo and Tonawanda, and $2.50@2.75 to Chicago and Ohio ports, the outside figures being from the up-river ports.

Shingles are in active request at $1.90@2.10 for clear butts and $2.90@3.25 for XXX. The mills are starting up, and the supply will be more liberal in the near future.

The saw mills are about all in operation and well supplied with logs. An offer of $9 per M for six million feet of pine logs was refused Friday, which shows the prevailing confidence in the future of the market.

General quotations here are:

Shipping culls	$6.75@ 8 00
Common	13.50@18.00
Three uppers	32.00@38.00

CHICAGO.

The *Northwestern Lumberman* as follows:

The cargo market opened firmly, as the Lumberman predicted it would. Within the last week a considerable number of cargoes have reached the Franklin street docks, and all of them have been placed at prices which may, without exaggeration, be called good. There has been but little variation as yet in the figures. Green piece stuff of good quality has brought $10.25 without difficulty, the poorer grades ranging as low as $9.75. Common inch has sold at $10.50@11, and the sale of one cargo of a better sort is reported at $16.25. No really choice stock has yet come to the market, so that a quotation of it cannot be made. Shingles open very firm, standards at $2.40@2.50, and extra A's at $2.60@2.70 Only one cargo of lath has arrived. It was not of fair quality, and the price received for it—$1.75—cannot be said to fix their market value. A cargo is expected to-morrow, which the consignee says he will hold at $2.

The business at the dock is not regarded by the commission men as fully under way yet, though the offerings for several days have amounted to a dozen loads or so. Navigation is not open to much more than half of the ports from which lumber is shipped, and hence a very large supply has not been looked for. Most of the stock sold has been that wintered over at the mills, which is called dry in some cases and partly dry in others, depending on its condition. A few loads of green lumber have also come to hand, and the prices quoted are generally made on this kind of stuff. Dry lumber generally ranges about $1 above green, though a smaller difference is made on some consignments whose condition is not much better, so far as seasoning goes, than that of stock fresh from the saw. A good many mills are running now, and it is thought that another week will bring to the market a fleet that will afford a better test of the temper of buyers and sellers than any received up to this time.

The Lumberman is obliged to admit that the feeling among the frequenters of the wholesale market is difficult to describe. The sellers talk firmly enough, and profess to believe the situation and outlook of trade warrants the expectation that prices will be maintained; but on the other hand some of the buyers, at least, are holding off, hoping that they will be able to secure what they want at lower figures. They characterize the present prices as exhorbitant, and declare themselves unable to figure out any way in which the lumber can be handled through the yards without netting them a loss. One dealer informed us that though he had a number of men under pay, with nothing to do, he thought it the better plan to let them stand idle than to give them lumber to shove at present prices. Our readers will observe from this that there are two opinions about the future, and that it is not by any means certain which is the correct one.

Lake freights on lumber are quoted at $1.50 from Muskegon to Chicago; $1.50 from Grand Haven; $1.25 from Eanistee. No rates have been named yet for ports that are not open. The vessel market is pretty firm, and under the impression that there will be plenty of stuff to carry this season, owners expect to command paying figures.

CARGO QUOTATIONS.

Joist and scantling, green	$9.75@10.25
Mill run, medium, green	12.00@16.00
Mill run, common, green	10.50@11.00
Shingles, standard	2.40@ 2.50
Shingles, extra A	2.60@ 2.70

NEWS FROM THE DRIVES.—Advices from the logging districts indicate that the drives are pretty generally under way, though the conditions are not in all respects so favorable for the work as it was hoped they would be at this time. So far, the water has come mainly from the melting snow, rain having fallen in only a few sections and in very limited quantities. In most cases that has not been particularly disadvantageous to the drives, as there has been water enough and to spare, but complaints come from a few streams, as will be observed from the letters following, that the water is falling, and on such, a considerable amount of rain will be needed to enable them to turn out their stocks. Considering the lateness of the season, the progress already made is encouraging. The rollways are now pretty much all broken, and the logs are in motion, with a fair prospect, at least, of reaching their destinations in good time. It would, of course, he hazardous, as yet, to attempt any predictions as to the proportion of the stock that will come out of the streams, though the assertion is safe enough in a general way that it will not be smaller than usual. The present outlook favors pretty clean work as a rule, and unless the next sixty days proves a dryer time than it ordinarily is, the chances are that the available log stock will be fully as large as anyone expects. No doubt some of the logs will have to depend upon the June freshet to bring them out, but the bulk of them will be in safe water before this is due. The mills are starting up as fast as they can obtain supplies, and a good many of them are already in full operation. Another week will see most of them in motion, and the sawing season of 1881 fairly begun.

HARDWOODS.—A majority of the yard dealers report business brisk. The strike by the switchmen on the different railways has put a stop to out of town shipments, but the volume of trade is not materially decreased thereby, as the local demand calls for about everything desirable that is seasoned.

Since our last report we note the arrival of 150,000 feet of dry, thick ash, and about as much more is expected at the same yard the coming week. Small lots of cherry and dry walnut have arrived, but the cherry is placed on orders, and the walnut goes out as fast as it comes in.

At many primary points oak is firmer in price than it was six weeks or two months ago. Nearly every dealer has looked for a marked decline, but most of them now admit that it is not liable to occur, as railway companies are making heavy contracts for car building. Prices do not seem to advance, but as purchasing agents offer to take anywhere from 500,000 to 5,000,000 feet, they are not likely to decline at present.

There is no let up to the boom in dry walnut. A fine lot of firsts and seconds, 1¼ and 1½ inch, that came to town last week was sold at $93 and $95, and no doubt would have brought $100 if the conscience of the man who owned it had been a little more calloused. Another lot, equally as good, except in length, just arrived, we understand will be sold at $85. As may be seen, these prices are away above our quotations, but as long as dry stock is so eagerly picked up, there will be a large range in values.

Sweet gum is being experimented with by manufacturers in this city. A sewing machine company, at its cabinet works here, has turned out and forwarded to its headquarters in one of the eastern cities a car load of tables made of gum, and if they prove satisfactory their manufacture will consume 30,000 feet of this lumber monthly. When in the dry kiln the lumber was heavily weighted, and whether it will continue in shape is what will decide its future use. Buyers will be told that the tables of their machines are satin walnut, but as gum is not an euphonious word, this little piece of deception may be in part excusable. Walnut is of course wrongly used in such a connection, but we never saw a finish to which satin could be more justly applied. Some of the tables are finished in shellac, others in oil, the latter being several shades darker. Another manufacturer has ordered several hundred feet of this kind of lumber, and will make it into mouldings. Even where gum is plentiful there is not much that is seasoned to be had and large lots of such are picked up with difficulty. Several car loads are on the way to this market which were bought in the vicinity of Cairo, this state, at from $20 to $25, log run. Green can be bought for less money.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, MINN.

The floods in the river during the last week have amounted to an embargo on commerce of every description in the West, especially in lumber. It is hard to tell just where so much lumber has gone to as the reported shipments of last week indicate was sold. From the upper Missouri through to Chicago and down to Cairo the railroads have been damaged and suspended, while all reporting points show an advance upon last year's business, but for the week. Handling lumber on the Mississippi is almost impossible, and only such lumber as is regarded unsafe is being moved and none sold. Great damage has been done already to lumber yards along the river as well as mills, booms, etc., by the floods. These things are adding to the cost of lumber this year, and also reducing slightly the amount to be cut, both of which strengthen the market. From reports it is thought that nearly all the lumber held on the Missouri river will be lost and several millions on the Mississippi, besides the large quantity of logs which have and are being carried away. The advance in lumber at Chicago is well maintained and it only needs a corresponding move in the Mississippi Valley to send it still higher in Michigan and Chicago. The advance has been much greater in Saginaw than in the West. Thus two years ago lumber was sold for $5, $11 and $18 which now brings $7.50, $17 and $35 there, while the advance has been about $3 on common and $5 on clears in the West.

The greatest increase in the demand has been in the West, and she should lead instead of lag behind. The warm weather of the last week has hastened the melting of the ice in the lakes and the departure of the snow, so that active driving operations are in progress on the brooks and small streams, with a good supply of water, giving fair promise of speedy driving. The damage from floods to the drives is not so serious until they reach the main river and then get beyond all control, and it is too early for that by a month.

THE EAST.

The Boston Journal of Commerce reports:

The demand continues to grow daily, and sellers are

confident and are preparing for a large business. Dealers are putting their attractive grades in shape for the rush which is anticipated, and the small local yards are beginning to bestir themselves in a replenishing way. The mills are very busy getting stock in shape for the market. In fact, they are in some cases over driven, as they are working on orders extending into the fall months. All classes of stock are being more firmly held, especially the nicer grades. Hard woods are much sought for and find a ready market. To use the expression of a prominent dealer, they are able to sell themselves as soon as they show up. Buyers, although taking hold pretty well, still evince a desire in some cases to talk down prices, but dealers are firm and will probably continue so as long at least as the demand remains sufficient to keep accumulations within reasonable bounds. The movement in Western pine has been good during the week, and Eastern has exhibited considerable activity. Prices remain as before.

FOREIGN.

Timber Trade's Journal as follows:

LIVERPOOL.

The imports continue to be on a very moderate scale, and consequently the quays and docks allotted to the working of the timber trade have worn an almost lifeless appearance for the past few days.

As all the business done has been confined to the fulfilment of retail orders we cannot advise any alteration in the prices recently current, and it may be taken that the prices realized at the auction sales immediately previous to the holidays are the prices of to-day.

The auction sales of Thursday were very meagerly attended, there being but few buyers from the country present, and therefore nearly all the woods offered were withdrawn. We cannot but think that the sale was ill-timed, following as it did so closely upon the Easter holidays, and this may have had a considerable effect upon the attendance. A small parcel of St. Domingo mahogany, consisting of 36 logs, sold at from 5d to 7d per ft. and 14 planks of Italian walnut-wood at 4¾d per ft.

GLASGOW.

The past week's import of foreign timber to Clyde ports has been unusually small. Only a few logs of American walnut and a quantity of small-sized Cuba mahogany per steamers from New York have arrived, the bulk of the mahogany being again transhipped to Belfast. No doubt the persistent east winds which we have had for some time may be a cause of delay, especially to sailing ships. A cargo of Mexican mahogany meantime being daily expected to arrive.

LIVERPOOL.

It is gratifying to be able to report that more business is being done than has been the case for such a long time past, and we hope this improvement will be permanent, seeing that with the change of weather builders will now be able to proceed vigorously with their contracts.

At the same time there is plenty of room for a better demand, for the present rate of consumption makes but little impression upon our heavy stocks. It will be noticed from the stock list given last week that we have nearly doubled the quantity of yellow pine on hand compared with this time last year, or nearly twelve months' consumption at the rate of last March, and of pine deals we have also an excessive stock for the time of year; this, however is not a great drawback, as these goods are growing in favor with consumers from year to year, although it, of course, lessens the demand for log timber.

The stock of pitch pine also is heavy, but there has been a good consumption, stimulated, no doubt, by the lower prices just now ruling.

An order for about 40,000 cubic feet of hewn timber is now in process of delivery to the Mersey Docks and Harbor Board for the building and roofing of sheds at the new docks in Bootle.

The barque Queen, from Pensacola to Liverpool, with a cargo of pitch pine, has been abandoned at sea, the crew being rescued during a heavy gale by the steamer Orator, and landed at this port.

NOTE OF THE LEADING WOODS ON HAND AT CLYDE PORT AS AT 31ST MARCH LAST.

(Loads, 50 cub. ft.)	
Quebec waney boardwood	10,132
Quebec yellow pine timber	18,887

Quebec pipe	18
Quebec W. O. puncheon	45
Quebec R. O. puncheon	35

METALS.—COPPER.—Ingot shaded off somewhat in cost following our last report, but subsequently on a better demand, and, influenced by the diminishing stock, improved again, and now rules very firm. About 18⅞c@19½c cash for Lake is as low as sellers are willing to negotiate, and show no great anxiety at that. The movement on foreign account will reach some 4,000 tons and acts as a decided stimulus to the market. Manufactured Copper is firm, and meeting with about the usual demand at full former rates on all grades. We quote as follows: Brazier's Copper ordinary size over 16 oz per sq foot, 28c per lb; do do do, 16 oz and over 12 oz per sq foot, 30c per lb; do do, 10 and 12 oz, per sq foot, 32c per lb; do do, lighter than 10 oz, per sq foot, 34c per lb; circles less than 84 inches in diameter, 31c per lb; do 84 inches in diameter and over, 34c per lb; segment and pattern sheets, 31c per lb; locomotive fire box sheets, 28c per lb; Sheathing Copper, over 12 oz, per sq foot, 26c per lb and Bolt Copper, 28c per lb. IRON—Scotch Pig remains quiet and somewhat uncertain in value. The average quotation does not differ greatly from the figures named for some time past, but are only nominal, and, no doubt, above the line to be obtained on even small jobbing sales. About $20.50@23.50 named from yard, but there is no doubt landing parcels could be bought cheaper. American Pig has found only slow and uncertain sale, and the stagnation of the market does not give way to more promising features. Consumption is quite full, but more than met by amounts delivered on contract and with only moderate abatement in the production. Accumulations are increasing. Holders, too, want money, and unless demand revives sufficiently to keep them, must soon be forced to realize, and this, as the market now stands, means a serious break on values. It is rumored that in a quiet way, a considerable amount of stock has already been run out here at low figures. We quote at $24.00@25.00 per ton for No 1 X foundry; $21.00@22.00 do. for No. 2 X do. do., and $19.50@20.00 do. for gray forge. Rails have met with some demand, and a number of modern sized contracts made mostly for foreign steel, though some domestic iron have also been taken where early delivery was required, and consumers could not effect contracts for the better grade upon satisfactory terms and dates. On the general range, prices show no important variation, and are fairly steady. Old Rails have been forced to sale at a heavy loss on original purchases and prices are lower, but the close seems to show some recovery of tone. Scrap Iron dull and without much support. We quote Rails at $43@45 for iron, and $60@62 for steel, according to delivery. Old Rails $26.00@27.00 per ton; scrap, $27.00@29.00. Manufactured Iron finds very irregular sale, business running fairly active for a short time and then dropped off into a dull condition again. There is a tendency toward increased consumption again, however, and hopes are entertained that greater uniformity on price can be secured. We quote Common Merchant Bar, ordinary sizes at 2.3@2.5c. from store, and Refined at 2.5@3.5c; wrought beams at 3.3 Fish plates quoted at 2⅜@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD—Domestic Pig has not shown much animation and the tone of the market was a little slack, but holders have not resorted to pressure in any case, and only moderate shadings on value were made. We quote at about 4⅜@4⅝c. The manufactures of lead are steady and quoted: Bar, 6c; Pipe, 6½c, and Sheet, 7c, less the usual discount to the Trade; and Tin-lined pipe, 15c; Block Tin Pipe, 40c, on same terms. TIN—Pig not very active, but with the supply well under control and the advices from abroad quite encouraging holders have maintained a strong and confident position on nearly all cases. We quote 20⅛@20¼c for Australian, 20@20¼c for Straits, 20@20¼c for English Refined, 20@20⅛c for do. Common. Tin Plates without many large sales, but going out fairly in a jobbing way and the tone of the market well preserved on all grades. We quote I. C. Charcoal, third cross assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.90@5.00 for B. V. grade; $5.12½@5.37 for Yspitty grade; Charcoal terne, $5.37½@5.62½ for Allaway grade 14x20; $10.50@10.87½ for do. 20x28; Coke terne, $4.87½@5.00 for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots Spelter meets with about an average demand and the market remains fairly steady, quoted at 5@5¼c., as to brand, &c. Sheet zinc going out fairly in jobbing lots and the price held steady at 7@7¼c, from store, according to quality, quantity, &c. The accumulation in hand is fair.

NAILS.—About the average shipping demand has prevailed, with the home call fair and most dealers claiming to be doing all the business that could be expected. The movement, however, evidently lacks stimulating elements and there is a slightly feverish undertone with continued claims that list rates frequently undergo some cutting.

We quote at 10d to 60d, common fence adn sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

PLASTER.—In common with pretty much all kinds of building materials, the market for calcined plaster has opened in first rate form, and manufacturers report the prospect as very encouraging for a free and liberal business. From many points in the interior the orders have for some little time called for merely small invoices but were in the majority of cases accompanied by the statement that stocks were entirely exhausted and current purchases made only to bridge over necessities until the cost of transportation became more favorable. In the meantime, however, the coastwise distribution has been liberal, with a fair sprinkling of export sales and a good demand from local sources, preventing any accumulation of stock, and in same cases requiring more than manufacturers could furnish, owing to temporary scarcity of stone. Those producers who make a specialty of land plaster, also report a good and increasing trade nearby and distant, with the capacity of the mills severely taxed in the effort to keep up with the demand. We have recently made some small revision in quotations slightly in seller's favor, and the general tone has quite a steady appearance with some indication of a further advance. Indeed the majority of the trade seem to think the chances are more favorable for a uniform market this season, as manufacturers not having outside emoluments to fall back upon, will be compelled to compete upon the natural merits of the position as developed through legitimate influences of supply and demand. On lump plaster the market has been quite firm and at full rates the cost laid down here ranging up to $2 85@$3 00 per ton and this level still well maintained, with no great amount of freight accommodation to be secured.

PAINTS AND OILS.—On local account there is a very good business, the consumption having run up to full totals and promising to continue for some little time. Advices from the interior are also encouraging, and holders generally seem to feel much confidence over the situation on standard stocks. The amounts available have proven equal to the call in most cases, but there is nothing to warrant a reduced production or importatation. On the general range of values former rates remain current in most cases with a fairly steady tone. Linseed Oil is moderately active with a fair supply offering, and sellers, in pretty much all cases, quite willing to accept the rates for some time ruling, the tendency proving rather downward if anything. We quote at about 54@55c for city, and 59@60c for Calcutta from first hands.

PITCH.—From regular trade sources the demand has been very active, and did not leave much of an accumulation of desirable stock. The market, however, has no special inclination to buoyancy. We quote at $2.00@2.15 per bbl for City, delivered.

SPIRITS TURPENTINE.—Quite a fair amount of stock moves into consumption, and most jobbers speak well of business. On the wholesale market, however, the tone is still very much unsettled with the fluctuation on values sharp and rapid, under the influences of the variable supply. The new crop is now coming forward, and operators contest strongly for the control of it. As this report is closed, the quotations stand at about 38½@40c per gallon, according to the quantity of stock handled.

TAR.—Holders in most cases have manifested a confident tone, and the market was in consequence well maintained on about a line of former values. Stocks moderate, and receiving few additions at the moment. We quote $2.75@3.00 for Newberne and Washington, and $2.87@3.12½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he *hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.*

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) *means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

CO-PARTNERSHIP NOTICES.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, desiring to form a limited partnership pursuant to the laws of the State of New York, hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is FAHNESTOCK & COMPANY.

Second. The general nature of the business intended to be transacted is that of brokers and dealers in stocks, bonds and other evidences of value.

Third. The names of all the general and special partners interested in said business are as follows, to wit: The general partners are William Fahnestock and Joseph T. Brown, who both reside in the City and County of New York.

The special partner is Harris C. Fahnestock, who resides in the City and County of New York.

Fourth. The amount of capital which the special partner has contributed to the common stock is fifty thousand dollars.

Fifth. The period at which said partnership is to commence is May 10, 1881, and the period at which it will terminate is May 1st, 1882.

Witness our hands and seals this tenth day of May, 1881.

WM. FAHNESTOCK, [L. S.]
JOS. T. BROWN, [L. S.]
H. C. FAHNESTOCK, [L. S.]

In presence of
THOS. S. WILLIAMS.

JOHN F. DONNELL & CO, J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.

Dated, New York, April 1, 1881.

JOHN F. DONNELL,
JURGEN KASSCHAU,
JACOB KASSCHAU, } General Partners.
ADOLPHINE D. C. SCHONHARDT,
Special Partner

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J. Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT.

THIS IS TO CERTIFY, THAT THE SUBSCRIBERS have formed a Limited Partnership, pursuant to the provisions of Title one, Chapter four, Part two of the Revised Statutes of the State of New York, and of the several Acts amendatory thereof for the transaction of lawful business within the State of New York, to be conducted under the name or firm of KEMEYS & BABCOCK; the general nature of the business intended to be transacted is a General Commission Business, including the buying and selling of stocks, bonds, gold, securities, bills of exchange and commercial paper, exclusively on commission, in the City of New York; the names of all the general and special partners interested therein and their respective places of residence are as follows: general partners, Edward Kemeys and Henry D. Babcock, both of the City of New York; special partners, George G. Haven and Samuel D. Babcock, both of the said City of New York; the amount of capital which said special partners have contributed to the common stock is two hundred thousand dollars, in cash, namely: one hundred thousand dollars by said George G. Haven and one hundred thousand dollars by said Samuel D. Babcock; the partnership is to commence on the second day of May, one thousand eight hundred and eighty-one, and will terminate on the thirtieth day of April, one thousand eight hundred and eighty-four.

EDWARD KEMEYS,
H. D. BABCOCK, } General Partners.
G. G. HAVEN,
S. D. BABCOCK, } Special Partners.

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,
General Partner.
IRA BURSLEY,
Special Partner.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

R. E. MOORE,
JAS. F. SUTTON.

NEW YORK, May 2, 1881.

THE PARTNERSHIP HERETOFORE EXISTING between the undersigned, under the name and firm of KILPATRICK & CO., has this day been dissolved by mutual consent, Mr. Jas. A. Roberts retiring. The business will be continued at the same place under the same firm name of KILPATRICK & CO., by the remaining partners.

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The changed condition of the times is shown by a leaf from the history of one of our leading law firms. This firm, which does a very large business, many years ago advised their customers to invest in mortgages on West Side unimproved property. Relatively large sums went through their hands into these West Side lots, and when the panic came their clients found themselves without an income, and with discredited mortgages on their hands, which they were forced to foreclose. The clients being rich men, they very generally bought in the mortgaged property, but the account was heavily against them up to within a recent period. The remarkable fact now comes to light that every one of the persons who foreclosed has made a handsome advance upon his original investment. It is believed the average is as high as 25 per cent. profit. Of course all of them have not yet sold, and those who hold on will probably double their money. But we have no doubt the history of this firm is that of many others. The mortgages were given during and subsequent to the war and were based on paper values. Yet, notwithstanding that fact, every mortgagee who foreclosed, and had the grit to hold on to his property, made a very handsome percentage on the transaction. After all the securest investment of money is in a mortgage on real estate in or near a growing city. As we have said, the property foreclosed was situated west of Eighth avenue, and between Seventieth and One Hundred and Tenth streets. And yet prices have hardly begun to advance in that region.

A stranger, visiting New York for the first time, would be struck with the immense amount of building and repairing which is now being done. Not only are there thousands of buildings going up in the newer part of the city, but in every one of the old neighborhoods antiquated edifices are being replaced by new ones, while there is an unusual amount of repairing going on. This is true, not only of all the leading avenues, but also of the side streets, and is as true of the poorer as of the richer parts of the city. There is an unusual demand for all classes of mechanics, masons, plasterers, plumbers, carpenters and the like. All the fancy employments about houses, such as decorators, fresco painters and fancy furniture men are unusually busy for this time of the year. In view of this extraordinary activity in building, and all that appertains thereto, it is remarkable how deserted the Real Estate Exchange appears to be. The conveyances keep up, as our lists show, but the auction sales are neglected, and excellent property is offered without bidders. There must be a change for the better before long.

WILL THERE BE A SUMMER BOOM?

Of course we mean in real estate. Speculators were certainly disappointed in there being no advance in prices during March, April and May of this year. Realty of all kinds, while in a wholesome condition, has shown no evidence of any excitement. True, the RECORD for the last four weeks shows by its list of conveyances that the number of transactions has been much larger than usual at this time of the year. Another reassuring fact is that the transactions were not forced. They were the free purchases of investors from people who were not compelled to sell. But the prices of this spring show no advance over those of last fall, while there has been a marked decline from the quotations in the winter and spring of 1880. Not only improved lots, but house property has been selling recently at very moderate figures.

May not this coming summer show a decided change for the better in prices and the number of transactions?

Perhaps.

Dealers do not look for anything of the kind, and there will be a general surprise should outsiders come in the real estate market and bid property up. Yet stranger things have happened.

We live in stirring times, when speculation is rampant and speculative investors are seeking new openings for their surplus funds. Within six months of this year nearly $700,000,000 of 5 and 6 per cent. government bonds will have been refunded at 3½ per cent., but probably $90,000,000 to $100,000,000 will be disbursed to those who prefer to use their money in other ways. This 3½ per cent represents the rate of interest people are willing to take for the best appreciated government obligations. It follows that any railway security which is sure for 8 per cent., ought to sell for nearly 200, and that a certain 6 per cent. would be reasonably cheap at 140. Hence, on the street it is confidently predicted that New York Central will see 175 this summer, and Lake Shore 150. It is easy for the reader to look over the stock list and pick out the bonds and stocks which pay 5 per cent. and over. He can add a third to the present figures, and the price will not seem extravagant before next August. This forecast is predicted upon the present state of things continuing. We may have war. Jay Gould may die. Washington may share the fate of Lisbon, and be engulfed in an earthquake. But, unless some such monstrous event should occur the coming summer will see the highest prices ever known on our Stock Exchange.

If this is so, a movement in real estate will soon be in order. House property will rise to figures that will not pay more than five per cent. There are a class of investors who cannot live on the proceeds of a three and one-half per cent. government bond, and it is they who will bid up the price of improved realty. Productive farms will also be in demand, while well located, unimproved real estate ought also to be much more firmly held.

Then, there may be a surprise in store for New York. Cyrus W. Field is back. Suppose he should get up a combination between the elevated road people and the out-of-town railroad magnates, with a view to making the World's Fair a great success. He is a man of ambition, energy and pluck, and it would be a feather in his cap if he should succeed where Ulysses S. Grant has failed. But the certainty of a World's Fair anywhere on this island, would add a value of twenty-five per cent. to all up-town property. It will not be long before Mr. Field's decision is made known, and should the World's Fair project go through, nothing can prevent a very decided movement in real estate during the coming summer. But whether there is or not, anyone who has spare money cannot do better than invest in property on this island.

OUR ELEVATED ROADS.

Matters are reaching a crisis in our elevated road system. From the legal proceedings and the statement made by officers, there is every reason to believe that the Manhattan will default on the payment of the leases next July, in which case a receiver will probably be appointed. This, however, would not necessarily break up the Manhattan lease, for the defaulting company has ninety days grace in which to make good its contracts, and undoubtedly some provision will be made to keep up the present organization. But to do this, two things must be done. The Metropolitan and Elevated companies must consent to a lower rate of interest than 10 per cent., and the city must reduce its extravagant taxation from one-half to two-thirds of the rate at present asked. While it is true the manipulation of the stocks of the elevated companies has been discreditable, still the elevated roads have treated the traveling and business public better, as it turns out, than the latter deserved. Their charter gives them the right to charge 15 cents above Fifty-ninth street; they have never asked more than 10 cents. The company has voluntarily increased the 5 cent hours. The roads themselves furnish the cheapest, swiftest and most luxurious system of inter-mural travel of any in the world. In return, the roads have been denounced by the press, and the public is unanimous in demanding that they should be taxed out of existence. Indeed the taxation is monstrous, and unless partially or entirely remitted, will put a stop to the further extension of the elevated system in New York. As the press and the public have made up their minds not to be satisfied with the elevated roads, the latter must look out for themselves, and if a receiver is appointed, he must run the trains in the interest, not of

the public, but of the property. This would involve,

I. Charge the 15 cents allowed by the charter on all trains run above Fifty-ninth street.

II. Reduce the commission hours to the legal requirement.

III. To run a small half-hour train of cars above Fifty-ninth street during the commission or 5 cent hours, so as to comply with the law, but force the public to get some other conveyance.

These measures would increase the revenue and cut off the frightfully unprofitable business of running heavy loads of passengers to Harlem for 5 cents. Of course there will be a newspaper howl, but there is a howl now anyway. There will be a great deal of public indignation, but then, the public have been unjust and ungrateful and do not deserve any consideration. People who put their money in a property, do it for profit. The elevated road system is worth tens of millions of dollars to the property of New York. There are but few owners of realty on the island that are not money in pocket because these roads are built. They cannot be run except at a profit, and New York must not only ease up the present taxation, but must submit to higher fares and poorer accommodations.

ARE PRICES TOO HIGH?

There seems to be a widely diffused opinion, that the quotations of stocks and bonds dealt in on the street are unnaturally high and that the time must come when there will be a break in prices and disaster to the entire community. Indeed, it is hinted that we may expect a break any day.

Is there any basis for this belief? It is very true that there have been some enormous advances within three years time in the market values of the stocks dealt in on all our exchanges. Kansas and Texas once sold for $3 a share, during the past week it sold for 50. Iron Mountain sold for $5 a share, during the past week it has been quoted at 82. Stocks which went begging at 40 and 50, are selling for par and over. But the change in the condition of the country fully accounts for and justifies these advances. The greatest factor in prices is the amount of currency afloat. In 1877, our entire circulation was less than $700,000,000 of greenbacks and bank notes. The dread of contraction chilled enterprise and limited transactions. But since resumption, we have added fully $680,000,000 of gold and silver to the available currency of the country. Instead of contraction ahead, expansion is the order of the day. In place of torpidity, we have activity in every department of trade. Immigration is phenomenally large and literally all the world is buying our securities and lending us money to perfect our railway system. The key note to prices is the reduced rate of interest on Government securities. Instead of 6 per cent, Government obligations only yield a little over 3 per cent. It follows that every good security which yields more than 4 per cent, is destined to go to par. An assured 5 per cent bond or stock, taking Governments as a basis, is worth from 108 to 110. Hence it is that the most conservative investors look for a very great advance over present prices. People are making money in all departments of business; when they come to invest, they find that a Government bond gives them but little more than 3 per cent, and, so in time they become eager buyers of any assured security which promises 4 per cent and over. Hence, the current talk among first-class bankers, is that New York Central will go to 170, Lake Shore to 150, and all other reasonably certain 8 per cent stocks from 150 to 200. In other words, we will nearly reproduce the quotations of English railway securities, where a reasonably assured 6 per cent stock sells for 150.

There is only one possible cloud in the sky. It is the question of crops. The winter has been severe, the spring late. Should the weather prove exceptional, either too hot or too dry, we may be disappointed in the yield of wheat, corn, barley and oats. We have had so many prosperous years and such exceptionally fine production, that a disappointment this year would not be unnatural, keeping in view the doctrine of chances. But we could stand one year of limited crops. It would doubtless affect the price of Western and Northwestern railway shares; but the country is so large, our interests are so varied and the surplus from last year is so much greater than usual, that we could stand a diminution of our food exports one half, without it being felt east of the Mississippi. But then our agricultural productions cover so vast a territory, it is unreasonable to suppose that all sections will suffer, even if the crops should fail over extensive areas.

The one salient fact in the money situation is this: On the 12th of next August, the Treasury is pledged to pay out $75,000,000 in payment of certain specified bonds. The bugbear every year is the monetary stringency liable to take place in the early fall, and banks, bankers and capitalists begin to call in their loans during August, to prepare for the demand in September and October. We are sure of an easy money market during the summer and of a vast addition to the loanable funds early in autumn. The European demand for our securities keeps up steadily and the danger in the future is not panics, but extravagant speculation, which may foist on the public many worthless so-called securities. The investor cannot go astray in purchasing good dividend paying properties even at the present high prices. But if he wishes to make assurance doubly sure, let him buy improved real estate in or near this city, or vacant lots in the line of improvement. There is no panic that will affect the rising tide of values on New York island.

The quarrel between the high dignitaries at Washington is not creditable to either side, as the matters involved relate mainly to questions of patronage, in other words, the spoils. Our politics are petty, because they are personal; our frequent elections, and change of office with every new head of department, keeps the country in a turmoil as to who shall hold the offices, while matters of real interest are overlooked. Other nations have international policies to discuss, questions affecting land and finance. But our national contests lack dignity, because they are not about principles, but men. The great measure of the week was the refunding operation of the government. It affected vast interests and the prosperity of the country. Yet this quarrel over an appointment of the head of the Custom House, attracted ten times the attention, though intrinsically it was a matter of very little note We must in some way get rid of this patronage business, or it will imperil our institutions. The minor appointments in city, State and nation must be for life or good behavior.

Perhaps some system by which the government would pay, a portion at least, of election expenses, might be introduced. Both political parties are opposed to civil service reform, for those who run the machines do not see how election expenses are to be paid without a body of office holders or office seekers upon whom to rely. All will agree that something should be done to elevate the tone of our politics, and to get rid of these quarrels about party patronage.

Mr. Courtland Palmer, whose family name is identified with the real estate interest of New York, proposes to build a hall where religious liberals can have their say on Sundays or week days. The large audiences which "Bob" Ingersoll attracted to Booth's and the Academy of Music, makes Mr. Palmer think that there should be some special edifice in which the religious free-thought people can have a hearing. Quite apart from the use to which it might be put, there is room for a large public hall somewhere in the upper part of the city, perhaps as high up as Forty-second or even Fifty-sixth street. It should be centrally located, and be suitable for concerts as well as public speeches and lectures. It should be modelled after Chickering Hall or the church built for Dr. Hepworth in Madison avenue. In other words, it should be a speaking hall. Too many of our churches are modeled after pagan temples and Catholic cathedrals, which were intended for the sacrifice, the procession or the mass, and in which the human voice was not to be heard except in chant or chorus. Such a hall as we have described is even now needed. Mr. Palmer's idea is to have it erected by a stock company, with the shares widely distributed. But generally such enterprises are best undertaken by a few capitalists who have means, and who put up such structures for a personal and permanent profit.

The new bridge over the East River will soon be under way. The New York end will be at Seventy-seventh street, and form one span to the coal dock on Blackwell's Island. A second pier will stand on the eastern shore of the island, which is to be connected by another span with Ravenswood. By means of this bridge, close communication can be made between the Long Island Railroad and New York Central and New Haven lines. The construction of this bridge will have important consequences to the real estate interests of Long Island.

The bill for the registration of plumbers and the supervision of plumbing and drainage in New York and Brooklyn, has become a law. Plumbing has generally been a disgrace to the city. The responsibility for the enforcement of this act rests with the Board of Health. Wise regulations and honest inspectors will insure our citizens against the waste and peril to health which comes from defective sewerage.

The crop reports, collated by the *Bulletin*, are very promising. Those returns from the Middle States are particularly good. The recent rains in the neighborhood of New York insure us an abundant crop of fruits and early vegetables.

The *Herald* of Monday devoted four of its valuable columns to repeating the old, old story of the underground railway up Broadway through the Boulevard to Harlem, with a branch to the Forty-second depot. This romance with the same figures, turns up every three months, sometimes in the *Tribune* and afterward in the *Times*. The *Herald* itself has published the same yarn four times. Of course, no sane capitalist would agree to put his money into an enterprise so very costly, which would be certain to prove a failure as a competitor against the elevated roads. A tunnel under Broadway and to the upper end of the island on the West Side, would be a costly folly and could not be made to pay unless the elevated roads were torn down. Those who have used the Metropolitan railroad of London, know what unpleasant travelling it is, compared with our out in the air steam conveyance. Why, even the tunnel from Thirty-third to Forty-second streets under Fourth avenue, though well lighted and ventilated, is yet a nuisance to all who use the horse cars on that line. There will be no underground road built in New York, for capitalists are not fools enough to execute so purposeless a work. What is practicable, though not likely to be attempted, is the old Arcade scheme, by which a new street was to be created from the Battery to the Forty-second street depot. If the ground is excavated from curb to curb, the sidewalks above made of patent lights, if carts, carriages, as well as freight and passenger cars could use this new avenue and it was made tributary to all the railroads which enter the city from the north, there might be some chance of its being successfully carried out. But an underground road in any other shape, would be a smoky, stinking, noisome hole in the ground, which nobody would patronize when they can do so much better.

The proposed appointment of a new Fire Commissioner, in place of Vincent C. King, calls attention to the fact that we have the most efficient fire department in the world. There was a great fire recently in Paris, when the fact came out subsequently that the fire apparatus was very inefficient. Colonel Paris, chief of the brigade, explained how he had repeatedly called the attention of the authorities to the shortcomings of the apparatus. It has resulted in the very finest machinery being ordered for the use of the Paris fire department. Paris houses are of stone, and it is difficult to get up a great fire in that city. The communists were forced to use petroleum to help the flames. The Philadelphia department is also in a somewhat disorganized state. Indeed, in no city in the country if not in the world are there such well-trained firemen or more efficient machines. It is a pity there should be any changes in the management of our fire department. It should be a permanent bureau, which should not be changed while it retained its efficiency.

And now they are talking of making Montauk Point a place for the arrival and departure of European steamships. It is intended to bear the same relation to this city that Queenstown does to Liverpool and Milford harbor to London. This cannot be thought of, however, until the bridge over Blackwell's Island is constructed. The scheme may sound chimerical, but if uninterrupted steam communication with the rest of the country could be had at Montauk Point, it would shorten the voyage to Europe some thirty hours. The missing link is the proposed bridge over Blackwell's Island,

SOME MINING POINTS.

Caribou has been listed upon the New York Mining Board. It ought to be a purchase; the mine has a very good record, its management is capable and honest, and it has money ahead in the treasury. There is no manipulation of the stock as yet, and there is a fair prospect both as to the price and in future dividends.

We are soon to have a "boom" in Montana. The Eureka Mine of Montana is shortly to be listed. It is a well developed property, has had capable management and its friends predict that it will make Montana mines a feature in transactions upon the market. There are a number of fine properties in the Territory, and the time is coming when a great deal of gold and silver will reach New York from that region.

It should be noticed that our New York mining share dealing is to-day on a much more wholesome basis than the mining stock dealing ever was in San Francisco. In the latter city the Comstock lode absorbed everything. The dealings in other localities than the Comstock were very limited. But a look over our New York list shows that the mining interest represents every section of the country. Our capitalists are reaching out in every direction where a profit is to be made in the development of mines.

The types last week made us say that "Bodie Consolidated was trash." It should have been Union Consolidated, of Bodie. Bodie Consolidated is famous for its deals, but it is a great mine, with immense possibilities for the future. Its ore, when found, is very rich, but the formation is broken, and hence sometimes it has yielded enormously and again become apparently barren. Good judges expect Bodie to sell for high figures before the close of the year, but its manipulators are very tricky people.

This coming June will witness a sharp competition for the possession of Bodie. The contesting parties are William M. Lent on the one side and ex-Senators Sharon and Stewart on the other. There is nothing to be said in favor of either party. Whoever is chosen will try to get the best of the stockholders. Lent would not rob the mine and he would pay out honestly the gold found in it, but he would make deals on the stock market and euchre the outsiders if he could. But Sharon and Stewart—well the mines they run rarely pay dividends, but these men know how to get rich out of them.

The State Line mines were the cards in the New York Mining Board during the past week. The gambling in them was very lively. The *Tribune* announces that Mr. Osbiston has visited these mines in Nevada, and speaks highly of them. This person's name will be remembered in connection with the Hukill and Freeland mines, with which our New York public were "stuck" so badly something over a year ago. It is very curious that character counts for nothing in the manipulation of mines. The California rascals, who exploited the investing public in Chrysolite, Little Chief and the other Leadville properties, are known to be behind these State Line properties; but the speculators rush in just the same, expecting to get out before the bubble bursts. If there was some way of dumping the occupants of several of the rooms in the Boreel Building into the North River, and to give each one of them a lesson in swimming with a fifty-pound weight to his heels, it would be a splendid thing for the mining interests of the country.

Two new Arizona mines have been put upon this market through Prince & Whitely's office. James R. Keene is understood to be interested in them. The subscription price of one of them was $1 a share and the other $3 a share. One is called the Washington, the other the Bradshaw Their backing is good, and they will be very lively stocks. The mines are in the Tombstone district, and the ledge is the same as that of the famous Contention mine. Look out for Bradshaw and Washington.

Something is clearly upon the Comstock, either a bonanza is to be uncovered, or a great deal is to be made. John Mackey will soon be back from Paris, and the report is that by the 1st of July the ball will open. Belcher, Best & Belcher, Hale & Norcross and Mexican are mentioned as the probable "boomers."

An old subscriber says he is the unfortunate owner of Little Pittsburgh, which cost him 25, and Bull Domingo, which cost him 10, and he wants to know whether he had better sell out or wait for a possible boom. As the price of A. L. B.'s purchase is so much less than when he first invested, we would advise him to wait for better figures. Little Pittsburgh will never again see 25, but Bull Domingo may, when fully developed, approach near the figures they cost our correspondent. There are great possibilities in the best known mines listed upon our local board. But mines are very uncertain properties. One can tell something about railway stock; good or bad crops, the state of the money market, are factors in the price of railway securities, and of these anyone can be the judge. But the real condition of a mine can be known only to the superintendent and to those to whom he confidentially communicates. Bull Domingo may yet prove to be a fine property.

Calaveras stock was depressed by the announcement that a debt of $300,000 is to be created, to which the stockholders are to be forced to subscribe. This money is not for the purpose of improving the property, but to take up $100,000 worth of bonds now held by the friends of the directors. In other words, it looks as if the stock holders are to be forced to carry the burden of the bonds. Calaveras is an excellent property, and is making money; but this action looks as if the design is to freeze out the stockholders. According to all accounts, the property should pay a dividend this fall, but it appears that the outsiders propose to gobble it all up.

THE SITUATION ON THE STREET.

Stocks are very strong and points in the broker's offices are as thick as "leaves in Valambrosa." A movement is promised in Ontario and Western, due to the raising of the $15,000,000 to begin building the opposition to the New York Central. Canada Southern, it is said, will soon declare a dividend and 95 is talked of for the stock. Jay Gould's Southwesterns are all prime favorites and they talk of 130 for Missouri Pacific. Friends of the stock declare it is a good 8 per cent property. It is true that so far everybody has made money in the Southwestern securities. Erie 2ds are said to be a purchase. Mills and others talk of 115 for them. They will draw 3 per cent on the first of June, but will not fall off from their present price. Colorado coal it is claimed is good for 75. New York Central stock will, it is said, be doubled and 5 per cent on the new shares. Then again, they talk of making Lake Shore a 10 per cent stock. A great "deal" is underway, which includes Oregon Navigation, Northern Pacific and St. Paul. These roads, it is claimed, will some day be consolidated and make a through line to the Pacific. And so it goes. Every stock has its favorite and every one has points to buy. The public are purchasing right and left, orders come in from every quarter and there seems to be no pause in the speculation. The crop reports are good from Ohio, Indiana and Illinois, but there is danger that the news will not be so favorable from regions further West.

From all accounts, James R. Keene has suffered severely this spring. He managed to get on the bear side, and he has been unfortunate in every stock he sold short. He is now turning his attention to mining shares. Next week, it is said there will be a movement in Silver Cliff, and he has brought two Arizona properties on the market, the Bradshaw and the Washington, which all the boys in the Mining board expect to deal in extensively. The mining outlook is very promising. It is said the New York Board are to have fine rooms in D. O. Mills' new building.

The Sewanhaka Yacht Club has the foundations in readiness for its new club house, which is being built elsewhere and is to be erected in front of Conklin's Basin, Tompkinsville.

OUT AMONG THE BUILDERS.

Messrs. Clay & Cummings will erect four dwellings on the southwest corner of Sixty-fourth street and Madison avenue from designs by Theodore Wilson. The corner house will be 28x50 feet, the next one 25x85, and the remaining two 21x85 feet. They are to be constructed of brick and brown stone, and be four stories high with basement and mansard roof. The finish is to be first class cabinet style, and the cost $35,000 each. They will be for sale.

On the south side of Fiftieth street 100 feet west of Third avenue, Thomas Cockrill is going to build three houses. Two of them will be 27.6 x80 feet, and one 20x80 feet. They are to be of brick with brown stone fronts, and five stories in height. Thom & Wilson are the architects, and the cost $56,000.

The New York Mutual Improvement Company, will build six three-story houses in One Hundred and Forty-ninth street, 180 feet west of Saint Nicholas avenue. They will be 16.8x50 feet, and built of brick with brown stone trimmings, and cost $3,000 a piece. Silliman & Farnsworth are the architects.

An alteration is to be made to the house of Dr. Peters at Number 12 West Twenty-ninth street. It will be 18x31 feet, five stories high, and cost $7,000. Silliman & Farnsworth are the architects.

The same architects have draughted plans for four houses in Seventy-second street west of Lexington avenue. These will have a frontage of 75 feet.

On the North Side of One Hundred and Seventeenth street 200 feet west of Second avenue, John W. Warner is going to build four first class tenements, 25x52 feet and four stories high. They will be constructed of brick and cost $6,000 each. William Graul is the architect.

Mr. Morris Silberstein will erect a first-class flat on the south side of Eighty-second street, 55 feet west of Lexington avenue It will be 25x80 feet, and four stories high with basement. The finish is to be hardwood throughout, and the construction of brick and brown stone. There will be a private entrance one side for the owner, and a main entrance for the tenants. An extra sized light shaft is to be put in, so that each room will open to the external air.

The original intention of Mr. Silberstein, as mentioned in THE RECORD of April 9, was to erect a first-class private residence on this property. Finding that everyone was building flats in that locality, he has decided to follow the general custom. Wm. F. Burroughs is the architect, and the cost $15,000.

On the north side of Seventy-first street, 185 feet east of Third avenue, John Livingston will build six four-story brown stone flats from designs by Mr. Burroughs. They will be 20.10x64 feet, and cost $13,000 each.

William F. Burroughs is draughting plans for an extensive bathing establishment. It will be built on a gore, having a frontage of 160 feet on one street, 100 feet on the other street, and 50 feet in the rear. It will be one and one-half stories high and built of brick and terra cotta. A novel feature will be three classes of swimming and plunge baths, where gentlemen can swim in the winter. The third class will be so cheap that small boys need no longer wait till summer to be cleansed of their winter coat of dust. The private baths will be open daily to both sexes, while the swimming baths for ladies will be open on one or two days of each week. At one end of each bath a diving stage will rise by successive steps until it attains the height of 30 feet above the floor. All these baths are 30x67 feet There is to be, in addition, a first-class Turkish bath, divided into the hot room, cooling room—in which a cold plunge can be taken—and a shampooing room. Above the dressing rooms of the swimming baths will be a gallery extending entirely around, where spectators can enjoy the weed nicotian and behold the strong swimmer in his element. The bottoms of the several baths will be constructed of concrete and tiled. The water is drawn from as near the centre of the river as possible and then filtered, so that it will be comparatively pure. T. G. Smith will superintend the engineering part of the work.

On the corner of Seventy-second street and Second avenue, A. H. Jonas will build four four-story and basement brown stone front houses from designs by C. Baxter. They are to be 20x65 feet, first-class in every respect, and finished in hardwood. They will cost $20,000 each.

Samuel Howard will erect a block of ten first-class flats on Fourth avenue, between One Hundred and Twenty-first and One Hundred and Twenty-second streets. They are to be 20x70 feet, four stories high and built of brick and stone. The first floor on the corner of each street is to be used for stores. C. Baxter is the architect, and the cost $15,000 apiece.

A. B. Ogden has draughted plans for two apartment houses to be erected on the south side of Fiftieth street, 300 feet west of Second avenue. They will be 25x72 feet, with 22 feet extension. They are to be constructed of brown stone, and be five stories in height. John Davidson is the owner, and the cost $30,000.

At the northwest corner of Ninety-first street and Lexington avenue, six private dwellings are to be put up by Mr. Webber. The dimensions are 16.8x50 feet. They will be constructed of brown stone, and be three stories high with basement. Cost, $50,000. A. B. Ogden, architect.

BUILDINGS NEARLY COMPLETED.

McCafferty & Buckley have nearly completed a fine block on Third avenue, between Sixty-sixth and Sixty-seventh streets. The first floor is to be used for stores, and the flats above will be rented.

Mr. Davidson has nearly completed a fine house on Sixty-fourth street, west of Madison avenue. It will join the houses to be erected by Clay & Cummings.

Brooklyn.

The New York Mutual Improvement Company are about to erect nine houses on Sheffield and Pennsylvania avenues, between Liberty and Baltic avenues, East New York, from designs of Silliman & Farnsworth. They are to be 16.8x40 feet, and constructed of brick. Each house will contain six rooms, and cost $1,200.

The company are building quite extensively, and the plan on which they build—the installment plan—places a home within the reach of every frugal and industrious man.

They are also buying considerable real estate in desirable localities, where it can be bought at a reasonable price.

Dr. Griffith will build a private residence on Schermerhorn street, corner of Nevins street. It will be 25x63 feet, three stories high, and of brick with brown stone trimmings. M. J. Morrill is the architect.

Mr. Morrill has prepared plans for a building to be put up by the Brooklyn White Lead Co., on the corner of Adams and Water streets. It is to be 25x68 feet, three stories high, and built of brick with stone dressing.

Mr. Patrick Concannon is going to build four first-class private residences on the south side of Hancock street, east of Bedford avenue. They will be three stories high, with basement, and 20x45 feet. Each house will accommodate one family, and cost $8,000. I. D. Reynolds is the architect.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, May 19

The extraordinary political events as the sequel of the quarrel between Senator Conkling and the national administration at Washington, culminating in the resignation of the two Senators from this State, has created such a commotion in and around the Legislature that but little has been done this week in matters affecting real estate interests in the metropolis. All such measures are lost sight of in the general melee. A few bills have crept along almost unobserved, but they happen to be of minor importance.

The Spuyten Duyvil Parkway bill, over which there has been so much controversy, has been ordered to a third reading in the Senate, and some of the bills for changing the map and plan of the city, in the upper part, heretofore noticed as pending in the Assembly, have been introduced in the Senate, in order to facilitate their passage, by having them where they can be considered in both houses. These apply to that section of the city between One Hundred and Forty-fifth and One Hundred and Fifty-fifth streets, west of Eighth avenue, also, between One Hundred and Forty fifth street and St. Nicholas avenue, and, also, between Tenth and St. Nicholas avenues and One Hundred and Thirty-eighth street.

The bill establishing an exterior street on the East River, from Thirty-eighth street to the Harlem River, has again been reported in the Assembly, and the act which has passed the Assembly to regulate and limit the assessments on adjacent property for street improvements below Fourteenth street, has been favorably reported in the Senate.

The bill which passed the Senate sometime since to authorize the improvement of the public parks and places at the intersection of Third and Boston avenues, and of Franklin and Fulton avenues, in the Twenty-third Ward, has been ordered to third reading in the Assembly; also the act allowing frame buildings to be erected in the Twenty-third and Twenty-fourth Wards; also the bill to allow the payment of assessments in the Twenty-third and Twenty-fourth Wards for street improvements in yearly instalments at 5 per cent. interest. These bills have all passed the Senate.

Mr. Williams' bill amending the act of 1867 regulating tenement and lodging houses in New York and Brooklyn, over which there has been considerable controversy, has been amended and again reported. This amends the section of that law defining what shall be termed tenement houses, and now reads as follows:

§ 17. A tenement house, within the meaning of this act, shall be taken to mean and include every house, building, or portion thereof which is rented, leased, let, or hired out to be occupied, or is occupied as the home or residence of more than three families living independently of another, and doing their cooking upon the premises, or by more than two families upon a floor, so living and cooking, but having a common right in the halls, stairways, yards, water-closets, or privies, or some of them; *and for which the average rental paid or to be paid by each family shall not exceed twenty dollars per month.* A lodging house shall be taken to mean and include any house or building, or portion thereof, in which persons are harbored or received, or lodged for hire for a single night, or for less than a week at one time, or any part of which is let for any person to sleep in for any term less than a week. A cellar shall be taken to mean and include every basement or lower story of any building or house of which one-half or more of the height from the floor to the ceiling is below the level of the street adjoining.

§ 2. The third section of the said act is hereby amended so as to read as follows:

§ 3. Every such house, *and all houses in the said cities designed to be occupied by more than three families* shall be provided with a proper fire escape or means of escape in case of fire, to be approved in New York by the inspector of public buildings, and in Brooklyn by the assistant sanitary superintendent of the metropolitan board of health.

The act authorizing the property holders on East Forty-second street to lay out and maintain two small parks at their own expense, has passed the Senate, and has been sent to the Governor.

The bill providing for the appointment of commissioners by the Governor to examine the water supply of New York City, and report to the next Legislature plans for its increase, which had been ordered to a third reading in the Assembly, has been sent back to the committee of the whole, and its passage is very doubtful now.

The bill for the interference with the present supply of water obtained from the Croton water shed, by the appointment of water inspectors by the officials of Putnam County, with power to stop drawing water from the lakes at any time they may decide so to do, has passed the Assembly and been advanced in the Senate, under a bargain with the representatives of that county on the senatorial question. This act deprives New York of the water rights which it has paid for, and is a remarkable piece of legislation, but the political trade will put it through, and the citizens of New York will be obliged to rely upon the vigilance of the Governor to arrest it with his veto.

There has been considerable excitement over the Everett bill for the appointment of water inspector by the county official of Putnam County, to regulate the amount of water that shall be taken from the lakes in that county for the supply in New York. These officials are to be paid by New York City and their powers are such, that they can prevent the city taking the water which it has purchased and paid for. The promotor of the bill has been jumping back and forth so rapidly between the "stalwart" and "half breed" camps, that the latter have hung up his bill in the Senate until his action is made certain in the senatorial fight on hand.

Property holders in the vicinity of Fourty-second street and Fifth avenue, will be gratified to learn that the bill for the removal of the old distributing reservoir between Fortieth and Forty-second streets, has been ordered to third reading with a prospect of its passage in the Assembly.

The Governor has signed the bill for the construction of an iron bridge over the Fourth Avenue Railroad tracks at Ninety-seventh street, and for the closing of Ninety-eighth street at Fourth avenue.

The street cleaning conference committee has agreed upon a bill changing the manner of keeping the streets of New York clean. It is not the measure asked for by the citizens, but it is the nearest to that plan that could be obtained, and if the politicians can be made to keep their hands off, the streets can be kept clean. The report of the conference has not been made to the Legislature on account of the absence of Senator Strahan.

The failure of the stalwarts to secure the patronage of the Custom House under the present administration has caused them to devise plans to secure control of all the departments in New York city to provide places for their workers. They have got the McCarthy charter in a position in the Assembly where they can control it, and are concocting a scheme to create an appointing board to be composed of the Mayor, the President of the Tax Department and Judge Cowing, a majority to appoint all heads of departments. This makes the Mayor, who is in theory the head of the city government, a mere figure head, with power to look on while others appoint the offices. But he will have the duties of signing warrants and marrying people who apply to be united. What a farce upon the rights and theory of local self-government. But the politicians are hungry, and places are wanted for the machine workers.

A determined effort is being made to revive the old defunct charter of the Broadway Under-ground Railroad and the three tier project to run through the blocks. If this revival would furnish additional means of rapid transit there might be some room to look with favor upon it, but the parties who have these projects are trying to revive them to sell out. As to the Broadway Under-ground, it is pressed to interfere with the construction of the Central Under-ground Railroad, now about to let its contract for construction. An enormous amount of scrip was issued to buy the original charter through the Legislature, and the parties holding that want to get life in the concern so as to compel the Central Under-ground party to take it off their hands. It has passed the Senate and on third reading in the Assembly, while the three tier project is ordered to third reading in the Assembly. There is room for additional rapid transit facilities in New York, which will be required at an early day, and if these plans were intended to furnish instead of obstructing it, their passage might be looked upon with favor.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages v and vi of advertisement.**

This has been a disappointing week to those who wished to dispose of property at fair prices on the Real Estate Exchange. There was some very fair property offered, but bidders were apathetic, and the only sales that showed any investment demand was where improved property was offered in good locations. As a rule, all the vacant property offered was sold at low figures, was withdrawn, or was not bid for at all. During the sale on Tuesday last by Mr. Harnett, two buildings on Ann street, near Nassau, Nos. 39 and 41, renting for $2,500, sold for $27,250. The purchaser got a bargain. Two houses in East Twenty-fourth street, between Lexington and Third avenues, which rented for $1,300 each, sold the one for $13,500 and the other for $14,000. The southwest corner of Third avenue and Twenty-fourth street, which rents for $3,600, sold for $36,500. A double lot on Twenty-fourth street, on which is a blacksmith shop and stable, which is leased for five years for $2,000 per annum, sold for $19,500. The southeast corner of Twenty-sixth street and Third avenue, which rents for $3,819, sold for $43,000. The two adjoining houses on Third avenue, which together rented for $6,100, were knocked down for $51,000. Nearly all the rest of the property advertised was withdrawn. Among other pieces were two blocks east of First avenue, between Ninety-sixth and Ninety-eighth streets, including bulkheads, docks and water-grants, but there was no bidder. Fifty-two lots were offered, comprising a whole block, between One Hundredth and One Hundred and First streets and First and Second avenues, but there was no bid. Lots on East Ninety-sixth and East Ninety-fifth streets, 100 feet on First avenue, sold some for $1,300, and others for $1,600, which was remarkably cheap. On Thursday, at an assignee's sale, a lot on Sixty-eighth street, near Eleventh avenue, sold for $1,400. On the same day, some suburban property brought very low figures. A fine lot at Mt. Vernon, 30x150 feet, on Prospect avenue, not far from the depot, sold for $85. An attempt was made to sell some lots at Fordham, near the Southern Boulevard, and not far from the proposed rapid transit route, but after a few of them were bought at from $66 to $95 apiece the property was withdrawn. It is said that in 1852 this property brought more money. Lots in South Belmont, on Garden avenue and Orchard Terrace, sold for very low figures, from $75 up to $155. It is said the same property brought more money twenty eight years ago. And yet dealers are aware how absurdly cheap this property will seem within the next three years. It is amazing that people spend their money in high-priced stocks in Wall street and utterly neglect real estate, which is certainly to become active, due to local railways, the pressure of population, and the ease of money. For the present and the immediate future it is not likely there will be much done on the Exchange. Operators are clearly taking a rest. And yet a more active feeling may spring up any day, should the World's Fair prospect be revived, which, it is rumored, is not unlikely.

The sale of eighty-eight city lots in the Twenty-third Ward, which was to have taken place yesterday was postponed until next Thursday. This is only a small portion of the property owned by the Fox estate. The estate commences a little south of the One Hundred and Sixty-third street line, at Westchester avenue, and extends nearly a mile north to the Boston road, and from Union avenue, Morrisania, east to the Bronx River, or boundary of New York city.

Out-of-town property does not seem to be in any better favor. On Tuesday the estate of William L Chamberlain was sold at Red Hook, Dutchess County. It is a property highly spoken of. But one plot of 221 acres sold for $45 an acre, another plot of 205 acres sold for $60 an acre. The house, with 130 acres, was withdrawn. The competition of Western lands tells the story of the lower price of Eastern farm property.

Daniel Birdsall & Co., have removed from 285 to 310 Broadway, northwest corner of Thomas street, as will be seen by reference to another column.

R. V. Harnett will sell on Tuesday the three-story brick and frame house and lot situated on the north side of Eighty-seventh street, 200 feet west of Third avenue; size of lot, 20x100.8. The same auctioneer will sell at the Exchange on May 26 the substantial five-story and cellar double brick tenement with store in front, and a double brick tenement in rear, with lot 25x98.9, on east side of Elizabeth street, 94 feet north of Spring street, and known as 172 Elizabeth street.

E. H. Ludlow & Co. will sell on Tuesday at the Exchange the three-story brick house 22x25 feet known as No. 331 East Twenty-fourth street, between First and Second avenues; the lot is 25x98.9 feet.

On Wednesday, May 25th, E. H. Ludlow will sell at the Exchange Salesroom the suburban residence of the late Wm. J. Howell, located at Clifton, N. J., fronting on the turnpike, between Passaic and Paterson, on the banks of the Passaic River, comprising twenty-seven acres of lands in good condition and under cultivation. The house is two and one-half stories frame with extensions, with all necessary outbuildings. It is only thirteen miles from Jersey City and within a short distance of New York.

E. H. Ludlow will sell on May 31st, Trogg's Neck, the late residence of C. R. Robert, together with about eight acres of lands in the vicinity of the country-seats of Messrs. Van Shaick, Havemeyer, Morris and Adie. There is a handsome stone cottage on the premises, with the required outbuildings and plenty of fruit.

Bernard Smyth will offer for sale on Wednesday next, a two-story frame house, used as store and dwelling, with lot, situated on the southwest corner of One Hundred and Seventieth street and Third avenue; also the two-story house and lot, and stable, adjoining on Third avenue, and a one story house and lot on One Hundred and Seventieth street. This property belongs to the Estate of Theodore Mayer.

Gossip of the Week.

Mr. J. V. D. Wyckoff has sold the four-story brown stone apartment house known as the "Norfolk," Nos. 234 and 236 East Eighty-sixth street, 60x70x102.5, for $47,500, and for which the purchaser has refused $50,000; the three-story brick dwelling No. 64 East One Hundred and Thirty-first street, 18.9x55x100, to Mr. S Warshing; the four lots on the north side of Seventieth street, 625 west of Eighth avenue, for $35,000; the plot of ground comprising eight city lots on One Hundred and Thirty fourth street, between Seventh and Eighth avenues, for $28,000, and six three-story brick dwellings, 168x55x100, on One Hundred and Twenty-third street, between Seventh and Eighth avenues, on private terms.

Bernard Spaulding, the builder, has purchased a lot on the north side of Fifty fourth street, between Lexington and Third avenues, for $9,000, and on which he intends to erect a private stable.

R. Guggenheimer and S. Marx have sold the southwest corner of One Hundred and Twenty-third street and Pleasant avenue, 26x100, for $7,000, with a loan.

Thomas McManus has sold the five three story brown stone high stoop dwellings Nos. 127, 129, 131, 133 and 135 East Sixty-third street, 11x100x100, for $45,000 to Wm. A. Darling, President of the Murray Hill Bank.

Messrs. Clancy & Dunne have sold the three-story brick house at the northeast corner of Eighth avenue and Fifty-seventh street, 25.10x100, on private terms, and a two-story frame house and lot on the east side of Tenth avenue, between Sixty-seventh and Sixty-eighth streets, for $4,500, account of Jacob Bookman.

Butler & Matheson have just sold the four-story brick building at No. 13 Broadway, to Wm. Parish for $58,500. It is occupied as offices, and is 35.9x101.11. They have also sold, for Mr. Miller, a five-story brick building, with lot 31.6x74.11, located at 108 Broad street, northwest corner of Water street, for $25,000.

Riker & Co. have sold the three-story brown stone house, 14.6x[illegible] the block, No. 124 East Thirty-eighth street, for Leonard White, for $13,000.

A lot on the north side of Fifty-sixth street, 175 feet east of Seventh avenue, for John Ross, for $12,000; also the three lots and church building—being the property of the Church of the Holy Spirit—on East Fifty-seventh street, 100 feet west of Lexington avenue, on private terms.

J. D. Crimmins has sold the plot of ground at the southwest corner of Sixty-ninth street and First avenue, 75x77.4, for $15,000, and it will be immediately improved by the erection of flats.

F. Zittel has sold another of Breen & Nason's houses on Sixty-second street, between Fifth and Madison avenues, to Mr. H. A. V. Post, for $72,500.

Messrs. Scott & Myers have sold the southeast corner of Ninth avenue and Eighty-fourth street, 25.8x100, to Mr. Feeters for $6,750.

Fifty-five and one half city lots, bounded by Ninth and Tenth avenues and Eighty sixth and Eighty-seventh streets, have been sold to D. Willis James for $250,000.

The plot of ground, comprising twelve lots, on the south side of Sixty-eighth street, and running from the Boulevard to Ninth avenue, have been sold by the executors of Geo. H. Peck, deceased, for $100,000, and which the purchaser has refused to part with at a handsome advance on the above figures.

The sale is reported of the front on Park avenue, between Sixty-eighth and Sixty-ninth streets, to builders with a loan the price being stated at $215,000.

Wm. J. Barnes has sold four lots on the south side of One Hundred and Sixteenth street, 210 feet east of Madison avenue, for $21,000.

The four-story brown stone house, No. 11 East Fifty-sixth street, has been sold to Mr. Schoenberger for $63,500.

Nine lots, on the southwest corner of One Hundred and Sixteenth street and Sixth avenue, have been sold for $65,000.

A contract was signed on Thursday involving the exchange of over a quarter of a million dollars' worth of unimproved west-side property for improved property on the same side. As the transfer will not take place until August 1, full particulars are refused.

There is a strong demand for property on the west-side of Crosby street, forming the rear of Broadway, and several large parcels have changed hands this week, the terms of which have not transpired.

Mr. Astor has purchased the southwest corner of Prince and Crosby streets, 75x107, for $117,000, making his owning complete from the southeast corner of Broadway through to Crosby street.

Two lots on the south-side of 125th street, 150 west of Eighth avenue, 50x150, have been sold for $16,000.

Brooklyn.

Messrs. Benner & Zeller have sold the plot of ground, not quite two city lots, and two-story frame cottage, No. 402 Seventeenth street, near Third avenue, for $3,500, and a three-story frame house on Fourteenth street, between Fourth and Fifth avenues, for $3,300.

The same firm have sold a farm of 100 acres, near Bloomingrove, Pennsylvania, for $5,000, and a handsome country residence, comprising about 22 acres, near New City, Rockland County, New York, for $7,000.

Wyckoff Brothers have sold the plot of ground on the southwest corner of Union street and Eighth avenue, 200x90, for $31,000 cash, to Commodore John R. Maxwell, who will erect a magnificent four-story brown stone mansion, 50x85, at an expense of $50,000.

This purchase has already given an impetus to realty in the same locality, a number of sales having taken place, the particulars of which will be given in our next issue.

The following are the sales at the Exchange Sales room for the week ending May 20:

** Indicates that the property described has been bid in for plaintiff's account.*

R. V. HARNETT.

Ann st, Nos. 39-41, n s, 32.11x39.5x36.4x36.10, five-story brick build'g. J. Behrens. (Rent $2,750, per annum)	$27,250

Total..... $21,060

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards have again held their own well and a firm uniform market is to be noted for the week, with values now standing at about the same range as last quoted. A pretty large amount of stock has come to hand, especially so far the season of change from old into new crop, and everything appeared to be wanted and the sale was close to supply throughout. The smallest offering was of "Up Rivers," as this grade, for reasons already noted, has been most in favor for some weeks past, and buyers were in consequence compelled to handle the supply from Haverstraw to a larger extent. New brick are making some show, and within a short time it is expected will be comparatively plenty. The distribution has been in the main local, as a matter of course, but we hear of a few shipments to near-by points along the Sound, and it is said that one cargo went to Providence. About $6.25@6.50 for "Up Rivers" and $6.75@7.00 for Haverstraws are the general quoting rates. For Pales the market has been quite dull and, to some extent, depressed, very few sales exceeding $2.75, and some pretty good stock going down to $2.25, with buyers by no means anxious at these rates. Even Brooklyn has failed to come to the relief on Pales, and this is accounted for by the large number of old brick taken from the numerous buildings in course of demolition. Fronts remain scarce and the demand full, with prices naturally well supported and about the previous line of figures.

GLASS.—As before advised, the distribution of window glass this season has been somewhat backward, rather to the surprise of the trade, with the market at times quite flat and tame. Of late, however, some improvement in the demand has developed for both domestic and imported stock, and a more hopeful feeling is in consequence entertained by the selling interest. The available supplies are ample and very well assorted. On prices recent revisions made a slight variation and fixed discounts at 50 and 10@60 and 5 per cent. on foreign and 60 and 20@70 and 5 on American.

HARDWARE.—The demand is steadily improving, and while the orders received are in many cases quite small there is more of them than a month ago, with every indication of a still further expansion. Indeed, dealers hope to make good quite a fair proportion of the deficiency in the season's business, and some are sanguine enough to hope for entire recovery of the trade lost by the late spring. This seems very probable so far as tools, implements and builders' assortments may be concerned, but in the way of fancy hardware, &c., the movement will be light. On prices the general tone is now about steady, and there does not appear to be an expectation of many changes until the middle of next month at least.

LATH.—Matters continue somewhat doubtful on this market, beyond the fact that everything points to a present considerable advantage for the selling interest. The supply available has not only been extremely small, but there appears to be scarcely anything offering to arrive, and while the open demonstration on the part of buyers makes but little display, the indications are that a great deal of quiet anxiety to secure stock exists, and the bids would be quite full were there anything to bid upon. We have heard of one sale of nearly half a million lath at $2 per M, and this seems to be as low as any receivers talk, while many are unwilling to name any rate at all for the time being.

LIME.—The market tends to shape up into better form, and the general expression seems to be more cheerful. The pressure of stock has in a great measure been removed; manufacturers are by no means anxious to ship at the present return to be obtained for their goods, and sellers have the best of the position. As yet, however, no advance is shown on either Eastern or State and values may simply be quoted firm at full former figures.

LUMBER.—There is not much new on the wholesale market for the week. Everything appears to be in a prosperous condition, and the Trade thus far have realized the expectations of a good season. This has been felt on all grades, and the current indications are that demand will so well balance supply as to preserve the advantage to the selling interest for some time to come, as, notwithstanding the large amounts already received, there is very little accumulation in second hands, and dealers are on the constant look out for additions to their assortments. In a few cases the manufacturing consumption has been a trifle disappointing, but for building purposes and on the export outlet the inquiry has certainly equalled, and, possibly, exceeded calculations. It may be added, however, that the most desirable buyers are just now taking a somewhat careful position, and, while not entirely refusing to negotiate on attractive offerings, move slowly, and express themselves as desirous of holding back somewhat for developments. The country is just now fairly opened, and it is possible that the renewal of transportation connections may prove a factor of importance.

Spruce is wanted if in attractive assortment, and will sell quickly. Even cargoes of only fair quality do very well, and, as a general thing, we find receivers disposed to speak cheerfully and confidently over the position. More or less variation in tone is expected, as there is likely to be temporary surplus of stock afloat, or lull in demand, but the market is no doubt prepared to exhaust a goodly amount before the wants of consumers and dealers are satisfied, and the tender of specifications for the late summer and fall deliveries shows that buyers are looking well to the future. Manufacturers are quite indifferent about making contracts for the future. Scarcely anything worth handling can now be reached below $14.50 per M, and from this quotations range up to $18 for specials.

White Pine is not to be found offering in any very large quantity, and the demand is keeping up to a pretty full average, with some increase on a portion of the home outlets. There seems to be some difference of opinion over the tone of the market, a portion of the Trade speaking a little tamely, while others are strong and cheerful in expression. It is noticeable, however, that those who give the least encouraging report have scarcely any assortment, and are supposed to be watching an opportunity to secure something from the interior, while the other view of the situation comes from those who are daily testing matters by actual business, and can get full rates without difficulty. The supplies coming forward over the canals will not interfere with the market, it is understood, as the bulk have been sold ahead of arrival. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine retains the favorable position on the general market it has occupied all the season and gains rather than loses support. The mills still find it impossible to extricate themselves from the multiplicity of engagements to enter upon new contracts with any positive assurance as to time of delivery, and all orders are therefore received with that understanding. This, however, does not appear to deter buyers who crowd in with their specifications and secure the best dates possible. Under such circumstances values do not weaken, and a full line of prices remain current all around, with some indications of a buoyant tendency. The spot supply is becoming smaller daily. We quote random cargoes at about $23.50@25.00 per M; ordered cargoes, $26.00@27.75 do; green flooring boards, $24.00@26.00 do: and dry do do, $25.50@27.00. Cargoes at the South, $15.00 @19.00 per M for rough, and 20.00@24.00 for dressed.

Hardwoods are still offered with moderation from all points, and the indifference of sellers on the primary markets is reflected in full force here. Supplies of a desirable character, in fact, are under excellent control, and buyers who may want a portion find that extreme bids are the only basis likely to lead to success. The exporters are sweeping from the interior many of the best logs of walnut, both on English and Continental account, and also make an occasional small purchase of other kinds of stock on this market. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ½ and ¾ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles remain quite firm, and have a steady sale on both the home and shipping outlets. The supply is somewhat reduced and broken, and desirable lots are held very stiffly. We quote Cypress at about $6 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

The British steamer Whitburn, 816 tons, from St. John, N. B., to British Channel or Liverpool, deals, 55s.; Brit. steamer Newminster (at Boston), 1,135 tons, from St. John to Liverpool, deals, 55s.; Brit. steamer Ithrington (to arrive from New York), from St. John to Bristol Channel, deals, 58s.; an Am. barque, 1,014 tons, from St. John, N. B., to Newport, Cardiff or Liverpool, deals, 56s. 3d. per standard; an Am. barque, 488 tons, hence to Montevideo, lumber, $13.75 net; an Ital. barque, 325 M lumber, from Boston to Montevideo, $13 net; a Br. barque, 611 tons, from Montreal to the River Platte, lumber, $15 net; an Am. barque, 628 tons, from Portland to Buenos Ayres, lumber, $14.50; an Am. brig, 331 tons, from Bangor to St. Croix, lumber, $6.50; a Swe. barque, from Pensacola to Buenos Ayres, lumber, $19 net; an Aust. barque, 350 M lumber, from Boston to River Platte, private terms; an Am. brig, 302 tons, from Fernandina to St. Vincent, lumber, $10; a schr., 231 tons, from Wilmington, N. C., to the Bay of Hayti, lumber, $8.50, option of a second port, 50c. extra; an Am. brig, 386 tons, from Wilmington, N. C., to Demerara, lumber, $9.50; two schrs., each 200 M lumber, from Savannah to Philadelphia, $6; a schr., 225 M lumber, from Satilla to Philadelphia, $7.25; a schr., 300 M lumber, from Pensacola to New York or New Haven, $8.75; a schr., 200 M lumber, from Brunswick to New Haven, $7.50; a schr., 320 M lumber, from Pensacola to Philadelphia, $8.20; a schr., from Kennebec to New York, lumber, $1.50 per M; a barque, 300 M lumber, from Pascagoula to Philadelphia, $8.25 per M; a schr., 191 tons, hence to Jacksonville, stone, $1.50, and back with lumber, $8.75; a Br. barque, 340 M lumber, from Pensacola to New York, $9; a brig, 200 M re-sawed lumber, from Savannah to New York, $7; a schr., 230 M lumber and timber, same voyage, $7.25 and $8.25; a schr., 500 M lumber and timber, same voyage, $7.12½ and $8.12½.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.

Europe, United Kingdom	52,500	1,879,979
Total	1,029,433	30,015,013

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED MAY 17, 1881.

Wintered boats on the canal are reaching tidewater. Shipments are being freely made from Buffalo, Oswego, Ottawa, &c., and a good stock may soon be expected.

Some large sales of 1¼ inch box and cull boards have been made to go to Greenpoint box makers since our last report.

The general trade is fair, with free shipments by river.

Coarse lumber is not coming forward as fast as wanted; the demand therefore is large; the orders already placed are larger than ever before known at this time of the year; our quotations are placed back again to where they were when rail shipments governed prices.

Nineteen barges laden with lumber for Albany and New York left Ottawa 14th, and others are loading for the same destination; freights from Ottawa to Albany, $3.25 per M.; last year, $3.75 per M., and boats scarce.

The stocks of lumber at Chicago on May 1 was 223,157,000 feet; on April 1 it was 322,491,000 feet, and May 1, 1880, it was 238,484,000 feet.

River freights are:

To New York, ₱ M ft	@1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

BAY CITY, Mich.

There is an increasing activity observable in the market and numerous sales have been reported the past week, in which prices have been well maintained. Indeed, it is not to be expected that concessions would be made so early in the season, if they are to come at all, which is not expected, except as a means of accelerating the clearing out of coarse stock, of which there has been something of an accumulation on the river. Good and choice stock is firmly held and sales have been made at $7.50, $15 and $35, and $8, $16 and $36. Common stock has been sold at $7, $14 and $32. A sale of 4,000,000 feet of coarse was sold Saturday at $8.50.

Shipping has been active during the week, and the aggregate of clearances is 27,425,000 feet of lumber, 3,132,000 shingles and 1,350,000 lath. To the same date last year the shipments of lumber amounted to over 125,000,000 feet, so that the shipments are now about 100,000,000 feet behind.

Shingles are in good demand and scarce. Fiver brands are quotable at $2.10@2.25 for clear butts, and $3.15@3.25 for XXX; country brands at $1.90@2.10 for clear butts and $2.90@3.10 for XXX.

The movement in salt is very active, and some 50,000 barrels have been shipped by water the past week.

Business in all branches of trade is very brisk in the river towns, and a season of great prosperity is confidently expected

General quotations here are:

Shipping culls	$6.75@ 8.00
Common	13.50@18.00
Three uppers	32.00@38.00

The *Northwestern Lumberman* as follows:

It is a noticeable point in regard to the present condition of the markets that at all points except Chicago prices are very firm. They are not exactly weak here; yet, as the recent action of the dealers shows, they are not quite so high or so firm as they have been. This is not surprising. It has been one of the effects of the opening of navigation, and the arrival of new lumber from the mills, as far back as any one can remember. It results simply from the fact that a good many of the lumberman who make the prices at this point have to buy their lumber on the market, and they are naturally more anxious to have it rule low there than to have higher prices at the yards and be obliged to pay at a correspondingly greater rate for what they buy. They put it in this way: that if they can buy 2,000,000 feet while they are selling 1,000,000, they will make more money out of low prices than higher ones.

The action of the Chicago dealers in respect to prices is defended on another ground; as being necessary, in fact, in order to enable them to meet the competition of the Mississippi river markets. It is asserted that the only reason prices are so firm along that classic stream is that they are lower than Chicago figures, and consequently enable the river to gather in most of the trade. If this is true there is some reason for a reduction in this list apart from a desire to bear the market; but, on the other hand, we have the fact that many of the Chicago operators are, and have been, opposed to any reduction in prices, which is reason for supposing that the river competition has not yet made very serious inroads upon their trade.

Although ice still occupies a large area at this end of Lake Michigan, navigation may be considered fully opened, and the fleet fully fitted out and in commission. Arrivals of steam vessels from Buffalo were noted on the 9th inst., but no sailing craft from the lower end of Lake Erie has yet put in an appearance. The lumber fleet is in active service, and since the date of our last report, receipts to the amount of 38,356,000 feet of lumber and 14,377,000 shingles have reached this point. The total receipts by lake since the opening of navigation have been 73,531,000 feet of lumber, 43,400,000 shingles and 46,250,000 lath.

At the cargo market we have but little to note by way of change from last week's report. The amount of lumber, &c., offered for sale has been comparatively light in proportion to the total amount received, the bulk of the stuff having been purchased at the mills, and having gone at once to the dock of the purchaser. Prices have undergone little or no change. The partial deadlock mentioned last week still continues, buyers considering prices too high, and sellers making concessions only under compulsion of circumstances. Green piece stuff has throughout the week ranged from $9.75 for the least desirable in short lengths to $10.50 for better quality, and a good admixture of longer lengths; 2x10, 18 to 22 feet long, has readily brought $12, while 2x12, 22 feet and upwards, as readily commands $13. The movement of cargoes has been reasonably brisk. A cargo running well to upper grades and averaging thick, sold on the 10th at $21.50. Shingles have been shaded a little in price since the action of the dealers at the price list meeting of the 7th inst., and while held at the dock at the full figures of last week's quotations, sales have been made at five cents off, buyers demanding ten cents off, but sellers being indisposed to accede to this extreme. Standards may be quoted firm at $2.50, with more buyers than a week ago. Clear and favorite brands of star A have gone quickly at a range of $2.60 to $2.70, the average probably being about $2.65.

The commission dealers claim that arrivals will have to be much larger and more in excess of the demand than at present, before further concession will be granted, while buyers claim that they cannot handle them without a decided reduction in cost from present rates.

CARGO QUOTATIONS.

Joist and scantling, green	$9.75@10.25
Mill run, medium, green	12.00@16.00
Mill run, common, green	10.50@11.00
Shingles, standard	2.40@ 2.50
Shingles, extra A	2.60@ 2.70

NEWS FROM THE DRIVES.—Most of the drives in the Northwest seem, according to the tenor of our reports, to be getting along as well as could be expected, and in some cases even better, considering the fact that so little rain has fallen. Everywhere, except in the extreme northern districts, the snow has about all passed away, and though it produced considerable water, it has not in all cases proved sufficient to bring out the stock from the upper waters of the river, and rain in abundance would now be looked upon by the lumbermen of some districts as a positive blessing. But there is no occasion as yet to talk of hung-up logs or a shortage in the supply on this account. It is still early in the season and there is every reason to suppose that heavy rain falls will yet occur, providing all the water necessary to bring in the logs that are now back in the small streams and tributaries. And, besides, if the spring rains should fail, the lumbermen have still the June freshets to look forward to, which may be relied upon to help them out to a material extent. At all events, the Lumberman would not advise its readers to speculate very largely upon the chance that there will be a short stock of logs anywhere because of low water. There are a good many flooding dams and other improvements on most of the doubtful streams, and when they have got their work in, there will probably not be many logs left to hang-up.

HARDWOODS.—The volume of local trade is not materially different from that of last week, but out of town orders that were received two weeks ago are still unfilled. For such a state of things the men who are anxiously waiting for their lumber have to blame the strikers, who have so completely blocked railway traffic, and the same cause prevents any rail receipts to speak of. Reports are received of car loads that were forwarded six weeks ago, and which are, no doubt, standing somewhere in the outskirts of the city. Before there was any disposition on the part of railway employes to prevent transportation, the railway companies were slow in getting cars through from Indiana and some points in Michigan, and the dealers feel as though they put up with disadvantages enough before they were obliged to shoulder the extra load. The first cargo of hardwood of the season was basswood, and arrived from Michigan on Monday morning last. A cargo of maple flooring came to the dock awhile after. Receipts by water will now be frequent, and the yards which receive their stocks largely by lake will begin to put off their lean appearance. The report of the Secretary of the Lumberman's Exchange shows a stock at the yards of 11,275,000 feet, an excess of 275,000 feet as compared with last month. Several yards report that they are fully stocked with everything except walnut, cherry and maple, the latter to arrive by water.

We see no indications of any weakness in this market, and our correspondents inform us that the same is true of the other leading markets. Within the past week cherry has sold considerably above our quotations, but it is a little slow, as compared with three months ago. A portion of the dealers have more orders than they can fill, while a few of the yards have small stocks. One dealer has sold 4-inch maple flooring at $30, but such figures are not current, and we know of the sale of 75,000 feet, to arrive, at $35. There is a disposition in certain directions to let walnut alone on account of the high price that must be paid for it. Some of the yards are completely drained of dry stock, one of them that makes a specialty of walnut not having to exceed 400 feet that will answer for immediate use. We hear of a contract that calls for all firsts and seconds, thick, 12 to 14 feet in length, straight grain, obtainable at $90.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, MINN.

The lumber stocks on the Mississippi river are being disposed of at the rate of over five million feet per day, at full ruling prices, and assortments are very badly broken at all points, with no stocks of dry lumber at interior mills of Wisconsin to fill up from as has been the custom at this season of the year. The "woods are full" of lumber hunters crying in vain for stocks to buy.

As usual Chicago has commenced the spring fight on the lumber makers of Michigan in the face of the fact that the receipts are nearly 30,000,000 feet short, and shipments 15,000,000 ahead of last year. At the meeting last Saturday of the Exchange the bears saddled up the bulls and rode them around to their hearts content. The result was from 50 cents to $1 off on yard prices on common and medium grades; 10 cents on shingles, and cargo prices are from $1 to $2 above last year's figures while the list is hardly as much above the figures of last fall. It is apparent that it is a matter of indifference to the dealers of that city that lumber sells freely at any quotations, their business and mission being to fight down prices at all times when there is any lumber at the mills. We learn from private sources that some heavy combinations among the manufacturers will attempt to relieve the few whose necessities compel sales, and thus prevent the carrying out of the bear programme this spring.

There has been no complaint anywhere of prices, and the demand exceeds the shipping facilities all over the West. Want of cars is now the most serious drawback

The log drives on many of the rivers of Wisconsin are being moved slowly owing to a lack of water, but no serious apprehensions are felt of a failure to secure the crop for sawing. Some of the Wisconsin streams are so low that the logs have been temporarily abandoned. The upper Mississippi logs are coming along in good shape.

THE EAST.

The Boston Journal of Commerce says:

The distribution continues to improve, and prices are firmer. Reports from suburban districts show business to be even better than in the city, owing, in a measure, to the amount of building being done over that of former periods. Holders at the West are very firm in their views, and ready at any moment to advance prices. At present they seem reluctant to ship, and prefer to wait in expectation of a shortness of supply here, which will necessitate a call on them at advanced rates. Prices in the East remain steady, and, as yet, dealers have not advanced. Hardwoods are scarce, and much sought. Western and Eastern have been moving fairly at previous prices.

FOREIGN.

The London Timber Trade's Journal as follows:

There is a considerable difference in the values of American timber between the Thames and the Clyde, which is often conspicuous. Quebec first yellow pine deals, wide stuff, fetched in Glasgow, at Messrs. Edmiston & Mitchells' sale on the 14th of April, as high as 3s. 3½d. per cubic ft., which is equal to £27 per Petersburg standard, while similar goods in the London sales do not often exceed £22 or £23 a standard. Square yellow pine fetched in Glasgow on an average over 2s. 6d. per ft. (of good size and quality), equal to £6 5s. per load, while wanev board pine of fine size or quality, averaging nearly 100 ft. per stick, at the sale of Messrs. Churchill & Sim on Wednesday was sold at £3 17s. 6d. per load.

At the public sales hewn pitch pine values appear to be receding, while those of sawn stuff of similar description are advancing. At the close of last year pitch pine in the log readily sold for 75s. to 77s. 6d., and even as high as 80s., while deals, which in the height of the season obtained £14 to £15, had come down to £11 10s. and £12. Now the deals are fetching fully the latter prices, while the timber with difficulty obtains 70s. Such are the vicissitudes of the market.

On Thursday there was a goodly muster of buyers and, as on the previous day, the heavy assortment of goods from the other side of the Atlantic proved the attraction, most of the general frequenters mustering in force when these parcels came under notice. There were large quantities of spruce and pitch pine for unreserved sale, and the latter found plenty of buyers at what seemed fairly good prices. These fluctuated considerably, however, though they showed some improvement on what were offered in the same place a fortnight or so since. The closing of the season for this description of stuff may have assisted in helping up their value here, which on the present occasion varied between £10 15s. and £13; according as the dimensions took the fancy of bidders. These prices, side by side with other descriptions, seemed well enough, but it must be recollected that the freights from the southern ports of America are just about double what is paid from the Gulf of St. Lawrence, and yet goods from the former only fetch in the market here the price of 2nd quality yellow pine. No doubt the great drawback to its more general use is the extra charges on it after shipment. Whatever price it fetches here, £6 10s. to £7 per standard has to be deducted for freight and other expenses, without reckoning the cost of the wood at the loading port. There is a gradually increasing cry for it in the Northern States of the Union, and the likelihood is that in a season or two we shall have to pay considerably more for it. The spruce only went middling. A parcel of Miramichi, ex Resolute, sold badly. 3x11 4ths, 10 ft. to 22 ft., went at £6, and 3x9, 10s. more, while some as wide as 17 in., good lengths, also were sold at £6 per standard. Of twenty lots sold not one went higher than £6 15s., and the boards fetched as much as the deals. The parcel was unsorted. Quebec did better, one lot of 3x11 1st quality realizing as much as £11 15s., but 9 in. could not be got up to £10; the best bid for that dimension during the sale was £9 5s.; 2d, £8; and 3ds. £7 10s. to £7 15s.

This week's mail from Rio Janeiro, with dates to April 11th, gives the following:

Pitch Pine Deals.—Arrivals consist of 317,823 feet per Albion, from Brunswick, which have been stored; 459,835 feet per Anita Berwind, and 148,515 feet per Prima Donna, both from Pensacola, and both sold at 37$000 per dozen, 3x9x14; 321,641 feet per Olustee, frrm Satilla River, which have been stored; 303,181 feet per Zeno, from Brunswick, sold at 38$500 per dozen, 3x9x14; 278,25[illegible] feet per Herbert J. Olive, and 260,068 feet per Aquidneck, both from Wilmington, N. C., the former sold at 36$500 and the latter at 37$500 per dozen, 3x9x14. Market closes steady at from 37$500 to 39$000 per dozen, 3x9x14; and, owing to two cargoes having been stored, a sort of pressure is and will doubtless be continued to be made on the part of buyers to bring down the market, and we are of opinion that receivers of Wilmington, N. C. pine, will feel such a pressure more than receivers of other pine, as lately cargoes from said port have gotten a bad name, probably owing to the wretched outturn of the one per S. V. Merrick.

Spruce Pine Deals.—No arrivals. We quote: 34$000 per dozen; needed.

White Pine Lumber,—We quote 120 reis per foot, at which figure market closes strong; but we fear that importers may have become charmed with these prices, and, for all we know 1,000,000 feet may be on the way, and in such a case prices will be nowhere. The only arrival we have to report is that of the F. Lambirth, with 131,449 feet, of which 24,000 feet were on dealers' account, and the balance, 107,449 feet, were sold at 120 reis per foot.

NAILS.—More or less of an irregular tone may occasionally be discovered, and the market is not altogether so well in hand as could be desired. In many cases great strength and an excellent business are spoken of, but this is not universal. In fact, some favors have been offered as a bait to customers, and it is said that free buyers could gain quite a little concession. All so called "official" figures are at the moment nominal.

We quote at 10d to 60d, common fence and sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65.

PAINTS AND OILS.—Not much change of a decided character is reported on the general market. The local demand continues fair and tends to increase if anything, and the distribution to many points in the interior is good, especially of the standard grades and assortments. Still the volume of business cannot be called heavy, and we find more complaint among dealers than a short time ago. As a rule prices may be written steady, but there is a lack of buoyancy on any grade, and holders of the stock accept all full bids. Linseed oil selling slowly and principally in small lots for immediate use, with value a little tame on all grades. We quote at about 54@55c. for city and 59@60c. for Calcutta from first hands.

PITCH.—The advantage remains principally with the selling interest and values are well maintained. Demand of about the usual form and volume. We quote at $2@2.15 per bbl. for city delivered.

SPIRITS TURPENTINE.—The jobbing trade has been somewhat irregular and scarcely so full as last week, but the cost of supplies did not vary to any great extent. In large invoices the movement was at times pretty dull, though this has not greatly disturbed holders who, with the accumulation under control, have refrained from offering except at full figures. Some landing parcels have recently sold a trifle lower. As this report is closed the quotations stand at about 37½@39c. per gallon, according to the quantity of stock handled.

TAR.—Supplies in most cases appear to have remained under good control and were indifferently offered, except at full former rates. The demand fair, but withal a trifle cautious and confined to early wants. We quote $2.75@3 for Newberne and Washington, and $2.87@3.12½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows: 1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.
